

Zenith Energy Grows Power Station at Northern Star Resources' Jundee Project

Highlights

- **Zenith Energy has executed an amendment to the Power Purchase Agreement (PPA) with Northern Star Resources to add a further 6MW of installed capacity in the Power Station at Northern Star Resources' Jundee Project**
- **Zenith Energy's total BOO capacity will increase from circa 189MW to more than 195MW following the completion of this additional generating capacity**
- **Supply is expected to commence in the third quarter of FY19**

Remote power generation specialist Zenith Energy Limited (ASX:ZEN) (**Zenith**) is pleased to announce that its wholly-owned subsidiary, Zenith Pacific (JUN) Pty Ltd, has executed an amendment to the PPA with Northern Star Resources, to add a further 6MW of installed capacity in the Power Station at Northern Star's Jundee Project.

Under the amended terms of the PPA, Zenith will build, own and operate an expanded 24MW power station to reliably and efficiently service the power needs of the Jundee Project, located in the Northern Goldfields region of Western Australia, around 45 kilometres northeast of Wiluna and approximately 520 kilometres north of Kalgoorlie.

The power station will comprise an upgrade to the existing Jundee Power Station with the installation of an additional 6MW of Jenbacher 620 Spark Ignition gas generator technology, taking total generating capacity to 24MW.

The power station incorporates natural gas fuelled generators, which will provide the Jundee Project with highly efficient, cost effective and clean gas fuelled power generation into the future. The amended PPA is expected to have a supply commencement date of Q3 FY19 with and a 10-year term aligned with the existing PPA.

ASX RELEASE

21st November 2018

Upon expected completion in Q3 of FY19, the proposed PPA will positively impact Zenith's FY19 earnings.

Zenith Energy's Managing Director, Hamish Moffat commented:

"We are delighted to sign this PPA amendment with Northern Star, which further demonstrates Zenith Energy's ability to build strong, long-lasting relationships with Tier One clients such as Northern Star Resources through the continued delivery of excellence in safe, innovative, reliable, highly efficient and cost-effective power generation solutions to support the diverse needs of our resources clients in demanding remote locations."
