On behalf of the Board, I would like to thank you for considering the Entitlement Offer. We greatly appreciate your continued support.

In light of this, the Board reserves the right to alter the way the funds are applied.

2.4 No rights trading

The rights to New Securities under the Entitlement Offer are non-renounceable. Accordingly, there will be no trading of rights on ASX and you may not dispose of your rights to subscribe for New Securities under the Entitlement Offer to any other party. 2.6 Opening and Closing Dates

The Company will accept Entitlement and Acceptance Forms in respect of the Entitlement Offer from Applicants from the Opening Date until 5.00pm (WST) on the Closing Date or such other date as the Directors in their absolute discretion shall determine, subject to the Listing Rules.

Please note that payments made by BPAY[®] must be received no later than 5.00pm (WST) on the Closing Date. It is the responsibility of all Applicants to ensure that their BPAY[®] payments are received by the Company on or before the Closing Date.

The Company reserves the right, subject to the Corporations Act and the Listing Rules, to extend the Closing Date of the Entitlement Offer without prior notice. If the Closing Date is varied, subsequent dates may also be varied accordingly.

2.7 Shortfall Allocation Policy

If there is a Shortfall, the Company will allocate Shortfall Shares according to the following priority:

- (a) to Eligible Shareholders that have applied for Shortfall Securities through the Shortfall Offer;
- (b) investors who apply for Shortfall Securities following an invitation from the Company and the Underwriter; and
- (c) if following the allocation in paragraph (a) and (b) there remains unallocated Shortfall Securities, the Shortfall Securities will be allocated to the Underwriter (and any sub-underwriters), in accordance with the Underwriting Agreement.

2.8 Shortfall Offer

Any New Securities under the Entitlement Offer that are not applied for will form the Shortfall Shares. The offer to issue Shortfall Securities is a separate offer under this Prospectus (**Shortfall Offer**).

Under this Prospectus, the Company offers to issue the Shortfall Securities to investors and Eligible Shareholders at the same price of \$0.001 per New Share as that offered under the Entitlement Offer (together with one free attaching New Option for two New Shares subscribed for and issued). The Shortfall Shares will have the same rights as the New Shares as detailed in Section 7.7. The Shortfall Options will have the same rights as the New Options as detailed in Section 7.8.

Eligible Shareholders may apply for Shortfall Securities by completing the relevant section of their Entitlement and Acceptance Form (refer to Section 5 for further details). Other investors may also apply for Shortfall Securities by completing the Shortfall Application Form upon invitation from the Company and the Underwriter (refer to Section 5.3).

An Application for Shortfall Securities accompanied by payment of Application Monies does not guarantee the allotment of any Shortfall Securities.

The Shortfall Securities will be allocated to Eligible Shareholders following the Closing Date and these Shortfall Securities will be issued in accordance with the Shortfall allocation policy detailed in Section 2.7.

The Shortfall Shares will be allocated and issued within three months after the Closing Date.

In relation to the Shortfall Offer, the Company reserves the right to issue to an Applicant a lesser number of Shortfall Securities than the number applied for, reject an Application or not proceed with the issuing of the Shortfall Securities or part thereof. If the number of Shortfall Securities issued is less than the number applied for, surplus Application Monies will be refunded in full. Interest will not be paid on Application Monies refunded.

The Shortfall allocation policy has been structured to allow each Eligible Shareholder to participate in priority to the Underwriter (and any sub-underwriters) to try to reduce the number of New Securities that may be issued to the Underwriter (and any sub-underwriters).

2.9 Risks of the Entitlement Offer

As with any securities investment, there are risks associated with investing in the Company. However, having regard to the risks applicable to the Company and its business detailed in Section 6, Eligible Shareholders should be aware that an investment in the New Securities offered under this Prospectus should be considered highly speculative and there exists a risk that you may, in the future, lose some or all of the value of your investment.

Before deciding to invest in the Company, investors should read this Prospectus in its entirety, in particular the specific risks associated with an investment in the Company (detailed in Section 6), and should consider all factors in light of their personal circumstances and seek appropriate professional advice.

2.10 Application Forms and BPAY® Payments

(a) Entitlement Offer

Acceptance of a completed Application Form, or alternatively, a BPAY® payment, by the Company creates a legally binding contract between the Applicant and the Company for the number of New Securities accepted by the Company. The Application Forms do not need to be signed to be a binding acceptance of Shares.

If an Application Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Application Form is final.

A personalised Entitlement and Acceptance Form will be issued to the Eligible Shareholders together with a copy of this Prospectus.

(b) Shortfall Offer

A Shortfall Application Form will be provided to certain persons wishing to participate in the Shortfall upon invitation from the Company. Acceptance of a completed Shortfall Application Form by the Company creates a legally binding contract between the Applicant and the Company for the number of Shortfall Securities accepted by the Company. The Shortfall Application Form does not need to be signed to be a binding acceptance of Shortfall Securities.

If the Shortfall Application Form is not completed correctly it may still be treated as valid. The Directors' decision whether to treat a completed Shortfall Application Form as valid and how to construe, amend or complete the Shortfall Application Form is final.

A Shortfall Application Form will be issued to certain investors together with a copy of the Prospectus.

2.11 Issue and Dispatch

All New Securities under the Entitlement Offer are expected to be issued on or before the dates specified in the Indicative Timetable.

It is the responsibility of Applicants to determine their allocation prior to trading in New Shares. Applicants who sell New Shares before they receive their holding statements will do so at their own risk.

Shortfall Securities may be issued within three months after the Closing Date.

2.12 Application Monies held on trust

All Application Monies will be held on trust in a bank account maintained solely for the purpose of depositing Application Monies received pursuant to this Prospectus until the New Securities are issued. All Application Monies will be returned (without interest) if the New Securities are not issued.

2.13 ASX quotation

Application will be made to ASX no later than seven days after the date of this Prospectus for Official Quotation of the New Shares offered under this Prospectus. If ASX does not grant Official Quotation of the New Shares within three months after the date of this Prospectus (or such period as the ASX allows), no New Shares will be issued or allotted under the Entitlement Offer and the Company will repay, as soon as practicable, without interest, all Application Monies received pursuant to this Prospectus.

ASX takes no responsibility for the contents of this Prospectus. The fact that ASX may grant Official Quotation is not to be taken in any way as an indication of the merits of the Company or the Shares.

2.14 Withdrawal

The Directors may at any time decide to withdraw this Prospectus and the Entitlement Offer, in which case, the Company will return all Application Monies (without interest) in accordance with the Corporations Act.

2.15 CHESS

The Company participates in the Clearing House Electronic Subregister System, known as CHESS. ASX Settlement, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and Securities Clearing House Business Rules.

Under CHESS, Applicants will not receive a certificate but will receive a statement of their holding of Shares.

If you are broker sponsored, ASX Settlement will send you a CHESS statement.

The CHESS statement will set out the number of Shares issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the Shares.

If you are registered on the Issuer Sponsored subregister, your statement will be dispatched by the Share Registry and will contain the number of Shares issued to you under this Prospectus and your security holder reference number.

A CHESS statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

2.16 Ineligible Shareholders

The Entitlement Offer is not being extended to Shareholders whose registered address is outside Australia or New Zealand (**Ineligible Shareholders**). The Company is of the view that it is unreasonable to make the Entitlement Offer to Shareholders outside of Australia or New Zealand, having regard to:

- (a) the number of those Shareholders;
- (b) the number and value of Shares to be offered to those persons; and
- (c) the cost of complying with overseas legal requirements.

This Prospectus and accompanying Application Forms do not, nor are they intended to, constitute an offer in any place in which, or to any person to whom, it would not be lawful to make the Entitlement Offer.

The Company is not required to make offers under this Prospectus to Shareholders other than in Australia or New Zealand. Where this Prospectus has been dispatched to Shareholders domiciled outside Australia or New Zealand and where this country's securities code or legislation prohibits or restricts in any way the making of the Entitlement Offer and Shortfall Offer, this Prospectus is provided for information purposes only.

Shareholders resident in Australia or New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up Entitlements under the Entitlement Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

In order for Eligible Shareholders to be permitted to subscribe for New Shares (to the maximum extent of their full Entitlement) under the Entitlement Offer and for the Underwriter to underwrite the Entitlement Offer, even if to do so would result in such persons acquiring a relevant interest exceeding 20% of the issued share capital of the Company (on a post Entitlement Offer basis), the Company must comply with section 615 of the Corporations Act. In order to comply with section 615 of the Corporations Act, the Company will appoint a nominee approved by ASIC (**Nominee**) to sell the New Securities that Ineligible Shareholders would have been entitled to and sell them on their behalf.

The Company has sought approval from ASIC to appoint CPS Capital Group Pty Ltd as Nominee for the purposes of section 615 of the Corporations Act to sell the New Securities which would otherwise have been available to Ineligible Shareholders had they been eligible to participate in the Entitlement Offer.

The nominee sale procedure will be implemented in accordance with section 615 of the Corporations Act as follows:

- (a) the Company will issue to the Nominee the New Securities that Ineligible Shareholders would be entitled to if they were eligible to participate in the Entitlement Offer (**Nominee Securities**);
- (b) the Nominee will then sell the Nominee Securities at a price and otherwise in a manner and at such time as determined by the Nominee in its absolute and sole discretion; and
- (c) the net proceeds of the sale of the Nominee Securities (after deducting the costs of sale including brokerage and commission), if any, will be distributed to the Ineligible Shareholders for whose benefit the New Securities are sold in proportion to their shareholdings as at the Record Date.

If any such net proceeds of sale are less than the reasonable costs that would be incurred by the Company for distributing those proceeds, such proceeds may be retained by the Company. Accordingly, there is a possibility that Ineligible Shareholders may receive no net proceeds if the costs of the sale of the Nominee Securities are greater than the sale proceeds. The Company and

the Nominee will not be held liable for a failure to obtain any net proceeds, or for the sale of any the Nominee Securities at any particular price or the timing of such sale.

You should note that the Entitlement Offer remains subject to ASIC's approval of the Company's application to appoint the Nominee. The Company sees no reason why such approval should not be obtained, however, there is no guarantee that it will be obtained. If the approval is not obtained, the Company will either seek to appoint another nominee or the Entitlement Offer will not proceed in its current form and the Company will need to reconsider its options at that time. The Company will keep the market informed in the event that its application is not approved.

2.17 Taxation Implications

The Directors do not consider it appropriate to give Applicants advice regarding the taxation consequences of subscribing for New Securities.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Applicants. Applicants should consult their own professional tax adviser to obtain advice in relation to the taxation laws, regulations and implications applicable to their personal circumstances.

2.19 Privacy

The Company collects information about each Applicant provided on an Application Form for the purposes of processing the Application and, if the Application is successful, to administer the Applicant's security holding in the Company.

By submitting an Application Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Application Form for the purposes detailed in this privacy disclosure statement and may disclose it for those purposes to the Share Registry, the Company's related bodies corporate, agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

Pursuant to the Mandate, the Underwriter has exercised its right to nominate a Director to join the Board, namely, David Wheeler.

3.2 Dilution and effect on control of the Company

(a) Potential Dilution Effect

Shareholders should note that if they do not participate in the Entitlement Offer, their holdings will be diluted. Examples of how the dilution may impact Shareholders are detailed in the table below:

Shareholder	Shareholding as at Record Date	% at Record Date	Entitlements under the Entitlement Offer	Shareholdings if Entitlement Offer not taken up	% post Entitlement Offer ⁽¹⁾
Shareholder 1	1,000,000	0.028%	1,000,000	1,000,000	0.014%
Shareholder 2	10,000,000	0.28%	10,000,000	10,000,000	0.14%
Shareholder 3	100,000,000	2.88%	100,000,000	100,000,000	1.44%
Shareholder 4	1,000,000,000	28.80%	1,000,000,000	1,000,000,000	14.40%

Notes:

1. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted are placed under the Shortfall Offer or taken up by the Underwriter.

(b) Current Substantial Shareholders

As at the date of this Prospectus, the Company has the following substantial Shareholders:

Shareholder	Number of Shares Held	Share Held

Mr Gavin Jeremy Dunhill	254,000,000	7.32%

(c) **Effect on Control of the Company**

The following table shows the number of Shares that may be held by, and approximate Voting Power of, the substantial shareholders and the Underwriter following completion of the Entitlement Offer at various levels of Shortfall:

Shareholder	100% acceptance of Entitlements ⁽¹⁾		75% acceptance of Entitlements ⁽¹⁾		50% acceptance of Entitlements ⁽¹⁾		25% acceptance of Entitlements ⁽¹⁾		0% acceptance of Entitlements ⁽¹⁾

Notes:

- 1 The above calculations are on an undiluted basis.
- 2 The calculations in the table above assume that none of the Shortfall is allocated to any sub-underwriter.
- 3 The calculations above assume that none of the Shortfall is allocated to any Eligible Shareholders or third party investors in accordance with the Shortfall allocation policy (refer to Section 2.7(b) for further details).
- 4 Lindfield Nominee Services Pty Ltd <Gary Greenbaum> Mr David Garry <Gary Greenbaum A/C> and Lindfield Nominee Services Pty Ltd <Rahul Agarwal> Mr David Garry <Rahul Agarwal A/C> have advised the Company that they intend to take up 50,000,000 New Shares (representing 9.05% of their Entitlements).
- 5 Mr Gavin Dunhill is being treated the same as all other Shareholders i.e. that he will be diluted in accordance with taking up 100%/75%/50%/25%/0% of his Entitlement.

The number of Shares held by the Underwriter and its Voting Power in the table above shows the potential effect of the underwriting of the Entitlement Offer. However, it is unlikely that no Eligible Shareholders will take up their Entitlement under the Entitlement Offer. Further, the underwriting obligation and therefore the Voting Power of the Underwriter will also be reduced by a corresponding amount for the amounts of Shortfall taken up by the Eligible Shareholders, third party investors (and any sub-underwriters).

Under section 606 of the Corporations Act, a person cannot acquire a relevant interest in the issued voting shares of a company if, because of a transaction in relation to securities of that company, a person's voting power in the company increases from 20% or below to more than 20% (or from a starting point that is above 20% and below 90%).

There are certain exceptions to the above prohibition in section 611 of the corporations Act. Item 10 of section 611 of the Corporations Act (**Rights Issue Exception**) provides an exception for an acquisition pursuant to a rights issue if the following conditions are satisfied:

- (i) the company offers to issue securities to every person who holds securities on a pro-rata basis;

- For personal use only
- (ii) all of those persons have a reasonable opportunity to accept the offers made to them;
 - (iii) agreements to issue are not entered into until the closing date of the offer; and
 - (iv) the terms of all offers are the same.

The Rights Issue Exception extends to any underwriters of a rights issue or any sub-underwriters. If the Rights Issue Exception is to be relied upon then section 615 of the Corporations Act (regarding the appointment of a nominee for the sale of foreign shareholders' rights) must be complied with, which includes a requirement for ASIC to approve the nominee (refer to Section 2.16 for further detail).

The table above indicates that the underwriting of the Entitlement Offer by the Underwriter may result in the Underwriter increasing its Voting Power to more than 20% of the issued share capital of the Company.

(d) **Consequences**

Following the Entitlement Offer, the Underwriter may increase their Voting Power in the Company as detailed above. This would result in a greater percentage of the Company's Shares being concentrated in a single shareholding group which may:

- (i) dissuade potential acquirers of the Company from making a takeover offer in the future, which may adversely affect the Company's share price and reduce the opportunity for Shareholders to receive a takeover premium in the future; and
- (i) lower the free float of the Company's shares (on a proportional basis), which may reduce liquidity and adversely affect the market value of the Shares.

4. Effect of the Entitlement Offer

4.1 Capital structure on completion of the Entitlement Offer

On the basis that the Company completes the Entitlement Offer, the Company's capital structure will be as follows:

4.2 Pro-forma statement of financial position

Set out on the following pages are the Company's Consolidated Statement of Financial Position as at 30 June 2019 (audited), Consolidated Statement of Financial Position as at 30 September 2019 (unaudited) and the Company's Pro-Forma Consolidated Statement of Financial Position as at 30 September 2019 (unaudited) (**Statements**).

The Statements are presented in abbreviated form insofar as they do not include all the disclosures that are present in annual financial reports as required by Australian Accounting Standards. The significant accounting policies that underpin the Statements are the same policies as those outlined in the Company's Annual Report for the year ended 30 June 2019.

The Pro-Forma Statement of Financial Position has been prepared on the basis that there are no material movements in the assets and liabilities of the Company between 30 September 2019 and the completion of the Entitlement Offer except for:

- at full subscription of the Entitlement Offer, the issue of 3,472,032,756 New Shares at \$0.001 cents each (subject to rounding and assuming that no Options or convertible notes are exercised before the Record Date) to raise up to \$3.47 million (before associated costs);
- estimated costs and fees of the Entitlement Offer of \$276,559;
- receipt of a \$750,000 short term loan facility for working capital and repayment of the same (including \$36,500 in interest and fees); and
- payment of US\$750,000 in full and final settlement of the Company's outstanding convertible note debt to Obsidian.

The accounting policies adopted in the preparation of the pro forma balance are consistent with the accounting policies adopted and described in the Company's financial Report for the year ended 30 June 2019 and should be read in conjunction with that financial Report.

No allowance has been made for expenditure incurred in the normal course of business from the date of this Prospectus to the Closing Date.

6. Risks

New Securities are considered highly speculative. An investment in the Company is not risk free. The proposed future activities of the Company are subject to a number of risks and other factors that may affect its future performance. Some of these risks can be mitigated by the use of safeguards and appropriate controls. However, many of the risks are outside the control of the Directors and management of the Company and cannot be mitigated

The risks described in this Section 6 are not an exhaustive list of the risks faced by the Company or by investors in the Company. It should be considered in conjunction with other information in this Prospectus. The risks described in, and others not specifically referred to, in this Section 6 may in the future materially affect the financial performance and position of the Company and the value of New Securities offered under this Prospectus. The New Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, return of capital or the market value of those securities. The risks described in this Section 6 also necessarily include forward looking statements. Actual events may be materially different to those described and may therefore affect the Company in a different way.

Investors should be aware that the performance of the Company may be affected and the value of its Shares may rise or fall over any given period. None of the Directors or any person associated with the Company guarantees the Company's performance, the performance of the Shares or the market price at which the Shares will trade. The Directors strongly recommend that potential investors consider the risks detailed in this Section 6, together with information contained elsewhere in this Prospectus, and consult their professional advisers, before they decide whether to apply for New Securities.

6.1 Risks specific to the Company and the Entitlement Offer

The current and future operations of the Company, including exploration, appraisal and production activities, may be affected by a range of factors, including:

(a) **Implementation of New Business Strategy**

The Company has recently adopted and implemented a new strategy and business focus to overcome the Company currently operating on a cash flow negative basis. This new strategic focus aims to shift much of its product development, business development, and sales efforts away from DataFlex®, Freeway®, and the Connected Services Platform® to support content distribution and sales via the Syntonic revenue generation platform in Brazil and in other markets where the Company has an established presence, such as Vietnam, the Philippines and South Africa (refer to the ASX announcement dated 13 November 2019 for further details).

The Company considers the impact of this strategic shift to be two-fold. Firstly, it significantly reduces Syntonic's engineering costs, specifically related to carrier integration, testing, and customisation and secondly, it provides Syntonic with more control over its business performance, enabling it to transact with consumers rather than licensing technology to mobile carriers. However, there are risks inherent to any company implementing a new business strategy and there is no certainty that the Company's new strategy will be successful.

(b) **Competition and New Technologies**

The industry in which the Company is involved is subject to increasing domestic and global competition which is fast-paced and fast-changing. While the Company undertakes all reasonable due diligence in its business decisions and operations, the Company has no influence or control over the activities or actions of its competitors, whose activities or actions may positively or negatively affect the

operating and financial performance of the Company's projects and business. For instance, new technologies could result in the Company not being differentiated to other similar offerings.

The size and financial strength of some of the Company's competitors may make it difficult for it to maintain a competitive position in the technology market. In particular, the Company's ability to acquire additional technology interests could be adversely affected if it is unable to respond effectively and/or in a timely manner to the strategies and actions of competitors and potential competitors or the entry of new competitors into the market. This may in turn impede the financial condition and rate of growth of the Company.

The key competition risk is in achieving appreciable market share and differentiation from its key competitors.

(c) **Future Capital Needs and Additional Funding**

On completion of the Entitlement Offer, the Directors believe that the Company will have sufficient funds to satisfy short and medium term working capital requirements. However, the reorientation of the Company's business strategy may require additional financing in the future for content licensing, pre-payments, and/or minimum annual financial guarantees to progress at a competitive rate

No assurances can be given that the Company will be able to raise the additional funding, which may be a combination of debt and/or equity financing. To meet such funding requirements, the Company may be required to undertake additional equity financing, which would be potentially dilutive to Shareholders depending on their participation in any equity raising. Debt financing, if available, may involve certain restrictions on operating activities or other financings. The Company cannot assure Shareholders that it will be able to raise the required equity or debt financing required to meet working capital requirements.

The Company's ability to raise further equity or debt, and the terms of such transactions, will vary according to a number of factors, including the results achieved by the Company, stock market conditions, the overall risk appetite of investors along with access to credit markets and other funding sources.

An inability to obtain the required additional finance would have a material adverse effect on the Company's business and its financial condition and performance.

(d) **Customer Acquisition and Retention**

The Company's revenue is affected by its ability to attract and retain customers to the subscription content offerings supported by the Syntonic Revenue Generation Platform™ (RGP). Various factors can affect the level of customers sales.

If the Company's marketing and promotion efforts are not effective, this may result in fewer customer transactions, higher customer conversation costs, and lower profit margins; and

If the Company suffers from reputational damage, customer adoption could be affected.

Accordingly, there is no guarantee that the Company's customer marketing strategies will be successful to achieve a sizeable customer take up rate of its content offerings.

(e) **Hacker Attacks**

The Company will rely upon the availability of its Syntonic RGP to provide services to customers and attract new customers. Hackers could render the Syntonic RGP unavailable or cause customers' personal information to be compromised.

Although the Company has strategies in place to minimise such attacks, these strategies may not be successful. Unavailability of the Syntonic RGP could lead to a loss of revenue for the Company while compromising customers' information could hinder the Company's abilities to retain existing customers or attract new customers, which would have a material adverse impact on the Company's growth.

There is also currently an increased exposure to organisations that process personal information in the course of their commercial activities, in particular, relating to liability arising from security incidents. Although the Company is relatively small, vulnerabilities in the information security governance will require remediation in the near future.

(f) **Risks Associated with Overseas Expansion**

The Syntonic RGP has been constructed so as to be capable of being utilised in, and marketed to, multiple overseas jurisdictions. As the Company seeks to expand into overseas markets, including Southeast Asia, Europe and Latin America, it may require a physical presence in those countries and an associated increase in overheads and development and marketing costs.

There is the risk that any overseas expansion will be unsuccessful, or that even if there is demand for the Company's products in that market, that the costs of doing business in that market, including the costs of establishing a new base in country, overseas regulatory compliance and the potential duplication of running costs for the business, are such that the Company's profitability and available working capital will be adversely impacted.

(g) **Reputational Risks**

The Company operates in an online and fast-changing environment. Negative publicity can spread quickly, whether true or false. Disgruntled users posting negative comments about the business in public forums may have a disproportionate effect on the reputation of the Company and/or its acquired businesses (as applicable) and their ability to earn revenues and profits. Additionally, complaints by such users can lead to additional regulatory scrutiny and a consequential increased compliance burden in responding to regulatory enquiries. This could negatively impact upon the Company's and its acquired business' profitability (as applicable).

(h) **Customer Concentration Risk**

Over-reliance upon key customers may, in the event of termination or non-renewal of such arrangements, create revenue volatility. The Company is conscious of customer concentration risk and the need to diversify its customer base. However, large contract wins could skew the concentration of revenues, increasing the risk that non-renewal will have a larger impact on future earnings.

(i) **Contractual Third Party Risk**

The Company relies on third parties for key deliverables in its business model. This includes payment gateway providers, sales staff and integration of the Syntonic RGP to the market dispensing software packages. A failure of any one of these parties without an appropriate countermeasure could cause a disruption to operations. The company is continually assessing the risk and opportunities associated with its business model and other than disruptions for short periods of time due to service delivery failure is not solely reliant on any one party for delivery.

(j) **Key personnel**

The Company's businesses are reliant on a number of key personnel and the loss of the services of one or more of these individuals could adversely affect the Company. In addition, the Company's plans for expansion will require it to recruit

and train new employees. Although the Company expects to be able to attract and retain skilled and experienced personnel, there can be new employees and, where appropriate, may utilise existing and establish new employee incentive plans to encourage the employees' loyalty to the Company.

(k) **Protection of Intellectual Property Rights**

The Company has pursued IP protection in the form of patent applications, however legal standards relating to the validity, enforceability and scope of protection of intellectual property rights are uncertain. Effective patent, trademark, copyright and trade secret protection may not be available to the Company in every country in which the Syntonic RGP may eventually be launched. Accordingly, despite its efforts, the Company may not be able to prevent third parties from infringing upon or misappropriating its intellectual property.

Market conditions depending, the Company may be required to incur significant expenses in monitoring and protecting its intellectual property rights. It may initiate or otherwise be involved in litigation against third parties for infringement, or to establish the validity, of its rights. Any litigation, whether or not it is successful, could result in significant expense to the Company and cause a distraction to management.

(l) **Failure to Deal with Growth**

The Directors will continue to seek to grow the Company both organically and through new investment opportunities. There are always risks that the benefits, synergies or efficiencies expected from such investments or growth may take longer than expected to be achieved or may not be achieved at all. Any investments pursued could have a material adverse effect on the Company.

There is a risk that management of the Company will not be able to implement the Company's growth strategy after completion of the Entitlement Offer. The capacity of the expanded management team to properly implement and manage the strategic direction of the Company may affect the Company's financial performance.

The Company's business has the potential to grow rapidly. If that occurs and the Company fails to properly manage that growth, then that failure could harm its business. Any failure to meet customer demand properly could adversely affect the Company's business, including demand for the Company's products/services, revenue collection, customer satisfaction and public perception.

(m) **Currency Risk**

The Company expects to derive its revenue in the local currency in which the Company has deployed its RGP. The principle markets in which the Company has and plans subsequent deployments of its RGP are in emerging economies such as Latin America, Africa, and Southeast Asia. Accordingly these markets have less stable currencies compared to developed markets which can result in higher uncertainty in the Australian denominated value of the local revenues received, impacting the performance of the Company.

(n) **Termination by Underwriter and terms of underwriting**

The Underwriting Agreement includes various termination events upon the occurrence of which the Underwriter may elect to terminate the Underwriting Agreement.

In the event that the Underwriting Agreement is terminated:

- (i) the Entitlement Offer will not be underwritten and may not raise the full amount intended;

- (ii) the Directors may determine not to proceed with the Entitlement Offer; and/or
- (iii) the Company may have insufficient funds to complete all of the expenditure set out in Section 2.3.

For further details of the Underwriting Agreement refer to Section 3.1.

6.2 General risks

(a) Reliance on Key Management

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and Directors. There can be no assurance that there will be no detrimental impact on the performance of the Company or its growth potential if one or more of these employees cease their employment and suitable replacements are not identified and engaged in a timely manner.

(b) Trading Price of Shares

The Company's operating results, economic and financial prospects and other factors will affect the trading price of the Shares. In addition, the price of Shares is subject to variation and often unpredictable influences on the market for equities, including, but not limited to, general economic conditions including the performance of the Australian dollar on world markets, inflation rates, foreign exchange rates and interest rates, variations in the general market for listed stocks in general, changes to government policy, legislation or regulation, industrial disputes, general operational and business risks, and hedging or arbitrage trading activity that may develop involving the Shares.

In particular, the share prices for many companies have been and may in the future be highly volatile, which in many cases may reflect a diverse range of non-company specific influences such as global hostilities and tensions relating to certain unstable regions of the world, acts of terrorism and the general state of the global economy. No assurances can be made that the Company's market performance will not be adversely affected by any such market fluctuations or factors.

(c) Additional Requirements for Capital

The capital requirements of the Company depend on numerous factors. Depending on the ability of the Company to generate income from its operations, the Company may require further financing in the future. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations.

(d) Litigation Risks

The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.

(e) **Economic Risks**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's activities, as well as on its ability to fund those activities.

Further, share market conditions may affect the value of the Company's securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) interest rates and inflation rates;
- (iii) currency fluctuations;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

(f) **Technology Sector Risks**

The technology sector is characterised by rapid change. New and disruptive technologies can place competitive pressures on existing companies and business models, and technology stocks may experience greater price volatility than securities in some slower changing market sectors.

The value of the Company's securities may be adversely affected by any general decline in the valuation of listed securities and/or adverse market sentiment towards the technology sector in particular, regardless of the Company's operating performance.

(g) **Force Majeure**

The Company, now or in the future, may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, extreme weather conditions, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(h) **Acquisitions**

As part of its business strategy, the Company may make acquisitions of, or significant investments in, companies, products, technologies and/or products that are complementary to the Company's business. Any such future transactions are accompanied by the risks commonly encountered in making acquisitions of companies, products and technologies, such as integrating cultures and systems of operation, relocation of operations, short term strain on working capital requirements, achieving the sales and margins anticipated and retaining key staff and customer and supplier relationships.

6.3 **Investment Highly Speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities offered under this Prospectus. Therefore, the Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities. Potential investors should consider that the investment in the Company is speculative and should consult their professional adviser before deciding whether to apply for Securities pursuant to this Prospectus.

7. Additional information

7.1 Continuous Disclosure Obligations

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act, and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's Securities. The New Shares are in the same class as Shares that have been quoted on the official list of the ASX during the three months prior to the issue of this Prospectus.

This Prospectus is a 'transaction specific prospectus' to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities, or operation to acquire securities, in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms 'transaction specific prospectuses' are only required to contain information in relation to the effect of the issue of New Shares on the Company and the rights attaching to the New Shares. It is not necessary to include general information in relation to all of the assets and liabilities, the financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the closing date of the Entitlement Offer:
 - (i) the annual financial report of the Company for the financial year ended 30 June 2019 being the most recent annual financial report of the Company lodged with the ASIC before the issue of this Prospectus; and
 - (ii) the half year financial report of the Company for the six months ended 31 December 2018 lodged with ASIC after the lodgement of the annual financial report mentioned in paragraph (i) and before the issue of this Prospectus; and

- (iii) any documents used to notify ASX of information relating to the Company in the period from lodgement of the annual financial report referred to in paragraph (i) above until the issue of this Prospectus in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.
