ECUADOR

Strongly promoting exploration and mining but also dealing with impediments

- **Drilling is underway at Bramaderos following the approval of Sunstone's EIA and issuance of an Environmental Licence**
- **This is the first drilling permit to be issued in 2 years**
- Majors and juniors have committed to spend hundreds of millions of dollars on exploration
- Most are looking for world class gold and copper deposits – genuine large growth opportunities
- High level of pre-drilling activity
- Drilling activity across all companies is expected to increase significantly in 2019; through either scout drilling or EIA approvals
- The Mines Ministry is strongly promoting the sector, wants a responsible mining industry, has enabled reductions in taxes, and has supported developments such as Fruta del Norte
- BUT ...
- There are delays with issuance of drill permits. This is being addressed
- Some local anti-mining NGO activity (not unique to Ecuador!)
- President Moreno supported a modern and responsible mining sector in his recent speech discussing achievements in his first 2 years in office

Bramaderos is a JV with TSXV listed **Cornerstone Capital Resources (TSXV:CGP)** where Sunstone can earn up to 80% (51% through spending US\$3.4 mill; 70% through funding feasibility study and payment of US\$1/gold equiv oz in M&I resource)

Bramaderos contains multiple targets of both porphyry gold-copper and epithermal gold mineralised systems with strong potential to host a world-class discovery

BRAMADEROS – A WORLD-CLASS OPPORTUNITY

A strong commitment to community and environment

- Regular local community meetings and information sessions on current and planned work programs
- Environmental and water studies are ongoing
- **Concession wide EIA to allow for exploration drilling was approved on March 12, 2019, an Environmental Licence to allow for drilling was issued on April 12, and drilling commenced on April 13**
