

Witwatersrand Basin Project's Environmental Authorisation Update

West Wits Mining (ASX: WWI, 'West Wits' or 'the Company'), is pleased to announce the Company has received notification from South Africa's Department of Mineral Resources ("DMR") of an intention to approve the Company's Environmental Authorisation ("EA") application at the 3.65Moz Au JORC Resource¹ Witwatersrand Basin Project ("WBP").

Per statutory requirements, West Wits is notifying Interested and Affected Parties ("IAP") who have 20-days at their election to lodge any appeals to the DMR's decision to approve the EA. Subject to there being no appeal, or the Company procuring a satisfactory outcome to any appeal, the DMR would then proceed with making a recommendation on the granting of the mining right to the Minister of Mineral Resources.

Work on the 3rd party scoping study and exploration activities to convert the exploration target² into a JORC compliant resource is progressing well and is expected to be completed in July 2020 and September 2020, respectively.

Jac van Heerden, Managing Director commented: *"The DMR's notification on West Wits EA approval is a positive step towards the granting of the mining right over WBP. The West Wits team will continue their engagement with the DMR to expedite the mining right approval."*

Approved for release by the Managing Director,

Jac van Heerden
Managing Director
West Wits Mining Limited
