Launch of First Platform Customer

This week Change's sponsor bank, Central Bank of Kansas City (**CBKC**), approved the launch of the first Platform customer, UpChange, on Change's Platform. As previously announced beta testers have been swiping UpChange cards and transacting in the proceeding months ahead of a formal launch on Change's payments and card issuing platform (**Platform**) with CBKC acting as the sponsor bank. With the launch in production, UpChange customers will start receiving their UpChange Mastercard® branded cards in the mail in the next 2 weeks.

The Company will begin to earn first revenues from the Platform this quarter from UpChange customers transacting with their cards and the mobile app.

Alastair Wilkie, CEO of Change commented "The Change and CBKC teams have been focused for the last 6 months on launching the first customer, UpChange, on our Platform. The first card program to launch post our Mastercard registration and other certifications is a significant milestone for the business, a commitment that required intensive time and effort to achieve. Having UpChange live in production validates the Platform and proves our

Customer Pipeline

The launch of UpChange marks the launch of the first customer on Change's Platform in partnership with CBKC. In addition, CBKC has also identified a number of new and existing customers to onboard to Change's Platform and will work with Change over the coming months to contract with those customers and start the onboarding process.

Trent Sorbe, President of Central Payments and a Director at CBKC, added: "Post the announcement of our strategic investment in Change we are excited to launch in production our first card and payments program on Change's Platform. We have identified a number of clients who are both new and existing customers of the bank who would benefit greatly by running their card and payments programs on Change's innovative and flexible technology Platform. We very much look forward to working closely with the Change team over the next 6 months to contract a pipeline of new customers to Change's Platform. We look forward to providing further updates together with Change as we progress."
