

Change of Registered Office

Melbourne, Australia 14th January 2019: Australian metal additive manufacturing (3D printing) company Titomic Limited (ASX: TTT) ("Titomic" or "Company") in accordance with ASX Listing Rule 3.14, wishes to advise that its Registered Office has changed with immediate effect to:

Australian Head-Office Address:

Building 3, 270 Ferntree Gully Road
Notting Hill, Victoria, Australia 3168
Ph: +61(3) 9558 8822

Postal Address:

PO BOX 225, Mount Waverley
Victoria, Australia 3149

Titomic's registered office will be staffed during regular business hours: Monday to Friday from 8:30am until 5:00pm AET.

For and on behalf of the Company;

Peter Vaughan

Company Secretary & CFO

About Titomic Limited:

Titomic (ASX:TTT) is headquartered in Melbourne, Australia. The company overcomes limitations of additive manufacturing (3D printing) for metals to manufacture complex parts without shape or size constraints. Titomic Kinetic Fusion™ offers manufacturing which enables speed-to-market, superior products with lower production inputs and using fewer resources for a more sustainable future.

Titomic systems can be customised to client requirements offering additive manufacturing advantages at industrial scale. Multiple robots can be utilised to scale up in both speed and size to compete with traditional subtractive manufacturing for industries such as aerospace, defence, resources (oil & gas, mining, industrial equipment), marine, construction, automotive and consumer & sporting goods.

Other benefits of the Titomic Kinetic Fusion technology include:

- Joining dissimilar metals and composites for engineered properties in a structure
- No heat-related oxidation or distortion issues when it comes to manufacturing large parts
- Reduced time to market with industry-leading deposition speeds

Titomic's business model involves providing clients with feasibility tests and manufacture of prototypes to work out the manufacturing costs of the product. Clients will be offered a licence to manufacture via Titomic Kinetic Fusion™ or choose to commission their own Titomic system. After the system sales, Titomic continues to support clients with powder and consumables supply, system upgrades, service and maintenance. For more information, visit: www.titomic.com
