Lapse of 5,000,000 options exercisable at \$0.25 expiring 6 August 2020.

Yours faithfully,

**Justin Clyne**

Company Secretary

**About Genex Power Limited:**

Genex Power is a power generation development company listed on the ASX. The Company is focused on innovative clean energy generation and electricity storage solutions which deliver attractive commercial returns for shareholders. The Company has a development pipeline of up to 820MW of renewable energy generation and storage projects within its portfolio, underpinned by the Kidston Renewable Energy Hub in far-north Queensland (**Kidston Hub**). The Kidston Hub is comprised of the operating 50MW Stage 1 Solar Project (**KS1**), the 250MW Pumped Storage Hydro Project (**K2-Hydro**) and the multi-staged integrated Solar Project of up to 270MW (**K2-Solar**) under development and the Kidston Stage 3 Wind Project of up to 150MW under feasibility. In addition, the Company has acquired the 50MW Jemalong Solar Project (**JSP**), located near Forbes in NSW. JSP reached financial close in December 2019 and is under construction with energisation expected in Q4 CY2020. Genex has embarked on the next stage of its storage strategy through the early development of the proposed 50MW/75MWh large scale energy storage system in Queensland, project Como. This is an exciting opportunity as it leverages the Company's robust understanding of energy storage in Queensland.

Genex continues to acknowledge the support from the Federal Government, through the Australian Renewable Energy Agency (**ARENA**), which provided \$8.9 million in funding to support the construction of the KS1 Project, in addition to their support of up to \$9 million in funding to support the development of the stage 2 projects. Genex also acknowledges the support of the Queensland State Government through providing a 20-year revenue support deed and designating the Hub as 'Critical Infrastructure' to the State.
