

## ASX Announcement

12 June 2019

### Dubber Live with Spark New Zealand

- Dubber Providing Call Recording for Spark New Zealand's ("Spark") Cloud Phone Service
- Spark (formerly Telecom New Zealand) is one of New Zealand's largest telecommunications and IT services providers
- Spark Cloud Phone Launched in May 2018, Powered by Cisco BroadCloud

Dubber Corporation Limited (ASX: DUB), the world's most scalable cloud call recording service, is pleased to announce that it is providing the call recording and data capture service for Spark's Cloud Phone, powered by the Cisco BroadCloud calling platform. The service is live and available immediately.

Spark's Cloud Phone combines landline and mobile communications into one seamless user experience. The Dubber call recording platform has been integrated into the Cloud Phone product offering and is now live on the platform.

#### **Steve McGovern, CEO Dubber:**

"We are delighted to be working with the Spark team on their Cloud Phone service offering. Cloud Phone is a market leader and customers can now switch on call recording 'as a service' immediately without the requirement for deployment processes or capital expenditure. This will add a valuable capability for all customers, whether as an immediate and affordable compliance tool or, for those customers who wish to take advantage of Artificial Intelligence opportunities for their business in the near term. The launch of the service is an additional landmark in Dubber's global deployment as the recording service for the Cisco BroadCloud platform."

#### **Peter Vincent, Home and Business Connectivity, Spark:**

"Spark's Cloud Phone service is all about giving our customers a feature-rich calling solution that delivers great collaboration tools and services that give their businesses an edge. Integrating the Dubber call recording platform into the service has been an obvious decision for us, as we continue to add world leading value-added services to the platform."

For personal use only

## About Spark:

Spark's purpose is to help all of New Zealand win big in a digital world. Spark is one of New Zealand's largest telecommunications and IT services providers, offering a full suite of telecommunications services including broadband, mobile, and cloud services, and catering for consumers right through to large enterprises.

Spark is also building businesses in three emerging growth areas: Spark offers big data/analytics and data-powered marketing services through their Qrious brand; they're rolling out nationwide Internet of Things networks; and have one of the biggest teams of cyber security professionals in New Zealand.

## About Dubber:

Dubber is the world's most scalable call recording service which has been adopted as core network infrastructure by multiple global leading telecommunications carriers in North America, Europe and Asia Pacific. Dubber is a disruptive innovator in the multi-billion dollar call recording industry, its Software as a Service offering removes the need for hardware, productisation or capital expenditure.

As the telecommunications sector moves towards Cloud services, Dubber has also been chosen by BroadSoft, Inc., a Cisco Systems Company, for its global leading Cloud telecommunications platform, BroadCloud, as the recording and voice data capture service for its network of telecommunication Service Provider Customers.

Dubber provides the opportunity for the capture of voice data across these networks enabling further monetising opportunities, in addition to regulatory compliance, in the areas of analytics, artificial intelligence and 'Big Data' - expanding the potential market for call recording to every phone.
