Fiji Kava Capsules Launched at Naturally Good Expo in Sydney

Fiji Kava Limited (ASX: FIJ) (**Fiji Kava** or the **Company**), is excited to exhibit at the Naturally Good Expo in Sydney, 2nd and 3rd June. In doing so, Fiji Kava is pleased to officially launch its new range of products in Australia, followed shortly in other international markets including Fiji, New Zealand and the US. For the first time, Fiji Kava branded capsules will now be available to consumers looking for natural alternatives to prescription medicines.

After 13 years of scientific research, plant technology and clinical trials, consumers now have a 100% plant, farm to shelf traceable solution that;

- is fast - acting
- promotes sleep
- helps relieve stress and anxiety
- supports muscle relaxation

Fiji Kava Capsules are FDA and TGA compliant and are available online at www.fijikava.com. Medicinal kava-extract capsules being just one product Fiji Kava is bringing to market as part of its purpose of sharing Fiji's secret elixir to happiness, calm and relaxation.

Zane Yoshida, managing Director today said "This is a significant milestone in the development of the Company. I would like to thank the team at Fiji Kava who worked hard to make this happen."

About Fiji Kava

Fiji Kava is a medical kava company based in Australia and the first foreign company with approval from the Fijian Government to operate in the kava industry. The Company has complete control over its vertically integrated supply chain in a true farm-to-shelf operation and has established a 111-acre nucleus farm in Levuka, on the island of Ovalau, Fiji. Fiji Kava is focussed on expanding the distribution of kava throughout western markets to provide a natural alternative to anti-anxiety prescription medicines such as Valium and Xanax. The Company sells its range of TGA and FDA compliant Taki Mai branded medical kava products in Fiji and has launched under the Fiji Kava Brand in Australia. Fiji Kava's products are backed by years of independent research. The Company plans to conduct human clinical trials to test the efficacy of Fiji Kava's products and specific kava cultivars, targeting a range of medical conditions.
