## MILESTONE ACHIEVED AS GLOBAL EXPANSION ACCELERATES

### Highlights

- Recent customer wins will see contracted headcount to approach 6000 paying users
- Contract signed with largest customer by Annual Recurring Revenue to date
- This contract represents intelliHR's second sale initiated out of the US with user rollout into Philippines, Australia, Thailand, India, the UK and North America including Canada to follow

**intelliHR Holdings Limited (ASX:IHR)** is pleased to provide an update on its continued global expansion, having recently won a second US Headquartered customer with operations throughout Australia, the United States, New Zealand, Thailand, India, the United Kingdom, and Canada. When implemented, this contract represents the largest customer by Annual Recurring Revenue to date while lifting contracted headcount by approximately 800 paying users.

As part of its business strategy, intelliHR is demonstrating its investment into marketing and lead generation by accelerating discussions with domestic and international firms. This effort is critical for the growth of intelliHR as a scalable, industry and location agnostic HR management platform and recent increases in both Annual Recurring Revenue and contracted headcount prove the stickiness of its product.

intelliHR's Managing Director, Mr. Robert Bromage commented: "This contract represents a very good start to the year for intelliHR, a very exciting global project further validating our product offering and competitive product on an international stage".

Signed for and on behalf of intelliHR Holdings Limited:

**Robert Bromage**  
Managing Director  
intelliHR Holdings Limited

### About intelliHR

intelliHR is an Australian HR technology business developing and currently marketing a next-generation cloud-based people management and data analytics platform.
