2019

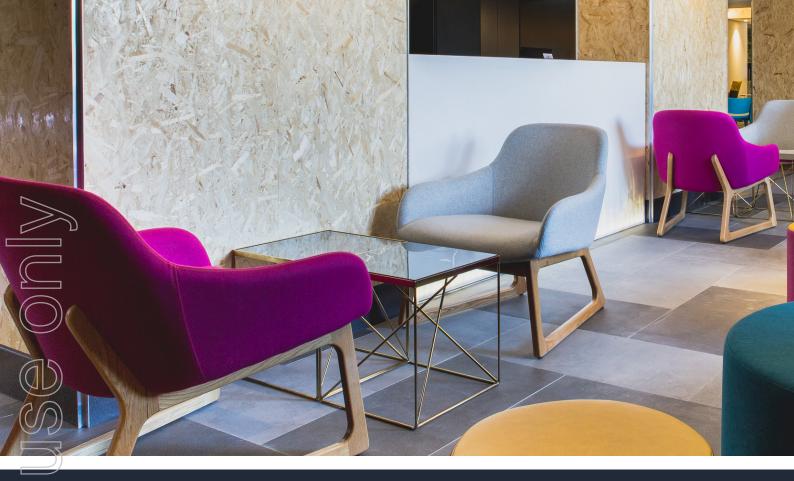

Annual Report

TRANSMETRO CORPORATION LIMITED ABN 45 001 809 043

METRO HOTELS

Metro Hospitality Group operates a network of accommodation hotels and pubs in key locations and major cities across Australia including Sydney, Melbourne, Perth, Gladstone, Darwin and Groote Eylandt (NT).

Year on year, the chain's national portfolio of hotels and apartments continues to attract a broadening range of corporate and leisure guests, whilst the group's Palace Hotel Sydney and The Elephant British pub, continue to host tens of thousands of Australians and visiting tourists annually.

Metro Hotels attracts guests from both the domestic and international markets for corporate and leisure stays as well as in select locations, conferences and functions. The Metro Hotels group offers a unique range of hospitality from fully serviced hotels to spacious self-contained CBD located apartments.

In addition to its accommodation hotels network, the Metro Hospitality Group has interests in theme pubs in Sydney and Adelaide.

The pubs division continues to support the broad expertise of the group and has enabled it to leverage its resources over a wider portfolio of interests. It has also brought cross-promotional benefits. Having formed in 1997, Metro Hospitality Group's pub division is now in its twenty second year of operation.

The flexibility and diversity of the Metro Hospitality Group, incorporating Metro Hotels and Pubs, gives Transmetro Corporation a high degree of confidence in its capacity to confront the present and future challenges of a dynamic and everchanging marketplace.

The company is dedicated to building client relationships and offers a unique range of longestablished and well recognised brands.

Argyle.

As part of a strategic alliance, Argyle Hotel Group (AHG) has been a gateway for Transmetro Corporation into the Asian market since 2007. AHG is the premier Australian exporter of hotel and resort services in Asia, with 3.4 billion USD in assets under management and 140 hotels in all segments of the market from 5-star hotels and resorts, midscale business hotels to serviced apartments. The Argyle Hotel Group also provides tertiary education and training in hospitality and hotel management including partnerships with renowned universities across China.

Metro Hotels OUR OPERATIONS

METRO HOTELS AND APARTMENTS

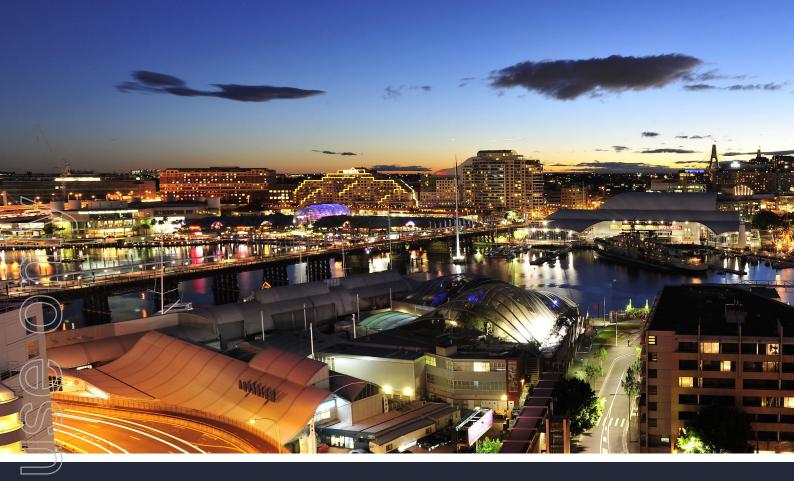

Based in capital cities or larger regional centres, Metro Hotels are generally four star properties catering mainly for corporate guests, inbound travellers, and holidaymakers. The fully-serviced hotels include restaurants, meeting rooms, and business facilities. Some properties include comprehensive conference and function space.

Metro Apartments complexes are located in major cities and cater for corporate and leisure guests looking for longer term stays. Properties are ranked in the 3.5 to 4.5 star bracket, and are fully equipped with kitchen facilities, separate living room and bedroom space as well as laundry facilities, making Metro's apartment properties an ideal 'home away from home'.

PUBS

A unique range of pubs in capital cities providing beverages, food, entertainment, and in one location, gaming.

The division operates The Palace Hotel since 1877 in Sydney, and The Elephant, a British pub, in Adelaide.

THE YEAR IN REVIEW

2018/19 has been a successful year for Metro Hotels and the parent company with a number of asset sales occurring.

During the year the company disposed of its Ipswich Hotel, which it had run for a little more than a decade. The hotel has been sold to an aged care operator and is currently in the process of being converted to an aged care facility.

Transmetro also sold some surplus land it owned adjacent to its Metro Hotel Perth. In the previous financial year the group disposed of its long-held interest in the Metro Hotel Tower Mill in Brisbane.

Profit before interest, depreciation and tax from continuing operations for the 2018/19 year was \$2.89 million. After interest, depreciation and tax the net profit of the group was \$2.11 million.

The current year which began on 1 July 2019 poses a number of challenges with a subdued economy, heightening trade tensions between China and the United States which impacts Australia at large, and a depreciating Australian dollar.

Leisure travel is steady although growth from our biggest source of inbound travellers, China has slowed to 0.08% over the past year. Nonetheless China remains Australia's biggest source of overseas visitors, with 1.43 million Chinese tourists visiting our shores in 2018/19. China offers Australia's tourism sector significant potential in the future.

Metro Hotels maintains its marketing alliance with the Argyle Hotel Group which now operates 140 hotels in China, in 93 cities. The alliance remains in place despite the New York stock exchange listed GreenTree Hospitality Group taking a majority stake in the Argyle group earlier this year.

GreenTree is a major franchised hotel operator in China having assembled more than 2,500 hotels under its wing.

Metro Hotels' continued alliance with Argyle, and through it GreenTree Hospitality Group, augers well for

Directors' REVIEW 2019

the group as it is anticipated that the Chinese market will continue to grow in the years ahead.

New Zealand remains the next highest source of inbound business for Australia, with a little over 1.4 million New Zealanders visiting our shores over the 2018/19 year.

The U.S. and the UK rank third and fourth respectively as the next major sources of overseas visitation into Australia, however the eighth ranked India is the market to have recorded the most growth over the year (11.1%).

The lower Australian dollar has been a positive for the hotel sector. A lower dollar makes Australia as a destination more affordable, and is a deterrent to Australians considering overseas travel. In the past a lower currency has boosted Australian hotel occupancies.

The company remains on the look-out for new opportunities in the hospitality sector. There are some interesting areas the company is presently exploring and if and when they come to fruition we will announce details. The Metro Hospitality Group which comprises Metro Hotels, is also invested in pubs, and the company's locations in Sydney and Adelaide continue to cater for their local markets. The Palace since 1877 has been hampered over the past two years by the development of the Sydney Metro, however the work around the hotel has come to an end, and the hotel is back doing the good business it was doing beforehand.

The group is appreciative of the support of those that have patronised our establishments over the past year, and the more than four decades the group has been operating.

The directors are also appreciative of the efforts and initiative of our Australia-wide executive base and our colleagues that staff our hotels in the various areas in which we operate across Australia.

Our appreciation is extended to all of them, and to our suppliers and shareholders for their continued support.

Your directors have pleasure in submitting their report for the year ended 30 June 2019.

DIRECTORS

The names of the directors of the company in office at the date of this report are: D Lloyd JAC McEvoy

A Notley

S Notley (alternate for A Notley)

P J Frawley

MEETINGS OF DIRECTORS

The following table sets out the numbers of meetings of the company's directors held during the year ended 30 June 2019 and the numbers of meetings attended by each director.

| Director | Number Eligible to attend | Number Attended |
|-------------|---------------------------------|--------------------|
| D Lloyd | 11 | 9 |
| JAC McEvoy | 11 | 11 |
| A Notley | 11 | 8 |
| S Notley | 3 | 2 |
| P J Frawley | 11 | 11 |

As at the date of this report the company does not have an audit committee as the Board, consisting of four directors, feels that all matters of audit significance can be adequately dealt with by the Board.

PRINCIPAL ACTIVITIES

The principal activities of the consolidated group are the operation of Hotels, Inns, Serviced Apartments, and Theme Pubs.

RESULTS FOR THE YEAR

Profit before interest, depreciation and tax from continuing operations was \$2.89 million. After interest, depreciation and tax the net profit of the group was \$2.11 million.

DIVIDENDS

A fully franked final dividend for the 2017/18 year of 5 cents per share was paid on 29 June 2018. A fully franked final dividend for the 2018/19 year of 10 cents per share was paid on 28 June 2019.

EARNINGS PER SHARE

Earnings per share from continuing operations were 15.79 cents per share (after interest, depreciation and tax) compared to 3.93 cents for the previous financial year.

FINANCIAL POSITION

The net assets of the consolidated group have increased by \$4.12 million during the year ended 30 June 2019 due to:

Group net profit after tax attributable to members of \$5.46 million less dividends paid of \$1.34 million.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

Other than as noted above, there were no significant changes in the state of affairs of the consolidated group during the financial year.

EVENTS SUBSEQUENT TO BALANCE DATE

No matters or circumstances have arisen since the end of the financial year other than those disclosed in note 32 to the financial report.

FUTURE DEVELOPMENTS, PROSPECTS AND BUSINESS STRATEGIES

Likely developments, future prospects and business strategies of the operations of the consolidated group and the expected results of those operations have not been included in this report as the directors believe, on reasonable grounds, that the inclusion of such information would be likely to result in unreasonable prejudice to the consolidated group.

ENVIRONMENTAL ISSUES

The consolidated group's operations are not subject to any significant environmental regulation under Commonwealth or State law.

INFORMATION ON DIRECTORS

JOHN McEVOY, Chairman

John has spent more than four decades in the hospitality industry in Australia. He founded the Metro group in 1976 while in his twenties. He has served as chairman and managing director of Transmetro Corporation since it was incorporated in 1979. Additionally John has extensive experience in marketing and the media, having held a number of executive roles with Consolidated Press's then-radio network, and Channel 9 Sydney.

PETER FRAWLEY, MBA, Managing Director

Peter has spent 3 decades in the hospitality industry holding senior positions in a number of major listed hotel groups including Starwood, Accor and CDL Hotels. He was Managing Director of All Seasons Hotels, P&O Cruises. In recent years Peter has undertaken assignments offshore in Asia, India and the UAE for Starwood, Bin Haider Hospitality Dubai, Accor India, and Tradewinds International Malaysia.

Peter completed his MBA in Management at Macquarie University and holds a Bachelor of Business in La Trobe University. He also holds a Diploma of Corporate Governance from the Australian Institute of Company Directors.

ALAN NOTLEY, FCPA ACA (NZ) FAIM, Non-Executive Director

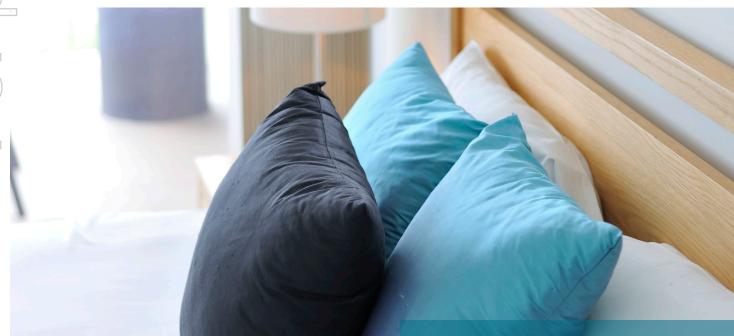

Alan is a former Executive Director of Ansett Transport Industries Limited serving on the Ansett board from 1981 to 1992. Alan also served as Executive Chairman of Traveland International Pty Ltd, which operated 250 travel agencies, Chairman of Ansett Pioneer Bus Lines and Executive Chairman of Diners Club Australia. Alan is presently Chairman of ASP Ship Management Pty Ltd, a major ship management organization.

DAVID LLOYD, Non-Executive Director

David has widespread commercial experience with several chartered accounting firms in Adelaide, Brisbane and Sydney as a division manager and continues to act as a consultant specialising in corporate investigations, planning and reconstruction.

SUSAN NOTLEY (B.A. University of Sydney), Non-Executive Director (Alternate director to Alan Notley)

Susan has had over 20 years experience in the tourism industry at the wholesale distribution level. She currently operates her own consultancy in tourism industry marketing.

COMPANY SECRETARIES

David Lloyd and Jakin Agus.

David Lloyd is also a director, and his qualifications and experience are shown above.

JAKIN AGUS, CPA, Company Secretary Jakin Agus has a Bachelor of Commerce degree and has been in the hospitality industry for more than twenty years. He joined Transmetro Corporation Ltd in 2000 as Management Accountant based at the company's head office. A year later he was appointed Financial Controller of the company's Pubs division. In 2005 he was appointed Group Accountant of Metro Hospitality Group. In 2012 he was appointed Group Financial Controller of Metro Hospitality Group.

INDEMNIFYING OFFICERS OR AUDITOR

An insurance policy is in place to cover directors and officers, however the terms of the policy prohibit disclosure of the details of the insurance cover and the premiums paid.

The company has not otherwise, during or since the financial year, agreed to indemnify an officer or auditor of the company or of any related body corporate against a liability incurred as such an officer or auditor.

DIRECTORS' INTERESTS AND BENEFITS

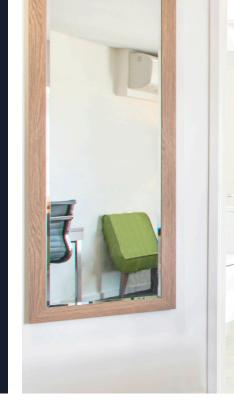

Shares held by directors and director-related entities at the date of the directors' report are:

| Director | Number of Shares held directly | Number of Shares held indirectly |
|------------|--------------------------------------|--|
| P Frawley | - | _ |
| D Lloyd | - | - |
| JAC McEvoy | 5,942,114 | 5,695,549 |
| A Notley | 9,000 | - |
| S Notley | - | - |

Since the end of the previous financial year, no director of the company has received or become entitled to receive any benefit by reason of a contract made by the company or a related corporation with the director or with a firm of which the director is a member, or with a company in which the director has a substantial interest.

REMUNERATION REPORT

This report details the nature and amount of remuneration for each director and key management personnel (KMP) of Transmetro Corporation Limited. DIRECTORS' REPORT 2019

Remuneration Policy

The remuneration policy of Transmetro Corporation Limited has been designed to align director and KMP objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives based on key performance areas affecting the Consolidated Entity's financial results. The board of Transmetro Corporation Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best KMP and directors to run and manage the Consolidated Entity, as well as create goal congruence between directors, KMPs and shareholders.

The following table shows the gross revenue and results for the last two years for the listed entity, as well as the share price at the end of the respective financial years.

| | 2019 | 2018 |
|---------------------------------------|--------------|--------------|
| Revenue from continuing operations | \$28,408,475 | \$29,637,484 |
| Net profit from continuing operations | \$2,113,034 | \$525,841 |
| Share price at year end | \$1.15 | \$1.08 |

The board's policy for determining the nature and amount of remuneration for board members and KMP of the Consolidated Entity is as follows:

The remuneration policy, setting the terms and conditions for the KMP directors and other senior KMPs, was developed by the remuneration committee, which currently is the entire board. All KMPs receive a total remuneration package, which may include a base salary (commensurate with their expertise and experience), superannuation, fringe benefits and performance incentives. The remuneration committee reviews KMP packages annually by reference to the Consolidated Entity's performance, KMP performance and comparable information from industry sectors and other listed companies in similar industries.

The performance of KMPs is measured with each KMP and is based predominantly on the forecast growth of the company financial performance and shareholders' value. All bonuses and incentives must be linked to predetermined performance criteria. Any changes must be justified by reference to measurable performance criteria. The policy is designed to attract the highest calibre of KMPs and reward them for performance that results in long-term growth in shareholder wealth.

The company does not have a KMP share option scheme. Directors and KMP do not receive share options.

KMP receive a superannuation guarantee contribution required by the government, which is currently 9.50%. Some individuals, however, have chosen to sacrifice part of their salary to increase payments towards superannuation. KMP are paid employee benefit entitlements accrued to the date of retirement

All remuneration paid to directors and KMP is valued at the cost to the company and expensed.

The board policy is to remunerate non-KMP directors and employees at market rates for comparable

companies for time, commitment and responsibilities. The remuneration committee determines payments to the non-KMP directors and employees and reviews their remuneration annually, based on market practice, duties and accountability. Fees for non-KMP directors and employees are not linked to the performance of the Consolidated Entity.

Performance Based Remuneration

As part of KMPs' remuneration packages there is a performance-based component, consisting of key performance indicators (KPIs). The intention of this program is to facilitate goal congruence between KMPs with that of the business and shareholders. The KPIs are set annually, with a certain level of consultation with KMPs. The measures are specifically tailored to the areas each KMP is involved in and has a level of control over. The KPIs target areas the board believes will improve the performance of the company, covering financial and non-financial as well as short- and long-term goals. The level set for each KPI is based on budgeted figures for the group.

Performance in relation to the KPIs is assessed annually, with bonuses being awarded depending on the KPIs achieved. Following the assessment, the KPIs are reviewed by the Remuneration Committee in light of the desired and actual outcomes, and their efficiency is assessed in relation to the group's goals and shareholder wealth, before the KPIs are set for the following year.

In determining whether or not a KPI has been achieved, Transmetro Corporation Limited bases the assessment on audited figures where appropriate.

DIRECTORS' REPORT 2019

Company Performance, Shareholder Wealth and Directors' and KMPs' Remuneration The remuneration policy has been tailored to increase goal congruence between shareholders and directors and KMPs, being a performance based bonus based on key performance indicators. The company believes this policy should be effective in increasing shareholder wealth over the medium term.

The board will review its remuneration policy annually to ensure it is effective.

Performance Income as a proportion of Total Remuneration

KMP are paid performance based bonuses based on a proportion of their total remuneration package. The remuneration committee has set these bonuses to encourage achievement of specific goals that have been given a high level of importance in relation to the future growth and financial performance of the Consolidated Entity. The remuneration committee will review the performance bonuses to gauge their effectiveness against achievement of the set goals, and adjust future years' incentives as they see fit, to ensure use of the most cost effective and efficient methods.

All KMPs' remuneration for the year ended 30 June 2019 had a fixed component and a variable component of their overall remuneration, with the variable part of their remuneration paid subject to a performance condition.

Employment Contracts of Directors and KMPs

The employment conditions of the chief KMP are formalised in contracts of employment. All KMPs are

permanent employees of Transmetro Corporation Limited. No contract is for a fixed term. Each contract states it can be terminated by the company by giving up to three to six months notice and by paying a redundancy of between three to six months.

Key Management Personnel compensation

Names and positions held of economic and parent entity key management personnel in office at any time during the financial year are:

| Key Management Person | Position |
|--|---|
| JAC McEvoy | Chairman |
| P J Frawley | Managing Director - Executive |
| A Notley | Non-Executive Director |
| D Lloyd | Non-Executive Director |

NON-AUDIT SERVICES

The Board of Directors is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The directors are satisfied that the services disclosed below did not compromise the external auditor's independence as the nature of the services provided do not compromise the general principles relating to auditor independence set out in APES 110: Code of ethics for Professional Accountants set by Accounting Professional and Ethical Standards Board.

Fees of \$6,500 were payable to the external auditors during the year ended 30 June 2019 for the preparation of income tax returns, and fees of \$200 were payable for other services.

AUDITOR'S INDEPENDENCE DECLARATION

The lead auditor's independence declaration for the year ended 30 June 2019 is attached to this report. Signed at Sydney this 26th day of September 2019 in accordance with a resolution of the directors.

J McEvoy Chairman

DIRECTORS' DECLARATION

The directors of the company declare that:

- 1. The accompanying financial statements and notes are in accordance with the Corporations Act 2001 and:
 - (a) comply with Accounting Standards and the Corporations Regulations 2001; and(b) give a true and fair view of the financial position as at 30 June 2019 and of the
 - performance for the year ended on that date of the company and consolidated group.

2. The Managing Director and Group Financial Controller have each declared that:

- (a) the financial records of the company for the financial year have been properly maintained in accordance with section 286 of the Corporations Act 2001;
- (b) the financial statements and notes for the financial year comply with the Accounting Standards; and
- (c) the financial statements and notes for the financial year give a true and fair view.

3. In the directors' opinion there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the directors by:

Im.

J McEvoy Chairman Signed at Sydney this 26th day of September 2019.

Independent Auditor's Report

<u>To the members of Transmetro Corporation Limited</u> <u>Report on the Audit of the Financial Report</u>

OPINION

We have audited the financial report of Transmetro Corporation Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated balance sheet as at 30 June 2019, the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the Corporations Act 2001, including:

i. giving a true and fair view of the Group's financial position as at 30 June 2019 and of its financial

performance for the year then ended; and

ii. complying with Australian Accounting Standards and the Corporations Regulations 2001.

BASIS FOR OPINION

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of Freehold Properties

As disclosed in note 12, the Group holds freehold properties of \$17,354,865 as at 30 June 2019 and this is a significant asset of the Group. The properties were valued by independently licensed valuers for the half year ended 31 December 2017. Hotel properties valuations are sensitive to the key assumptions applied in valuations, in particular, capitalisation rates, growth forecasts and the discounted cash flow outcomes.

To address this risk our audit procedures included the following:

- \cdot we reviewed the valuation methodology used by the independent licenced valuers;
- \cdot we checked the reliability of the underlying assumptions used in the valuations;
- we compared the inputs in the valuations, including the capitalisation rates, discount rates and net income yields to historical data and available industry data and discussed with management any factors that would significantly affect these underlying assumptions; and
- $\cdot\,$ we considered the adequacy of disclosures in the financial statements.

Carrying value of intangible assets

As disclosed in note 16, the group holds intangible assets of \$1,134,225 as at 30 June 2019 and this is a substantial asset of the Group that are subject to an impairment assessment in accordance with AASB 136 "Impairment of Assets".

The impairment assessment of intangible assets requires valuation that is subjective and based on a number of assumptions, specifically cash flow projections, growth rates and discount rates which are affected by future events and economic conditions.

To address this risk our audit procedures included the following:

- $\cdot\,$ we assessed management's determination of the Group's cash generating units (CGUs);
- we reviewed and evaluated the methodology used by the management and reviewed the mathematical accuracy of management's cash flow forecasts;
- we evaluated the key assumptions used by management in their cash flow forecast to determine the recoverability of intangible assets and agreed the data to relevant supporting documents;
- $\cdot\,$ we challenged the key assumptions by considering the evidence available to us internally and externally;
- $\cdot\;$ we considered the historical reliability of prior period cash flow forecasts;
- we considered the sensitivity of the key assumptions such as growth rates and discount rates used in the cash flow forecast; and
- we assessed the adequacy of the Group's disclosure in relation to the carrying value of intangible assets.

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2019, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE FINANCIAL REPORT

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL REPORT

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar2.pdf.

Independent Auditor's Report

REPORT ON THE REMUNERATION REPORT

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2019. In our opinion, the Remuneration Report of Transmetro Corporation Limited, for the year ended 30 June 2019, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

LEAD AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001 TO THE DIRECTORS OF TRANSMETRO CORPORATION LIMITED

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2019 there have been: (i) no contraventions of the auditor independence requirements as set out in the Corporations Act 2001 in relation to the audit; and

(ii) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Transmetro Corporation Limited and the entities it controlled during the year.

Signed this 26th day of September 2019 at Sydney, New South Wales.

1. REPORTING ENTITY

Transmetro Corporation Limited is a company domiciled in Australia. The consolidated financial statements of the Company as at and for the year ended 30 June 2019 comprise the Company and its controlled entities (together referred to as the Consolidated Entity). The Consolidated Entity is primarily involved in the hospitality sector.

2. BASIS OF PREPARATION

a. Statement of compliance

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (AASBs) (including Australian Interpretations) adopted by the Australian Accounting Standards Board and the Corporations Act 2001. The financial report of the Consolidated Entity and the financial report of the Company comply with International Financial Reporting Standards and Interpretations adopted by the International Accounting Standards Board.

b. Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis.

c. Functional and presentation currency These consolidated financial statements are presented in Australian dollars, which is the Company's functional currency.

d. Use of judgments and estimates

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is described in the following areas:

- Provisions and Employee benefits
- Fair value measurement

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements and have been applied consistently by all entities in the Consolidated Entity.

a. Basis of consolidation

Controlled entities

Controlled entities are entities controlled by the Company. Control exists when the Company has power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable or convertible are taken into account. The financial statements of controlled entities are included in the consolidated financial statements from the date that control commences until the date that control ceases. Investments in controlled entities are carried at their cost of acquisition in the Company's financial statements.

Transactions eliminated on consolidation

Intra-group balances and any unrealised gains and losses or income and expenses arising from intragroup transactions, are eliminated in preparing the consolidated financial statements.

b. Income Recognition

Revenue from the rendering of a service is recognised upon the delivery of the service to the customer. All revenue is stated net of the amount of goods and services tax (GST).

Sales revenue

Sales revenue comprises revenue earned (net of returns, discounts and allowances) from the provision of service. Revenue from the sale of goods is recognised upon dispatch of goods to customers.

Other income

Other income is recognised on a systematic basis over the periods necessary to match it with the related costs for which it is intended to compensate or, if the costs have already been incurred, in the period in which it becomes receivable. The income is deemed to be receivable when the entitlement is confirmed. Income from subsidiaries and associates are recognised by the parent when the distributions are declared.

c. Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense. Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the relevant taxation authority is included as a current asset or liability in the balance sheet. Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities, which are recoverable from, or payable to, the relevant taxation authority are classified as operating cash flows.

d. Foreign Currency

Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of controlled entities at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary transactions denominated in foreign currencies that are stated at historical cost are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to the functional currency at the foreign exchange rates ruling at the date the fair value was determined. Foreign exchange differences arising on translation are recognised in the income statement.

e. Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with an original maturity of three months or less.

f. Provisions

A provision is recognised in the balance sheet when the Consolidated Entity has a present legal or constructive obligation as a result of a past event that can be measured reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Amortisation

Amortisation is recognised in the income statement on a straight-line basis over the estimated useful lives of the intangible assets from the date they are available for use unless such lives are indefinite. Intangible assets with an indefinite useful life are systematically tested for impairment annually

g. Impairment

The carrying amounts of the Consolidated Entity's assets, other than inventories (see accounting policy (m)) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated (see below). An impairment loss is recognised whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the income statement unless the asset has previously been revalued, in which case the impairment loss is recognised as a reversal to the extent of that previous revaluation with any excess recognised through the income statement. Impairment losses recognised in respect of cash generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash generating unit or a group of units and then, to reduce the carrying amount of the other assets in the unit or a group of units on a pro-rata basis.

Calculation of recoverable amount

Receivables

The recoverable amount of the Consolidated Entity's investments in receivables carried at amortised cost is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these financial assets). Receivables with a short duration are not discounted. Impairment of receivables is not recognised until objective evidence is available that a loss event has occurred. Significant receivables are individually assessed for impairment. Impairment testing of significant receivables that are not assessed as impaired individually is performed by placing them into portfolios of significant receivables with similar risk profiles and undertaking a collective assessment of impairment. Non-significant receivables are not individually assessed. Instead, impairment testing is performed by placing non-significant receivables in portfolios of similar risk profiles, based on objective evidence from historical experience adjusted for any effects of conditions existing at each balance date. The allowance for impairment is calculated with reference to the profile of debtors in the Consolidated Entity's sales and marketing regions.

Other Assets

The recoverable amount of other assets is the greater of their fair value less costs to sell, and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generate cash flows from continuing use that are largely independent of the cash flows of other assets or groups of assets (cash generating units). The goodwill acquired in a business combination, for the purpose of impairment testing is allocated to the cash generating units that are expected to benefit from the synergies of the combination. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

Reversals of Impairment

An impairment loss in respect of a receivable carried at amortised cost is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised. An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed when there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

h. Property, Plant and Equipment

Owned assets

Items of property, plant and equipment are stated at cost less accumulated depreciation (see below) and impairment losses (see accounting policy (g)).

Freehold land and buildings are shown at their fair value (being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction), based on periodic, but at least triennial, valuations by external independent valuers, less subsequent depreciation for buildings. Plant and equipment are measured on the cost basis. The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation reserve in equity. Decreases that offset previous increases of the same asset are charged against fair value reserves directly in equity; all other decreases are charged to the income statement.

Leased assets - Operating leases

Payments made under operating leases are expensed on a straight-line basis over the term of the lease, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased property. Minimum lease payments include fixed rate increases.

Depreciation

The depreciable amount of all fixed assets including building and capitalised lease assets, but excluding freehold land, is depreciated on a straight-line basis over their useful lives to the consolidated group commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable assets are:

| Buildings | 50 years |
|---------------------------------------|---------------|
| Leasehold improvements, furniture | 3 to 10 years |
| office equipment, fittings, plant and | |
| equipment | |

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

i. Goodwill

Goodwill and goodwill on consolidation are recorded initially at the amount by which the purchase price for a business or for an ownership interest in a controlled entity exceeds the fair value attributed to its net assets at date of acquisition. The balances are reviewed annually for impairment.

j. Theme Pubs Acquisition Costs

Theme pubs acquisition costs are stated at cost. Carrying values are reviewed annually and an asset's carrying value is written down immediately to its recoverable amount if the asset's carrying amount is greater than the estimated recoverable amount.

k. Inventories

Inventories comprise food, beverages, linen and consumables, all of which are valued at cost.

Cost includes expenditure incurred in acquiring the inventories and bringing them to their existing condition and location.

I. Employee Benefits

Provision is made for the company's liability for employee entitlements arising from services rendered by employees to balance date. Employee entitlements expected to be settled within one year together with entitlements arising from wages and salaries and annual leave which will be settled after one year have been measured at their nominal amount. Other employee entitlements payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those entitlements. Contributions made by the economic entity to employee superannuation funds are charged as expenses when incurred.

m. Receivables

Trade and other receivables are stated at amortised cost less impairment losses (see accounting policy (g)).

n. Taxation

Income tax expense in the income statement for the periods presented comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at reporting date, and any adjustment to tax payable in respect of previous years. Deferred tax is calculated using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Temporary differences are not provided for the initial recognition of goodwill and other assets or liabilities in a transaction that affects neither accounting nor taxable profit, or differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based upon the laws that have been enacted at reporting date. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised. Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend is recognised.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity or on a different tax entity but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously

o. Payables

Trade and other payables are stated at amortised cost.

p. Financial Instruments

With the implementation of AASB 9 Financial Instruments for the year ended 30 June 2019 the Consolidated Entity classifies its financial assets in the following categories:

(i) Financial assets at amortised cost;

(ii) Financial assets at fair value through other comprehensive income;

(iii) Financial assets at fair value through profit or loss.

Financial assets at Amortised Cost

Financial assets included in this category need to meet two criteria:

• The financial asset is held in order to collect contractual cash flows; and

• The cash flows are solely payments of principal and interest on the principal amount outstanding.

Financial assets at Fair Value through Other Comprehensive Income

At initial recognition an election may be made to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading. After initial recognition investments are measured at fair value with gains or losses being recognised as a separate component of equity until the investment is derecognised.

Financial Assets at Fair Value through Profit and Loss

Financial assets are classified as financial assets at fair value through profit or loss where the assets are not measured at amortised cost or classified as financial assets at fair value through other comprehensive income.

Financial Liabilities

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal repayments.

q. Finance income and expense

Interest income is recognised as it accrues in the income statement using the effective interest method

r. Earnings per share

The Consolidated Entity presents basic earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the net profit attributable to equity holders of the parent for the financial period, after excluding any costs of servicing equity (other than ordinary shares) by the weighted average number of ordinary shares of the Company.

s. Segment Reporting

The Consolidated Entity determines and presents operating segments based on the information that internally is provided to the Board of Directors, who are the Consolidated Entity's chief operating decision maker.

An operating segment is a component of the Consolidated Entity that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Consolidated Entity's other components if separately reported and monitored. An operating segment's operating results are reviewed regularly by the Board of Directors to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Board of Directors include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate head office results.

t. Share Capital

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares and share options are recognised as a deduction from equity, net of any income tax benefit.

u. New standards and interpretations not yet

mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2019. The consolidated entity's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the consolidated entity, are set out below.

<u>AASB 16 Leases</u>

This standard is applicable to annual reporting periods beginning on or after 1 January 2019. The standard replaces AASB 117 'Leases' and for lessees will eliminate the classifications of operating leases and finance leases. Subject to exceptions, a 'right-of-use' asset will be capitalised in the statement of financial position, measured as the present value of the unavoidable future lease payments to be made over the lease term. The exceptions relate to short-term leases of 12 months or less and leases of low-value assets (such as personal computers and small office furniture) where an accounting policy choice exists whereby either a 'right-of-use' asset is recognised or lease payments are expensed to profit or loss as incurred. A liability corresponding to the capitalised lease will also be recognised, adjusted for lease prepayments, lease incentives received, initial direct costs incurred and an estimate of any future restoration, removal or dismantling costs. Straight-line operating lease expense recognition will be replaced with a depreciation charge for the leased asset (included in operating costs) and an interest expense on the recognised lease liability (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. However EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) results will be improved as the operating expense is replaced by interest expense and depreciation in profit or loss under AASB 16. For classification within the statement of cash flows, the lease payments will be separated into both a principal (financing activities) and interest (either operating or financing activities) component. For lessor accounting, the standard does not substantially change how a lessor accounts for leases. The consolidated entity will adopt this standard from 1 July 2019. The estimated impact of AASB16 at 1 July 2019 is to recognise a right-of-use asset of \$16.6 million and a corresponding lease liability of \$16.6 million. The group expects that the net profit after tax will decrease by approximately \$293k in 2019-20

v. New, revised or amending Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

4. FINANCIAL RISK MANAGEMENT

Overview

The Company and Consolidated Entity have exposure to the following risks from the use of financial instruments: • Credit risk

- Liquidity risk
- Market risk

This note presents information about the Company's and the Consolidated Entity's exposure to each of above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital. Further quantitative disclosures are included throughout these consolidated financial statements. The Board of directors has overall responsibility for the establishment and oversight of the risk management and monitors operational and financial risk management throughout the Consolidated Entity. Monitoring risk management includes ensuring appropriate policies and procedures are published and adhered to. The Management reports to the Board of directors.

The Board aims to manage the impact of short-term fluctuations on the Company's and the Consolidated Entity's earnings. Over the longer term, permanent changes in market rates will have an impact on earnings. The Company and the Consolidated Entity are exposed to risks from movements in exchange rates and interest rates that affect revenues, expenses, assets, liabilities and forecast transactions. Financial risk management aims to limit these market risks through ongoing operational and finance activities.

Exposure to credit, foreign exchange and interest rate risks arises in the normal course of the Company's and the Consolidated Entity's business. Derivative financial instruments are not used to hedge exposure to fluctuations in foreign exchange rates.

The Board of directors oversees the adequacy of the company's risk management framework in relation to the risks faced by the Company and the Consolidated Entity.

Credit Risk

Credit risk is the risk of financial loss to the Company or the Consolidated Entity if a customer, controlled entity or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's and the Consolidated Entity's receivables from customers.

Trade and other receivables

The Company's and Consolidated Entity's exposure to credit risk is influenced mainly by the characteristics of individual customers. The Consolidated Entity does not have a significant concentration of credit risk with a single customer.

Policies and procedures of credit management and administration of receivables are established and executed at a regional level. Individual regions deliver reports to management and the Board on debtor ageing and collection activities on a monthly basis.

In monitoring customer credit risk, the ageing profile of total receivables balances is reviewed by management by region on a monthly basis. Regional management are responsible for identifying high risk customers and placing restrictions on future trading, including suspending future services and administering service on a prepayment basis.

The Company and the Consolidated Entity have established an allowance for impairment that represents their estimate of incurred losses in respect of trade and other receivables.

Liquidity Risk

Liquidity risk is the risk that the Consolidated Entity will not be able to meet its financial obligations as they fall due. The Consolidated Entity's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Consolidated Entity's reputation.

The Consolidated Entity monitors cash flow requirements and produces cash flow projections for the short and long term with a view to optimising return on investments. Typically, the Consolidated Entity ensures that it has sufficient cash on demand to meet expected operational net cash flows for a period of at least 30 days, including the servicing of financial obligations. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices will affect the Company's and the Consolidated Entity's net profit or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency Risk

The Consolidated Entity is not exposed to currency risk on financial instruments that are denominated in a currency other than the respective functional currencies of the controlled entities, Australian dollars (AUD).

Interest Rate Risk

The Consolidated Entity is exposed to interest rate risks in Australia.

Capital Management

The Consolidated Entity's objectives when managing capital are to safeguard its ability to continue as a going concern, to provide returns to shareholders, to provide benefits to other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. The Board aims to maintain and develop a capital base appropriate to the Consolidated Entity. In order to maintain or adjust the capital structure, the Consolidated Entity can issue new shares. The Board of directors undertakes periodic reviews of the Consolidated Entity's capital management position to assess whether the capital management structure is appropriate to meet the Consolidated Entity's medium and long-term strategic requirements. Neither the Company nor any of its controlled entities are subject to externally imposed capital requirements. There were no significant changes in the Consolidated Entity's approach to capital management during the year.

5. REVENUE

| Consolidated | 2019 \$ | 2018 \$ |

8. KEY MANAGEMENT PERSONNEL COMPENSATION

Key management personnel compensation and the Consolidated Entity's remuneration policy is disclosed in the Remuneration Report section of the Directors Report.

9. OPERATING SEGMENTS

The Consolidated group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of service offerings and operating segments are therefore determined on the same basis.

Transmetro Corporation Limited's operation during the year related to operation of Hotels, Serviced Apartments, Inns and Theme Pubs.

Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics.

Basis of accounting for purposes of reporting by operating segments

Accounting policies adopted

Unless stated otherwise, all amounts reported to the Board of Directors as the chief decision maker with respect to operating segments are determined in accordance with accounting policies that are consistent to those adopted in the annual financial statements of the Group.

Unallocated items

The following items of income and expense are not allocated to operating segments as they are not considered part of the core operations of any segment:

- Depreciation and amortisation;
- Finance costs; and
- Income tax expense.

Segment Performance (Continuing Operations)

| YEAR ENDED 30.06.2019 | | | | | |

| Reconciliation of segment result to group net profit/(loss) | | | | | |

2,113,034

Amounts not included in segment result but reviewed by the Board:

Unallocated items:

| \cdot Depreciation & amortisation | (1,151,996) |
|---|-------------|
| • Finance costs | (729,957) |
| · Income tax expense | (341,280) |
| Net profit after tax from continuing operations | 525,841 |

10. AUDITORS' REMUNERATION

| Consolidated | 2019 \$ | 2018 \$ |
|--|------------|------------|
| Remuneration of auditors of the entity for: | | |
| \cdot auditing or reviewing the accounts and consolidated accounts | 86,000 | 87,000 |
| • taxation and secretarial services | 6,700 | 6,700 |
|] | 92,700 | 93,700 |

11. TRADE AND OTHER RECEIVABLES

| Consolidated | Note | 2019 \$ | 2018 \$ |
|---|------|------------|------------|
| Current | | | |
| Trade receivables | | 544,203 | 919,220 |
| Provision for impairment of receivables | 11a | - | (8,363) |
| | | 544,203 | 910,857 |
| Other receivables | | 364,741 | 434,307 |
| Prepayments | | 206,052 | 274,868 |
| | | 1,114,996 | 1,620,032 |

a. Provision For Impairment of Receivables

Current trade receivables are non-interest bearing and generally on 30 day terms. A provision for impairment is recognised when there is objective evidence that an individual trade receivable is impaired. These amounts have been included in the other expenses item.

Movement in the provision for impairment of receivables is as follows:

| | Opening Balance 1 July 2017 | | | Closing Balance 30 June 2018 |
|---------------------------|--------------------------------|----|----|---------------------------------|
| Consolidated | \$ | \$ | \$ | \$ |
| Current trade receivables | (8,363) | - | - | (8,363) |
| | (8,363) | _ | - | (8,363) |

| | Opening Balance 1 July 2018 | <u> </u> | Amounts Written Off | Closing Balance 30 June 2019 |
|---------------------------|--------------------------------|----------|------------------------|---------------------------------|
| Consolidated | \$ | \$ | \$ | \$ |
| Current trade receivables | (8,363) | - | 8,363 | - |
| | (8,363) | - | 8,363 | - |

There are no balances within trade and other receivables that contain assets that are not impaired and are past due. It is expected these balances will be received when due. Impaired assets are provided for in full.

12. FAIR VALUE MEASUREMENT

The Consolidated Entity measures and recognises the following assets and liabilities at fair value on a recurring basis after initial recognition:

- financial assets; and

- freehold properties.

Fair Value Hierarchy

AASB 13 Fair Value Measurements requires the disclosure of fair value measurements by level of the fair value hierarchy that reflects the significance of the inputs used in determining their fair value. The fair value hierarchy is made up of the following three levels:

Level 1 – quoted prices (unadjusted) in active markets for identical assets and liabilities that the entity can access at measurement date;

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - unobservable inputs for the asset or liability (not based on observable market data).

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Consolidated Entity selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Consolidated Entity are consistent with one or more of the following valuation approaches:

- Market approach: valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.
- Income approach: valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.
- Cost approach: valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Consolidated Entity gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

The following tables provide the fair values of the Consolidated Entity's assets and liabilities measured and recognised on a recurring basis after initial recognition and their categorisation within the fair value hierarchy:

Fair Value Measurement

| 30 June 2019 Consolidated | Note | Level | \$ |
|-------------------------------|------|---------|------------|
| Shares in listed corporations | 13 | Level 1 | 506 |
| Freehold Properties | 15 | Level 3 | 17,354,865 |

Valuation techniques used to derive level 3 fair values

| Asset Category | Fair Value \$ | Valuation Technique | Significant Unobservable Inputs | Range | Relationship of Unobservable Inputs to Fair Value |
|------------------------|------------------|--|---|----------------------------------|---|
| Freehold Properties | 17,354,865 | Income Approach using discounted cashflow methodology and capitalisation approach. | Adopted capitalisation rate Adopted terminal yield Adopted discount rate | 8.00% - 8.50% 8.50% 10.25% | A significant increase or decrease in the adjustment would result in a significantly lower (higher) fair value. |

Notes to the financial statements

| Term | Definition |
|--|---|
| Discounted Cash Flow (DCF) method present value. | A method in which a discount rate is applied to future expected income streams to estimate the present value. |
| Income capitalisation method | A valuation approach that provides an indication of value by converting future cash flows to a method single current capital value. |
| Capitalisation rate | The return represented by the income produced by an investment, expressed as a percentage. |
| Terminal yield | A percentage return applied to the expected net income following a hypothetical sale at the end of the cash flow period. |
| Discount rate | A rate of return used to convert a future monetary sum or cash flow into present value. |

Valuation process

The Board reviews the freehold property valuation process on a semi-annual basis. All valuations are performed either by independent professionally qualified external valuers or the directors. If the external valuation is more than three years old then the property is externally valued. For those with an external valuation less than three year old an assessment is made as to which properties are likely to have had material movements in the book value reported at the last reporting period to determine whether they should be revalued externally. At each reporting date the management will perform initial desktop assessment of current value through a capitalisation of income and discounted cashflow approach. If the result is materially different external independent valuation is conducted.

Sensitivity of Inputs

| Asset Category | Valuation technique | Significant unobservable inputs | Sensitivity of fair value measurement to changes in significant unobservable inputs |
|------------------------|---|--|---|
| Freehold Properties | Income Approach using discounted cashflow methodology and capitalisation approach. | Adopted capitalisation rate Adopted terminal yield Adopted discount rate | A significant increase or decrease in the adjustment would result in a significantly lower/higher fair value. |

Reconciliation from opening balances to closing balances for recurring Level 3 fair value measurements

| CONSOLIDATED | 2019 |
|----------------------------|-------------|
| Freehold Properties | \$ |
| Opening Balance | 27,421,441 |
| Transfer into Level 3 | - |
| Transfer out of Level 3 | - |
| Deduction by selling | (9,694,361) |
| Net revaluation adjustment | - |
| Depreciation | (372,215) |
| Closing Balance | 17,354,865 |

|-----------|------------|
| - | 600,000 |
| | |
| - | 14,371,752 |
| 2,356,943 | 3,356,944 |
| 2,356,943 | 17,728,696 |
| | |

(i) Security on the secured bank loans is over assets of the parent entity and the subsidiaries.

(ii) Unsecured loans comprise interest free loans of \$2,356,943 (2018; \$3,356,944) from an entity associated with a director and a majority shareholder of the group. The loans were initially repayable by 30 September 2017 and subsequently extended to 30 September 2020. Based on the initial repayment period and using the prevailing market interest rates at the time, the difference of \$378,463 between the gross proceeds and the fair value of the interest free loans was treated as additional capital contribution to the group. Notional interest from unwinding of the discount for interest free loans in the current financial year amounted to \$nil (2018; \$29,664).

20. TAX

a. Deferred tax assets and liabilities

| | | |

c. Liabilities

| CURRENT | | |
|------------|---------|-----------|
| Income tax | 476,816 | (124,475) |

Notes to the financial statements

21. PROVISIONS

| Consolidated | 2019 \$ | 2018 \$ |
|--------------------|------------|------------|
| Annual leave | 381,142 | 424,086 |
| Long service leave | 385,322 | 354,246 |
| | 766,464 | 778,332 |

22. ISSUED CAPITAL

| Consolidated | 2019 \$ | 2018 \$ |
|--|------------|------------|
| 13,382,778 (2018: 13,382,778) ordinary shares fully paid | 6,855,964 | 6,855,964 |

The company has authorised share capital amounting to 50,000,000 ordinary shares of no par value.

Ordinary shares participate in dividends and the proceeds on winding up of the company in proportion to the number of shares held.

At shareholders meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

a. Capital Management

Management controls the capital of the group in order to maintain a good debt to equity ratio, provide the shareholders with adequate returns and ensure that the group can fund its operations and continue as a going concern.

The group's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets. There are no externally imposed capital requirements.

Management effectively manages the group's capital by assessing the group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues.

There have been no changes in the strategy adopted by management to control the capital of the group since the prior year. This strategy is to ensure that the group's gearing ratio remains between 30% and 60%. The gearing ratios for the year ended 30 June 2019 and 30 June 2018 are as follows:

|) | Consolidated | Note | 2019 \$ | 2018 \$ |
|---|--------------------------------|------|------------|------------|
| | Total borrowings | 19 | 2,356,943 | 18,328,696 |
| | Less cash and cash equivalents | | 3,327,682 | 2,829,097 |
|) | Net debt/(Equity) | | (970,739) | 15,499,599 |
| | Total equity | | 21,590,798 | 17,467,501 |
| | Total capital | | 20,620,059 | 32,967,100 |
|] | Gearing ratio | | (4.71%) | 47.02% |

23. RESERVES

| 25. EARNINGS PER SHARE | | |
| Profit from continuing operations | 2,113,034 | 525,841 |
| Profit from discontinued operations | 3,348,541 | 3,077,597 |
| Profit attributable to members of the parent entity | 5,461,575 | 3,603,438 |
| Weighted average number of ordinary shares outstanding during the year used in calculation of basic earnings per share | 13,382,778 | 13,382,778 |
| Basic and diluted earnings per share from continuing operations | 15.79 | 3.93 |
| Basic and diluted earnings per share from discontinued operations | 25.02 | 23.00 |
| Basic and diluted earnings per share attributable to members of the parent entity | 40.81 | 26.93 |
| | | |

26. CONTINGENT LIABILITIES

As at 30 June 2019 no contingent liabilities existed, except that various bank guarantees have been given in the ordinary course of business. It is not expected that these guarantees will be called upon.

27. COMMITMENTS

a. Leasing Commitments

| \sim | Consolidated | 2019 \$ | 2018 \$ |
|--------|--|------------|------------|
| | Total commitments for future property, plant and equipment operating lease | rentals: | |
| | - Not later than one year | 5,109,579 | 4,936,273 |
|) | - Later than one year and not later than five years | 12,830,114 | 11,977,544 |
| Ŋ | - Later than five years | - | 10,230 |
| | | 17,939,693 | 16,924,097 |

Property leases entered into by the consolidated group are generally fixed-term non-cancellable leases with options for renewal, with lease payments adjusted annually by CPI and periodic adjustment of lease payments to market rental.

b. Capital Commitments

No capital commitments existed at 30 June 2019.

28. RECONCILIATION OF CASH FLOW FROM OPERATIONS WITH PROFIT AFTER INCOME TAX

| 7 | Profit after income tax | 5,461,575 | 3,603,439 |
|----|--|-------------|-------------|
|)) | Revaluation gain on freehold property | - | (3,129,178) |
| | Profit on sale of assets | (7,621,281) | (1,203,662) |
| | Unwinding of discount on interest-free related party loans | - | 29,664 |
| | Depreciation, amortisation and diminution | 1,280,880 | 1,437,145 |
| | Movement in deferred tax accounts | 1,393,450 | 1,469,631 |
|)) | Increase/(decrease) in income tax payable | 601,291 | (38,497) |
| | Increase/(decrease) in provisions | (11,868) | (73,099) |
| | (Increase)/decrease in receivables and prepayments | 505,033 | 35,596 |
|)) | (Increase)/decrease in inventories | 9,294 | 46,271 |
| | Increase/(decrease) in creditors | (647,223) | 14,713 |
|)) | Net cash provided/(used) by operating activities | 971,151 | 2,192,023 |

29. RECONCILIATION OF CASH

Cash at the end of the year as shown in the cash flow statement is reconciled to items in the balance sheet as follows:

| Cash at bank and on hand | 3,327,682 | 2,829,097 |
|--------------------------|-----------|-----------|
| Bank overdraft | - | |
| | 3,327,682 | 2,829,097 |

30. FINANCING FACILITIES

Firmly committed financing facilities of \$2,356,943 were available to the group at the end of the financial year, of which \$2,356,943 has been utilised at the end of the financial year.

Loan facilities available to the parent entity are fixed advances.

31. DISCONTINUED OPERATIONS

In May 2019, the group sold its interest in the property known as Metro Hotel Ipswich International at Ipswich. In the previous financial year the group disposed of Metro Hotel Tower Mill operations in Brisbane.

Financial information relating to the discontinued operations is set out below.

The financial performance of the discontinued operation to the date of sale which is included in loss from discontinued operations per the statement of comprehensive income is as follows:

| Consolidated | 2019 \$ | 2018 \$ |
|---|-------------|-------------|
| Revenue | 1,885,106 | 4,110,024 |
| Trust distribution | 25,000 | 75,000 |
| Expenses | (1,843,954) | (4,121,297) |
| Profit before income tax | 66,152 | 63,727 |
| Profit from the sale of assets | 4,552,525 | 1,203,662 |
| Revaluation increment on freehold property | - | 3,129,178 |
| Income tax expense | (1,270,136) | (1,318,970) |
| Profit attributable to members of the parent entity | 3,348,541 | 3,077,597 |

The net cash flows of the discontinuing operations which have been incorporated into the statement of cash flows are as follows:

| | Net cash inflow/(outflow) from operating activities | 12,040 | (89,334) |
|---|---|-----------|-----------|
| | Net cash inflow/(outflow) from investing activities | 9,752,377 | 3,774,941 |
|) | Net cash inflow/(outflow) from financing activities | - | - |
| | Net cash inflow/(outflow) generated by the discontinuing operations | 9,764,417 | 3,685,607 |
| | | | |

32. EVENTS SUBSEQUENT TO BALANCE DATE

No other matter or circumstances has arisen since the end of the financial year.

33. FINANCIAL INSTRUMENTS

Financial instrument composition and maturity analysis:

The tables below reflect the undiscounted contractual settlement terms for financial instruments of a fixed period of maturity, as well as management's expectations of the settlement period for all other financial instruments. As such, the amounts may not reconcile to the balance sheet.

Notes to the financial statements

| | | ctive st Rate | Carrying | Amount | Withir | n1Year | 1 to 5 | Years | Over 5 | Years |

| Bank Loans | - | 4.52 | - | 14,971,752 | - | 600,000 | - | 14,371,752 | - | - |
| Related Party Loans | - | - | 2,356,943 | 3,356,944 | - | - | 2,356,943 | 3,356,944 | - | - |
| Trade and Other Payables | | | 2,388,891 | 3,036,114 | 2,388,891 | 3,036,114 | - | - | - | - |
| Total Financial Liabilities | | | 4,745,834 | 21,364,810 | 2,388,891 | 3,636,114 | 2,356,943 | 17,728,696 | - | - |

Credit Risk

Exposure to Credit Risk

The carrying amount of financial assets represents the maximum credit exposure.

The maximum exposure to credit risk at the reporting date was:

| Consolidated | 2019 \$ | 2018 \$ |
|----------------------|------------|------------|
| Cash and equivalents | 3,327,682 | 2,829,097 |
| Trade receivables | 544,203 | 910,857 |
| Other receivables | 364,741 | 434,307 |
|) | 4,236,626 | 4,174,261 |

Impairment Losses

The aging of the trade receivables at the reporting date was:

| Gross receivables | | |
|--|---------|---------|
| Not past due date | 503,960 | 847,656 |
| Past due 0 – 30 | 35,497 | 49,680 |
| Past due 31 – 60 | 4,746 | 4,633 |
| Past due 60 – 90 | - | 17,251 |
| Past due 90 days and over | - | - |
| | 544,203 | 919,220 |
| Impairment | - | (8,363) |
| Trade receivables net of impairment loss | 544,203 | 910,857 |

The movement in the allowance for impairment in respect of trade receivables during the year is shown in note 11a. Impairment losses recognised in the year relate to significant individual customers, which have been assessed as impaired under the consolidated group's accounting policy as detailed on Note 1(g).

Based upon past experience, the consolidated group believes that no impairment allowance other than as provided in these accounts is necessary in respect of trade receivables not past due.

The allowance accounts used in respect of trade receivables are used to record impairment losses unless the consolidated group is satisfied that no recovery of the amount owing is possible; at that point, the amount considered non-recoverable is written off against the financial asset directly.

Foreign Currency Risk

The group is not exposed to foreign currency risk.

Interest Rate Risk

Profile

At the reporting date, the interest rate profile of the company's and consolidated group's interest bearing financial instruments was:

| Consolidated | 2019 \$ | 2018 \$ |
|--|------------|------------|
| Carrying Amount; Variable rate instruments | | |
| Financial assets | 2,661,808 | 2,251,689 |
| Financial liabilities | 2,356,943 | 18,328,696 |

Other Price Risk

The consolidated group invests surplus cash in publicly traded listed securities and in doing so it exposes itself to the fluctuations in price that are inherent in such a market. The Board makes investment decisions on advice from professional advisors.

The consolidated group's exposure to equity price risk is as follows:

| Carrying amount | | |
|-------------------------|-----|-----|
| Listed securities (ASX) | 506 | 506 |

Sensitivity Analysis

Interest Rate Risk, Foreign Currency Risk and Price Risk

The group has performed sensitivity analysis relating to its exposure to interest rate risk, foreign currency risk and price risk at balance date. This sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in these risks.

Interest Rate Sensitivity Analysis

At 30 June 2019, the effect on profit and equity as a result of changes in the interest rate, with all other variables remaining constant would be as follows:

|) | Change in profit | | |
|---|-----------------------------------|----------|-----------|
| | - Increase in interest rate by 2% | 53,236 | (309,047) |
|] | - Decrease in interest rate by 2% | (53,236) | 309,047 |
| | Change in Equity | | |
| | - Increase in interest rate by 2% | 53,236 | (309,047) |
| | - Decrease in interest rate by 2% | (53,236) | 309,047 |
| | | | |

Foreign Currency Risk Sensitivity Analysis

The group is not exposed to fluctuations in foreign currencies.

Price Risk Sensitivity Analysis

At 30 June 2019, the effect on profit and equity as a result of changes in the price risk, with all other variables remaining constant would be as follows:

| - |
|------|
| - |
| |
| 25 |
| (25) |
| |

The above interest rate and foreign exchange rate and price risk sensitivity analysis has been performed on the assumption that all other variables remain unchanged.

In managing interest rate risks, the consolidated group aims to reduce the impact of short-term fluctuations on the consolidated group's earnings. Over the longer term however, permanent changes in interest rates will have an impact on the result.

Fair Values

The fair values of financial assets and liabilities, together with carrying amounts shown in the balance sheet are as follows:

| | 2019 | | 2018 | |
|---------------------------------------|-----------------------|------------------|-----------------------|------------------|
| | Carrying amount \$ | Fair value \$ | Carrying amount \$ | Fair value \$ |
| Cash and equivalents | 3,327,682 | 3,327,682 | 2,829,097 | 2,829,097 |
| Trade and other receivables – current | 1,114,996 | 1,114,996 | 1,620,032 | 1,620,032 |
| Trade and other payables | (2,388,891) | (2,388,891) | (3,036,114) | (3,036,114) |
| Investments | 506 | 506 | 30,506 | 30,506 |
| Loans | (2,356,943) | (2,356,943) | (18,328,696) | (18,328,696) |
| Total | (302,650) | (302,650) | (16,885,175) | (16,885,175) |

Basis for determining fair values

The following summarises the significant methods and assumptions used in estimating the fair values of financial instruments reflected in the table above.

Non-derivate financial assets and liabilities

The fair value of cash, receivables, payables and short-term borrowings is considered to approximate their carrying amount because of their short maturity.

The directors consider the carrying amount of long term borrowings recorded in the financial statements approximated their fair value.

34. PARENT ENTITY DISCLOSURES

At and throughout the financial year ended 30 June 2019, the parent company was Transmetro Corporation Limited.

| | Com | pany |
|---|--------------|--------------|
| Result of the parent entity | 30 June 2019 | 30 June 2018 |
| | \$ | \$ |
| Net profit (loss) | 5,786,164 | (345,396) |
| Other comprehensive income | - | (145,593) |
| Total comprehensive income | 5,786,164 | (490,989) |
| Financial position of the parent entity at year end | | |
| Current assets | 3,455,983 | 3,518,722 |
| Total assets | 30,045,173 | 40,939,531 |
| Current liabilities | 2,114,953 | 1,771,952 |
| Total liabilities | 5,615,334 | 20,957,578 |
| Total equity of the parent entity comprising of: | | |
| Issued capital | 6,855,964 | 6,855,964 |
| Reserves | 3,094,227 | 3,094,227 |
| Retained earnings | 14,479,648 | 10,031,762 |
| Total Equity | 24,429,839 | 19,981,953 |
| Devent entity contingencies | | |

Parent entity contingencies

There are no other contingent liabilities and future commitments in respect to the Parent Entity except for:

Leasing commitments

Total commitments for future property, plant and equipment operating lease rentals:

| Not later than one year | 1,136,905 | 1,147,048 |
|---|-----------|-----------|
| Later than one year and not later than five years | 2,307,178 | 3,040,259 |
| Later than five years | - | - |
| | 3,444,083 | 4,187,307 |

35. RELATED PARTY TRANSACTIONS

The Consolidated Entity's related party transactions are with an entity that is controlled by a director and majority shareholder of the Company. Details of the related party transactions are disclosed below:

| Loan from key management personnel | | |
|------------------------------------|-------------|-------------|
| Beginning of the year | 3,356,944 | 7,162,944 |
| Loans advanced | - | - |
| Interest charged | - | 118,103 |
| Loan repayment | (1,000,000) | (3,924,103) |
| End of the year | 2,356,944 | 3,356,944 |

During the 2016 financial year Thornbush Corporation Limited (Thornbush), a company associated with Mr J A C McEvoy a director and majority shareholder of the Company, agreed to underwrite the development of the construction of the new wing of Metro Hotel Perth up to \$7.413 million. Thornbush advanced unsecured funds to the Consolidated Entity to meet its construction commitments as they occurred either free of fees and interest or at a rate that covers the cost of funding to Thornbush. The loans were to be repaid within 1.5 years. The repayment due date has been extended to 30 September 2020.

Stock Exchange Information

At 30 August 2019 the issued capital was 13,382,778 ordinary shares held by 501 shareholders.
