The US market represents a significant opportunity for LiveHire

- ✓ Our entry into the US market, initially through our channel partner strategy gives us the ability to scale through partners and brings speed to generating revenue and important early reference clients
- ✓ US market is 15 times larger than the Australian market
- ✓ With well over US\$200 billion spent on Talent Acquisition in the United States, of which only around 2.5% is attributed to the software and platform part of the market, there is a continued trend in Talent Acquisition budgets being reallocated towards technology¹
- ✓ Within Australia, more than 4,000 companies with over 200 FTEs². In the US, there are over 60,000 companies with over 200 FTEs³. Based on current ARR/PC, this represents a significant addressable market of over \$2 billion⁴

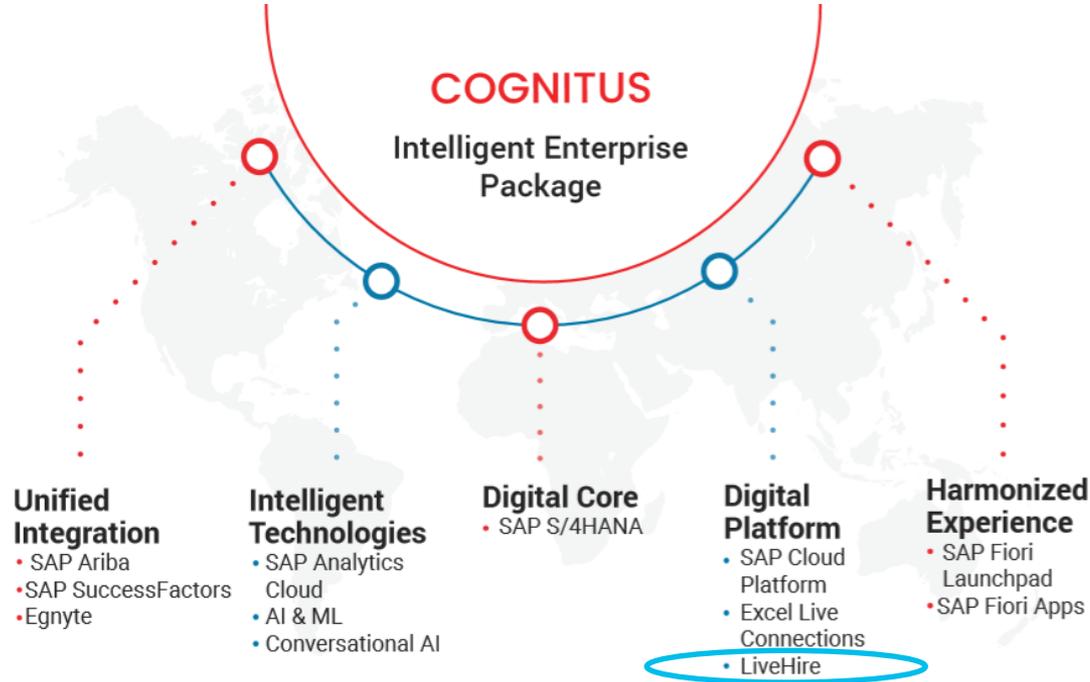

The rising trend of contingent labour is a global phenomenon

LiveHire is well positioned to capitalise on growth of contingent workforce

- ✓ In the US, MSPs are highly receptive to direct sourcing solutions
- ✓ Positive market and industry fundamentals with an estimated 40% of the US workforce made up of contingent workers¹
- ✓ Workforce Logiq provides important early proof point to form the foundation of conversations with other MSPs
- ✓ LiveHire is positioning itself to capitalise on this opportunity
