

1 September 2020

**ASX Release**

\*\*\*\*\*

**GI95 Relinquishment**

Byron Energy Limited (“Byron” or the “Company”), (**ASX: BYE**) advises that it has elected not to renew the Grand Isle 95 (“GI95”) lease for the fourth year of a five year term. Consequently, GI95 was relinquished at the end of August 2020.

Because GI95 is dry gas project, the economics are no longer considered attractive particularly when compared to Byron’s other more oily and economically attractive projects in the South Marsh Island area and the Eugene Island area, the Company’s primary areas of focus.

As a result of the relinquishment, the following reserves and prospective resources, previously attributed to GI95, included Byron’s 2019 Reserves and Resources report (released to the ASX on 19 September 2019) have been removed from the Company’s inventory:-

GI95 (Net to Byron)	Oil (mmbbl)	Gas (Bcf)
Proved (1P)	0	0
Probable	0.1	44.6
Proved and Probable (2P)	0.1	44.6
Possible	0.1	24.6
Proved, Probable & Possible (3P)	0.2	69.2
Prospective Resources	0.3	44.4

The relinquishment of GI95 will result in a non-cash charge of approximately US\$0.2 million to the profit and loss for the year ended 30 June 2020.

The Company’s 2020 Reserves and Resources report is expected to be released around mid-September 2020.
