Investor Presentation

Zurich Precious Metals Summit

November 2019

© 2019 Alkane Resources

Disclaimer

For personal use only

This presentation contains certain forward-looking statements and forecasts, including possible or assumed reserves and resources, production levels and rates, costs, prices, future performance or potential growth of Alkane Resources Ltd, industry growth or other trend projections. Such statements are not a guarantee of future performance and involve unknown risks and uncertainties, as well as other factors which are beyond the control of Alkane Resources Ltd. Actual results and developments may differ materially from those expressed or implied by these forward-looking statements depending on a variety of factors. Nothing in this presentation should be construed as either an offer to sell or a solicitation of an offer to buy or sell securities.

Alkane Resources Ltd cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this presentation will occur and investors are cautioned not to place any reliance on these forward-looking statements. Alkane Resources Ltd does not undertake to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this presentation, except where required by applicable law and stock exchange listing requirements.

This document has been prepared in accordance with the requirements of Australian securities laws, which may differ from the requirements of United States and other countries' securities laws. Unless otherwise indicated, all ore reserve and mineral resource estimates included or incorporated by reference in this document have been, and will be, prepared in accordance with the JORC classification system of the Australasian Institute of Mining, and Metallurgy and Australian Institute of Geosciences.

COMPETENT PERSON

Unless otherwise stated, the information in this presentation that relates to mineral exploration, mineral resources and ore reserves is based on information compiled by Mr D I Chalmers, FAusIMM, FAIG, (director of the Company) who has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Ian Chalmers consents to the inclusion in the presentation of the matters based on his information in the form and context in which it appears.

Strategy and Investment Highlights

Grow shareholder value by increasing production at Tomingley, pursuing organic growth through exploration and development, and strategic acquisition.

Unlock the value of Australian Strategic Materials (ASM), including a potential demerger and listing in H1 2020.

Corporate Strength

- \$74M in cash, bullion and listed securities as at 30 September 2019 (nil debt)
- Extensive senior management expertise in the full mining-cycle (exploration, approvals, construction, operation, rehab)
- Well-credentialed and experienced Board

Existing Production

- Tomingley mill partially utilised for the existing underground; upgraded FY20 guidance of 30,000oz-35,000oz
- Production growth through Tomingley Corridor (San Antonio, Roswell)
- Expediting development pathway; underground initially with open pit longer term
- Potential for strong near term cash flow

Landmark Discovery At Boda

- Extensive porphyry mineralisation encountered with similar characteristics to Newcrest's Cadia Project (110km south)
- Strong indications of large system at Kaiser-Boda
- RC drilling shows extensive low grade from surface, with increase in grade from ~200m
- 502m at 0.48g/t Au and 0.2% Cu; higher than Cadia East reserve grade
- Q4 drill program will test scale and depth extension; 3-5 step-out diamond holes

Growth Options

- Extensive tenement holding in NSW with strong exploration potential
- 15% of Genesis Minerals (ASX: GMD)
- 13% of Calidus Resources (ASX: CAI)
- 100% of Australian Strategic Materials, including Dubbo Project, with imminent demerger under consideration

Corporate Profile

Capital Structure

Ordinary Shares	506 million
Share Price (5 November 2019)	A\$0.67
Market capitalisation	A\$339M
12 Month low/high	A\$0.18/\$0.86
Cash and Gold Bullion (nil debt)	A\$58.4M
Listed Investments (at market, 30.09.2019)	A\$15.5M
Interest Bearing Debt	Nil
Enterprise Value	A\$266M

The Board

Ian Gandel	Chairman
Nic Earner	Managing Director
Ian Chalmers	Technical Director
Anthony Lethlean	Non-Executive Director
Gavin Smith	Non-Executive Director
Dennis Wilkins	Company Secretary

Shareholder Ownership (At 30 Sept 2019)

Corporate History – 50 Years of Find. Enhance. Deliver.

Timeline of Key Milestones (incorporated 1969)

Business Overview

Alkane Gold Business: Positioned For Growth

Tomingley Gold Project	Tomingley Corridor	Boda Discovery (NMPP)	Regional Exploration	ASX Gold Investments
<ul style="list-style-type: none"> 49,000oz in FY19, revised FY20 guidance 30,000-35,000oz UG development advanced, stope production expected Q4 19 Underground revised modelling underway to extend mine life 	<ul style="list-style-type: none"> Multiple gold discoveries in 2018 including San Antonio, Roswell 60,000m drill out advancing Initial resource expected Q4 19 Expediting pathway to UG mining to utilise mill capacity 	<ul style="list-style-type: none"> Significant discovery in Q3 2019 502m at 0.48g/t Au and 0.2% Cu Q4 program to test scale and identify high grade zones Agreements in place for land access Arrangements for existing programme agreed with landholder and being finalised with leaseholder 	<ul style="list-style-type: none"> Extensive landholding in NSW Peak Hill resource NMPP porphyry regional targeting underway following Boda discovery Long track record of discovery in NSW, excellent understanding of permitting regime 	<ul style="list-style-type: none"> Cornerstone investments with strategic alliance 15% Genesis Minerals (ASX: GMD) 13% Calidus Resources (ASX: CAI)

For personal use only

Tomingley Gold Project

- 1.0 mtpa plant (achieved run rate of 1.4mtpa on oxide ore)
- Construction completed in 2014 on time and budget
- Upgraded production guidance for FY20 30,000 – 35,000oz Au
- Currently treating existing low grade stockpiles
- Underground development advanced, ahead of budget and schedule
- Underground mining of ore has commenced
- Updated underground mine plan modelling underway
- Current modelling has plant forecast to run at ~50% capacity for calendar 2020
- Exploration has revitalised the Project – underground and Tomingley Corridor
- Potential for strong near term cash flow

For personal use only

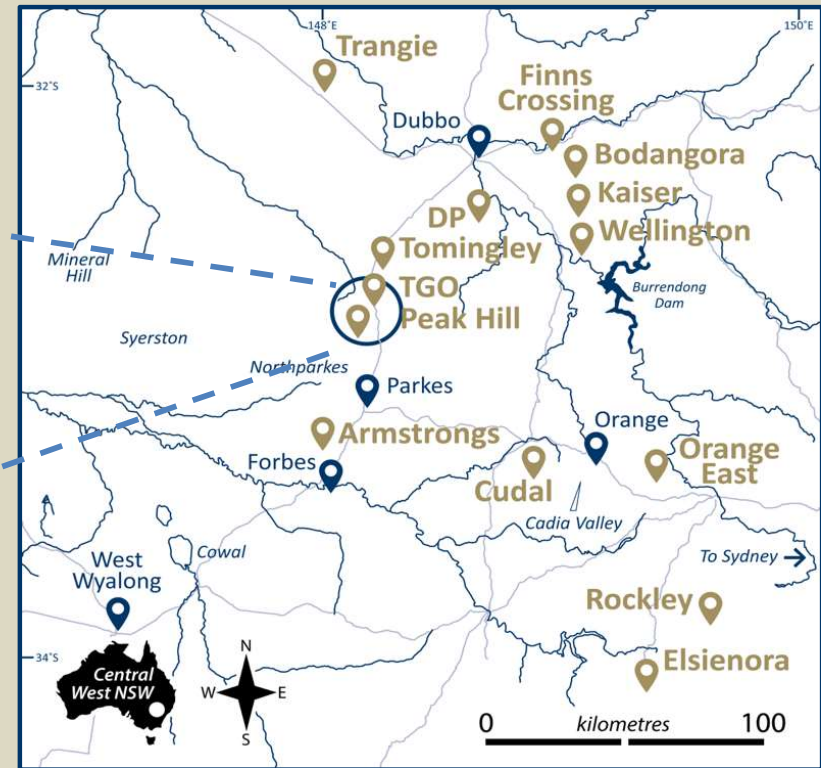

For personal use only

Tomingley Corridor: Central West NSW

~10km mineralisation adjacent to established processing infrastructure

Tomingley Corridor: Exploration in Plan

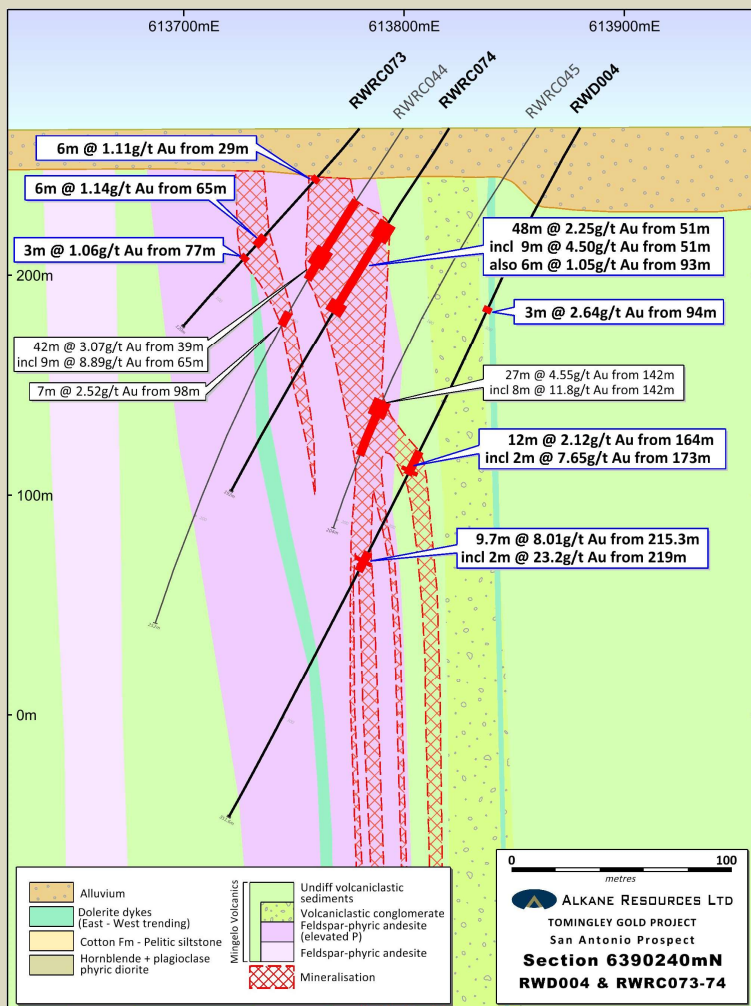

- Three major target areas within 8km of mill; Roswell, San Antonio and El Paso
- Exploration Target of ~**15.8-23.8 million tonnes (open pit and underground) at a grade ranging between 1.7-2.2 g/t Au***
- Infill drilling at 40m spacing of Roswell, San Antonio largely progressed
- Maiden Resource (Roswell) by December 2019
- Extent of mineralisation in San Antonio, Roswell alone covers significantly larger area than original Tomingley discoveries

ASX release 9 July 2019

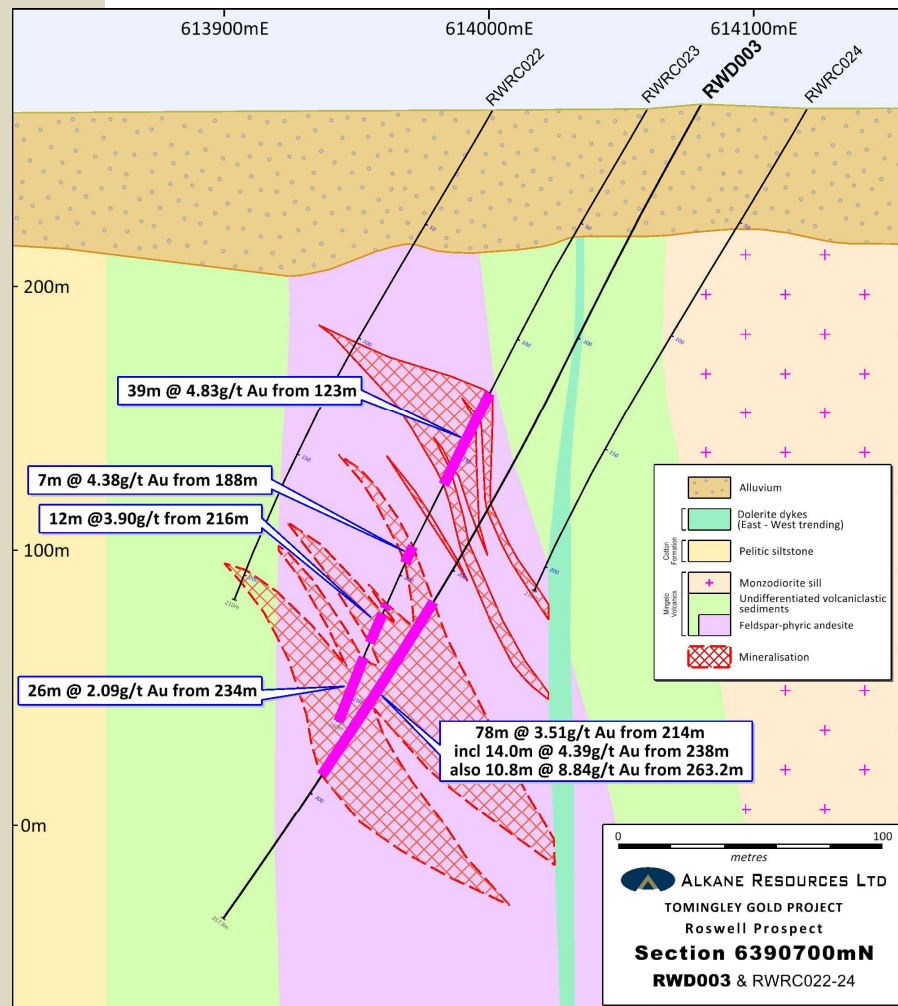

**The potential quantity and grade of the Exploration Target is conceptual in nature and therefore is an approximation. There has been insufficient exploration to estimate a Mineral Resource and it is uncertain if further exploration will result in the estimation of a Mineral Resource. The Exploration Target has been prepared and reported in accordance with the 2012 edition of the JORC Code.*

Tomingley Corridor: Cross sections

San Antonio

Roswell

ASX Release
12 Aug 2019

ASX Release:
12 June 2019

Tomingley Corridor: Development plan

Objective: to define the initial resource and develop an underground and subsequently an open pit mine on an accelerated timetable

Resource Delineation	<ul style="list-style-type: none"> ▪ 40m space drilling largely complete at Roswell (resource early December) ▪ Drilling ongoing at San Antonio (resource Q1 2020) and El Paso (resource H2 2020)
Exploration Drive	<ul style="list-style-type: none"> ▪ From existing Wyoming One decline ▪ Drilling positions and bulk samples between Wyoming and Roswell ▪ Approvals (applications submitted) ▪ Development team (equipment procurement and recruitment underway) ▪ Surface vent fan (land under option)
Underground Permitting	<ul style="list-style-type: none"> ▪ Utilising exploration drive for production ▪ Environmental approvals process underway ▪ Resource definition drilling H1 2020 ▪ Mine plan after resource drilling
Open Pit Permitting	<ul style="list-style-type: none"> ▪ Infrastructure Impact – studies and consultation underway ▪ Approvals – environmental approvals underway ▪ Landholder agreement – land under option or consultation ▪ Resource definition drilling and mine planning to follow

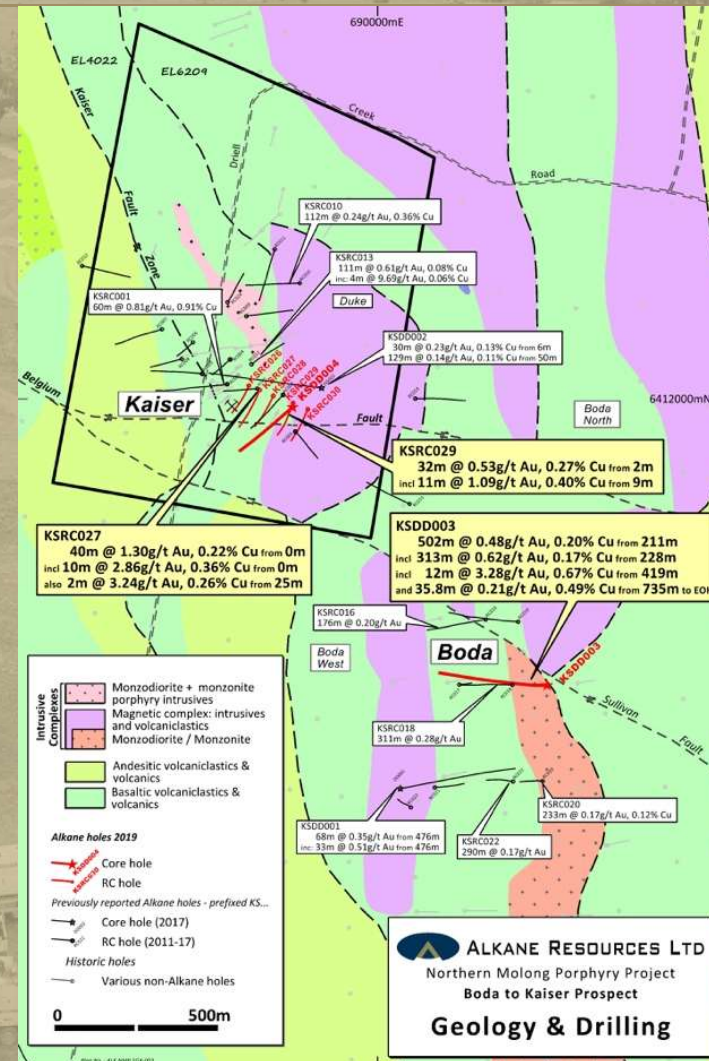

Northern Molong Porphyry Project

“A game changing discovery”

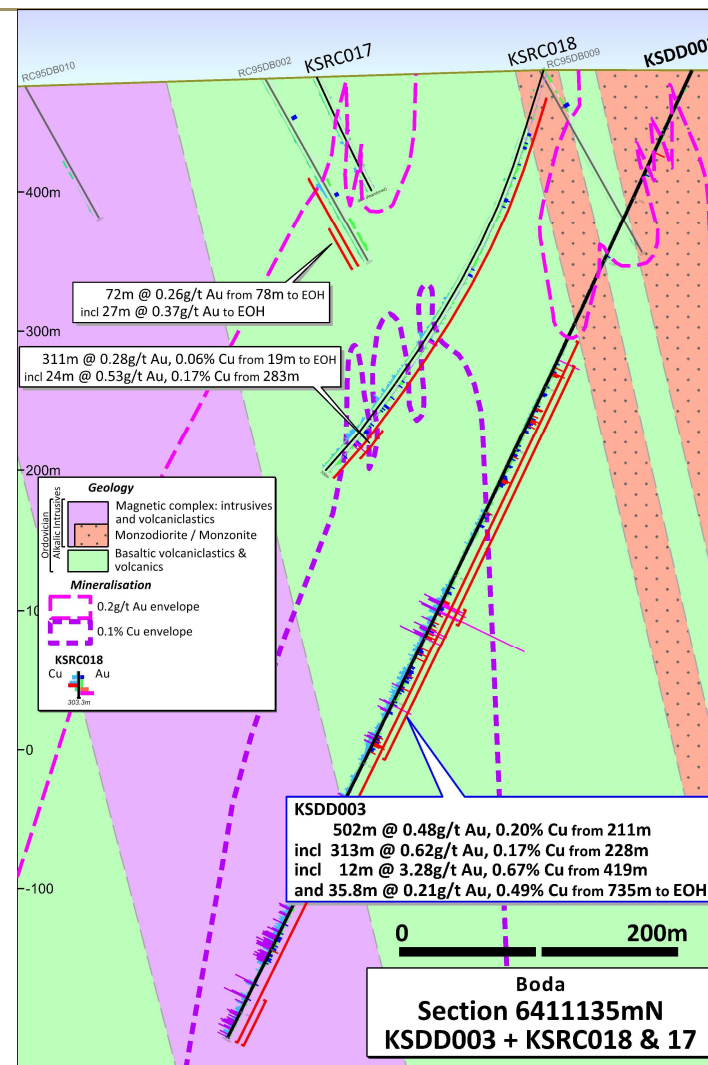

- Significant Gold-Copper Porphyry mineralisation at Boda and Kaiser prospects
- Boda target identified by geophysics followed by RC drilling (KSRC018 311m @0.28g from surface)
- Recent diamond hole demonstrates increasing grade at depth*:
 - KSDD003 502m @ 0.48g/t Au, 0.20% Cu from 211m
 - Incl 313m @ 0.62g/t Au, 0.17% Cu from 228m
 - Incl 12m @ 3.28g/t Au, 0.67% Cu from 419m
 - And 35.8m @ 0.21g/t Au, 0.49% Cu from 735m to EOH
- Numerous other intercepts within 2-3km strike length demonstrating extensive mineralised system
- Prospect potential akin to Cadia Valley (Newcrest)
- Regional targeting underway informed by Boda

*ASX Release: 9 September 2019

Boda Drilling

- Series of 3 to 5 step out holes at ~100m spacing planned along strike and also targeting underneath the discovery hole KSD003 (which finished in mineralisation)
- Updated IP survey planned over ~5km prospective corridor
- IP survey and drilling contracts have been let
- Landholder and leaseholder (wind farm) access agreements in place. For next drilling programme: landholder arrangements agreed, leaseholder arrangements being finalised

For personal use only

Broader Strategy for Gold Assets

- Stated vision to become a multi-mine Australian gold producer
- Tomingley well-positioned to anchor strategy
- Strong regional NSW exploration portfolio
- Potential growth via strategic investment and future M&A
- Collaborative approach to investments with board representation agreed

Alkane owns ~15% of Genesis Minerals, which has a 700,000oz high grade Au resource, excellent exploration potential and is seeking a path to production.

Alkane owns ~13% of Calidus Resources, which is on track to develop an 80,000oz+ p.a. Au project in WA from its 1,250,000oz resource.

2019 News Flow and ASX Trading

For personal use only

Key Work Plan & Milestones – Next 6 Months

- Commencement of step-out drilling at Boda¹ (Q4) and results (Q4 / Q1 2020)
- Inferred Resource for Tomingley Corridor (Roswell early December)
- Updated Tomingley Underground Mine Plan and Scheduling
- Acquisition of key land for Tomingley Corridor UG development (under option)
- Approvals and Commencement of Tomingley Corridor Exploration Drive
- Update on ASM Demerger Considerations (Q4)

¹ Subject to finalisation of leaseholder arrangements – land access agreements in place, landholder arrangements in place

For personal use only

Business Overview

Australian Strategic Materials: A Unique Specialty Metals Company

Dubbo Project

- All major permits in place and piloting completed
- Construction ready; land and water secured
- Ongoing offtake discussions

ASM Technology

- IP developed through Dubbo R&D
- Investment in RMR Tech, South Korea
- Pilot plant under construction
- Global commercialisation rights for Zirconium, Hafnium

Korean Metals Plant

- 2020 feasibility to be undertaken
- Zirconium, Hafnium separation and metalisation
- Customer discussions commencing

Potential Demerger

- Demerger and listing of ASM to maximise value under active consideration by Board
- Consultation with key regulators commenced
- CEO search for ASM underway

 @alkaneresources

 alkane-resources-ltd

Australian Strategic Materials

Dubbo Project

- Critical minerals resource
 - Rare earths, zirconium, hafnium and niobium
 - Used in clean energy, electric vehicles and most modern technology
- Defined resource supports 70+ year open pit operation
- 400km northwest of Sydney
- Extensive piloting at ANSTO since 2008
- Full FEED with Hatch and further updates
- All major State and Federal approvals in place
- Land and resource wholly owned

Korean Metals Plant

- RMR tech pilot plant under construction
- Seeking to confirm low cost, low emission process
- 2020 feasibility on integrated separation and metallisation plant

Dubbo Project Financials

20-year Base Case (1Mtpa)

- 1.0Mtpa (base case)
- CAPEX: A\$1.3B
- Revenue: A\$663M
- Operating Costs: A\$341M
- EBITDA: A\$320M
- IRR: 17.5%
- NPV: A\$1.24B

Modular (4 June 2018)

Stage 1

- 0.5Mtpa
- CAPEX: A\$808M
- Revenue: A\$397M
- Operating Costs: A\$202M

Stage 2

- 0.5Mtpa
- CAPEX: A\$692M
- Revenue: A\$663M
- Operating Costs: A\$341M

Dubbo Project Engineering and Financials Update (4 June 2018)

Modular Advantage

- Large elements of construction occur offsite
- Significantly reduces initial start-up capex
- Reduces construction period
- Allows the Project to develop and grow with its customers and the target markets for its products

Note: As per ASX announcement of 4 June 2018. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which any Competent Person's findings are presented have not been materially modified from the original market announcement
