#### Wagners Holding Company Limited (ABN 49 622 632 848) & Controlled Entities

Revenue for the half-year ended 31 December 2019 decreased from the corresponding period due to reduced cement volumes, and no major project work in this half. This has been partially offset by increased concrete volumes, combined with the increased activity to full utilisation of the Groups contract haulage fleet.

Net profit before tax and after tax for the half-year ended 31 December 2019 has decreased from the corresponding period mainly due to lower cement volumes as a result of a dispute with a major customer ( which has now recommenced offtake), delays in higher margin project services based work and the Groups revenue composition shifting, which now includes a greater proportion of lower margin revenue streams such as the Groups contract haulage services.

Please refer to the associated presentation that was released to the market on 25 February 2020 for further commentary.

#### **Operating and financial review (continued)**

Operating Earnings before Interest, Tax, Depreciation and Amortisation is a non-IFRS disclosure. In the opinion of the Directors, the Group's EBITDA reflects the results generated from ongoing operating activities and is calculated in accordance with AICD/Finsia principles.

The operating expenses, depreciation and finance income in December 2019 in this report are presented under the new standard AASB16 *Leases* and are not comparable to June 2019 and December 2018. Whilst the Group's rental costs have not materially changed overall, under the new standard the majority of the Group's rental costs are capitalised and depreciated over the terms of the relevant lease. As a result of this standard, the Group has expensed \$2.5m less in rent in December 2019 half year than in the corresponding half. On the other hand, depreciation and interest (which is shown below the EBITDA) increased by a an amount of \$3.9m (see note 7)

The results for the half year ended 31 December 2019 were low compared to the prior corresponding period due to:

- No major project work undertaken in this half.
- Reduced cement volumes due to dispute with major customer, recommenced offtake in late October 2019.
- Increased pricing pressure in the concrete, aggregate and cement markets in SEQ.
- The wind down of our precast business, pending the commencement of a large project.
- Increased maintenance and contract services spend.

Some positives to come out of this half are:

- Transport revenues and profit have continued to grow as expected, with more opportunities presenting throughout the half-year period, with a corresponding increase in maintenance costs.
- CFT results have increased compared to the prior corresponding period, with international expansion and large projects won in our local market more work secured in the Middle East in Abu Dhabi and a large stadium project in Townsville.
- Supply recommenced to Boral with the dispute being heard in the Supreme Court of Queensland earlier this month, now awaiting the judgement.
- Awarded 2 material contracts, Adani Quarry services and Cross River Rail Tunnel Segment Supply.

The outlook for the second half of this year is:

- Continued pressure in the SEQ construction materials market.
- Cement volumes will improve with the recommencement of supply to Boral.
- Secured Project work will contribute more in this half however they will have a much larger impact in FY21.
- CFT has secured further international work and will start producing in the USA.
- We have tendered on 2 large international LNG projects, one in 2019 and one recently in 2020. No contracts have been awarded on these bids and we remain engaged on both. The timing is now that, even if the projects are awarded soon, there is unlikely to be any major impact on FY20 earnings.

#### Dividends

There are no dividends proposed to be paid as at the date of this report.

#### Significant events occurring after the balance date

The directors of the company are not aware of any other matter or circumstance not otherwise dealt with in the financial report that significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs in the period subsequent to the half year ended 31 December 2019.

#### Auditor's independence declaration

A copy of the auditor's independence declaration, as required under section 307C of the Corporations Act 2001 is set out on page 6 and forms part of the Director's Report for half year ended 31 December 2019.

#### Rounding

The Company is a kind referred to in Australian Securities & Investment Commission (ASIC) Corporations Instrument 2016/191, and in accordance with that instrument all financial information presented in Australian dollars has been rounded to the nearest thousand dollars unless otherwise stated.

Signed in accordance with a resolution of the directors.

# Wagners Holding Company Limited Notes to the consolidated interim financial report for the half-year ended 31 December 2019

# Statement of Significant Accounting Policies

Wagners Holding Company Limited (the 'Company') is a company domiciled in Australia. The consolidated interim financial report of the Company for the half-year ended 31 December 2019 comprises the Company and its subsidiaries (together referred to as the 'Group'). The consolidated interim financial report was authorised for issue by the directors on 25 February 2020.

#### (a) Statement of compliance

The consolidated interim financial report has been prepared in accordance with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Act 2001.

This consolidated interim financial report does not include all the information normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ending 30 June 2019; and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The Company is of a kind referred to in ASIC Corporations (Rounding in Financial / Directors' Report) Instrument 2016/191 and in accordance with that Instrument, amounts in the financial report have been rounded to the nearest thousand dollars, unless otherwise stated.

#### (b) Basis of preparation

The accounting policies and methods of computation applied by the Group in the consolidated interim financial report are the same as those applied by the Group in its consolidated financial report as at and for the year ended 30 June 2019 except for the adoption of new and amended standards as set out below.

#### Going concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realization of assets and settlement of liabilities in the normal course of business.

As disclosed in the financial statements, the Company has a working capital deficiency of \$24,636,000 as at 31 December 2019. This is largely due to the finance facility being classified as current given the December 2020 expiry, as well as the impact of the adoption of AASB 16 Leases. Notwithstanding the current half year loss of \$1,210,000, net cash outflows from operating activities of \$11,898,000 and working capital deficiency, the Directors are of the opinion that the going concern assumption is appropriate due to the following reasons:

- The Group anticipates obtaining an equivalent finance facility prior to the December 2020 expiry of its current finance facility.
- The Group is currently meeting its covenant obligations.
- The Group has recently won some significant contracts as disclosed to the market on the ASX.

#### (b) Basis of preparation (continued)

#### New and revised standards

A number of new or amended standards became applicable for the current reporting period, and the group had to change its accounting policies as a result of adopting the following standard:

#### • AASB 16 Leases.

The impact of the adoption of the above standard and the new accounting policies are disclosed below. The other standards did not have any impact on the group's accounting policies and did not require retrospective adjustments. Additionally, new accounting standards and interpretations that are not mandatory for the interim reporting period have not been early adopted and any effect of these new standards has yet to be determined.

#### (i) AASB 16 Leases

The Group applied for the first time AASB 16 from 1 July 2019. AASB 16 introduced a single, on-balance sheet accounting model for lessees. As a result, in relation to various leases, the Group has recognised right-of-use assets representing its right to use the underlying assets, and lease liabilities, representing its obligation to make lease payments.

The Group transitioned to AASB 16 using the modified retrospective approach, where the right-of-use asset is recognised at the date of initial application at an amount equal to the lease liability, using the entity's current incremental borrowing rate. Accordingly, prior comparative information has not been restated and all leases are presented as previously reported under AASB 117 Leases ('AASB 117') and related interpretations.

#### Accounting policies applied from 1 July 2019

As a lessee, the Group previously classified leases as operating or finance leases based on its assessment of whether the lease transferred substantially all the risks and rewards of ownership. Under AASB 16, the Group recognises right-of-use assets and lease liabilities for most leases in the Consolidated Statement of Financial Position.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made. Lease liabilities are remeasured when there is a change in future lease payments arising from a change in a rate, or changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

The right-of-use asset is initially measured at the amount of lease liability plus any lease payments made before commencement less any lease incentives received. It also includes and direct costs and restoration costs. Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

## **1** Statement of Significant Accounting Policies (continued)

(b) Basis of preparation (continued)

New and revised standards (continued)

#### i) AASB 16 *Leases* (continued)

#### Accounting policies applied from 1 July 2019 (continued)

The Group has elected not to recognise right-of-use assets and lease liabilities for leases with terms not exceeding twelve months, and for leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The Group has applied judgement to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Group is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right-of-use assets recognised.

#### Impact of adoption

On transition to AASB 16, the Group recognised right-of-use assets and lease liabilities. The impact on transition is summarised below.

1		\$'000
2	Right-of-use assets presented in property, plant and equipment	76,484
	Lease liabilities	(76,484)
	Statement of financial position impact	-

The Group used its incremental borrowing rate at 1 July 2019 of 4.43% to discount lease payment when measuring its lease liabilities.

	\$'000
Operating lease commitment at 30 June 2019	<b>133,175</b>
Discounted using the incremental borrowing rate at 1 July 2019	65,164
$^{\prime\prime}$ Exemption for lease with less than 12 months of lease term at transition date	(188)
Agreements considered leases not previously included as operating commitments	469
Lease modification	<mark>11,039</mark>
Lease liabilities recognised at 1 July 2019	76,484

The impact of AASB 16 resulted in a \$1.37m lower profit before tax, as the Group has recognised depreciation and interest costs, instead of operating lease expense. During the six months ended 31 December 2019, the Group recognised \$2.15 million of depreciation charges, \$1.69 million of interest costs, with there being no cash impact of AASB 16 in relation to those leases previously classified as operating leases and new leases added during the period.

## **1** Statement of Significant Accounting Policies (continued)

#### (c) Critical accounting estimates and judgments

The preparation of the interim financial report requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group. Actual results may differ from these estimates.

In preparing this consolidated interim financial report, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the 2019 annual report.

# 2 Segment reporting

AASB 8 Operating Segments requires the Group to identify operating segments and disclose segment information on the basis of internal reports that are provided to, and reviewed by, the chief operating decision maker of the Group to allocate resources and assess performance. In the case of the Group, the chief operating decision maker is the Board of Directors.

The Group's operating segments are determined based on the nature of the business activities undertaken by the Group. The Group operates in following two segments:

- **Construction Materials & Services (CMS)** supplies a range of construction materials and services predominantly to customers in the construction, infrastructure, and resources industries. Key products include cement, flyash, ready-mix concrete, precast concrete products, aggregates and reinforcing steel. Services include mobile concrete, crushing and haulage services, and are typically provided via medium to long-term contracts both domestically and internationally.
- New Generation Building Materials (NGBM) provides innovative and environmentally sustainable new generation materials. Key products are composite fibre technology (CFT) materials and earth friendly concrete (EFC).

Segment results that are reported to the chief operating decision makers include items directly attributed to the segment as well as those that can be allocated on a reasonable basis.

### 13 Derivative instruments

#### (a) Estimation of fair values

Financial assets and liabilities that are measured at fair value in the half year financial report comprise forward foreign exchange contracts and interest rate swaps. Forward exchange contracts are measured by discounting the contractual forward price and deducting the current spot rate and for interest rate swaps broker valuations are obtained. There were no changes in valuation techniques used from the previous reporting period.

#### b) Fair value hierarchy

The Company uses the following fair value measurement hierarchy to determine & measure the fair value of its financial instruments.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

## INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Wagners Holding Company Limited

### Report on the Half-Year Financial Report

#### Conclusion

We have reviewed the half-year financial report of Wagners Holding Company Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2019, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year then ended, and notes comprising a statement of accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2019 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

#### Directors' responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

#### Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2019 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Group, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

BDO Audit Pty Ltd ABN 33 134 022 870 is a member of a national association of independent entities which are all members of BDO Australia Ltd ABN 77 050 110 275, an Australian company limited by guarantee. BDO Audit Pty Ltd and BDO Australia Ltd are members of BDO International Ltd, a UK company limited by guarantee, and form part of the international BDO network of independent member firms. Liability limited by a scheme approved under Professional Standards Legislation.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Group, would be in the same terms if given to the directors as at the time of this auditor's review report.
