AVZ Managing Director, Mr. Nigel Ferguson said: “We are excited to welcome Yibin Tianyi as a new, strategic investor in AVZ, especially given the backing they have from CATL – China’s largest EV battery manufacturer. Their intention to become one of the largest global lithium chemical producers certainly complements our vision of developing the largest hard rock lithium deposit in the world.

“Yibin Tianyi’s intention to invest in AVZ and enter into a binding offtake arrangement underpins the tier 1 quality of our Manono Project.

“The funds to be raised from this placement will enable AVZ to complete the acquisition of an additional 5% project interest from Dathomir Mining SARL, increasing AVZ’s overall interest in the Manono Project to 65%. The placement will also allow early development works to be undertaken at the Manono Project while the DFS is being completed.”
