

## Victorian Bushfire Royal Commission chooses thedocyard's technology

The Victorian Government Solicitor's Office, Victoria's premier provider of legal and strategic solutions to the Victorian Government, has adopted thedocyard's deal management technology to deliver a collaborative portal for the 2020 Royal Commission into National Natural Disaster Arrangements.

"This engagement allows the Victorian Government Solicitor's Office to provide a one stop collaborative portal across all stakeholders, keeping highly confidential data secure, delivering forensic level auditability, enabling the management of large document volumes, reducing email traffic and keeping the Royal Commission on track and moving forward.

We are pleased to support the Victorian Government Solicitor's Office as it conducts this vital public enquiry into how the 2019-2020 bushfire crisis was managed, and how future devastation could be mitigated," said Stuart Clout, Chief Executive Officer of thedocyard.

This initial contract is for a period of twelve months but is expected to operate until the conclusion of the Bushfires Royal Commission. There are no further material conditions to be satisfied.
