ASX Announcement

PolyNovo presents to Fund Managers in New York

PolyNovo’s CEO Paul Brennan will be make the attached presentation to Fund Managers in New York on Monday 6 and Tuesday 7 April. The presentation outlines, amongst other things, PolyNovo’s new product pipeline development.

Mr Brennan said, “We are glad to be able to test preliminary US Investor interest in the Company at a time when US sales are building and our brand is increasingly well known amongst Surgeons”.

American Burn Association

PolyNovo attended the ABA meeting in Las Vegas, this past week. We hosted a Peer to Peer event which was attended by ~120 surgeons and healthcare professionals. This was an outstanding success.

The following papers and posters were presented at the ABA Conference (links below)

- Versatility of a Synthetic Polyurethane Dermal Substitute [Board No. 343]
- Early Therapy Experience with NovoSorbâ"'
- Use of a Biodegradable Polyurethane Dermal Matrix to Treat a Facial Burn in a Patient with 90% TBSA Burns [Board No. 503]
- The Application of Biodegradable Temporizing Matrix in Burn Reconstructive Surgery: Preliminary Results of 36 cases [Board No. 473]
- Acute and Reconstructive Burn Surgery with a Bilaminate Polyurethane Skin Substitute: A Case Series [Board No. 475]
- A New Era of Reconstruction Options Following Necrotising Fasciitis: A Case Series Using a Synthetic Dermal Substitute [Board No. 477]
- The First Twenty: The Use of Synthetic Dermal Substitute in Significant Burns; Outcomes and Lessons Learned. [Board No. 333]

About NovoSorb®

NovoSorb is a novel range of bio-resorbable polymers that can be produced in many formats including, film, fibre, foam, and coatings. NovoSorb’s unique properties provide excellent biocompatibility, control over physical properties, and programmable bio-resorption profile. NovoSorb BTM is a dermal scaffold for the regeneration of the dermis when lost through extensive surgery or burn.

About PolyNovo®

PolyNovo is an Australian based medical device company that designs, develops and manufactures dermal regeneration solutions (NovoSorb BTM) using its patented NovoSorb biodegradable polymer technology. Our development program covers Breast Sling, Hernia, and Orthopaedic applications. For further information and market presentations see www.polynovo.com.au
