

Partnership Signed with New Zealand based Aotal & Snaphire

intelliHR Limited (ASX:IHR) has executed a partnership agreement with Aotal talent app store which also includes their associated company Snaphire, New Zealand's largest recruitment system. Both organisations are growing rapidly and targeting global expansion.

intelliHR is actively progressing relationships both within Australia and abroad for integrations that support new customer lead generation opportunities that fast track the development of a best-in-class, integrated ecosystem of HR tools centred around intelliHR as the essential core people management platform for business.

SnapHire is a market leading recruitment solution (Applicant Tracking System), which offers an 'off the shelf', yet mature e-recruitment technology platform. It's an excellent technology partner for intelliHR's growing ecosystem, as Snaphire deals with key pre-hire activities such as talent sourcing, applicant tracking, and contract generation. Complementing this, intelliHR provides businesses leading people management tools to look after people from the minute they are hired, delivering improved performance, culture and staff retention.

This partnership will also see intelliHR promoted as a member of Aotal's talent app store which helps business to identify best of breed innovative HR technologies and makes the integration of these technologies a simple, immediate and inexpensive exercise.

In addition to being complementary technologies, the Aotal marketplace, SnaPhire and intelliHR share similar ideal customer profiles and identical global growth orientation, supporting the investment in a deeper partnership leveraging co-marketing opportunities.

The agreement provides a 10% referral fee on the subscription for a referral that contracts as a customer of intelliHR within 6 months of the referral. This exposes intelliHR to SnaPhires and Aotal ecosystem, although at this time it is not possible to accurately quantify the benefit of this.
