Q2 EVENTS POSTPONED DUE TO COVID-19

Aspermont announces that two events, Future of Mining Australia (FOM) & Mining Journal Select Sydney (MJS), have been postponed from next week due to the travel restrictions and safety concerns resulting from the COVID-19 virus. The company expects to hold these events later in the calendar year when travel restrictions are relaxed.

Managing Director Alex Kent commented:

“We are living in unprecedented times. It is disappointing that we must postpone FOM and MJS particularly given the strength of pre-bookings. The events were expected to set new records for Aspermont with attendees more than double last year. Obviously the safety of our staff, audience and partners is paramount and to that end we have been following guidelines set by the Australian government to delay the spread of COVID-19 and will continue to do so as they evolve. We look forward to welcoming both the existing registered and additional audiences to these events later in the financial year”.

Aspermont will continue to keep the market updated on any further impacts to the business from COVID-19 as the situation develops.
