Presentations to 2018 Annual General Meeting and audio webcast

Attached are the Chairman’s address and the Managing Director and CEO’s presentation to the 2018 Annual General Meeting in Melbourne today.

A live audio webcast of the meeting will be available on St Barbara’s website at [www.stbarbara.com.au/investors/webcast/](http://www.stbarbara.com.au/investors/webcast/) or by clicking here, commencing at 11:00 am Melbourne time (UTC +11 hours) today. The audio webcast is ‘listen only’ and does not enable questions. The audio webcast will subsequently be made available on the website.
2018 Annual General Meeting

Chairman’s Address to Shareholders

Introduction

Good morning ladies and gentlemen and welcome to St Barbara’s 2018 Annual General Meeting. The 2018 financial year has been another highly successful year in which the Company has built on the achievements in 2017 and set new records.

Another record year

2018 represents St Barbara’s fourth consecutive annual record for profit, production and costs. Consolidated production for 2018 was just over 403,000 ounces of gold (up from 381,101 ounces of gold in 2017), while All-in Sustaining Costs\(^1\) were also a new record low of A$891 per ounce (down from A$907 per ounce in 2017).

On safety, our Total Recordable Injury Frequency Rate of 2.1 recordable injuries per million hours worked represents a slight increase compared to last year, due to nine low severity recordable injuries. However minor, we do not like any recordable injury and so we continue to strive to eliminate these. We are pleased that our comparable Lost Time Injury Frequency Rate remains well below the industry benchmark.

Operationally, both Gwalia and Simberi exceeded guidance for 2018, leading to a new record operating cash flow of A$349 million, being 10% higher than 2017. Cash and cash deposits at 30 September 2018 totalled A$350 million, a 76% increase from this time last year.

\(^1\) Non-IFRS measure, refer details page 5, 2018 Annual Report.
The Company is in a strong financial position, as we continue to execute on our organic growth projects and consider inorganic opportunities that will add value for shareholders. I will discuss some of our projects and our growth strategy later in this address.

The Company has demonstrated record financial performance over several years and now has a balance sheet which places the Company in a strong position to both grow and to return excess cash to shareholders.

**Dividends**

Shareholder often ask about dividends. As you are no doubt aware, the Company paid a total of 12 cents per share fully franked dividends for the 2018 financial year, double the total dividend paid for 2017.

The Board considers dividends at each financial reporting date, rather than adopting a fixed formula in advance. Dividends are one component of capital management, which seeks to maximise the value of the Company for shareholders. As you are aware, dividends combine with share price appreciation as part of total shareholder return.

We have published our dividend policy each time we have paid a dividend and it can be summarised as follows: the quantum of each dividend is considered after assessing all capital requirements, competing internal and external investment opportunities and the outlook for the Company. In the current volatile world, together with our risk management strategies, it is important for the Company’s balance sheet to be sufficiently robust to withstand unexpected shocks which may come our way.

**Growth initiatives and strategy**

The strategy and growth outlook for St Barbara remain a key focus for the Board, and there are a number of organic growth initiatives underway.
At the Gwalia mine, the immediate focus is the A$100 million Gwalia Extension Project, which we commenced in March 2017 and which is approximately 50% complete. The first of the surface ventilation shafts is complete, with the second surface shaft underway. The paste aggregate fill component is due for completion in the March 2019 quarter, while the overall extension project is on track for delivery in the December 2019 quarter. The Extension Project allows the mine to produce until at least 2024, but will also enable potential future mine life extensions.

This leads to the Gwalia Mass Extraction Project, which was announced in February 2018. It considers a change in mining method and material handling below 1800 metres below surface and supports a revised Life of Mine Plan to 2031. The project is at Feasibility Study stage, which is due to be completed in the March 2019 quarter. Bob Vassie will speak to these more in his presentation.

A multi-faceted exploration program is underway at Gwalia. The deep drilling program at Gwalia has shown that the mineralisation extends to at least 2,600 metres below surface, which is almost 1 km vertically below our current mining infrastructure, and 400 metres deeper than the base of our current mineral resource. Last week in our quarterly report, we announced high-grade results from infill drilling at approximately 2,000 metres below surface, which need to be followed up with further drilling. These results help to increase our confidence in the orebody at that depth.

We have also been drilling exploration targets identified through the 3D seismic reflection program at Gwalia. The results were promising with the two drill holes intersecting mafic shearing similar to the Gwalia deposit, along with low grade gold mineralisation. We have identified a third target area for drilling in the current quarter.
The Board visited the Gwalia mine two weeks ago and we viewed first-hand the progress made on the Extension Project, including the paste-aggregate-fill infrastructure at 1,420 metres below surface. We were also provided with a technical update on the Gwalia Mass Extraction Project and exploration programs. I am personally excited with what we saw and I am impressed by the innovation and energy of the Gwalia team.

At Simberi, the outstanding performance in 2018 and an improved understanding of the orebody has led to a further one-year extension of mine life to 2021 after a record production year. The operation continues to deliver and posted a record A$34 million dollar cash contribution\(^2\) in the recent Q1 September FY19 quarter.

We have a number of significant exploration programs underway at Simberi and on the neighbouring islands of Tatau and Big Tabar. On Simberi we are focused on drilling for sulphide ore beneath the Sorowar pit, with the potential to progress the Sulphide Project on which we announced Pre-Feasibility Study results in 2016. Drilling results to date have been very encouraging and we expect the drill program to be complete in the March 2019 quarter.

There is also the potential for economic copper-gold porphyry-type mineralisation and, along with our joint venture partner Newcrest, we have drilled some deep holes on Tatau Island and are due to commence on Big Tabar Island soon.

We made several strategic investments in junior mining exploration companies over the last 18 months. These may be viewed as an extension of St Barbara’s exploration expenditure, with each company having very promising projects.

Lastly, as I mentioned earlier, the Company’s strong balance sheet allows us to consider inorganic opportunities. We have a valuation driven approach which has examined a number

\(^2\) Non-IFRS measure, refer details in Q1 Sep FY19 Quarterly Report.
of opportunities over the last 12 months, but we have yet to uncover a merger or acquisition that has survived our due diligence and made sense for shareholders. Going forward we will continue to apply the same disciplined approach. Having the discipline to walk away from a potentially value destructive transaction is at least as important as completing a good, value-accretive transaction.

**Culture, community and sustainability**

I believe the culture of a company is directly reflected in its performance and its relationship with its immediate communities. I am extremely proud of the culture we have achieved within St Barbara and how it resonates across our operations and in the communities in which we operate. Bob Vassie as MD and CEO, together with the Executive Team and Operational Leadership Teams has built a strong culture, with the goal of delivering sustainable high performance.

We describe our culture as ‘talented people who deliver extraordinary results’. This culture has resulted in the achievement of year-on-year records across the Company, but more importantly has built a sense of individual ownership. While delivering these record results, we have consistently adhered to our values, particularly in the fields of community relations, environmental stewardship and pro-active safety management.

At Simberi, the vision for the community is to support the growth of local businesses which will continue independently beyond the mining operation. This is separate to our substantial efforts in maintaining and developing infrastructure and community services across the island.

At Gwalia, we continue to support the local Leonora community through the sponsorship of athletic, sporting, education and community events. Recently we joined with Saracen to support the Shooting Stars netball program at the Leonora District High School. The Company also supports education programs and local apprenticeship programs.
St Barbara published its second Sustainability Report in conjunction with the Annual Report and it incorporates a number of developments. We responded to the Carbon Disclosure Project for the first time, became a supporter of the Extractive Industries Transparency Initiative and became a signatory to the United Nations Global Compact (UNGC). In addition, the report contains our first Communications on Progress on furthering the goals contained in the UNGC principles and we recognise the risk of climate change as defined in the Paris 2015 Climate Change Agreement.

Board appointment

Finally, I will provide an update on the Board. St Barbara’s Board comprises a small, dedicated team, which we believe has had the necessary skills, expertise and experience appropriate for a mid-cap mining company, and has served us well in the turnaround delivered in recent years.

However, to enhance our existing collective skills and aligned with the future plans for the Company, I am pleased to announce the appointment of a fourth independent Non-Executive Director, taking the Board total to five Directors. This is also consistent with recommendations from some of our shareholders and proxy advisors.

I would like to extend a warm welcome to Stefanie Loader, who I introduced to you earlier and who will join the Board on 1 November.

Stef is a company director, geologist and former mining executive with experience in mining operations, mineral exploration and project development. In her 24-year executive career, Stef has worked in seven countries across four continents.
Stef is a Non-Executive Director of Clean TeQ Ltd, Deputy Chair of CatholicCare Wilcannia-Forbes Ltd, and advises organisations in the areas of leadership, strategy and regional economic development.

I am sure that Stef will prove to be a valuable addition to the St Barbara board and I look forward to her quickly stepping up to become a key player in our small, high performance team.

Conclusion

In conclusion, I would like to congratulate Bob Vassie, the Executive Leadership Team, all St Barbara employees and our contract partners for their dedication and hard work in contributing to another outstanding year.

I also extend my thanks to my fellow Directors, Kerry, David and Bob, for their ongoing commitment to St Barbara.

Finally, to our shareholders, thank you for your continued support and faith in your company, St Barbara Limited.

FY18 Financial Highlights

**Operational excellence**
- Record annual production and record low AISC\(^1\)
- Cornerstone Gwalia mine with Life of Mine Plan to FY31
- Simberi mine life extension to FY21

**Financial performance**
- 4\(^{th}\) consecutive record profit, NPAT of A$227 M
- EBITDA margin of 51%\(^1\)
- A$842/oz cash contribution\(^1\)

**Capital management**
- Debt free
- A$343 M cash at bank and term deposits at June 2018\(^2\)
- A$0.12 fully franked dividend for FY18

**Growth**
- Life of mine extension projects or studies at both mines
- Broad range of exploration projects
- A$21 M in equity investments

---

2. Balance comprises A$226.4 M cash and A$116.2 M term deposits (maturing between October 2018 and January 2019).

**Notes**

1. Ore Reserves are based on a gold price of: Gwalia (AU$1,350/oz), Tower Hill (AU$1,250/oz), Simberi (US$1,200/oz)
2. Cut-off Grades Gwalia (4.0g/t Au), Tower Hill (2.8g/t Au), Simberi Oxide (0.5g/t Au), Simberi Sulphide (1.1g/t Au)
3. Mineral Resources are reported inclusive of Ore Reserves.
4. Data is rounded to thousands of tonnes and thousands of ounces. Discrepancies in totals may occur due to rounding.

Board of Directors

**Tim Netscher**  
Chairman– Non Executive  
*Appointed Director February 2014  
Appointed Chairman July 2015*

Mr Netscher is an experienced international mining executive with extensive operational, project development, transactional and sustainability experience gained in senior executive and board roles over many years. His key executive positions during the past 25 years included Managing Director and CEO of Gindalbie Metals Ltd, Senior Vice President Asia Pacific Region of Newmont Inc., Managing Director of Vale Coal Australia, President of P T Inco and Executive Director of Refining & New Business at Impala Platinum Ltd.  
Mr Netscher’s experience covers a wide range of resources including nickel, coal, iron ore, uranium and gold in Africa, Asia and Australia.

**Bob Vassie**  
Managing Director and CEO  
*Appointed July 2014*

Mr Vassie is a mining engineer with over 30 years international mining industry experience and has 18 years experience in a range of senior management roles with Rio Tinto, culminating in Global Practice Leader-Mining Technology and then Managing Director–Strategic Optimisation. Immediately prior to joining St Barbara he was MD and CEO of Ivanhoe Australia Ltd. He has particular experience in operations management, resource development strategy, mine planning, feasibility studies, business improvement, corporate restructuring and strategic procurement.

**David Moroney**  
Director– Non Executive  
*Appointed March 2015*

Mr Moroney is an experienced finance executive with more than 30 years experience in senior corporate finance roles, including 15 years in the mining industry, and extensive international work experience with strong skills in finance, strategic planning, governance, risk management and leadership. Mr Moroney’s executive positions included CFO of Co-Operative Bulk Handling, CFO of First Quantum Minerals Ltd, General Manager Group Business Services at Wesfarmers Ltd, CFO of Wesfarmers CSBP Ltd, Deputy CFO/Executive GM Accounting of Normandy Mining Ltd and CFO at Aurora Gold Ltd. Mr Moroney’s experience covers a wide range of resources including diamonds, copper, cobalt, nickel, silver and gold in Africa, Asia, Scandinavia and Australia.

**Kerry Gleeson**  
Director– Non Executive  
*Appointed May 2015*

Ms Gleeson has over 25 years board room and senior management experience across Europe, North America and Australasia. A qualified lawyer in both UK and Australia, Ms Gleeson has significant experience in international governance, strategic mergers and acquisitions and complex corporate finance transactions, as well as in risk and crisis management.  
Ms Gleeson was a member of the Group Executive at Incitec Pivot Limited for ten years, including as Company Secretary and General Counsel. Prior to joining Incitec Pivot, she was a corporate finance and transactional partner in an English law firm and, on relocating to Australia, was appointed a senior corporate lawyer with Australian law firm, Blake Dawson Waldron (now Ashurst).
Executive Leadership Team

Bob Vassie
Managing Director and CEO
Appointed 2014

Mr Vassie is a mining engineer with over 30 years international mining industry experience and has 18 years experience in a range of senior management roles with Rio Tinto, culminating in Global Practice Leader-Mining Technology and then Managing Director–Strategic Optimisation. Immediately prior to joining St Barbara he was MD and CEO of Ivanhoe Australia Ltd. He has particular experience in operations management, resource development strategy, mine planning, feasibility studies, business improvement, corporate restructuring and strategic procurement.

Garth Campbell-Cowan
Chief Financial Officer
Joined 2006

Mr Campbell-Cowan is a Chartered Accountant with over 30 years experience in finance and management positions across a number of different industries. He is responsible for the Group’s Finance function, covering financial reporting and accounting, treasury, taxation, business analysis, capital management, procurement and information technology.

Prior to joining St Barbara, he was Director of Corporate Accounting at Telstra and has held senior finance leadership roles with WMC, Newcrest Mining and ANZ.

Rowan Cole
Company Secretary
Joined 2010

Mr Cole joined St Barbara in 2010 as General Manager Corporate Services and was appointed Company Secretary in 2014. He has over 30 years experience across chartered accounting, retail banking, private and public companies.

Mr Cole’s experience includes external, internal and IT audit, strategy formulation, execution and measurement, process and business improvement, marketing, financial services, head of risk and compliance, chief audit executive and chief financial and risk officer.

Val Madsen
GM Human Resources
Joined 2013

Ms Madsen joined St Barbara in September 2013. Ms Madsen leads the Human Resources Function covering recruitment, remuneration and benefits, talent management, employee relations and wellbeing, diversity and training and development. Val is a member of AMMA’s AWRA Advisory Board and Chair of the Minerals Council of Australia’s Gender Diversity Working Group.

With a Masters in Education and a number of other business qualifications and accreditations, Val has enjoyed a diverse career in Human Resources.
**Exploration Results**
The information in this presentation that relates to Exploration Results for Simberi and Pinjin is based on information compiled by Dr Roger Mustard, who is a Member of The Australasian Institute of Mining and Metallurgy. Dr Mustard is a full-time employee of St Barbara and has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Dr Mustard consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information in this presentation that relates to Exploration Results for Gwalia and the Leonora region is based on information compiled by Mr Robert Love, who is a Fellow of The Australasian Institute of Mining and Metallurgy. Mr Love is a full-time employee of St Barbara and has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Mr Love consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

**Mineral Resource and Ore Reserve Estimates**
The information in this presentation that relates to Mineral Resources or Ore Reserves is extracted from the report titled ‘Ore Reserves and Mineral Resources Statements 30 June 2018’ released to the Australian Securities Exchange (ASX) on 27 August 2018 and available to view at www.stbarbara.com.au and for which Competent Persons’ consents were obtained. Each Competent Person’s consent remain in place for subsequent releases by the Company of the same information in the same form and context, until the consent is withdrawn or replaced by a subsequent report and accompanying consent.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original ASX announcement released on 27 August 2018 and, in the case of estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the original ASX announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original ASX announcement.

## Non-IFRS Measures

We supplement our financial information reporting determined under International Financial Reporting Standards (IFRS) with certain non-IFRS financial measures, including cash operating costs. We believe that these measures provide meaningful information to assist management, investors and analysts in understanding our financial results and assessing our prospects for future performance.

<table>
<thead>
<tr>
<th>Measure</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>All-In Sustaining Cost</td>
<td>All-In Sustaining Cost is based on Cash Operating Costs, and adds items relevant to sustaining production. It includes some, but not all, of the components identified in World Gold Council’s Guidance Note on Non-GAAP Metrics - All-In Sustaining Costs and All-In Costs (June 2013). Refer most recent quarterly report available at <a href="http://www.stbarbara.com.au">www.stbarbara.com.au</a> for example.</td>
</tr>
<tr>
<td>Cash contribution</td>
<td>Cash flow from operations before finance costs, refer reconciliation of cash movement in the most recent quarterly report available at <a href="http://www.stbarbara.com.au">www.stbarbara.com.au</a></td>
</tr>
<tr>
<td>Dividend yield</td>
<td>Dividend ÷ share price</td>
</tr>
<tr>
<td>EBIT</td>
<td>Earnings before interest revenue, finance costs and income tax expense.</td>
</tr>
<tr>
<td>EBITDA</td>
<td>EBIT before depreciation and amortisation.</td>
</tr>
<tr>
<td>EBITDA margin</td>
<td>EBITDA ÷ Revenue</td>
</tr>
<tr>
<td>Net-cash</td>
<td>Net-cash equivalent to cash and cash equivalents less current and non-current interest bearing borrowings</td>
</tr>
<tr>
<td>Net-debt</td>
<td>Net-debt equivalent to current and non-current interest bearing borrowings less cash and cash equivalents</td>
</tr>
<tr>
<td>ROE</td>
<td>‘Return on equity’ is calculated as underlying NPAT expressed as a percentage of average total equity. Refer 2018 Directors’ and Financial Report (p3) for details.</td>
</tr>
<tr>
<td>Significant Items</td>
<td>Items whose nature or amount is considered material to the financial report. Refer Note 3 of 2018 Financial Report (p49) for details.</td>
</tr>
<tr>
<td>Underlying EBITDA / NPAT</td>
<td>EBITDA or NPAT after excluding identified significant items. Refer 2018 Financial Report (p3) for details.</td>
</tr>
