# COVID-19 Tenant-Customer Negotiations

## Overview

### Cromwell Polish Retail Fund (CPRF)

- The Polish government temporarily suspended retail lease agreements in March 2020 as part of its COVID-19 response plan. Essential retail including grocery and pharmacy were deemed out of scope and traded heavily throughout the period
- Most tenant-customers that closed were subsequently able to reopen in a phased process from May and all were open by July
- Unlike Australia there is no right to a rental waiver. The uncollected or deferred rent must still be paid usually via a lease variation (extension) agreed with the landlord
- The Polish law stipulates that tenants must serve notice to renegotiate their lease within three months of re-opening. If they fail to do so, then rent during the mandated closure period becomes payable and they lose the right to renegotiate
- 111 tenant-customers have agreed lease variations so far with another 162 remaining. The total operating profit impact of rent not charged during the lockdown period was €2.6 million
- For the June quarter overall cash collection for the portfolio was 64% and it is expected that further amounts will be collected once negotiations conclude with each tenant

## Financial and Capital Management Update

## Commentary

- The portfolio contains six catchment-dominating shopping or convenience centres, plus a significant effective interest in a seventh (Ursynow). All centres are anchored by significant hypermarket/grocery, DIY and non-discretionary retail
- The Polish government temporarily suspended retail lease agreements in March 2020 as part of its COVID-19 response plan. Essential retail was deemed out of scope
- Hypermarket/Grocery traded strongly throughout, underpinned by French grocery giant Auchan providing 30% of gross rent and all stores have now reopened
- June revaluations for all seven properties, conducted after COVID-19 lockdown was lifted, resulted in 5.3% decrease in value. Assets with a larger proportion of hypermarket/grocery sales were comparatively less impacted
- Cromwell will recommence its strategy to sell-down CPRF once the situation settles further
- Confidential discussions with a range of possible outcomes ongoing on Ursynow. Update to be provided once they conclude

## March 2020 EGM

Majority of Cromwell securityholders **AGAIN REJECTED** appointment of ARA nominee Gary Weiss

## Proportional Offer

ARA launches a proportional offer for **SOME BUT NOT ALL** of your securities  
Offer price significantly **UNDERVALUES CROMWELL** and offers **NO PREMIUM** for effective control  
Cromwell Board recommends securityholders **DO NOT ACCEPT** ARA's Proportional Offer

## September 2020 EGM

ARA has called another EGM to nominate two new directors, including Gary Weiss for a third time  
Cromwell Board recommends securityholders **VOTE AGAINST** ARA's nominations

## Board Recommendation

1. **STOP** ARA's takeover by stealth
2. **DO NOT ACCEPT** ARA's hostile, unsolicited and opportunistic Proportional Offer
3. **VOTE AGAINST** ARA's board nominations
4. **IGNORE** all documents and forms from ARA

# Reasons To Reject ARA's Proportional Offer

- For personal use only*
- #1** The Offer is an attempt to grab effective control of Cromwell from securityholders, without offering to acquire 100% of their stapled securities at a price that the Cromwell Board believes is significantly below Cromwell's fundamental value
  - #2** Proportional Offer for only 29% of securityholders securities is highly opportunistic and significantly undervalues Cromwell
  - #3** Proportional Offer does not provide any premium for effective control of Cromwell
  - #4** ARA Group has an extremely poor track record of managing other listed REITs, has outlined no clear future strategy for Cromwell, and its intentions may have severe adverse implications for securityholders remaining investment in Cromwell
  - #5** It is in securityholders interests to support Cromwell's current strategy versus being forced into an ongoing minority investment in an entity effectively controlled by a competitor of Cromwell
  - #6** The Board knows Cromwell's business and is best placed to drive Cromwell's future performance
  - #7** Accepting the Proportional Offer will have important implications for securityholders rights and remaining investment in Cromwell

# TSR relative to benchmark indices<sup>1</sup> (based on financial year performance)

## Appendix

### Global Economic Growth

- 2020 was originally seen as a 'go slow' year with global GDP growth, before COVID-19, forecast to be just 2.5%
- All major G7 economies now showing recessionary statistics with a minimum of two quarters of consecutive negative growth likely
- Australian economy is forecast to contract around 10% for the first half of 2020 with any subsequent recovery impacted by ongoing social distancing and household and business confidence
- Eurozone GDP fell by a historic 12.1% in Q2, as was largely anticipated, driven by the impact of lockdowns
- Given the differences in policy responses Eurozone recovery will be uneven across the region - GDP is expected to contract 7.8% this year before a material pick-up to 6.4% growth in 2021
- Central European countries including Poland, are expected to continue to out-perform their western European counterparts
- €1.1 trillion European Commission recovery plan marks a material improvement for the region's medium-term growth outlook and should help offset the differences in domestic fiscal responses
