NEWS RELEASE

February 11, 2020 US; February 12, 2020 Australia

Amcor reports first half results and improved outlook for fiscal 2020

Amcor (NYSE: AMCR, ASX: AMC) today reported results for the six months ended December 31, 2019.

First Half Fiscal 2020 Highlights⁽¹⁾

- GAAP net income of \$252 million and earnings per share (EPS) of 15.5 cents per share;
- Adjusted EBIT of \$699 million, up 4.4% in constant currency terms;
- Adjusted EPS of 29.2 cents per share, up 10.7% in constant currency terms;
- Quarterly dividend of 11.5 cents per share declared today;
- Total cash returns to shareholders of more than \$600 million, including the repurchase of 21.9 million shares;
- Integration of the Bemis business progressing well, with approximately \$30 million of pre-tax synergy benefits delivered in the first half of fiscal 2020 and outlook for fiscal 2020 pre-tax synergy benefits increased to \$80 million; remain on track to deliver \$180 million of total pre-tax synergy benefits over three years; and
- Fiscal 2020 outlook for adjusted EPS growth in constant currency terms improved to 7-10%.

Amcor's CEO Mr Ron Delia said: "Amcor delivered a good first half result and our outlook for fiscal 2020 adjusted EPS growth has improved to 7-10%. The integration of the Bemis business is on track and the combined flexible packaging business has achieved mid single digit organic growth in addition to the delivery of synergy benefits. We are making very good progress capturing synergies with momentum building ahead of our initial expectations and we are excited by the opportunities for the combined business as we look ahead."

"Amcor's financial profile remains strong and will be enhanced further as we realize the full financial benefits from the Bemis acquisition. With over \$1 billion of annual free cash flow, we are well placed to generate strong returns for shareholders by simultaneously investing in our core business, paying a compelling dividend, buying back shares and growing through acquisitions."

"Today, Amcor is the global leader in consumer packaging with differentiated commercial and innovation capabilities, unparalleled scale and a global footprint. These powerful competitive advantages uniquely position us to serve our customers and to develop packaging solutions that are more sustainable and better for the environment."

Net income	435	473	8.8	10.3
EPS (diluted US cents)	26.8	29.2	9.2	10.7

(1) GAAP results for the prior year reflects the legacy Amcor business only. Adjusted non-GAAP measures exclude items which management considers as not representative of ongoing operations. Adjusted non-GAAP results for the prior period are based on unaudited combined financial information. Full details related to non-GAAP measures and reconciliations to GAAP measures can be found under "Presentation of non-GAAP financial information" and in the tables included in this release.

Note: All amounts referenced throughout this document are in US dollars unless otherwise indicated and numbers may not add up precisely to the totals provided due to rounding.

Presentation of Prior Year Financial Information

On June 11, 2019, the all-stock acquisition of Bemis Company, Inc. was completed. Amcor was determined to be the acquirer for accounting purposes and as a result, financial information prepared under U.S. generally accepted accounting principles ("U.S. GAAP") for periods prior to the completion date reflects the historical financial information for the legacy Amcor business only.

Financial information included in this release and described as "Combined" represents the addition of Amcor and Bemis individual adjusted results for the half year ended December 31, 2018, after deducting for the required divestiture of certain flexible plants in Europe and the United States. See "Basis of Preparation of Supplemental Unaudited Combined Financial Statements" in this release for full details.

Bemis Acquisition Update

Integration of the Bemis business continues to progress well, with momentum building in the first half of fiscal 2020.

The company delivered approximately \$30 million (pre-tax) of cost synergies primarily from overhead and procurement initiatives in the first half. Cost synergies have been realized faster than our initial expectations, and as a result, synergy benefits are now expected to reach approximately \$80 million (pre-tax) in fiscal 2020 (previously \$65 million).

We remain on track to achieve the previously announced benefits of \$180 million (pre-tax) by the end of fiscal 2022.

Cash restructuring and integration costs of approximately \$45 million were incurred in the first half of fiscal 2020. Total cash integration costs are estimated to be \$150 million, with approximately \$100 million expected to be incurred in fiscal 2020.

Capital Returns to Shareholders

\$500 Million On-Market Share Buy-Back

Amcor repurchased 21.9 million shares during the first half of fiscal 2020 for a total cost of \$223 million. The company expects to complete the \$500 million buy-back program by the end of fiscal 2020.

Dividend

The Amcor Board of Directors today declared a quarterly cash dividend of 11.5 cents per share. The dividend will be paid in US dollars to holders of Amcor's ordinary shares trading on the NYSE. Holders of CDIs trading on the ASX will receive an unfranked dividend of 17.1 Australian cents per share, which reflects the quarterly dividend of 11.5 cents per share converted at an average AUD:USD exchange rate of 0.6739 over the five trading days ended February 3, 2020.

The ex-dividend date will be March 3, 2020, the record date will be March 4, 2020 and the payment date will be March 24, 2020. Amcor has received a waiver from the ASX's settlement operating rules, which will allow Amcor to defer processing conversions between its ordinary share and CDI registers from March 3, 2020 to March 4, 2020, inclusive.

First Half Financial Results⁽¹⁾

Segment Information

Adjusted Financial Results	Combined							
	Half Year Ended December 31, 2018				Half Year Ended December 31, 2019			
	Net sales \$ million	EBIT \$ million	EBIT / Sales %	EBIT / Average funds employed % ⁽²⁾	Net sales \$ million	EBIT \$ million	EBIT / Sales %	EBIT / Average funds employed % ⁽²⁾

Other	(1)	(52)			(2)	(51)		
Total Amcor	6,429	678	10.6	13.4	6,184	699	11.3	13.8

(1) Adjusted non-GAAP measures exclude items which management considers as not representative of ongoing operations. Adjusted non-GAAP results for the prior period are based on unaudited combined financial information. Further details related to non-GAAP measures and reconciliations to GAAP measures can be found under "Presentation of non-GAAP financial information" and in the tables included in this release. All amounts referenced throughout this document are in US dollars unless otherwise indicated.

(2) Average funds employed includes shareholders equity and net debt, calculated using a four quarter average and LTM adjusted EBIT.

Net sales for the Amcor group of \$6,184 million were 1.4% lower than the prior period in constant currency terms after excluding a 1.0% unfavorable impact from the pass through of lower raw material costs.

Flexibles

	Half Year Ended December 31,			Constant Currency Δ%
	Combined 2018	2019	Reported Δ%	
Net sales	5,025	4,846	(3.6)	(2.0)
Adjusted EBIT	582	620	6.6	8.0
Adjusted EBIT / Sales %	11.6	12.8		
Adjusted EBIT / Average funds employed %	14.2	14.4		

Flexibles segment net sales were 1.4% lower than the prior period in constant currency terms after excluding a 0.6% unfavorable impact from the pass through of lower raw material costs. Volumes grew modestly across the Flexibles North America and Flexibles Europe, Middle East and Africa businesses, offset by lower volumes and unfavorable mix in the Flexibles Latin America and Specialty Cartons businesses.

Adjusted EBIT of \$620 million was 8% higher than last year in constant currency terms and includes approximately \$20 million (or 3%) of synergy benefits related to the Bemis acquisition. The remaining 5% organic growth reflects strong cost performance and year over year benefits from the normal time lag in recovering raw material cost movements, partly offset by the unfavorable earnings impact of lower sales.

Adjusted EBIT margins of 12.8% increased 120 bps compared to the prior year period.

In Europe, volumes grew across a range of end markets including protein, dairy, pet care, coffee, medical and ready meals. Earnings also benefited from delivery of synergies and overall operating cost performance.

In North America, volumes grew in the high value protein, liquids and healthcare segments and operating cost performance was strong. Delivery of synergy benefits gained momentum throughout the first half and long term commitments have been secured with a number of large customers during the period, reflecting the strength of Amcor's enhanced value proposition.

In Latin America, volumes were lower reflecting challenging economic conditions across the region and the impact of volumes lost within the legacy Bemis business prior to the acquisition close. This was partly offset by the delivery of synergy benefits. The company has also taken steps to simplify the portfolio in Latin America with the sale of its interest in a tube laminate joint venture.

In Asia Pacific, volumes were higher across the emerging markets of India, China and South East Asia, with India performing particularly well as volumes ramped up in a new greenfield plant. Earnings were favorably impacted by the delivery of synergy benefits and strong operating cost performance.

Net sales generated from specialty folding carton products were lower than the prior period due to weaker volumes in Europe, and in particular in Eastern Europe where there was an increase in the prevalence of illicit trade as well as customer destocking. This was partly offset by higher earnings in the Asia and Americas regions and continued growth in reduced risk product categories.

Rigid Packaging

	Half Year Ended December 31,			Constant Currency Δ%
	2018	2019	Reported Δ%	
Net sales	1,404	1,340	(4.6)	(4.0)
Adjusted EBIT	149	130	(12.5)	(11.9)
Adjusted EBIT / Sales %	10.6	9.7		
Adjusted EBIT / Average funds employed %	17.7	16.5		

Rigid Packaging segment net sales were 1.6% lower than the prior period in constant currency terms after excluding a 2.4% unfavorable impact from the pass through of lower raw material costs, with no impact from volumes but unfavorable mix compared to the prior year.

Adjusted EBIT of \$130 million was lower against a particularly strong comparative period, which was highlighted in our first quarter results. We anticipate a return to profit growth for the Rigid Packaging segment in the second half of fiscal 2020.

In North America, earnings were lower in the current period as overall mix was unfavorable in both beverage and specialty containers, which also led to higher costs. This compares to the prior period which benefited from exceptionally strong mix. Beverage volumes were 0.2% lower than last year with hot fill container volumes up 4% despite a strong comparative period, driven by market growth and share gains as a range of customers launch new products in the PET format.

In Latin America, volumes were 2% higher compared with the first half of last year, however earnings were lower than the strong result achieved in the prior period. This reflects unfavorable mix across the portfolio and lower earnings in Argentina where the early recovery of cost inflation benefited the second quarter result last year.

Other

Adjusted EBIT	Half Year Ended December 31,	
	Combined 2018	2019
Equity earnings in affiliates, net of tax	7	5
Corporate expenses	(59)	(55)
Total Other	(52)	(51)

Corporate expenses of \$55 million include approximately \$10 million of synergy benefits related to the Bemis acquisition.

Net interest and income tax expense

Net interest expense for the six months ended December 31, 2019 was \$99 million compared with combined net interest expense of \$138 million in the prior period and primarily reflects benefits from lower borrowing costs as several long dated fixed rate facilities matured during the half.

GAAP income tax expense for the six months ended December 31, 2019 was \$67 million. Excluding amounts related to non-GAAP adjustments, adjusted income tax expense for the six months ended December 31, 2019 was \$123 million, representing an effective tax rate of 20.5%.

Cash flow and balance sheet

Adjusted free cash flow (before dividends) was \$310 million and includes the impact of higher cash earnings and improved working capital performance offset by higher net capital expenditure.

Net debt was \$5,537 million at December 31, 2019, broadly in line with net debt as of June 30, 2019. Leverage, measured as net debt divided by adjusted trailing twelve month EBITDA, was 2.9 times as of December 31, 2019.

Fiscal 2020 Outlook

The company expects:

- Adjusted constant currency EPS growth in fiscal 2020 of approximately 7-10% (previously 5-10%).
 - Compared with adjusted combined EPS of 58.2 US cents per share in fiscal 2019 and assuming fiscal 2019 average exchange rates, this implies a constant currency EPS range of 62.0 - 64.0 US cents per share (previously 61.0 - 64.0 US cents per share).
 - Assuming average exchange rates for the first half of fiscal 2020 prevail for the remainder of the year, currency would have an unfavorable impact on reported EPS of approximately one US cent per share.
 - This range includes anticipated pre-tax synergy benefits associated with the Bemis acquisition of approximately \$80 million (previously \$65 million).
- Free cash flow (before dividends) of over \$1 billion before approximately \$100 million of cash integration costs.
 - Equivalent to \$300 - \$400 million after dividends but before cash integration costs.

The company also expects:

- Corporate expenses before synergies of \$160 - \$170 million in constant currency terms;
- Net interest costs of \$210 - \$230 million (previously \$230 - \$250 million) in constant currency terms; and
- Adjusted effective tax rate of 21% - 23%.

Cautionary Statement Regarding Forward-Looking Statements

This communication contains certain statements that are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended. Amcor plc (“Amcor”) has identified some of these forward-looking statements with words like “believe,” “may,” “could,” “would,” “might,” “possible,” “will,” “should,” “expect,” “intend,” “plan,” “anticipate,” “estimate,” “potential,” “outlook” or “continue,” the negative of these words, other terms of similar meaning or the use of future dates. Such statements are based on the current expectations of the management of Amcor and are qualified by the inherent risks and uncertainties surrounding future expectations generally. Actual results could differ materially from those currently anticipated due to a number of risks and uncertainties. None of Amcor or any of its respective directors, executive officers or advisors, provide any representation, assurance or guarantee that the occurrence of the events expressed or implied in any forward-looking statements will actually occur. Risks and uncertainties that could cause results and projections made herein to differ from expectations include, but are not limited to: failure to realize the anticipated benefits of the acquisition of Bemis Company, Inc. (“Bemis”), and the cost synergies related thereto; failure to successfully integrate Bemis’ business and operations in the expected time frame or at all; integration costs related to the acquisition of Bemis; the loss of key customers or a reduction in production requirements of key customers; fluctuations in consumer demand patterns; significant competition in the industries and regions in which Amcor operates; failure by Amcor to expand its business; the potential loss of intellectual property rights; price fluctuations or shortages in the availability of raw materials, energy and other inputs; disruptions to production and supply; costs and liabilities related to current and future environmental, health and safety regulations; the possibility of labor disputes; uncertainties related to future dividend payments and share buy-backs; fluctuations in our credit ratings; other risks related to the business, including the effects of industry, economic or political conditions, legal and regulatory proceedings, interest rates, exchange rates and international operations; disruptions to the financial or capital markets; and other risks and uncertainties identified from time to time in Amcor’s filings with the U.S. Securities and Exchange Commission (the “SEC”), including without limitation, those described under Item 1A. “Risk Factors” of Amcor’s annual report on Form 10-K and in Amcor’s quarterly reports on Form 10-Q. You can obtain copies of Amcor’s filings with the SEC for free at the SEC’s website (www.sec.gov). Forward-looking statements included herein are made only as of the date hereof and Amcor does not undertake any obligation to update any forward-looking statements, or any other information in this communication, as a result of new information, future developments or otherwise, or to correct any inaccuracies or omissions in them which become apparent, except as expressly required by law. All forward-looking statements in this communication are qualified in their entirety by this cautionary statement.

On-market share buy-back

Under the buy-back, any repurchases will be effected in accordance with Amcor plc’s general authority to repurchase shares and CDIs established and in accordance with all relevant legal and regulatory requirements. The company may not complete the buy-back on the estimated timeline, is not obliged to make any repurchases and the buy-back may be suspended for periods or discontinued at any time.

Amcor and Bemis combination

On June 11, 2019, the all-stock acquisition of Bemis Company, Inc. was completed under the terms of the agreement announced on August 6, 2018. Pursuant to that agreement, Bemis shareholders received 5.1 Amcor shares for each Bemis share held and Amcor Limited shareholders received one Australian Securities Exchange listed CHESS Depository Instrument for each share held. As a result of these share exchanges, the assets of both Amcor Limited and Bemis were merged into Amcor, and Amcor was determined to be the acquirer for accounting purposes. As a result, the historical financial statements of Amcor, prepared under U.S. generally accepted accounting principles (“U.S. GAAP”), for the periods prior to the combination are considered to be the historical financial statements of Amcor Limited.

Basis of Preparation of Supplemental Unaudited Combined Financial Information

In order to provide the most meaningful comparison of results of operations and results by reporting segment, the Company has included Supplemental Unaudited Combined Financial Information, which combines Amcor and Bemis historical operating results and has been prepared to illustrate the effects of the combination, assuming the combination had been consummated on July 1, 2018. The Supplemental Unaudited Combined Financial Information includes adjustments for (1) accounting policy alignment, (2) elimination of the effect of events that are directly attributable to the combination (e.g., one-time transaction costs), (3) elimination of the effect of consummated and identifiable divestitures agreed to with certain regulatory agencies as a condition of approval for the transaction, and (4) items which management considers are not representative of ongoing operations. The Supplemental Unaudited Combined Financial Information does not include the preliminary purchase accounting impact, which has not been finalized at the date of the release and does not reflect any cost or growth synergies that Amcor may achieve as a result of the transaction, future costs to combine the operations of Amcor and Bemis or the costs necessary to achieve any cost or growth synergies. The Supplemental Unaudited Combined Financial Information has been presented for informational purposes only and is not necessarily indicative of what Amcor’s results of operations actually would have been had the combination been completed as of July 1, 2018, nor is it indicative of the future operating results of Amcor. The Supplemental Unaudited Combined Financial Information should be read in conjunction with the separate historical financial statements and accompanying notes contained in each of the Amcor and Bemis periodic reports, as available. For avoidance of doubt, the Supplemental Unaudited Combined Financial Information is not intended to be, and was not, prepared on a basis consistent with the unaudited condensed combined financial information in Amcor’s Registration Statement on Form S-4 filed March 25, 2019 with the SEC (the “S-4 Pro Forma Statements”), which provides the pro forma financial information required by Article 11 of Regulation S-X. For instance, the Supplemental Unaudited Combined Financial Information does not give effect to the combination under the acquisition method of accounting in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standard Codification Topic 805, Business Combinations (“ASC Topic 805”), with Amcor treated as the legal and accounting acquirer. The Supplemental Unaudited Combined Financial Information has not been adjusted to give effect to pro forma events that are (1) directly attributable to the combination, (2) factually supportable, or (3) expected to have a continuing impact on the combined results of Amcor and Bemis. More specifically, other than excluding Amcor’s divested plants and one-time transaction costs, the Supplemental Unaudited Combined Financial Information does not reflect the types of pro forma adjustments set forth in S-4 Pro Forma Statements. Consequently, the Supplemental Unaudited Combined Financial Information is intentionally different from, but does not supersede, the pro forma financial information set forth in S-4 Pro Forma Statements.

Presentation of non-GAAP financial information

Included in this announcement are measures of financial performance that are not calculated in accordance with U.S. GAAP. These measures include adjusted EBIT (calculated as earnings before interest and tax), adjusted net income, adjusted earnings per share, adjusted free cash flow before dividends, adjusted cash flow after dividends, net debt and the Supplemental Unaudited Combined Financial Information including adjusted earnings before interest, tax, amortization and depreciation, adjusted earnings before interest and tax, and adjusted earnings per share and any ratios related thereto. In arriving at these non-GAAP measures, we exclude items that either have a non-recurring impact on the income statement or which, in the judgment of our management, are items that, either as a result of their nature or size, could, were they not singled out, potentially cause investors to extrapolate future performance from an improper base. While not all inclusive, examples of these items include:

- material restructuring programs, including associated costs such as employee severance, pension and related benefits, impairment of property and equipment and other assets, accelerated depreciation, termination payments for contracts and leases, contractual obligations and any other qualifying costs related to the restructuring plan;

- earnings from discontinued operations and any associated profit on sale of businesses or subsidiaries;
- consummated and identifiable divestitures agreed to with certain regulatory agencies as a condition of approval for Amcor's acquisition of Bemis;
- impairments in goodwill and equity method investments;
- material acquisition compensation and transaction costs such as due diligence expenses, professional and legal fees and integration costs;
- material purchase accounting adjustments for inventory;
- amortization of acquired intangible assets from business combinations;
- impact of economic net investment hedging activities not qualifying for hedge accounting;
- payments or settlements related to legal claims; and
- impacts from hyperinflation accounting.

Management has used and uses these measures internally for planning, forecasting and evaluating the performance of the company's reporting segments and certain of the measures are used as a component of Amcor's board of directors' measurement of Amcor's performance for incentive compensation purposes. Amcor also evaluates performance on a constant currency basis, which measures financial results assuming constant foreign currency exchange rates used for translation based on the rates in effect for the comparable prior-year period. In order to compute constant currency results, we multiply or divide, as appropriate, current-year U.S. dollar results by the current-year average foreign exchange rates and then multiply or divide, as appropriate, those amounts by the prior-year average foreign exchange rates. Amcor believes that these non-GAAP measures are useful to enable investors to perform comparisons of current and historical performance of the company. For each of these non-GAAP financial measures, a reconciliation to the most directly comparable U.S. GAAP financial measure has been provided herein. These non-GAAP financial measures should not be construed as an alternative to results determined in accordance with U.S. GAAP. The company provides guidance on a non-GAAP basis as we are unable to predict with reasonable certainty the ultimate outcome and timing of certain significant items without unreasonable effort. These items include but are not limited to the impact of foreign exchange translation, restructuring program costs, asset impairments, possible gains and losses on the sale of assets and certain tax related events. These items are uncertain, depend on various factors and could have a material impact on U.S. GAAP earnings and cash flow measures for the guidance period.

Cautionary Statement Regarding Forward-Looking Statements

This presentation contains certain statements that are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended. Amcor plc (“Amcor or the “Company”) has identified some of these forward-looking statements with words like “believe,” “may,” “could,” “would,” “might,” “possible,” “will,” “should,” “expect,” “intend,” “plan,” “anticipate,” “estimate,” “potential,” “outlook” or “continue,” the negative of these words, other terms of similar meaning or the use of future dates. Such statements are based on the current expectations of the management of Amcor and are qualified by the inherent risks and uncertainties surrounding future expectations generally. Actual results could differ materially from those currently anticipated due to a number of risks and uncertainties. None of Amcor or any of its respective directors, executive officers or advisors, provide any representation, assurance or guarantee that the occurrence of the events expressed or implied in any forward-looking statements will actually occur. Risks and uncertainties that could cause results and projections made herein to differ from expectations include, but are not limited to: failure to realize the anticipated benefits of the acquisition of Bemis Company, Inc. (“Bemis”), and the cost synergies related thereto; failure to successfully integrate Bemis’ business and operations in the expected time frame or at all; integration costs related to the acquisition of Bemis; the loss of key customers or a reduction in production requirements of key customers; fluctuations in consumer demand patterns; significant competition in the industries and regions in which Amcor operates; failure by Amcor to expand its business; the potential loss of intellectual property rights; price fluctuations or shortages in the availability of raw materials, energy and other inputs; disruptions to production and supply; costs and liabilities related to current and future environmental, health and safety regulations; the possibility of labor disputes; uncertainties related to future dividend payments and share buy-backs; fluctuations in our credit ratings; other risks related to the business, including the effects of industry, economic or political conditions, legal and regulatory proceedings, interest rates, exchange rates and international operations; disruptions to the financial or capital markets; and other risks and uncertainties identified from time to time in Amcor’s filings with the U.S. Securities and Exchange Commission (the “SEC”), including without limitation, those described under Item 1A. “Risk Factors” of Amcor’s annual report on Form 10-K for the fiscal year ended June 30, 2019. You can obtain copies of Amcor’s filings with the SEC for free at the SEC’s website (www.sec.gov). Forward-looking statements included herein are made only as of the date hereof and Amcor does not undertake any obligation to update any forward-looking statements, or any other information in this communication, as a result of new information, future developments or otherwise, or to correct any inaccuracies or omissions in them which become apparent, except as expressly required by law. All forward-looking statements in this communication are qualified in their entirety by this cautionary statement.

Presentation of non-GAAP financial information and prior year financial information

Included in this presentation are measures of financial performance that are not calculated in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”). These measures include EBITDA and adjusted EBITDA (calculated as earnings before interest, tax, depreciation and amortization), EBIT and adjusted EBIT (calculated as earnings before interest and tax), net income and adjusted net income, earnings per share and adjusted earnings per share, free cash flow and adjusted free cash flow, adjusted cash flow after dividends, net debt, and any ratios related thereto. Amcor believes that these non-GAAP financial measures are useful to enable investors to perform comparisons of current and historical performance of the Company. These non-GAAP financial measures should not be considered as an alternative to results determined in accordance with U.S. GAAP. For each of these non-GAAP financial measures, a reconciliation to the most directly comparable U.S. GAAP financial measure has been provided in the Appendix. Additional important information regarding non-GAAP financial measures is included in Amcor’s earnings press release, also issued today.

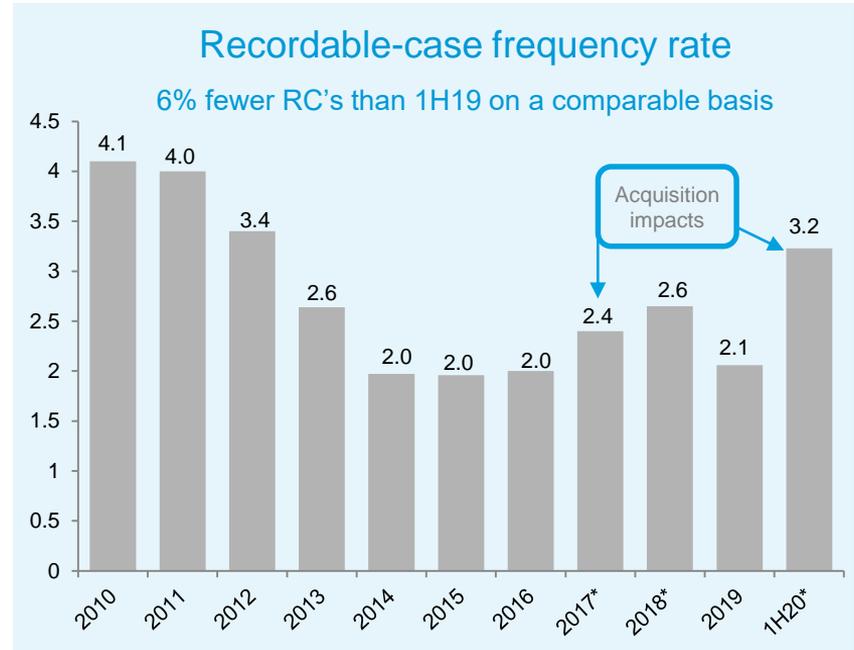

On 11 June 2019, the all-stock acquisition of Bemis Company, Inc. was completed. Amcor was determined to be the acquirer for accounting purposes and as a result, financial information prepared under U.S. GAAP for periods prior to the completion date reflect the historical financial information for the legacy Amcor business only. Financial information included in this release and described as “Combined” represent the addition of Amcor and Bemis individual results for the period ended December 31, 2018, after adjusting for (1) accounting policy alignment, (2) elimination of the effect of events that are directly attributable to the combination (e.g., one-time transaction costs), (3) elimination of the effect of consummated and identifiable divestitures agreed to with certain regulatory agencies as a condition of approval for the transaction, and (4) items which management considers are not representative of ongoing operations.

Safety

For personal use only

Committed to our goal of 'no injuries'

- 65% of Amcor sites injury free in the first half
- Focused on aligning safety practices across all sites

Notes:

Recordable cases per 1,000,000 hours worked.

2010 to 2012 data includes the demerged Orora business. Total rates for 2015 to 2018 include acquired businesses from the first day of ownership. The Bemis acquisition is excluded from 2019 but included thereafter.

*The increase in the frequency rate between 2016 and 2018 reflects the inclusion of the Alusa and Sonoco acquisitions and the increase between 2019 and 1H20 reflects the inclusion of the Bemis acquisition.
