**Splitit Payments Limited** ("Splitit" or the "Company") (ASX:SPT), a global payment solutions provider, reports its financial results for the six months to 30 June 2020 and provides an update on its operational performance.

"Splitit's value proposition for merchants and consumers has proved to be more relevant now than ever. This, coupled with strong execution of our high-growth strategy, has helped us deliver record MSV and revenue in the half year," said Brad Paterson, CEO of Splitit. "The momentum is continuing into the second half, with a number of leading brands recently agreeing to accept Splitit, including The Hut Group, Specialized, Frederique Constant, 77 Diamonds and Echelon Fitness."

Splitit delivered record results across its financial and operational performance metrics in the first half of FY20. Merchant Sales Volume (MSV) grew 133% YoY to reach US\$89.1M in H1 FY20 driven by a number of new, large eCommerce merchants. MSV growth in North America and Europe was particularly strong, up 148% and 89% YoY respectively. Total Gross Revenue (Non GAAP) grew 244% YoY to reach US\$3.1M.

Supporting this growth in revenue was an increase in marketing costs and further investment in Splitit's people and technology. This resulted in an operating loss of US\$9.0M for the half-year (\$7.9M exclusive of non-cash share based payments and depreciation expenses). Total costs, exclusive of share based payments and depreciation, grew \$5.5M (137%) as the business expanded its senior leadership team, established its European business, expanded sales and marketing initiatives (particularly through North America), continued to invest in the product, as well as costs in relation to the establishment of new credit facilities.

During the period, Splitit appointed Ben Malone as Chief Financial Officer (CFO), Melanie Vala to lead Europe, Adam Mawdesley to lead both North American Sales and Global Partnerships, Omri Flicker as Chief Legal & Risk Officer, and Kay Brinkley as VP Payments & Risk, to further build its senior leadership team. Splitit also launched a distinctive new brand story and visual identity, designed to differentiate its product and drive merchant sign-up by highlighting Splitit's one-of-a-kind advantages.

## Half-Year Performance Metrics

Splitit delivered rapid growth across its key performance metrics. This strong momentum has continued, following the reporting period.

## Merchant and Shopper Growth

Total Merchants have nearly doubled compared to H1 FY19, surpassing 1,000 at the end of the half year. Leading brands signing up to Splitit's solution included: Alpina Watches, Bedmart, Canyon, Daily Sale, Dreamcloud, Factory Pure, Modloft, Nectar Sleep, P D PAOLA (EU), Purple, Quiet Kat, Reds Baby, Ride Cake, Scorptec, Sofa Club (UK), Tatami Fightwear and Viagogo.

Following the reporting period, Splitit has signed agreements with the following leading brands that are either live or actively integrating:

- **The Hut Group (Global)** - reporting £1.14bn in sales, THG is one of the world's largest online retailers in beauty and nutrition.
- **Specialized Bicycle Components, Inc** - Innovate and Inspire to Improve Riders' Lives.
- **Echelon Fitness Multimedia (US & UK)** - Echelon Fitness is a leader in connected fitness, streaming live and on-demand classes directly into the home.
- **77 Diamonds (UK)** - Creators of the finest quality jewellery, providing impeccable customer care and crafting heartfelt stories into timeless reality.
- **Frederique Constant (EU)** - makers of Swiss-made luxury watches, famous for high quality classical watches at sensible prices.

New merchants helped to introduce many new shoppers to Splitit in the half year, driving Total Shoppers to reach 309K, an 85% YoY increase. As a consequence, Splitit saw a more modest increase in the number of Repeat Shoppers relative to Total Shoppers. Repeat Shoppers are expected to increase over time as new merchants increase their tenure and shoppers use Splitit for further higher value purchases.

This merchant and shopper growth reflects strong progress in Splitit's strategy to build its presence in key verticals such as homewares, luxury retail, jewellery, sporting & outdoors, and health, while also forging product-market fit by removing some merchants with lower AOV from the platform in the early part of the period. As a result of these strategies, AOV has grown significantly to reach US\$845, up 59% YoY. Demand for Splitit's funded merchant model has increased significantly over the period. Accordingly, the Company secured several new receivables funding facilities to support the rapid growth of this model.

### **Partnerships to Accelerate Growth**

During the half year, Splitit formed key partnerships with Stripe, Visa and Mastercard, to drive innovation in the buy now pay later space, improve the customer experience and scale the adoption of Splitit's instalment solution by merchants around the world. These new partnerships are progressing well. In addition, Splitit integrated with B2B and B2C payment platform Blue Snap, and further enhanced its integration with open-source e-commerce platform, Magento.

### **Capital management**

In April 2020, Splitit raised A\$16M (before costs) via a placement to institutional, sophisticated and professional investors. Following the close of the half year period, Splitit received firm commitments to raise a further A\$90M (before costs) in August 2020 (**August Placement**) in new equity via a two-tranche share placement to institutional, sophisticated and professional investors. The first tranche of the August Placement completed on 12 August 2020 raising A\$45M (before costs). The second \$45M (before costs) tranche is due to settle after an Extraordinary General Meeting to obtain shareholder approval (scheduled for 16 September 2020). Through the August Placement, Splitit welcomed a number of new, high quality institutions to its register, including cornerstone investor Woodson Capital Management. This

placement is being accompanied by a Share Purchase Plan for eligible shareholders to raise approximately A\$10M.

The proceeds of these fund raisings will enable Splitit to continue to execute its high-growth strategy by supporting the exceptional growth of the funded model and investing in go-to-market and technology resources.

## Outlook

Splitit has a compelling consumer and merchant offering that is resonating strongly in the current environment. This has seen it deliver record MSV and Gross Revenue results, despite challenging global conditions. This growth is expected to continue in H2 FY20 and beyond as its new partnerships with leading global organisations, Stripe, Visa and Mastercard, help to drive innovation in the buy now pay later space, improve the customer experience, and to accelerate the global acceptance of Splitit with new merchants. This growth will be supported by the Company's enhanced leadership team and new brand identity.
