All Shareholders will be entitled to receive one (1) Option for every five (5) Shares held by them on the register at 5:00pm (Sydney time) on the Record Date, being 27 August 2020.

5. Overview of the Company

5.1 Overview

The Company is a listed investment company whose primary investment objectives are:

- to achieve strong risk adjusted returns for Shareholders by identifying and investing in an investment portfolio of at least 20 stock exchange listed international and Australian companies assessed to have attractive business characteristics, at a discount to their assessed intrinsic values; and
- to minimise the risk of permanent capital loss for Shareholders.

A further objective is to generate attractive returns to Shareholders through dividend payments utilising franking credits and the benefits of the listed investment company structure, although tax considerations are not a primary factor in the Company's investment decisions.

While it is difficult to eliminate investment risk completely, the Company believes prudent investment parameters have been established to mitigate the risk of permanent capital loss.

Further information about the Company is set out in the documents specified in section 9.1.

5.2 Share Price

Official quotation of the Company's Shares on ASX commenced on 19 December 2006.

The highest and lowest recorded market sale prices of the Company's Shares in the last 12 months prior to the date of this Prospectus are:

	Price*	Date
Highest	\$3.79	20 February 2020
Lowest	\$2.15	23 March 2020

* The Company paid a special dividend of 20.0 cents per share on 19 February 2020. For the purposes of determining the highest and lowest prices in the table above, share prices prior to the ex-dividend date for the special dividend of 3 February 2020 were adjusted for comparative purposes using the ASX adjustment factor.

The last market sale price of the Company's Shares on ASX on the last day that trading took place in the Shares prior to the date of this Prospectus was \$2.63 on 20 August 2020.

Investors should note that past performance is not necessarily an indicator of future performance.

6. Risk Factors

Investors should be aware that dealing in and exercising Options involves various risks. There are general risks associated with owning securities in publicly listed investment companies as well as risks specifically related to the Company. The price of securities can go down as well as up due to factors outside the control of the Company.

Some of the key factors which may affect the future earnings of the Company, the market price of its Shares and the price at which the Options may trade include:

- (a) movements in domestic and international share markets, interest rates, foreign exchange rates, and commodity prices;
- (b) changes in general economic conditions and the global security situation, including the possibility of terrorist disturbances, outbreaks of international hostilities, pandemics, outbreaks of disease, natural disasters, climate change and other man-made or natural events;
- (c) the future earnings, net tangible assets per share, and market prices of the securities of the Company and of the companies in which the Company invests;
- (d) changes in regulatory and governmental policy in Australia and overseas, including changes to the taxation of companies as a result of changes to Australian and foreign taxation laws;
- (e) the liquidity of the market for the Company's Shares and Options;
- (f) the success of the investment philosophy, investment objectives and investment processes of the Company;
- (g) the ability of the Services Provider to provide its services and retain its investment management team and the composition of that team;
- (h) the loss of key Directors, or the loss of key staff, particularly Chris Mackay;
- (i) the need to secure the services of skilled and qualified alternative services providers or employees if the Services Agreement and/or the Administrative Services Agreement with the Services Provider is terminated;
- (j) the Company's business is exposed to operational risks including risks arising from processing errors, fraud, system failure, human error and staff underperformance. Operational risk has the potential to have a material adverse impact on the financial performance as well as the reputation of the Company's current and future businesses and in turn on the Company itself;
- (k) the Company will be exposed to credit risk if the Company's counterparties fail to perform as contracted;
- (l) the Company will be exposed to liquidity risk in the event it does not have sufficient funds to settle liabilities or obligations on the due date or if it is forced to sell financial assets at values which are less than they are worth;
- (m) the Company may face a refinancing risk in the unlikely event that the Company's prime broker (or an associate of the prime broker) demanded, at short notice under the terms of its multi-currency facility, the repayment of any borrowings the Company may have from time to time; and
- (n) the corruption, theft or loss of the Company's data, networks or systems due to cyber-attacks, phishing attacks, data security breaches or hacking.

If you do not exercise the Options, because you sell those Options on-market, allow those Options to expire without being exercised, or do not receive Options because you are an overseas Shareholder in a jurisdiction where the offer is not being made, and other Option holders exercise their Options, your shareholding will be diluted.

The above list of risk factors is not meant to be exhaustive. The above risks, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of an Option issued under this Prospectus and any Share which is issued as a result of the exercise of an Option. Therefore, no assurances or guarantees of future profitability, distributions, payment of dividends, returns of capital or performance of the Company or its securities can be provided by the Company.

If you have doubts as to whether you should exercise your Options and acquire Shares, you should consult with your stockbroker, accountant, solicitor or other financial adviser immediately.

7. Terms of the Bonus Issue

7.1 The Bonus Issue

The Bonus Issue is a one (1) for five (5) bonus issue of Options exercisable at \$2.60 per Option. No funds will be raised from the issue of the Options. If all Options issued under this Prospectus are subsequently exercised, the Shares issued would raise approximately \$285.8 million. The Bonus Issue is made to all Eligible Shareholders registered at 5.00pm (Sydney time) on the Record Date. The total number of Options which may be issued is approximately 109,925,010, subject to rounding. In the calculation of any entitlement, fractions will be rounded up to the nearest whole number.

You do not need to take any action to receive the Options. You will be sent a personalised copy of the Prospectus, which will enclose an Option holding statement that will state the number of Options that will be issued to you.

If you would like to exercise your Options you can do so on or before the Expiry Date by completing an Application Form and paying the full amount of the Exercise Price. The Application Form outlines the available Exercise Price payment methods. Your completed Application Form should be returned to the Share Registrar, Boardroom Pty Limited. A combined Application Form and Option holding statement will be despatched to Option holders at the same time.

7.2 Rights Attaching to Options

The terms and conditions of the Options, which are set out in the Terms of Options, are summarised below:

Register

The Company will maintain a register of holders of Options in accordance with Section 168(1)(b) of the Corporations Act.

Transfer/Transmission

An Option may be transferred or transmitted in any manner approved by ASX.

Exercise

An Option may be exercised by delivery to the Company of a duly completed Application Form, signed by the registered holder(s) of the Option, together with payment to the Company of \$2.60 per Option being exercised.

An Option may be exercised on any Business Day from the date of grant of an Option to the Expiry Date (inclusive), but not thereafter.

An Exercise of Options is only effective when the Company has received a duly completed Application Form and the full amount of the Exercise Price in cleared funds. The Application Form outlines the available Exercise Price payment methods.

Option holders can exercise part of their Option holding. However, the minimum number of Options that can be exercised each time is the lower of 1,000 Options and all the Options held by the Option holder.

Dividend Entitlement

Options do not carry any dividend entitlement until they are exercised. Shares issued on exercise of Options rank equally with other issued Shares of the Company on and from that date. Shares issued upon the exercise of Options will only participate in a future dividend or other shareholder action if such Shares have been issued on or prior to the applicable record date for determining entitlements.

Voting Rights

The Options do not confer on the holder a right to receive notices of general meetings (except as may be required by law), nor any right to attend, speak at or vote at general meetings of the Company.

Participating Rights

An Option holder may only participate in new issues of securities to holders of Shares in the Company if the Option has been exercised and Shares allotted in respect of the Option before the record date for determining entitlements to the issue. The Company must give at least seven (7) Business Days' notice to Option holders of any new issue before the record date for determining entitlements to that issue in accordance with the Listing Rules.

Adjustments

If between the date of issue and the date of exercise of an Option the Company makes one or more rights issues (being a pro-rata issue of Shares in the capital of the Company that is not a bonus issue), the Exercise Price of Options on issue will be reduced in respect of each rights issue according to the following formula:

$$NP = OP - \frac{E [P - (S + D)]}{(N + 1)}$$

Where:

NP = the new Exercise Price of the Option;

OP = the old Exercise Price of the Option;

E = the number of Shares into which one Option is exercisable;

P = the average market price per Share (weighted by reference to volume) recorded on ASX during the five (5) trading days ending on the day before the ex rights date or ex entitlements date (excluding special crossings and overnight sales);

S = the subscription price for Share to be issued under the pro rata Issue;

D = the amount of any dividend or distribution due but not yet paid on the existing Shares (except those securities to be issued under the pro rata issue);

N = the number of existing Shares with rights or entitlements that must be held to receive a right to one new security under the pro rata issue.

No change will be made to the number of Shares to which the Option holder is entitled upon exercise of the Option as a result of the rights issue adjustment above.

If the Company makes a bonus issue of Shares, the number of Shares issued on exercise of each Option will be increased by the number of Shares which the holder of the Option would have received if the Option had been exercised before the record date for the bonus issue of Shares. No change will be made to the Exercise Price.

Reconstructions and Alterations of Capital

Any adjustment to the number of Outstanding Options and the Exercise Price under a re-organisation or alteration of the Company's share capital must be made in accordance with the Listing Rules applying to a reorganisation or alteration of capital at the time of the reorganisation or alteration.

ASX Listing

The Company must make an application for quotation of Shares issued on exercise of the Options on ASX in accordance with the Listing Rules. Shares so issued will rank equally with other issued Shares of the Company from the date of issue.

A paper copy of the Terms of Options will be available free of charge until the Expiry Date by contacting the Company Secretary on +61 2 9235 4888.

7.3 ASX Quotation of the Options

Within seven (7) days after the date of this Prospectus, the Company will apply to ASX for the Options to be quoted on ASX.

If ASX does not give permission for quotation of the Options within three (3) months after the date of this Prospectus (or any later date permitted by law), none of the Options will be issued and if any have been issued, the issue will be void, unless ASIC grants an exemption permitting the issue. It is expected that quotation of the Options will initially be on a deferred settlement basis.

7.4 Bonus Issue and Allotment of Options

No Options or other securities will be issued on the basis of this Prospectus later than the expiry date of this Prospectus being the date 13 months after the date of this Prospectus.

It is currently anticipated that this issue will occur on 3 September 2020. Holding statements in relation to the Options will be despatched as soon as practicable after the issue of the Options.

It is the responsibility of Eligible Shareholders to determine their allocation prior to trading in the Options. Eligible Shareholders who sell any Options before they receive their holding statements will do so at their own risk.

7.5 Rights Attaching to the Shares on Exercise of the Options

The rights attaching to any Shares issued upon exercise of the Options will be governed by the Constitution, the Corporations Act and the Listing Rules.

Shareholders have the right to obtain a copy of the Constitution, free of charge, from the Company until the expiry of this Prospectus. To obtain a copy of the Constitution please contact the Company Secretary on +61 2 9235 4888.

The rights attaching to each Share include:

- (a) the right to vote at a general meeting of Shareholders (whether present in person, voting online or by any representative, proxy or attorney) on a show of hands (one vote per shareholder) and on a poll (one vote per Share on which there is no money due and payable) subject to the rights and restrictions on voting which may attach to or be imposed on Shares (at present there are none);
- (b) the right to receive dividends, according to the amount paid up on the Share; and
- (c) the right to receive, in kind, the whole or any part of the Company's property in a winding up, subject to priority given to holders of Shares that have not been classified by ASX as "restricted securities" and the rights of a liquidator to distribute surplus assets of the Company with the consent of members by special resolution.

Shares issued upon the exercise of Options will only participate in a future dividend or other shareholder action if such Shares have been issued on or prior to the applicable record date for determining entitlements.

Subject to the Corporations Act and the Listing Rules, Shares are fully transferable and are quoted on ASX.

The Constitution may be varied with the approval of Shareholders in a general meeting by special resolution.

7.6 Overseas Shareholders

The Options are not offered in any jurisdiction in which, or to any person to whom, it would be unlawful to make such an offer. The Bonus Issue is not being extended, and does not qualify for distribution or sale, and the Options may not be issued to a Shareholder with a registered address outside Australia, other than Shareholders with a registered address in New Zealand or Singapore and any other jurisdiction in which it is lawful to make the offers of Options in accordance with this Prospectus.

Important notice for New Zealand investors

This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the Corporations Regulations made under that Act set out how the offer must be made.

There are differences in how securities are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian securities is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the securities will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the securities are able to be traded on a financial product market and you wish to trade the securities through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

8. Effect of the Bonus Issue

No funds will be raised by the Bonus Issue. The Bonus Issue is not expected to have a material impact on the Company's financial position other than the decrease in cash reserves of approximately \$100,000 resulting from the expenses of the Bonus Issue as set out in section 9.7.

As at the date of this Prospectus the capital structure of the Company, assuming the exercise of all Options, is set out below:

Shares	549,625,047
Options	109,925,010 ¹

Fully diluted capital 659,550,057

The Directors intend to apply any funds raised on the exercise of any Options for further investment consistent with the Company's investment objectives as set out in section 5.1.

If all of the Options are exercised by the Expiry Date, the effect on the Company would, based on the number of Shares on issue as at the date of this Prospectus and assuming no other changes to the Company's capital structure or financial position during that period, be as follows:

- (a) the current number of Shares on issue would increase by approximately 109,925,010 Shares to approximately 659,550,057 Shares; and
- (b) the cash reserves of the Company would increase by approximately \$285.8 million.

The Directors do not guarantee that any Options will be exercised or that those funds will be raised.

If the Options are exercised and the funds are raised then the Company will have further capital to invest in accordance with the investment objectives of the Company.

Unaudited pro-forma statement of financial position

To illustrate the effect of the Bonus Issue and exercise of Options on the Company, the Company's pro-forma statement of financial position as at 30 June 2020 is set out on page 15 below.

The pro-forma statement of financial position is adjusted only for completion of the Bonus Issue and the exercise of Options (assuming all 109,925,010 Options issued in connection with the Bonus Issue are exercised at the Exercise Price of \$2.60, but before costs and expenses).

The pro-forma financial information in this section is based on the Company's full year accounts for the financial year ended 30 June 2020. It has been prepared in accordance with the recognition and measurement principles of the Australian Accounting Standards ('AAS').
