DIRECTORS' REPORT

The Directors of Six Sigma Metals Limited ("SI6" or "the Company") present their report, together with the financial statements on the consolidated entity consisting of Six Sigma Metals Limited and its controlled entities for the half-year ended 31 December 2019 ("the Period").

It is recommended that the Directors' Report be read in conjunction with the annual financial statements for the year ended 30 June 2019 and considered together with any public announcement made by the Company during the period and up to the date of this report.

1. DIRECTORS

The names of the Company's Directors who held office during the Period and until the date of this report are set out below. The Directors were in office for this entire Period unless otherwise stated.

Director	Position	Duration of Appointment
Mr Eddie King	Non-Executive Director	Appointed 12 June 2018
Mr Steven Russell Groves	Non-Executive Director	Appointed 22 February 2017
Mr Joshua Alan Letcher	Non-Executive Director	Appointed 21 August 2017
Mr Patrick Holywell	Chairman	Appointed 25 November 2019

2. PRINCIPAL ACTIVITIES

The Group's principal activities during the year have been the continuing exploration in Botswana. The main business activities in recent years have also been focused on the exploration for base metals and in particular for nickel and copper and PGEs within the Group's tenement portfolio located over the Limpopo belt on the eastern side of Botswana.

3. REVIEW OF OPERATIONS AND ACTIVITIES

During the half year, the focus was on assessing potential opportunities, reviewing the exploration potential of the Company's portfolio of assets in Botswana and continuing to monitor the BCL Limited liquidation process concerning the Company's affected Botswana assets.

The Company continued desktop assessments of its Botswana portfolio and constructed fieldwork programs for implementation once the liquidation of BCL is resolved. The Company is reviewing the nickel potential of recently granted tenements as well as the Maiblele North 2.4Mt Ni-Cu-Co-Pd deposit (see ASX Announcement 28 April 2015) to define resource extension targets for future drilling.

Other exploration targets include the Dibete and Airstrip copper prospects where previous drilling (see ASX Announcements 18 December 2017 and 12 January 2017) has provided encouragement for the presence of significant copper mineralisation at both prospects. Fieldwork programs, including deep-looking geophysics, are being assessed, with a view to locating deep, massive-sulphide copper drill targets.

Three of the Company's licences (PL 110/94, PL 111/94 and PL 54/98), covering 185km², have been in Joint Venture with BCL Limited (a major Ni-Cu miner in Botswana) since 2014. On October 2016, BCL was placed into liquidation and all work on the JV assets ceased. The Ministry of Minerals Resources, Green Technology and Energy Security has subsequently suspended (put on hold) the renewal date of the three Prospecting Licences (see ASX Announcement 25 September 2017). This suspension means that the current renewal date of 31 March 2018 has been frozen for an indefinite period pending completion of the liquidation process.

This decision does not affect SI6's right to continue exploring these licences. SI6, via its African subsidiary AML, will apply for renewals for all three licences as stipulated in the Mines and Minerals Act when advised by the Ministry of the new renewal dates. The liquidation process is ongoing as of the date of this report.

Competent Persons Statement

The information in this report that relates to Exploration Targets and Exploration Results is based on historical exploration information compiled by Mr Steven Groves, who is a Competent Person and a Member of the Australian Institute of Geoscientists. Mr Groves is a Director of Six Sigma Metals Limited. Mr Groves has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for the reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Groves consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Disclaimer

In relying on the above mentioned ASX announcement and pursuant to ASX Listing Rule 5.23.2, the Company confirms that it is not aware of any new information or data that materially affects the information included in the above mentioned report.

SIX SIGMA METALS LIMITED

Notes to the Consolidated Interim Financial Statements

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These general purpose interim financial statements for half-year reporting period ended 31 December 2019 have been prepared in accordance with requirements of the Corporations Act 2001 and Australian Accounting Standard AASB 134: Interim Financial Reporting. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Six Sigma Metals Limited. As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2019, together with any public announcements made during the following half-year.

Significant accounting judgments and key estimates

The preparation of the interim financial report requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim financial report, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial report for the year ended 30 June 2019.

(a) Accounting Policies

The accounting policies are consistent with those applied in the previous financial year and those of the corresponding interim reporting period, other than as detailed below.

New Accounting Standards and Amendments

The consolidated entity has adopted all of the new or amended Accounting Standards and interpretations issued by the Australian Accounting Standards Board ("AASB") that are mandatory for the current reporting period.

Details of the impact of *AASB 16 Leases and IFRIC 23 Uncertainty over Income Tax Treatments* have had are detailed below. Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted by the consolidated entity.

AASB 16 – Leases

The Consolidated entity has adopted AASB 16 from 1 July 2019 using the retrospective modified approach and as such the comparatives have not been restated. The impact of adoption is not material to the financial statements.

IFRIC 23 - Uncertainty over Income Tax Treatments

IFRIC 23 provides guidance on the accounting for current and deferred tax liabilities and assets in circumstances in which there is uncertainty over income tax treatments.

The Consolidated entity considered the IFRIC 23 amendment and note the impact is not material to the financial statements.

(b) Changes to the Group's accounting policies

Exploration and Evaluation Asset

The financial report has been prepared on the basis of retrospective application of a voluntary change in accounting policy in accordance with AASB 108 *Accounting Policies, Changes in Accounting Estimates and Errors*.

SIX SIGMA METALS LIMITED

Notes to the Consolidated Interim Financial Statements

The Group previously capitalised these exploration and evaluation expenditures which were carried forward to the extent that they were expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage which permits reasonable assessment of the existence of economically recoverable reserves.

The result of this accounting change means that the Group will expense exploration and evaluation expenditure as incurred in respect of each identifiable area of interest until a time where an asset is in development.

The Board determined that the change in accounting policy will result in more relevant and no less reliable information as the policy is more transparent and less subjective. Recognition criteria of exploration and evaluation assets are inherently uncertain and expensing as incurred results in a more transparent Consolidated Statement of Financial Position and Consolidated Statement of Profit or Loss and Other Comprehensive Income. Furthermore, the change in policy aids in accountability of line management's expenditures and the newly adopted policy is consistent with industry practice.

The impact of the adoption of the accounting policy change has been summarised in Note 10.

NOTE 2: OPERATING SEGMENTS

The directors have considered the requirements of AASB 8 – Operating Segments and the internal reports that are reviewed by the Chief Operating Decision Maker (the Board) in allocating resources.

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources. The information presented in the financial report is the same information that is viewed by the Directors.

The Group is currently operating in one business segment being an administrative entity in the exploration sector and two geographic segments being Australia and Botswana.

Restated balance at 31 December 2018	-	(112,228)	(20,195,886)

In the year ending 30 June 2019, the Group changed its accounting treatment of exploration and evaluation expenditure in accordance with standard AASB 6: Exploration for and Evaluation of Mineral Resources. Previously, the Group capitalised accumulated exploration and evaluation expenditure and carried forward to the extent that they were expected to be recouped through the successful development. The result of this accounting change means that the Group will expense exploration and evaluation expenditure as incurred in respect of each identifiable area of interest until a time where an asset is in development.

The effects on the Consolidation Statement of Profit or Loss and Other Comprehensive Income were as follows:

	For the period ended 31 December 2018 \$

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Six Sigma Metals Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Six Sigma Metals Limited (the Company) and its subsidiary (the Group), which comprises the consolidated statement of financial position as at 31 December 2019, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year then ended, and notes comprising a statement of accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2019 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Directors' responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2019 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Group, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

For personal use only

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Group, would be in the same terms if given to the directors as at the time of this auditor's review report.
