

Appendix 4E – Final Report
Financial year ended

31 December 2019

Results for announcement to the market

Current Reporting Period: 31 December 2019

Previous Reporting Period: 31 December 2018

Revenue and Net Profit

	Up/Down	% change	\$ change
Revenue from continuing operations	Increased	100+	2,385,673
Total income	Increased	100+	2,271,262
Loss from ordinary activities after tax	Decreased	(100)	-9,288,536
Net Loss for the period	Decreased	(100)	-9,288,536

Dividends

No dividend was proposed or paid. The Company is not yet profitable and therefore there can be no assurance that the Company will become profitable or will pay dividends in the near future. Should any dividends be paid in the future, no assurances can be given as to the level of franking credits attaching to such dividends.

	2019	2018
Earnings/(Loss) Per Share	0.16	(1.36)
Net tangible assets per share	0.28	0.097
Dividend per share	-	-

Brief explanation of income and profit (loss)

Factor Therapeutics is a clinical-stage life sciences group. The profit in the period reflects the receipt of R&D tax rebate for clinical activities undertaken in previous periods and reduced operations as the Board seeks to identify a new asset/s to bring into the company via acquisition or licence.

Statement of accumulated losses	2019	2018
Balance at the beginning of the year	(83,748,021)	(72,791,979)
Net profit attributable to members of the parent entity	2,214,654	(10,956,042)
Balance at end of the year	(81,533,367)	(83,748,021)

Audit Report

This Appendix 4E (Final Report) is based on the audited financial statements for the year ended 31 December 2019, which are attached.

DIRECTORS' REPORT

Your Directors present their report on Factor Therapeutics Limited ("Company") for the financial year ended 31 December 2019. The names and qualifications of Directors in office during the financial year and up to the date of this report are detailed below. Directors were in office for the entire period unless noted otherwise.

Dr Cherrell Hirst, AO	Chairman
Christian Behrenbruch PhD	Non-Executive Director
John Michailidis	Non-Executive Director
Dr David Brookes	Non-Executive Director - appointed 10 April 2019
Tim Hughes	Non-Executive Director - retired 15 May 2019

Dr Cherrell Hirst AO, FTSE MBBS BEdSt DUniv FAICD

Non-Executive Chairman

Appointed Non-Executive Director 30 June 2009; appointed Chair 7 April 2015

Cherrell Hirst AO has had a distinguished clinical career in the detection and diagnosis of breast cancer; and significant experience as a director of commercial, government and not-for-profit organisations. She is a Director of the Gold Coast Hospital and Health Service and Bolton Clarke Ltd (prev RSL Care RDNS Limited) and the John Villiers Trust Pty Ltd. Dr Hirst is also the Chairman of the Advisory Board of Institute of Molecular Biosciences at the University of Queensland. During the previous three years, Dr Hirst has served as Non-Executive Director, ImpediMed Limited (ASX:IPD) (August 2005 to November 2017) and Medibank Private Limited (ASX:MPL) (December 2009 to August 2017).

Christian Behrenbruch, BEng(Hons) DPhil(Oxon) MBA JD GAICD

Non-Executive Director

Appointed Executive Director 12 October 2015; Non-Executive Director effective 1 June 2017

Christian Behrenbruch has over 15 years of C-level leadership experience in the medtech, biotechnology and healthcare IT space, and has significant experience as a director of commercial and non-profit organisations. His former CEO/Director-level appointments include Mirada Solutions (now Siemens Plc), Fibron Technologies and ImaginAb, Inc. He is a former director of Momentum Biosciences LLC, Siemens Molecular Imaging Ltd, Radius Health Ltd (now Adaptix), Cell Therapies P/L (Peter MacCallum Cancer Centre) and the Oncidium Foundation. He is currently the Managing Director and CEO of Telix Pharmaceuticals Limited (ASX:TLX), Chairman of Monash Engineering and IT Foundation Board and is a Professorial Fellow at Monash University.

John Michailidis, BSc (Hons) EMBA (HARV) MAICD

Non-Executive Director

Appointed Non-Executive Director 14 February 2017

Mr. Michailidis is currently the Managing Director for TEVA Australia/NZ and brings almost 30 years of commercial pharmaceutical experience to Factor, most recently as Managing Director for TEVA, Australia and New Zealand. His career has ranged from global franchise and regional

executive leadership roles with F. Hoffman – La Roche (Roche) to CEO experience with growth-stage biopharmaceutical companies, such as AviPep and Orphan Australia (acquired by Sigma). Mr. Michailidis holds a BSc in Genetics from LaTrobe University, and executive business qualifications from Harvard Business School and INSEAD.

Dr David Brookes, MBBS FACRRM FAICD

Non-Executive Director

Appointed Non-Executive Director 10 April 2019

Dr Brookes has extensive experience in the health and biotechnology industries and is currently a Non-Executive director of Anatarata Ltd (ASX:ANR). He has previously been a director of several other ASX listed biotechnology companies, most recently as the Chairman of genomics solutions company, RHS Ltd, which was acquired by PerkinElmer Inc (NYSE:PKI \$9B biotech company) in June 2018. In addition to his directorships in listed biotechnology companies, Dr Brookes is currently Non-Executive Chairman of a private health services company, the Better Medical Group, and maintains roles as a clinician and a biotechnology industry consultant. Dr Brookes is a Fellow of the Australian College of Rural and Remote Medicine and a Fellow of the Australian Institute of Company Directors.

Tim Hughes, BSc(Hons) BA (Hons) MNatRes

Non-Executive Director

Appointed Non-Executive Director 1 November 2014, retired from the Board 15 May 2019

Tim Hughes has over thirty years' experience in investment banking, funds management and as an institutional investor. He previously spent thirteen years as a senior executive at Rothschilds, where he was a board director and executive committee member. Mr Hughes has a strong track record in business development and strategic thinking and brings financial focus to the Board. Currently Mr Hughes is a Director of Value Capital Management Pty Limited and South Endeavour Pty Limited.

COMPANY SECRETARY

Melanie Farris (FGIA, FCIS, MAICD) BComn Grad Dip ACG

Ms Farris holds a Bachelor of Communication (Public Relations), and a Graduate Diploma in Applied Corporate Governance. She is a Fellow of the Governance Institute of Australia, a Fellow of the Associate of the Institute of Chartered Secretaries (UK) and a Member of the Australian Institute of Company Directors.

PRINCIPAL ACTIVITIES

Factor Therapeutics is a clinical-stage life sciences company. Activities during the year were directed to the identification and diligence of potential new business opportunities for the Company. Following the receipt (in November 2018) of negative clinical trial results for the Company's previous lead asset (VF001), the Board initiated a series of activities aimed at reducing operations and preserving cash resources whilst engaging with a broad range of contacts to identify a potential new business opportunity for the Company. During the financial year ended 31 December 2019, the Company undertook due diligence activities on multiple potential assets. As at 31 December 2019 and at the date of this report none had resulted in a proposed commercial transaction.

OPERATING RESULTS AND DIVIDENDS

The profit after tax of the Company for the financial year ended 31 December 2019 was \$1,668,545 (2018: loss \$10,956,042). No dividend was proposed or paid.

CORPORATE STRUCTURE

Factor Therapeutics Limited ("Factor") is an entity incorporated and domiciled in Australia. Factor is listed on the Australian Securities Exchange with the code FTT (ASX:FTT).

REVIEW OF OPERATIONS

In November 2018, the Company announced the results of its Phase 2b clinical study of VF001 as a treatment for venous leg ulcers. The results showed that VF001 did not provide a meaningful benefit over standard care alone for venous leg ulcer healing. As a consequence, further clinical development was halted. The Board managed the orderly completion of previous research and development activities and implemented cost minimisation initiatives, including non-executive directors foregoing director fees for the period December 2018 to May 2019.

As part of these cost minimisation initiatives, the Company's two wholly owned subsidiaries, Factor Therapeutics Europe Limited and Factor Therapeutics USA LLC, ceased operations and were wound up. Neither of these subsidiaries had active operations, therefore there was no material impact to the consolidated entity resulting from the deregistration of the subsidiaries.

During the year, the Board completed assessment of a number of potential new technology acquisitions. The evaluation of each opportunity has taken into account a number of key factors:

- scientific technical rationale for the technology;
- commercial potential: target market size, product positioning, competition, potential for reimbursement and intellectual property position;
- path to market: current stage of development, activities required to progress, timeframe to reach future milestones;
- financial position and potential for raising capital;
- management team experience and track record; and
- risks and risk mitigation.

In excess of 20 potential opportunities were identified during the year with a number of those opportunities progressing beyond initial review and into more detailed diligence activities following execution of confidentiality agreements. At the date of this report, no opportunity has progressed to transaction stage. The Company is continuing its asset identification and diligence activities.

On 10 April 2019, the Company announced the appointment of Dr Brookes as Non-Executive Director. On 15 May 2019 Mr Tim Hughes retired from the Board, following the appointment of Dr David Brookes.

FINANCIAL RESULTS

These Financial Statements are prepared on a going concern basis. Similar to other companies in the life sciences industry, in order for the Company to execute its plans, opportunities to obtain additional capital may need to be identified by the Board to meet operational and programme development needs.

Operations and related expenditure in the financial year ended 31 December 2019 were significantly reduced from prior years. The primary expense area for the Company over the period related to corporate costs. Corporate expenses consisted primarily of professional service fees including legal and accounting, insurances and compliance-related costs. R&D expenses related primarily to the intellectual property portfolio.

CHANGES IN ISSUED CAPITAL

On 5 February 2019, the Company announced the issue of 208,500,000 shares at \$0.002 per share to raise \$417,000 (before costs) in a private placement to sophisticated existing and new shareholders.

FORWARD STRATEGY

As noted above, the forward strategy of the Company involves the identification and ultimate completion of a commercial transaction for a new business opportunity for the Company. Future operations will be dependent on the successful identification and acquisition (via licence, purchase or merger) of a new asset or business.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

Total equity is recorded at the balance date at \$2,888,415 (2018: \$813,442), being an increase of \$2,074,973. The movement is primarily the result of an increase in net assets in the form of cash and cash equivalents following the private placement completed in February 2019 and the receipt in May 2019 of R&D tax rebate for eligible R&D activities undertaken in 2018. There were no other significant changes in the state of affairs of the Company during the financial year.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

The likely developments in the operations of the Company and the expected results from those operations in future financial years will be affected by the success of management in identifying and securing one or more new commercial transactions for the Company.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The Company's operations are not subject to any significant environmental regulations under either Commonwealth or State legislation. Nonetheless, the Company is committed to high standards of environmental care.

UNISSUED SHARES: SHARE OPTIONS

At the date of this report there were 8,250,000 (31 December 2018: 8,250,000) unissued ordinary shares under options as detailed in the table below. Option holders do not have any rights to participate in any issues of shares or other interests of the Company or any other entity. During the financial year ended 31 December 2019, no ordinary shares of Factor Therapeutics Limited were issued on the exercise of share options granted.

Grant Date	Expiry Date	Exercise Price	Number of Options
01-Dec-15	01-Dec-20	\$0.110	1,600,000
01-Jul-16	30-Jun-21	\$0.110	3,000,000
03-Aug-16	04-Jul-20	\$0.035	1,400,000
23-Nov-16	23-Nov-21	\$0.110	1,000,000
21-Aug-17	21-Aug-22	\$0.110	250,000
17-Nov-17	17-Nov-22	\$0.110	1,000,000
			8,250,000

SIGNIFICANT EVENTS AFTER THE BALANCE DATE

There were no subsequent events that required adjustment to or disclosure in the Directors' Report or the Consolidated Financial Statements of the Company for the year ended 31 December 2019.

DIRECTORS' MEETINGS

The number of meetings of Directors and committees of Directors held in the financial year ended 31 December 2019, and the number of meetings attended by each Director, is listed below.

	Directors' Meetings		Audit and Risk Management Committee		Nomination Committee		Remuneration Committee	
	Eligible to Attend	Attended	Eligible to Attend	Attended	Eligible to Attend	Attended	Eligible to Attend	Attended
C Hirst	19	19	1	1	-	-	-	-
C Behrenbruch	19	17	1	1	-	-	-	-
J Michailidis	19	19	1	1	-	-	-	-
D Brookes	10	9	-	-	-	-	-	-
T Hughes	10	8	-	-	-	-	-	-

COMMITTEE MEMBERSHIP

At the date of this report the Board's Committees and their membership are as follows:

- Audit and Risk Management Committee, the members of which are independent Non-Executive Directors Mr John Michailidis (Chair), Non-Executive Director Dr Christian Behrenbruch and Dr Cherrell Hirst (ex-officio).
- Remuneration Committee, the members of which are independent Non-Executive Directors Mr John Michailidis (Chair), Non-Executive Director Dr Christian Behrenbruch

and Dr Cherrell Hirst (ex-officio).

- Nomination Committee, the members of which are independent Non-Executive Directors Dr Cherrell Hirst (Chair), and Non-Executive Director Dr Christian Behrenbruch.

REMUNERATION REPORT (AUDITED)

This Remuneration Report for financial year ended 31 December 2019 outlines the remuneration arrangements for the Company in accordance with the requirements of the *Corporations Act 2001* and its regulations. This information has been audited as required by section 308(3C) of the *Corporations Act 2001*.

Factor Therapeutics' remuneration framework and practices are designed to align remuneration outcomes with shareholder interests and to attract and retain persons with appropriate and relevant capability. This remuneration report details the remuneration arrangements for key management personnel (KMP) who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company, directly or indirectly, including any Director, whether executive or otherwise.

For the purposes of this report, the term "Director" refers to Non-executive Directors (NEDs) only. "KMP" refers to other key management personnel.

The names and details of the Directors and KMP of the Company in office during the financial year and until the date of this report are detailed below. Unless otherwise noted, Directors and KMP listed are in office at the date of the report. There were no changes to KMP after the Balance Date and before the date this financial report was authorised for issue.

Non-Executive Directors

Cherrell Hirst	Chairman
John Michailidis	Non-Executive Director
Christian Behrenbruch	Non- Executive Director
David Brookes ⁽ⁱ⁾	Non-Executive Director
Tim Hughes ⁽ⁱⁱ⁾	Non-Executive Director

Other Key Management Personnel

Dr Rosalind Wilson ⁽ⁱⁱⁱ⁾	Chief Executive Officer
-------------------------------------	-------------------------

- (i) Dr Brookes was appointed to the Board on 10 April 2019
- (ii) Mr Hughes retired from the Board on 15 May 2019.
- (iii) Dr Wilson ceased to be employed as CEO on 21 January 2019

Non-executive Director Remuneration

As part of the Company's focus on preserving its capital, the Directors resolved to not take payment of any fees following the results of the Phase 2 clinical trial. Directors forfeited all fees for the period 1 December 2019 to 31 May 2019. From 1 June 2019 director fees re-commenced at approximately 50% previous rate.

In accordance with the company's constitution and ASX Listing Rules, the aggregate remuneration of Non-executive Directors is determined from time to time by a general meeting.

The latest determination was at the Annual General Meeting held on 28 November 2011 when shareholders approved an aggregate annual remuneration pool of \$400,000. The total non-Executive Director remuneration of Factor Therapeutics Limited for the financial year ended 31 December 2019 is \$87,712.

The amount of aggregate remuneration sought to be approved by shareholders and the fees paid to Directors are reviewed annually. Each Director receives an annual fee for being a Director of the Company, which reflects their obligations and responsibilities and takes into account the overall situation of the company and its cash position. Directors' fees include statutory superannuation. There are no retirement benefits. The remuneration of non-Executive Directors consists only of Director's fees - currently no additional fees are paid for chairmanship or membership of board committees.

Key Management Personnel Remuneration – General Philosophy

The Company's general remuneration philosophy is detailed in this section. The Company has no permanent employees at this time and therefore no executive remuneration was paid or accrued in the financial year ended 31 December 2019.

The Company aims to reward management personnel with a mix of remuneration and at a level commensurate with their position and responsibilities within the Company so as to:

- attract and retain appropriately capable and talented individuals;
- reward personnel for corporate, team and individual performance;
- align the interest of personnel with those of shareholders; and
- build a strong cohesive leadership team which can deliver execution excellence against the strategy.

Remuneration consists of:

- total fixed remuneration – base salary and superannuation; and
- 'at risk' remuneration – short-term incentives (STI) and long-term incentives (LTI).

To ensure that the Company continues to attract, retain and motivate talented staff at a competitive cost, Factor will:

- aim to align total fixed remuneration to the median rate of the relevant market, with consideration given to experience, qualifications, performance and other non-financial benefits; and
- ensure 'at risk' remuneration provides an incentive for performance aligned with the strategic objectives of the company.

Adjustments to fixed remuneration and 'at risk' remuneration are paid/issued following the annual performance and remuneration review, which is conducted by executive management based on achievement against the KPIs and recommended to the Remuneration Committee; a review by the Remuneration Committee and recommendation to the Board; and approval by the Board.

Calculation of STI awards is based on achievement of KPIs set at the beginning of each year.

LTIs are offered to incentivise, reward and retain personnel, and to further align the interests of personnel and shareholders. The terms of any LTI grant are determined by the Board. LTI grants normally take the form of the issue of unlisted share options. Share options are normally issued under the company's employee share option plan (ESOP). All grants of equity are determined by the Board, following a recommendation from the Remuneration Committee.

Remuneration year ended 31 December 2019

	Salaries/ Fees	Super	Other	STI (cash)	LTI (options) ⁽ⁱⁱⁱ⁾	Total	STI	LTI

Related Party Transactions with KMP

Remuneration: Remuneration to KMP is recorded in the tables above.

Loans: There were no loans between the Company and any KMP in the year ended 31 December 2019.

Other transactions: On 31 December 2019 the Company entered into an agreement with JEM Pharmaceuticals Pty Ltd, which is a consulting company of Non-Executive Director, Mr John Michailidis. The consulting agreement is for services associated with the scientific and commercial diligence review processes for asset/s under consideration by the Company for potential acquisition or licence. Expenses incurred for the year ended 31 December 2019 and payable at that date totalled \$3,300.

Other than those noted above, there were no related party transactions with any KMP in the year ended 31 December 2019.

END OF REMUNERATION REPORT

INDEMNITY

Subject to the Corporations Act and the Constitution of the Company, the Company must indemnify each Director, Company Secretary and Executive Officer to the maximum extent permitted by law, against any liability incurred by them as, or by virtue of their holding office as and acting in the capacity of Director, Company Secretary or Executive Officer of the Company. Insurance premiums have been paid during the period in respect of a contract insuring Directors and Officers against legal costs incurred in defending proceedings against them. Details of the nature of liabilities covered or the amount of premiums paid are not disclosed as such disclosure is prohibited in the terms of the contract.

AUDITOR INDEPENDENCE AND NON-AUDIT SERVICES

A statement of independence has been provided by the Company's auditor, PKF Brisbane Audit, and is attached to this Directors' Report.

Signed in accordance with a resolution of the Directors

Cherrell Hirst, AO

Chairman

19 February 2020

**AUDITOR'S INDEPENDENCE DECLARATION
UNDER SECTION 307C OF THE CORPORATIONS ACT 2001
TO THE DIRECTORS OF FACTOR THERAPEUTICS LIMITED**

I declare that, to the best of my knowledge and belief, during the year ended 31 December 2019, there have been no contraventions of:

- (a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Factor Therapeutics Limited and the entities it controlled during the year.

CORPORATE INFORMATION

Factor Therapeutics Limited is a public company limited by shares incorporated in Australia whose shares have been traded on the Australian Securities Exchange since 19 March 2004 (ASX: FTT). Factor Therapeutics is a life sciences company in the biotechnology sector. This financial report of Factor Therapeutics Limited was authorised for issue in accordance with a resolution of Directors on 19 February 2020.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*. The Company is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

Except for cash flow information, the financial report has been prepared on an accruals basis, based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

a. Principles of Consolidation

The consolidated financial statements incorporate all of the assets, liabilities and results of the parent Factor Therapeutics Limited, and all of the subsidiaries. Subsidiaries are entities the parent controls. The parent controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The assets, liabilities and results of all subsidiaries are fully consolidated into the financial statements of the Company from the date on which control is obtained by the Company. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between group entities are fully eliminated on consolidation. Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Company.

b. Income Tax

The income tax expense/(income) for the year comprises current income tax expense (income) and deferred tax expense (income). Current income tax expense/(income) charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well unused tax losses.

Current and deferred income tax expense/(income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

c. Research and Development expenditure

Expenditure during the research phase of a project is recognised as an expense when incurred. Development costs are capitalised only when technical feasibility studies identify that the project will deliver future economic benefits and these benefits can be measured reliably.

The Company has adopted the profit and loss approach to accounting for research and development tax offsets under the revised regime, pursuant to *AASB 120 Accounting for Government Grant and Disclosure of Government Assistance*. Under this approach the grant or incentive is recorded as part of revenue in the profit and loss.

d. Intangibles

Licenses, Patents and Intellectual Property

Licenses and patents are recognised at cost of acquisition. They have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. Licenses and patents are amortised over their useful life, which has been assessed as ten years from the date the intangible asset is in its intended use.

e. Employee benefits

Provision is made for the Company's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits with consideration given to employees' wages increases and the probability that the employees may satisfy vesting requirements. Those cash flows are discounted using market yields on corporate bonds with terms to maturity that match the expected timing of cash flows attributable to employee benefits.

Equity settled Compensation

The Company operates equity-settled share-based payment employee share and option schemes (refer Note 15). The fair value of the equity to which employees become entitled is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account. The fair value of shares is ascertained as the market bid price. The fair value of options is ascertained using a Black–Scholes pricing model which incorporates all market vesting conditions. The number of shares and options expected to vest is reviewed and adjusted at each reporting date such that the amount recognised for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest.

f. Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments, and bank overdrafts.

g. Revenue recognition

Revenues are recognised at fair value of the consideration received net of any applicable taxes.

Interest revenue is recognised as it accrues taking into account the interest rates applicable to the financial assets.

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs they are compensating. Grants relating to assets are credited to deferred income at fair value and are credited to income over the expected useful life of the asset on a straight-line basis.

All revenue is stated net of the amount of goods and services tax.

h. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST. The net amount of GST recoverable from, or payable to, the ATO is included in other receivables or payables in the Statement of Financial Position. Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Property, plant and equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment

Plant and equipment are measured on the cost basis and therefore carried at cost less accumulated depreciation and any accumulated impairment. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Note 1(m) for details of impairment).

The carrying amount of plant and equipment is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit or Loss and Comprehensive Income during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including building and capitalised lease assets, but excluding freehold land, is depreciated on a straight-line basis over their useful lives to the Company commencing from the time the asset is held ready for use. The expected useful life for plant and equipment is 3 to 10 years.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of profit or loss and other comprehensive income. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

j. Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average method. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k. Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year and which are unpaid. The amounts are unsecured and usually paid within 30 days of recognition.

l. Leases

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

m. Impairment of assets

At each reporting date, the Company reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of profit or loss and other comprehensive income. Impairment testing is performed annually for intangible assets with indefinite lives. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

n. Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial period.

o. Financial Instruments

Initial and Recognition Measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the company commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Classification and Subsequent Measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest method, or cost

Amortised cost is calculated as the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amount and the maturity amount calculated using the *effective interest method*.

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

The *effective interest method* is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) over the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying amount with a consequential recognition of an income or expense item in profit or loss.

The Company does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of Accounting Standards specifically applicable to financial instruments.

p. Foreign Currency Transactions and Balances

Functional and Presentation Currency

The functional currency of each of the Company's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars, which is the parent entity's functional currency.

Transactions and Balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in profit or loss, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the underlying gain or loss is recognised in other comprehensive income; otherwise the exchange difference is recognised in profit or loss.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Exchange differences arising on translation of foreign operations with functional currencies other than Australian dollars are recognised in other comprehensive income and included in the foreign currency translation reserve in the statement of financial position. The cumulative amount of these differences is recognised in profit or loss in the period in which the operation is disposed of.

q. Critical Accounting Estimates and Judgments

The Directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company.

Key Estimates — Impairment

The Company assesses impairment at each reporting date by evaluating conditions specific to the Company that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. The Company's intangible assets have been fully impaired as at 31 December 2019.

Key Judgements – Tax losses available

Included in note 9(c) are tax losses not brought to account, which have resulted from current and prior periods. The ability of the Company to utilise these losses in future periods will depend on the satisfaction of the relevant tests applied by the Australian Taxation Office to the losses available.

r. Going concern

As at 31 December 2019, the Company has recorded a net current asset surplus of \$2,888,415 (31 December 2018: \$809,777), including cash and cash equivalents totalling \$3,038,810 (31 December 2018: \$2,610,991). The consolidated entity recorded a net profit from continuing operations after tax of \$1,668,545 (2018: Loss \$10,956,042), and experienced net cash inflows from operating activities of \$26,282 (2018: net cash outflows \$8,038,322).

The ability of the Company to continue as a going concern and meet its strategic objectives in the mid to long-term is principally dependent upon obtaining additional funds for continuing research and development expenditure and other principal activities. On 5 February 2019, the Company completed a Private Placement to raise \$417,000 (less costs of the offer). Funds have been applied to working capital as the Company assesses new opportunities in healthcare and biotechnology following the cessation of its VF001 clinical program in November 2018.

The Directors are satisfied that adequate cash will be available to meet all obligations for a period of at least twelve months from the date of this report, and on that basis are satisfied that the going concern basis of preparation is appropriate.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

s. New and Amended Accounting Policies Adopted by the Company

The Company has applied the following standards and amendments for the first time for their annual reporting year commencing 1 January 2019: AASB 16: *Leases*. The application of this standard has not had a material impact to the financial statements on the basis that the Company currently has no operating leases.

NOTE 2: OTHER INCOME

	2019	2018
	\$	\$

NOTE 13: CAPITAL MANAGEMENT

Management controls the capital of the Company in order to maintain an appropriate debt to equity ratio and ensure that the Company can fund its operations and continue as a going concern. The Company's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets. There are no externally imposed capital requirements. Management effectively manages the Company's capital by assessing the Company's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues. There have been no changes in the strategy adopted by management to control the capital of the Company since the prior year.

NOTE 14: FINANCIAL RISK MANAGEMENT

Financial Risk Management Policies

The Company's financial instruments consist mainly of deposits with banks in functional and foreign currencies, short-term investments, and accounts receivable and payable.

Treasury Risk Management: The Board, at each of its meetings, analyses financial risk exposure and evaluates treasury management strategies in the context of the most recent economic conditions and forecasts. The Board's overall risk management strategy seeks to assist the Company in meeting its financial targets, whilst minimising potential adverse effects on financial performance. Risk management policies are approved and reviewed on a regular basis.

Financial Risk Exposures and Management: The main risks the Company is exposed to through its financial instruments are credit risk, interest rate risk, liquidity risk and foreign currency risk.

Credit risk exposures: Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Company. The credit risk on financial assets of the Company which have been recognised on the statement of financial position is generally the carrying amount, net of any provisions for doubtful debts.

Interest rate risk exposures: Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Company is also exposed to earnings volatility on floating rate instruments. At balance date, the Company does not have material exposure to interest rate risk.

Liquidity risk: Liquidity risk arises from the possibility that the Company might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Company manages liquidity risk by monitoring forecast cash flows and ensuring that adequate facilities or financing options are maintained. At balance date, the Company does not have material exposure to liquidity risk.

Foreign currency risk: Exposure to foreign currency risk may result in the fair value or future cash flows of a financial instrument fluctuating due to movement in foreign exchange rates of currencies in which the Company holds financial instruments which are other than the functional currency of the Company. The Company manages foreign currency risk by monitoring forecast foreign currency commitments and foreign exchange rates. At balance date, the Company's exposure to foreign currency risk arises from the holding of cash balances US\$36,284 and EUR€133,465 at exchange rates of 1.4273 and 1.5990 respectively.

NOTE 14: FINANCIAL RISK MANAGEMENT (continued)

Net fair value of financial assets and liabilities: The net fair value of cash and cash equivalents and non-interest bearing monetary financial assets and the financial liabilities of the Company approximates their carrying amounts. The net fair value of other monetary financial assets and financial liabilities is based upon market prices where a market exists or by discounting the expected future cash flows by the current interest rates for assets and liabilities with similar risk profiles.

Sensitivity analysis: The Company has performed a sensitivity analysis relating to its exposure to interest rate and foreign currency exchange rate risks, to assess the effect on reported results and equity which could result from a change in these risks. Management have determined that, at 31 December 2019, the effect on profit and equity as a result of changes in foreign currency exchange rates by +100 basis points or -100 basis points would be \$2,680 (2018: \$27,025). The effect on profit and equity as a result of changes in interest rates by +100 basis points or -100 basis points would be \$34,181 (2018: \$28,408) additional, or less, interest revenue.

NOTE 15: SHARE-BASED PAYMENTS

NOTE 15: SHARE-BASED PAYMENTS (continued)

Summary of options granted and lapsed during the financial year ended 31 December 2019

The following table illustrates the number and weighted average exercise price (WAEP) of, and movements in, share options issued during the year:

	2019 Number	2019 WAEP	2018 Number	2018 WAEP
Outstanding at the beginning of year	32,759,320	\$0.11	36,209,320	\$0.11
Options issued during the year	-	-	-	-
Forfeited during the year	-	-	-	-
Options lapsed during the year	24,509,320)	-	3,450,000	-
Options exercised during year	-	-	-	-
Outstanding at the end of the year	8,250,000	\$0.10	32,759,320	\$0.11
Exercisable at the end of the year	8,166,666	\$0.10	16,627,840	\$0.11
Weighted average remaining contractual life	1.47 years		3.08 years	

NOTE 16: COMMITMENTS FOR EXPENDITURES

The Company held no contractual commitments as at 31 December 2019.

NOTE 17: CONTINGENT LIABILITIES AND ASSETS

The Directors intend to lodge a claim of \$657,699 (2018: 2,488,791) for eligible R&D expenditure in relation to activities undertaken in 2018 but still to be invoiced at 31 December 2018. These amounts were invoiced and paid in the financial year ended 31 December 2019. Given that the claim is subject to a standard review process, the Directors consider there to be sufficient uncertainty regarding the amount ultimately recoverable and have elected to disclose the claim as a contingent asset. Directors are not aware of any other contingent assets or any contingent liabilities that are likely to have a material effect on the results of the Company as disclosed in these financial statements.

For personal use only

NOTE 18: RELATED PARTY TRANSACTIONS

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

Key management personnel compensation: Details of remuneration of the key management personnel are provided in the Remuneration Report in the Directors' Report.

Loans: There were no loans between the Company and any KMP in the year ended 31 December 2019.

Other transactions: On 31 December 2019 the Company entered into an agreement with JEM Pharmaceuticals Pty Ltd, which is a consulting company of Non-Executive Director, Mr John Michailidis. The consulting agreement is for services associated with the scientific and commercial diligence review processes for asset/s under consideration by the Company for potential acquisition or licence. Expenses incurred for the year ended 31 December 2019 and payable at that date totalled \$3,300.

Other than those noted above, there were no related party transactions with any KMP in the year ended 31 December 2019.

NOTE 19: SEGMENT INFORMATION

Operating segments are identified, and segment information disclosed, on the basis of internal reports that are regularly provided to, or reviewed by, the Company's chief operating decision maker which, for the Company, is the Board of Directors. In this regard, the Board of Directors confirms that the Company continues to operate in one operating segment, being biotechnology.

NOTE 20: CASH FLOW INFORMATION

Guarantees: Factor Therapeutics Limited has not yet entered into any guarantees, in the current or previous financial year, in relation to the debts of its subsidiaries.

Contingent Assets and Liabilities: For information relating to contingent assets and liabilities, refer to Note 17: Contingent Liabilities and Assets

NOTE 23: PARENT INFORMATION (continued)

Contractual Commitments: For information relating to contractual commitments, refer to Note 16: Commitment for Expenditures. The commitments detailed in Note 16 are related to parent entity commitments only.

NOTE 24: CONTROLLED ENTITIES

Factor Therapeutics Europe Limited (previously Tissue Therapies Europe Limited) (“the Subsidiary”), a wholly owned subsidiary, was formed on 23rd January 2012, based in the United Kingdom, to provide administration support to Factor Therapeutics Limited (“the Parent Entity”).

Factor Therapeutics USA LLC (“the Subsidiary”), a wholly owned subsidiary was formed on 18th February 2016, in the state of Delaware, USA. There were no transactions in this subsidiary during the financial year ended 31 December 2019.

As part of cost minimisation initiatives, the Company’s two wholly owned subsidiaries ceased operations and were wound up during the financial year. Neither of these subsidiaries had active operations, therefore there was no material impact to the consolidated entity resulting from the deregistration of the subsidiaries.

Name	Country of Incorporation	% Equity Interest	
		2019	2018
Factor Therapeutics Europe Limited	UK	-	100%
Factor Therapeutics USA LLC	USA	-	100%

NOTE 25: EVENTS SUBSEQUENT TO REPORTING DATE

There were no subsequent events that required adjustment to or disclosure in the Directors’ Report or the Consolidated Financial Statements of the Company for the year ended 31 December 2019.

NOTE 26: NEW ACCOUNTING STANDARDS FOR APPLICATION IN FUTURE PERIODS

Certain new accounting standards and interpretations have been published that are not mandatory for 31 December 2019 reporting periods and have not been early adopted by the Company. These standards are not expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

For personal use only

DIRECTORS' DECLARATION

In the opinion of the Directors:

- the financial statements and notes of the Company are in accordance with the *Corporations Act 2001*, including:
 - i. giving a true and fair view of the Company's financial position as at 31 December 2019 and of its performance for the financial year ended on that date; and
 - ii. complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001;
- the financial statements and notes also comply with International Financial Reporting Standards; and,
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration has been made after receiving the declarations required to be made to the Directors in accordance with section 295A of the *Corporations Act 2001* for the financial year ended 31 December 2019.

Cherrell Hirst, AO

Chairman

Brisbane, 19 February 2020

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF FACTOR THERAPEUTICS LIMITED

Report on the Financial Report

Opinion

We have audited the accompanying financial report of Factor Therapeutics Limited (the company), which comprises the consolidated statement of financial position as at 31 December 2019, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the company and the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

In our opinion the financial report of Factor Therapeutics Limited is in accordance with the *Corporations Act 2001*, including:

- a) Giving a true and fair view of the consolidated entity's financial position as at 31 December 2019 and of its performance for the year ended on that date; and
- b) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement. Our responsibilities under those standards are further described in the Auditor's Responsibility section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the consolidated entity in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. We have determined that there are no key audit matters to communicate in our report.

Other Information

The Directors are responsible for the other information. The other information comprises the information included in the consolidated entity's Annual Report, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Directors' Responsibilities for the Financial Report

The Directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 1, the Directors also state, in accordance with Australian Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial report complies with International Financial Reporting Standards.

In preparing the financial report, the Directors are responsible for assessing the consolidated entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using a going concern basis of accounting unless the Directors either intend to liquidate the consolidated entity or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our responsibility is to express an opinion on the financial report based on our audit. Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individual or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report.

The procedures selected depend on the auditor's judgement, including assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the consolidated entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the consolidated entity to cease to continue as a going concern.

We evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the consolidated entity to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements. We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 31 December 2019. The Directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of Factor Therapeutics Limited for the year ended 31 December 2019 complies with section 300A of the *Corporations Act 2001*.
