ZIPT CONVO AGREEMENT

On 8 May 2018, the Company provided a substantive update on the progress of its agreement with London-based Space Digital Media Limited (SDM) to launch a new ZipT technology based mobile application aimed at becoming a globally significant content driven communication/ social platform; the Convo App.

ZipTel continues to support and advise SDM on software development for the Convo App. The Convo App has been refined over the past quarter incorporating learnings from global soft launches on both the iOS and Android platforms. These refinements have been targeted at improving UI/UX to encourage user acquisition and retention.

The Convo App is live and available on most App stores globally. SDM and ZipTel continue to develop the Convo App with a view to a supported launch into the marketplace leveraging SDM's significant advertising, marketing and sporting ambassador links. In this regard, SDM has been active in signing publishers onto the platform to drive content within the Convo App – content will be the significant driver for future user acquisitions and relationships with publishers will be a key component in the Convo App generating revenue.

Launch Strategy

SDM's initial aim is to roll out the Convo App via social ambassadors and digital marketing activities such as Google/Facebook advertisements. SDM is targeting to build a new user base of 100,000 which it can leverage to: refine any user experience or other issues in real time; monitor user behaviour patterns to further optimise the Convo App and its content; and gauge which marketing activities are the most effective. SDM's initial primary target audience will be located in London, UK and Mumbai, India.

Upon achieving this initial new user base and implementing its feedback, SDM will look to fully roll out efforts to target and build a sizable user base in 2019.

The Convo App is intended to enable publishers to drive traffic to their pages and benefit from ongoing advertisement revenue splits. Refer to the announcement of 18 August 2017 for further details.

Since executing the Agreement, the Convo App has had soft launches on both the iOS and Android platforms. The Company continues to work with SDM to refine the Convo App prior to its supported global launch. The Company expects to update the market on the launch of the Convo App in due course.

OUTLOOK

ZipTel continues to support SDM as it readies to ramp up marketing efforts for the Convo App. Concurrently, ZipTel continues to review opportunities both for its current platforms and otherwise. The Board is committed to assessing each of these opportunities in an efficient and cost-effective manner.
