- Long-term incentive program: During 1H20 Emeco recognised \$7.6 million of non-cash expenses relating to the employee long-term incentive plan predominantly associated with the shares issued in the March 2017 restructure.
- Ineffective hedge (gain): adjustment for ineffectiveness of hedge derivatives in line with AASB
- Impact of AASB 16: 1H20 has been adjusted to remove the impact of AASB 16, which became effective on 1 July 2019, to enable comparison to prior periods only and will not be adjusted for in subsequent periods.

Directors' report (continued) 31 December 2019

Operating results

Operating net profit after tax (NPAT) for the half year ended 31 December 2019 (1H20) was \$42.1 million, an increase of \$10.4 million from 1H19.

Group operating revenue for 1H20 was \$246.5 million, up from \$224.3 million (9.9%) in 1H19.

Rental revenue was \$193.6 million, up 6.1% from \$182.4 million in 1H19 with improvement in operating utilisation from continued strength in the Eastern Region particularly metallurgical coal mining customers and improving margins on new projects in the Western Region as lower margin projects completed.

Maintenance services revenue was \$50.4 million, up 21.7% from \$41.4 million in 1H19 driven by improved external revenue from new contracts with blue chip mining companies.

Operating EBITDA was \$119.1 million, up 15.9% from \$102.8 million in 1H19. This drove an increase in Operating EBIT, which was \$67.5 million, up from \$60.0 million in 1H19.

Operating EBITDA and Operating EBIT margins were 48.3% and 27.4%, respectively, with increases due to the higher margins being generated on new Western Region projects, improving utilisation and rates, disciplined cost management and extensive use of the Force workshops to minimise the cost of maintaining rental equipment.

Operating cash flow

Operating cash flow before financing costs was \$100.8 million in 1H20. This was driven by a strong operating EBITDA of \$119.1 million, partially offset by \$20.7 million in net working capital movement, mainly due to the final payment of the growth assets purchased in FY19, growth in the business and timing of cash payments.

To sustain Emeco's fleet, net capital expenditure of \$52.0 million was incurred. This includes \$49.1 million in net sustaining capital expenditure and \$2.9m in capital inventory components.

Net cash financing costs of \$24.2 million in 1H20 (includes \$0.8m in interest associated with AASB 16 leases) reduced from \$31.3m in 1H19 due to the full period impact of the US\$33.8 million reduction in notes in October 2018, notes repayment fees and the US notes being 100% hedged to AUD.

Emeco's leverage ratio has improved from 2.0x at 30 June 2019 to 1.77x at 31 December 2019. The Company expects leverage to continue to decrease in 2H20 as a result of increased earnings and cash flows

Significant events occurring after half year end

On 8 January 2020 Emeco executed documentation with its existing syndicated lenders to increase its revolving credit facility from \$65 million to \$100 million. This increased facility limit will take effect on 5 February 2020. There have been no other changes to the terms of this facility.

On 29 January 2020, Emeco entered into an agreement to acquire Pit N Portal Mining Services Pty Ltd and Pit N Portal Equipment Hire Pty Ltd (combined 'Pit N Portal') for \$72 million, subject to change for surplus working capital and other customary purchase price adjustments ('Acquisition'). The consideration for the acquisition consists of \$62 million in cash and \$10 million in Emeco shares to the vendors (issued at the Entitlement Offer price and will be escrowed for 12 months). The acquisition is subject to the successful completion of a capital raising and certain conditions precedent. The transaction is expected to be completed at the end of February 2020.

This acquisition is funded by both institutional and retail entitlement offers. On 31 January 2020 Emeco successfully completed the institutional component of its 1-for-10.29 pro- rata accelerated non-renounceable entitlement offer of new shares which was launched on Wednesday, 29 January 2020. This raised a total of approximately \$55 million through the issue of approximately 27 million New Shares at \$2.07 per New Share (Offer price) and was strongly supported by existing eligible institutional shareholders, who took up approximately 90% of their entitlements (with take up of 95% excluding EHL ESOP Trust).

On 14 February 2020, Emeco completed the retail component of the Entitlement Offer ('Retail Offer') at an offer price of \$2.07 and offer ratio of 1 new share for every 10.29 existing shares. The Retail Offer was underwritten and will raise approximately \$10 million.

1. Reporting entity

Emeco Holdings Limited (**Company**) is a for profit company domiciled in Australia. The condensed consolidated interim financial report of the Company as at and for the six months ended 31 December 2019 comprise the Company and its subsidiaries (together referred to as the '**Group**'). The Group is primarily involved in the renting, maintaining and selling of heavy earthmoving equipment to customers in the mining industries.

The consolidated annual financial report of the Group as at and for the year ended 30 June 2019 are available on the Company's web site at www.emecogroup.com.

2. Basis of preparation

(a) Statement of compliance

The condensed consolidated interim financial report has been prepared in accordance with AASB 134: *Interim Financial Reporting* and the *Corporations Act 2001*.

They do not include all of the information required for full annual financial report, and should be read in conjunction with the consolidated annual financial report of the Group as at and for the year ended 30 June 2019.

This condensed consolidated interim financial report was approved by the board of directors on 18 February 2020.

The Group is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument, dated 24 March 2016, and in accordance with that Corporations Instrument, amounts in the financial report have been rounded off to the nearest thousand dollars, unless otherwise stated.

(b) Restatement of comparatives

Earnings per share was appropriately disclosed in the consolidated annual financial report of the Group for the year ended 30 June 2019. Earnings per share for the comparative period has been restated as the disclosure did not accurately reflect the effects of the share consolidation undertaken by Emeco on 27 November 2018 in accordance with AASB 133 Earning per share. The table below shows the previously disclosed and the restated amounts.

	Previously Disclosed	Restated
	cents	cents
Earnings per share:		
Basic profit per share	0.47	3.91
Diluted profit per share	0.47	3.65
Earnings per share from continuing operations:		
Basic profit per share	0.47	3.87
Diluted profit per share	0.46	3.61

3. Significant accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 30 June 2019, except for the adoption of new standards effective as of 1 January 2019. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

AASB 16 Leases

The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets (such as tablets and personal computers, small items of office furniture and telephones). For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- The amount expected to be payable by the lessee under residual value guarantees;
- The exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a significant event or change in circumstances
 resulting in a change in the assessment of exercise of a purchase option, in which case the
 lease liability is remeasured by discounting the revised lease payments using a revised
 discount rate.
- The lease payments change due to changes in an index or rate or a change in expected
 payment under a guaranteed residual value, in which cases the lease liability is remeasured
 by discounting the revised lease payments using an unchanged discount rate (unless the lease
 payments change is due to a change in a floating interest rate, in which case a revised discount
 rate is used).

3. Significant accounting policies (continued)

AASB 16 Leases (continued)

The Group as lessee (continued)

 A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under AASB 37. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right- of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the consolidated statement of financial position.

The Group applies AASB 136 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property, Plant and Equipment' policy (as outlined in the financial report for the annual reporting period.

Variable rents that do not depend on an index or rate are not included in the measurement the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line "Other expenses" in profit or loss.

As a practical expedient, AASB 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Group has not used this practical expedient. For contracts that contain a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

On transition

The Group adopted AASB 16 on 1 July 2019 and applied the cumulative catch-up approach, electing to measure the right of use asset at an amount equal to the lease liability, and as a result:

- have not adjusted comparatives;
- there is impact on opening retained earnings;
- existing lease liabilities were carried forward; and
- lease liabilities were calculated for existing operating leases using the incremental borrowing rate at the date of transition.

3. Significant accounting policies (continued)

Recognition of tax losses

In accordance with the Company's accounting policy for deferred taxes (refer note 3(q) of the Company's FY19 Financial Statements), a deferred tax asset is recognised for unused tax losses only if it is probable that future taxable profits will be available to utilise these losses. This includes estimates and judgements about future profitability and tax rates. Changes in these estimates and assumptions could impact on the amount and probability of unused tax losses and accordingly the recoverability of deferred tax assets. Due to the recent history of losses, at 30 June 2019, the Company only brought to account \$165,560,000 of previously unrecognised Australian tax losses as a deferred tax asset of \$49,695,000 onto the balance sheet at this time. At 31 December 2019, the Company has applied \$26,999,000 of previously unrecognised tax losses (as a deferred tax asset of \$8,132,000) against the profits for the period reducing the effective tax rate to 0% for 1H20. Australian tax losses of \$68,157,000 (gross) remain unrecognised and available to the Group.

4. Segment reporting

The Group has three (December 2018: four) reportable segments, as described below, which are the Group's strategic business units. The strategic business units offer different products and services, and are managed separately because they require different operational strategies for each product line and geographic region. For each of the strategic business units, the managing director and board of directors review internal management reports on a monthly basis. The following summary describes the operations in each of the Group's reportable segments:

Australian Rental Provides a wide range of earthmoving equipment and maintenance

services to customers in Australia.

Australian Workshops Provides maintenance services to customers in Australia.

Chile (discontinued) Provides earthmoving equipment and maintenance services to

customers in Chile This segment was discontinued in June 2017.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before interest and income tax as included in the internal management reports that are reviewed by the Group's managing director and board of directors. Segment earnings before interest, income tax, depreciation and amortisation is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Intersegment pricing is determined on an arm's length basis.

The above available amounts are based on the balance of the dividend franking at 31 December 2019 adjusted for:

- (a) franking credits that will arise from the payment of current tax liabilities and recovery of current tax receivables;
- (b) franking debits that will arise from the payment of dividends recognised as a liability at 31 December 2019;
- (c) franking credits that will arise from the receipt of dividends recognised as receivable by the tax consolidated group at 31 December 2019;
- (d) franking credits that the entity may be prevented from distributing in subsequent years; and
- (e) franking credits from acquired entities.

The ability to utilise the franking credits is dependent upon there being sufficient available profits to declare dividends.

The impact on the dividend franking account of dividends proposed after the balance sheet date but not recognised as a liability is to reduce it by \$Nil (30 June 2019: \$Nil). In accordance with the tax consolidated legislation, the Company as the head entity in the tax-consolidated group has also assumed the benefit of \$77,222,000 (30 June 2019: \$77,222,000) franking credits.

10. Interest bearing liabilities

Bank loans

On 7 September 2018, Emeco refinanced its bank loan to an A\$65,000,000 facility, consisting of a revolving credit facility and bank guarantee facility that matures in September 2021, with an option to extend to September 2023.

At 31 December 2019 the Group had an undrawn revolving cash advance facility and utilised A\$1,521,000 in bank guarantees.

Secured notes

As at 31 December 2019, Emeco had US\$322,131,000 notes outstanding, which matures on 31 March 2022 and remain fully drawn until maturity. The nominal fixed interest rate is 9.25%.

Under the terms of the note agreement, the note holders hold a joint fixed and floating charge with the revolving credit facility bank over the assets and undertakings of the Group. The notes are measured at amortised cost. The notes have a limitation on net capital expenditure amended on 27 November 2019 to 135% of Emeco's depreciation expense (previously A\$100,000,000 net capital expenditure for the 12 month period ended March 2020. Any unused limit could be carried forward for the subsequent 12 month period.)

The Group designated derivatives as hedge instruments against this underlying debt.

Working capital facility

The Group has a credit card facility with a limit of A\$200,000. The facility is secured via term deposit.

Insurance financing

AIUO BSN IBUOSIBÓ JO-

The Group has financed its annual insurance premium of A\$2,708,000. The agreement has a term of 10 months completing April 2020.

\$19,517,000 of lease liabilities are secured by the assets leased.

The weighted average incremental borrowing rate applied to the lease liabilities at the date of initial application was 4.96%

The approximated lease liabilities disclosed in the June 19 annual report (A\$36,713,000) varies from the initial application as at 1 July 2019 (A\$37,256,000) by A\$543,000. This variance is due to inclusion of additional motor vehicles.

12. Financial instruments

Hedging of fluctuations in interest rates and currency

As at 31 December 2019, the Group has US\$322,131,000 of notes outstanding and has US\$322,131,000 in cross currency interest rate swaps to fully hedge the principal and coupon to Australian dollars until maturity. As derivatives have been entered into, hedge accounting has been applied.

Due to the decrease of the AUD:USD foreign exchange rate between the inception of the hedge on 31 March 2017 and 31 December 2019, which has been partially offset against an increase in interest rates, a net hedge receivable of \$9,783,000 (June 2019: \$7,031,000) has been recognised at 31 December 2019.

15. Contingent liabilities and commitments

The Group has guaranteed the repayments of \$1,521,000 (30 June 2019: \$1,744,000) in relation to obligations under rental premises.

16. Subsequent events

On 8 January 2020 Emeco executed documentation with its existing syndicated lenders to increase its revolving credit facility from \$65 million to \$100 million. This increased facility limit will take effect on 5 February 2020. There have been no other changes to the terms of this facility.

On 29 January 2020, Emeco entered into an agreement to acquire Pit N Portal Mining Services Pty Ltd and Pit N Portal Equipment Hire Pty Ltd (combined 'Pit N Portal') for \$72 million, subject to change for surplus working capital and other customary purchase price adjustments ('Acquisition'). The consideration for the acquisition consists of \$62 million in cash and \$10 million in Emeco shares to the vendors (issued at the Entitlement Offer price and will be escrowed for 12 months). The acquisition is subject to the successful completion of a capital raising and certain conditions precedent. The acquisition is expected to be completed at the end of February 2020.

The acquisition is funded by both institutional and retail entitlement offers. On 31 January 2020 Emeco successfully completed the institutional component of its 1-for-10.29 pro- rata accelerated non-renounceable entitlement offer of new shares which was launched on Wednesday, 29 January 2020. This raised a total of approximately \$55 million through the issue of approximately 27 million New Shares at \$2.07 per New Share (Offer price) and was strongly supported by existing eligible institutional shareholders, who took up approximately 90% of their entitlements (with take up of 95% excluding EHL ESOP Trust).

On 14 February 2020, Emeco completed the retail component of the Entitlement Offer ('Retail Offer') at an offer price of \$2.07 and offer ratio of 1 new share for every 10.29 existing shares. The Retail Offer was underwritten and will raise approximately \$10 million.

Independent Auditor's Review Report to the members of Emeco Holdings Limited

We have reviewed the accompanying half-year financial report of Emeco Holdings Limited, which comprises the condensed consolidated interim statement of financial position as at 31 December 2019, and the condensed consolidated interim statement of profit or loss and other comprehensive income, the condensed consolidated interim statement of cash flows and the condensed consolidated interim statement of changes in equity for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the end of the half-year or from time to time during the half-year as set out on pages 9 to 26.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

IUO BSN IBUOSIBO 1

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2019 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Emeco Holdings Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Independence Declaration

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Emeco Holdings Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Deloitte.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Emeco Holdings Limited is not in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2019 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
