FOURTH QUARTERLY ACTIVITIES REPORT AND APPENDIX 4C CASHFLOW STATEMENT

***Highest quarterly revenue on record with FY19 Q4 sales exceeding the full year FY18 revenue.
FY19 gross revenue totalled \$51.3m, a 179% uplift over prior year.***

Bubs Australia (**ASX: BUB**), producer of Australian-made premium infant formula, organic baby food, and goat dairy products, submits the following Activities Report and Appendix 4C Cashflow Statement for the fourth quarter, period ended 30 June 2019.

Releasing the Quarterly Activities Report, Bubs Founder and Chief Executive Officer, Kristy Carr said: "We are pleased to deliver the strongest quarter in the company's history, with our fourth quarter sales exceeding that of the full year in 2018. The full year finished at \$51.3 million in gross revenues, which is up 179 percent on prior year. This demonstrates the validity of our continuing focus on our four-pillar growth strategy, combined with underlying investments in supply chain and capabilities, and key strategic channel partnerships, is delivering an aggressive growth trajectory and a platform for moving into profitable growth in the near term."

FINANCIAL HIGHLIGHTS

Bubs Australia has again delivered strong positive quarterly sales growth, driven by a threefold increase in Bubs® goat milk infant formula sales compared to the same period prior year.

- Q4 finished at \$18.46 million – highest quarterly revenue on record.
- FY19 Q4 revenue exceeded the full year FY18 revenue.
- Q4 is 56% up compared to previous quarter, and up 108% pcp (prior corresponding period).
- FY19 finished at \$51.3 million, a 179% increase pcp.
- \$23.3 million in cash reserves as at 30 June 2019.
- Positive cashflow was achieved in operating activities through fourth quarter.

PERFORMANCE BY CATEGORY

- Infant Formula - up 341% pcp, representing 42% of gross sales for the quarter.
- Organic Baby Food - up 13% pcp, representing 5% of gross sales for the quarter.
- Total Bubs® products - up 236% pcp, representing 47% of gross sales for the quarter.
- Adult Dairy products - up 47% pcp, representing 50% of gross sales for the quarter.
- Deloraine production - represents 2% of Q4 gross sales following its acquisition in April 2019.

PERFORMANCE BY REGION

- Australia - up 127% pcp, representing 85% of gross sales for the quarter.
- China - up 13% pcp, representing 12% of gross sales for the quarter.
- International markets - up 909% pcp, representing 3% of gross sales for the quarter.

Q4 STRATEGIC DEVELOPMENTS

- Joint Venture established in China with Beingmate, a leading producer of infant nutrition products.
- Strategic equity-linked alliance with Chemist Warehouse, securing national ranging of 28 products.
- Major equity investment by C2 Capital Partners, of which Alibaba Group is an anchor investor.
- 100% acquisition of Australia Deloraine Dairy, a CNCA licensed infant formula processing facility.
- Strategic eCommerce partnership with Alibaba Tmall for Bubs® products.
- Channel partnership with Kidswant, China's largest mother and baby store chain.
- Development of organic grass-fed cow milk infant formula in partnership with Fonterra Australia.

Commenting on operating performance and strategic developments, Mrs Carr said: "During the quarter, we saw over 56 percent uplift in group sales over the previous quarter, and more than double sales revenue compared to the same period last year. The core driver was Bubs® goat milk infant formula, which increased 341 percent year-on-year. Our infant nutrition and adult dairy portfolios' revenue split continues to be closely balanced, providing us with branded product flexibility to manage our milk pool and the associated seasonal milk curves from fresh, to powder, through to our core infant formula range which is now the first infant formula in the world to be made from Australian sourced goat milk.

"Our home market experienced the strongest growth throughout the quarter, driven by increasing penetration in Coles, Woolworths, Big W, Amazon and Costco, and the national roll-out of all 28 products in Chemist Warehouse outlets in June. In addition, the rapid growth of the corporate *Daigou* segment contributed to our domestic sales more than doubling that of the prior year.

"Our China route-to-market platform capability advanced significantly through new strategic partnerships with Beingmate, Alibaba and Kidswant. Sales through these channels were initiated late in the quarter and are expected to drive future growth in B2B export sales to China," said Mrs. Carr.

C2 Placement and Deloraine Acquisition

In April, Bubs Australia initiated a \$31.4 million share placement to C2 Capital Partners, a private equity fund anchored by Alibaba Group. The investment was a very strong expression of support for Bubs Australia's vision and China strategy. Following the placement and utilising the capital raised, we acquired 100% of Australia Deloraine Dairy, a state-of-the-art CNCA accredited infant formula manufacturing facility – thereby consolidating the Company's vertical integration strategy.

Chemist Warehouse Alliance

The four-year equity-linked agreement with Chemist Warehouse is a major step forward in augmenting our domestic stronghold, with all 28 Bubs® products now ranged in 450 Chemist Warehouse outlets across Australia. Chemist Warehouse is Australia's largest pharmacy chain network by total sales, generating over \$5 billion in retail sales, of which over \$200 million stem from infant formula. Chemist Warehouse has commenced promotional activity with strong co-funded marketing support to maximise the specified sales performance targets within the agreement.

Beingmate Joint Venture

Beingmate is one of the largest Chinese owned enterprises in the infant nutrition industry with 2,200 employees, and has the highest number of registered infant formula brands in China, including 51 products that are successfully registered with the State Administration for Market Regulation (SAMR). The Joint Venture will distribute Bubs® products within its existing network of 30,000 mother and baby stores, implement brand and trade marketing activities, and provide unparalleled expertise advising on Chinese regulatory compliance and import regulations.

Kidswant Channel Partnership

A supply agreement with Kidswant was the first major initiative of the Beingmate Joint Venture. Kidswant has the largest market share of mother and baby retail in China. Bubs Organic® registered food products are now ranged in all 275 Kidswant stores in 123 cities throughout China. The retail sales value of this contract is expected to reach RMB 30 million (AUD 6 million) in the first year.

Organic Grass-fed Formula

After many months of development, Bubs entered a supply agreement with Fonterra Australia in May to produce Bubs Organic® cow milk infant formula. The dual certified organic formula is Australia's first organic grass-fed formula and completes our product portfolio offering parents and their babies premium nutritional options for all feeding occasions, dietary requirements and stages of development. Initial production has commenced and product will be available in stores from September.

Cash Position

Bubs Australia continues to maintain a robust balance sheet with \$23.3 million in cash reserves as at 30 June 2019. The company has optimised its positive cashflow position in the quarter through better inventory management.

"Finally, the earlier manufacturing partnership entered into with Bega for one-step processing, the acquisition of Australia Deloraine Dairy, the sale of the Uphamgo facility and the sale of the non-core flavoured fresh dairy products division, along with increased scale and supply chain efficiencies, have notably improved our margins enabling the Company to be primed for profitable growth in the new financial year," said Mrs. Carr.
