Courage

Attitude

Qualification

This presentation has been prepared by Saracen Mineral Holdings Limited (Saracen or the Company) based on information from its own and third party sources and is not a disclosure document. No party other than the Company has authorised or caused the issue, lodgement, submission, despatch or provision of this presentation, or takes any responsibility for, or makes or purports to make any statements, representations or undertakings in this presentation.

You should be aware that as an Australian company with securities listed on the ASX, the Company is required to report reserves and resources in Australia in accordance with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (The JORC Code 2012 Edition) ("JORC Code"). You should note that while the Company's reserve and resource estimates comply with the JORC Code, they may not comply with the relevant guidelines in other countries.

This is a presentation about geology, geoscientific interpretation, geoscientific speculation, gold deposits, gold potential, engineering, infrastructure, potential values, costs, risks, and related matters pertinent to Saracen's present and future activities as a publicly listed mineral exploration and production company. It includes forecasts, predictions, targets and estimates of future expenditures which may vary over time.

It is uncertain if further exploration will result in the determination of a Resource or Reserve. Where exploration, evaluation, operational and feasibility study expenditure estimates and budgets amounts are presented herein, ongoing prioritisation and scaling of expenditures will be subject to results and, where applicable, scheduling changes. Targeted production and other outcomes are subject to change, and may not eventuate, depending on the results of ongoing performance and assessment of data. All Reserves and Resources as referred to herein are in accordance with the JORC Code. Refer to Appendix A of this presentation for the relevant Competent Person statements. Resources are inclusive of Reserves.

Certain statements contained in the Presentation Materials, including information as to the future financial or operating performance of the Company and its projects, are forward looking statements. Such forward looking statements:

- a) are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies;
- b) involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward looking statements; and
- c) may include, among other things, statements regarding estimates and assumptions in respect of prices, costs, results and capital expenditure, and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions.

The Company disclaims any intent or obligation to publicly update any forward looking statements, whether as a result of new information, future events or results or otherwise. The words "believe", "expect", "anticipate", "indicate", "contemplate", "target", "plan", "intends", "continue", "budget", "estimate", "may", "will", "schedule" and similar expressions identify forward looking statements.

All forward looking statements contained in the Presentation Materials are qualified by the foregoing cautionary statements. Recipients are cautioned that forward looking statements are not guarantees of future performance and accordingly recipients are cautioned not to put undue reliance on forward looking statements due to the inherent uncertainty therein. The Presentation Materials do not purport to be all inclusive or to contain all information about the Company.

This presentation is not a prospectus, disclosure document or other offering document under Australian law or under any other law. It is provided for information purposes and is not an invitation nor offer of shares for subscription, purchase or sale in any jurisdiction.

Take care to question and carefully evaluate any judgments you might make, on the basis of the Presentation Materials, as to the value of Saracen and its securities. This presentation is not intended to provide the sole or principal basis of any investment or credit decision or any other risk evaluation and may not be considered as a recommendation by Saracen or its officers. Any investor reading the Presentation Materials should determine its interest in acquiring securities in Saracen on the basis of independent investigations that it considers necessary, prudent or desirable.

Saracen and its officers do not accept any liability for any loss or damage suffered or incurred by any investor or any other person or entity however caused (including negligence) relating in any way to this presentation including, without limitation, the information contained in it, any errors or omissions however caused by any other person or entity placing any reliance on the Presentation Materials, its accuracy or reliability.

Ownership - Geographic

Ownership - Substantials

Thinking and acting like OWNERS - 98% of SAR employees own shares in our company

*Refer to the following ASX announcements: 18th August 2020 "KCGM only - Reserves rise to almost 9.7Moz, 20 year mine life visibility", 4th August 2020 "Carosue Dam and Thunderbox only - Reserves rise to 3.7Moz"

The all-Australian growth stock

▲ Acquisition of 50% of the Super Pit catapults Saracen into the next league of gold miners

More production and cash flow:

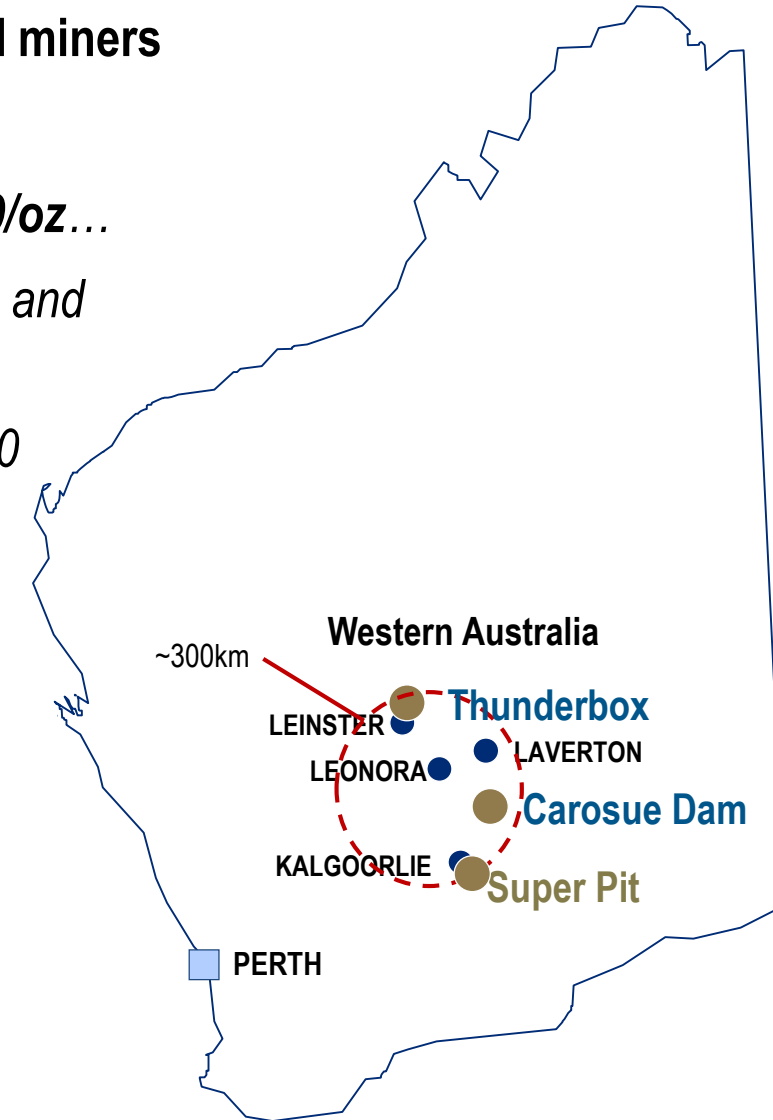

- *FY20 production 520koz, FY21 guidance 600 - 640koz @ AISC A\$1,300 - 1,400/oz...*
- *...from three operations within 300km of Kalgoorlie - Super Pit, Carosue Dam and Thunderbox*
- *Net cash of A\$48m at 30 June 2020, up from net debt of A\$21m at 31 March 2020*

More mine life:

- ▲ **+10 years based on 8.6Moz Reserves at 30 June 2020...**
- ▲ *...>90% within 500m of three processing centres*

Conservative management building a more sustainable Saracen:

- ▲ **8 year track record of meeting or beating guidance**
- ▲ **Future-proofing the business**
- ▲ **Seizing the ESG opportunity - 2020 Sustainability Report imminent**

For personal use only

The all-Australian growth stock

A differentiated Saracen:

▲ Delivery

▲ Future-proofing strategy

▲ Open pit and underground mining expertise

▲ Technically focused

▲ Strong open pit geotechnical track record

▲ FY21 peak year for investing in growth

▲ Unique track record of starting NEW MINES from scratch and refurbishing OLD MINES

The all-Australian growth stock

Delivery:

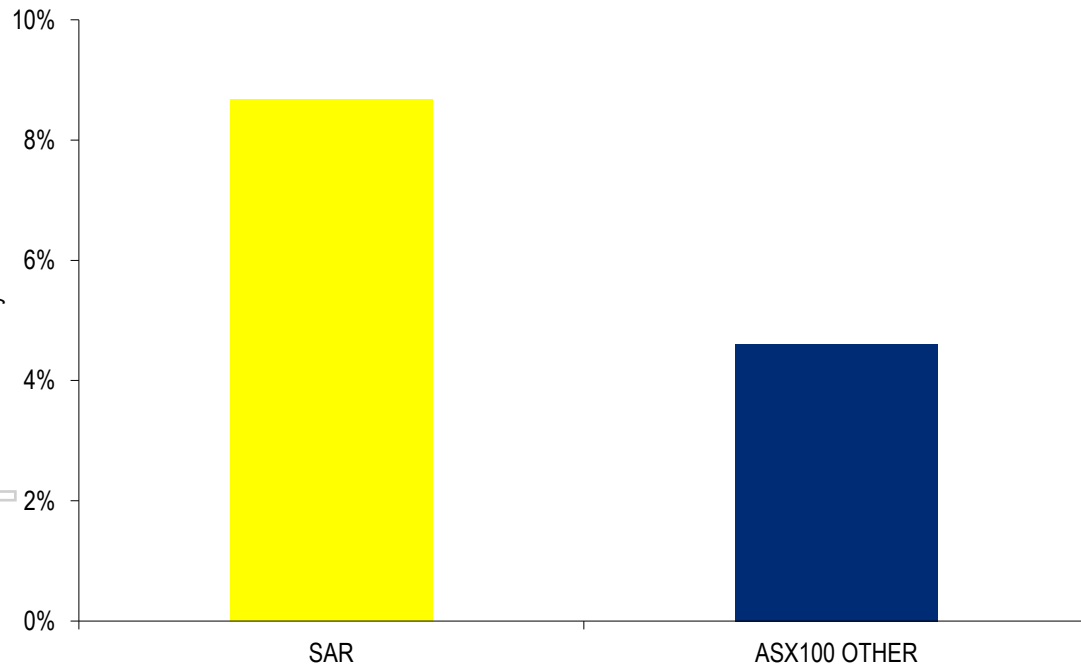

The all-Australian growth stock

Flat is the new up:

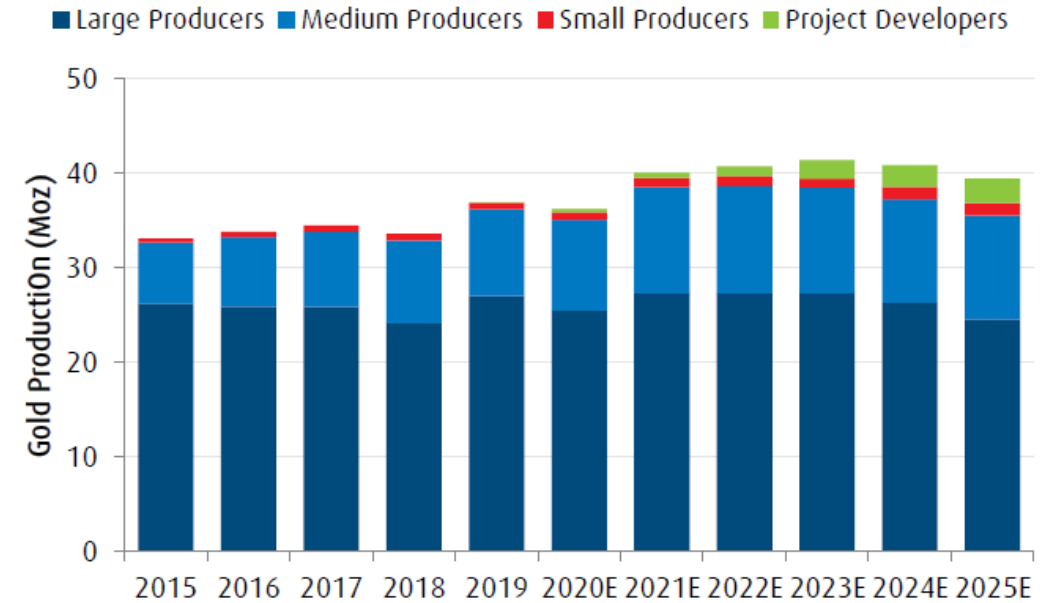

- A lack of growth is the gold sector's Achilles heel, especially for the larger global producers

SAR v ASX 100 gold peers

Based on broker consensus

Global landscape

Source: BMO Capital Markets

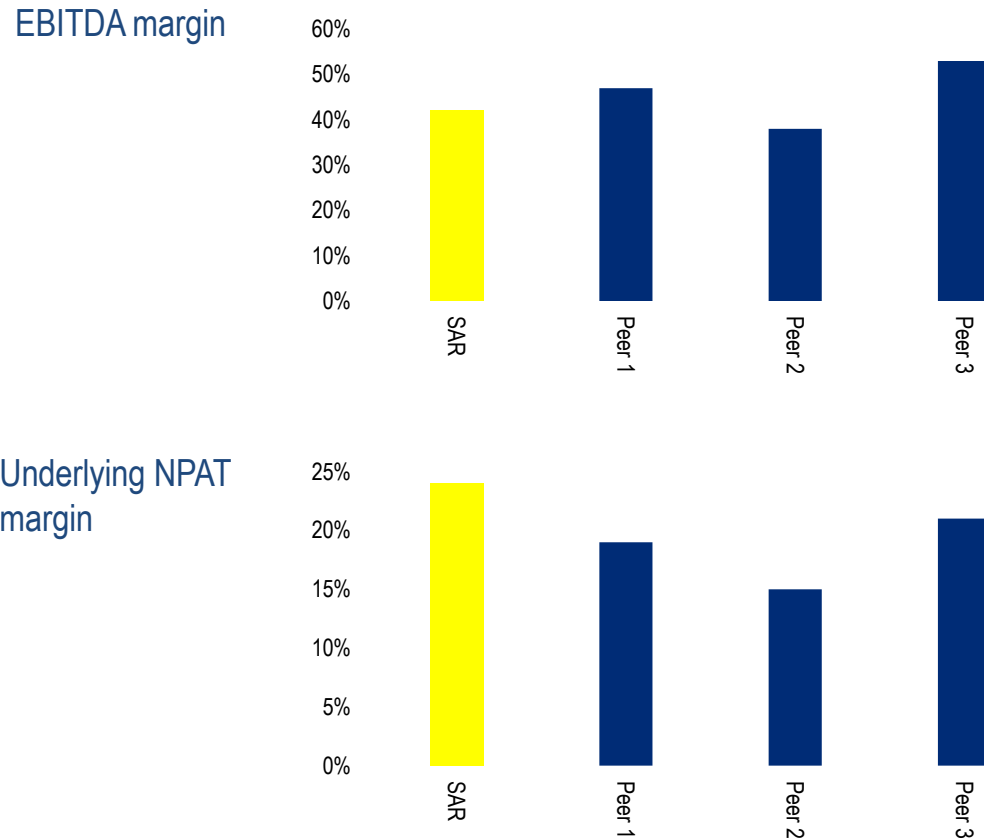

- **Growth remains a big part of brand SAR and will continue to drive sector-leading TSR**

The all-Australian growth stock

Production success translating into...

...financial success

...and leading returns

Source: FY20A ASX company financial reports

For personal use only

The all-Australian growth stock

Hedge book easing:

▲ Hedge book moderating to ~25% of production over next 3 years (down from 33%)

▲ Lower hedging reflects lower risk profile:

- Future proofing strategy
- Early debt repayments
- Robust gold price outlook
- Acquisition of the Tier 1 Kalgoorlie Super Pit

Kalgoorlie Super Pit - Overview (SAR 50%)

For personal use only

Tier 1 asset in a Tier 1 mining jurisdiction, previously “hidden” in global major miners... enter Saracen

Future proofing our business with an established long life asset:

- ▲ **Landmark increase in Reserves to 9.7Moz** (100% basis)
- ▲ **Production to rise to +675koz pa** (100% basis)
- ▲ Operation being de-risked and productivities are increasing with multiple production sources
- ▲ **Reserves support a 15 year mine life...**
- ▲ ...pipeline of **further growth opportunities** underpinned by a **size increase in Resources to 19.0Moz** (100% basis) and outstanding **exploration upside from a 84Moz gold camp**

FY21 guidance 440 - 480koz at AISC of A\$1,470 - 1,570/oz (100% basis)

- ▲ **Outstanding relationship with Northern Star Resources (NST AU) - A like-minded JV partner with complementary skills to unlock latent value**

Kalgoorlie Super Pit - Large, long life

De-risked production profile:

9.7Moz Reserve provides **15 year mine life visibility**

Production to rise to **+500,000ozpa** from **FY24**, key drivers:

- Completion of pit wall remediation
- Fimiston South becoming an increasingly dominant ore source
- Increased access to high grade Golden Pike North

Production then climbs steadily to **+675,000ozpa** from **FY28**

For personal use only

Kalgoorlie Super Pit - Large, long life

Transformation of open pits underway:

Mining areas increased from two to three:

- **Golden Pike South**
- **Morrison**
- **Oroya Brownhill (OBH)...**

...with a fourth (**Fimiston South**) on line in the June H 2021

New cutbacks will:

- **Boost mining productivities**
- **Improve costs**
- **Deliver higher grades to the mill by displacing lower grade stockpile feed**

- ▲ **Targeting material movements of 70-80Mt p.a.**
(v 2018 / 2019 <30Mt p.a.)

For personal use only

De-risking:

Mining commenced at **OBH**...

...bringing **Brownhill ore forward** and integrating it with the **East Wall remediation**:

- **Larger, more productive mining area**
- **Additional ounces offset remediation cost**
- **Reduced operational risk**
- **No additional approvals required**
- **Remediation timeframe ~3.5 years**

Fimiston pit, OBH cutback

...with a lot more to come

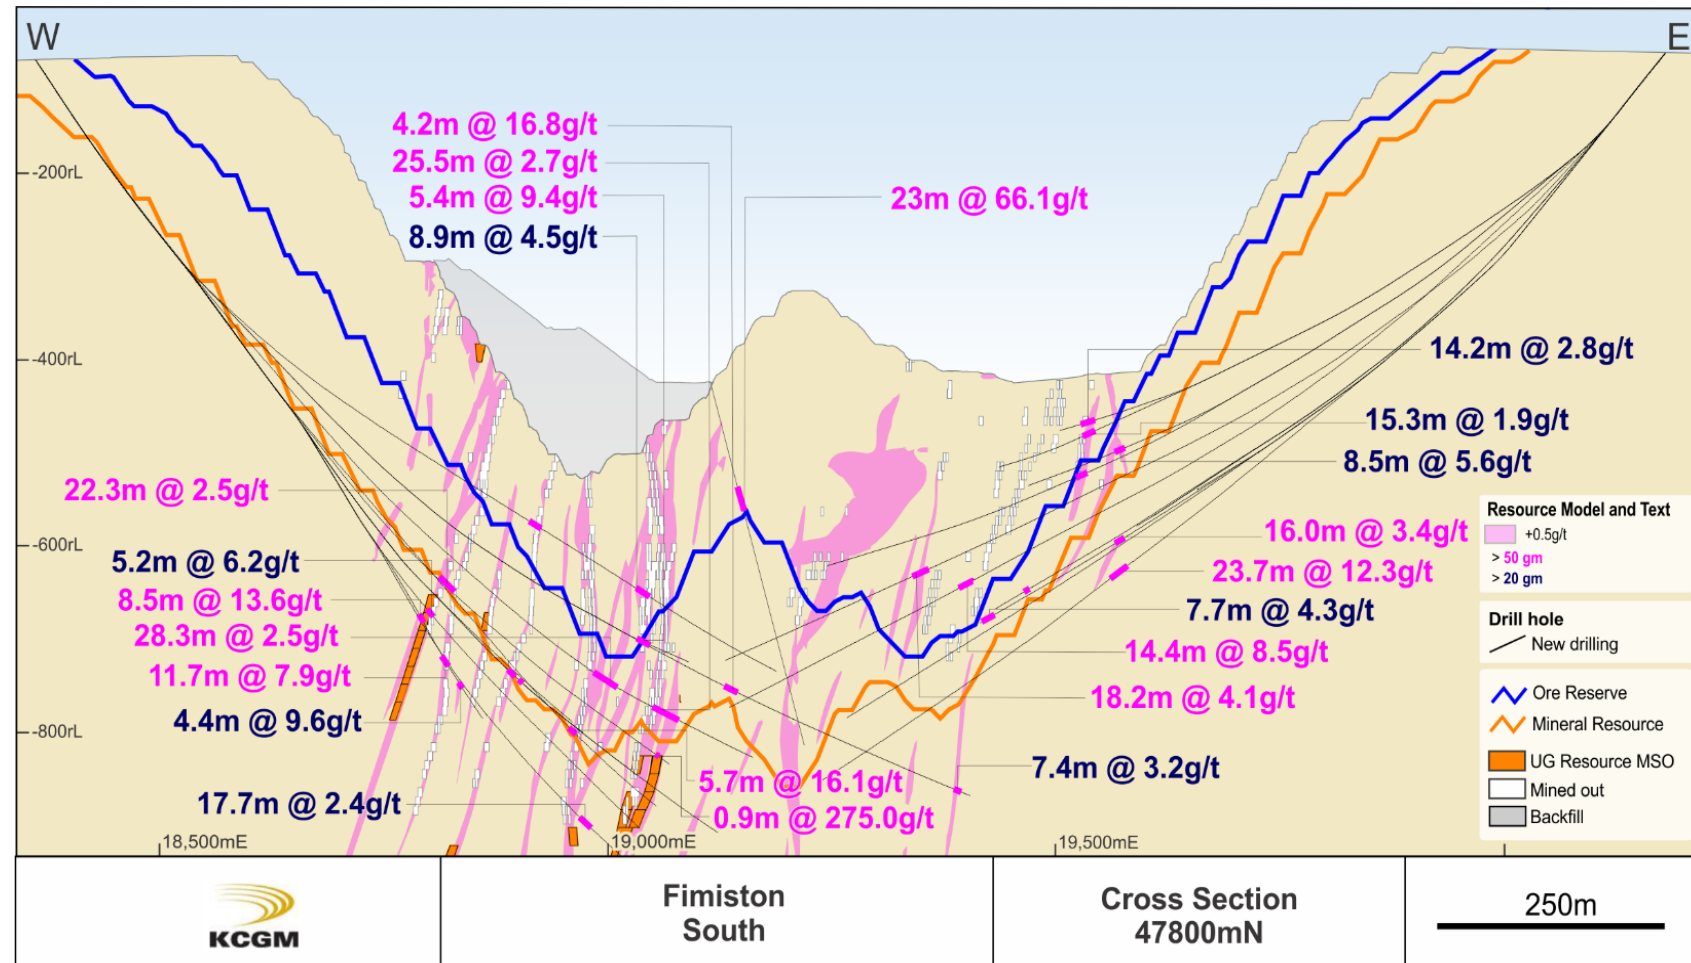

Scale, longevity and growth:

Further growth supported by a **vast quantity of significant drill results...**

...outside of current Reserves, including:

- Fimiston South open pit
- OBH open pit
- Fimiston South underground
- Mt Charlotte underground

Resource averages a **globally leading 45,000oz per vertical m**

Carosue Dam - Overview

For personal use only

Production doubling to 250koz p.a. over 10 years

...afforded by the **transformational growth of Karari - Dervish**

2.0Moz in Reserve (including **Karari - Dervish 1.0Moz**)

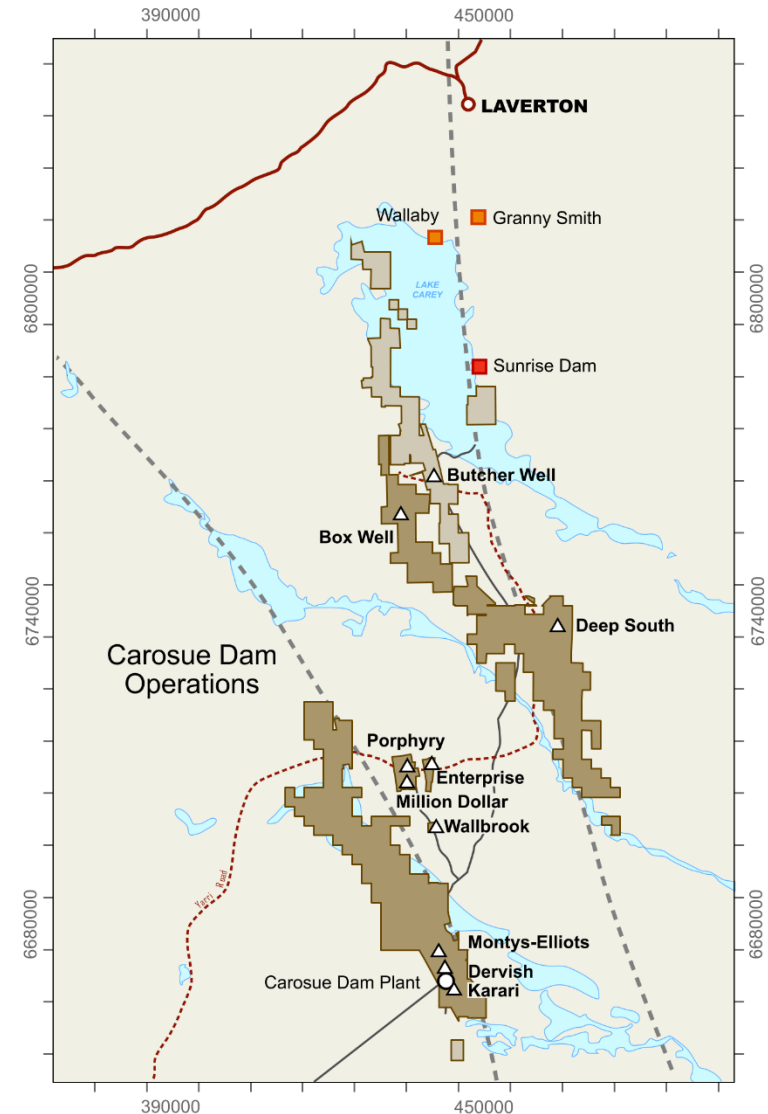

Mill expansion to +3.2Mtpa imminent (currently 2.4Mtpa)

Open pit mining to resume at Million Dollar in the September quarter 2020...

...the additional 800ktpa of mill capacity will be filled with **+17Mt open pit Reserves in three discrete mining areas**

Under-explored mine corridor presents opportunity for further repeat deposits e.g. **Atbara discovery within 4km of the mill**

Stellar regional exploration upside from a **~23Moz gold camp**

Karari - Dervish mine:

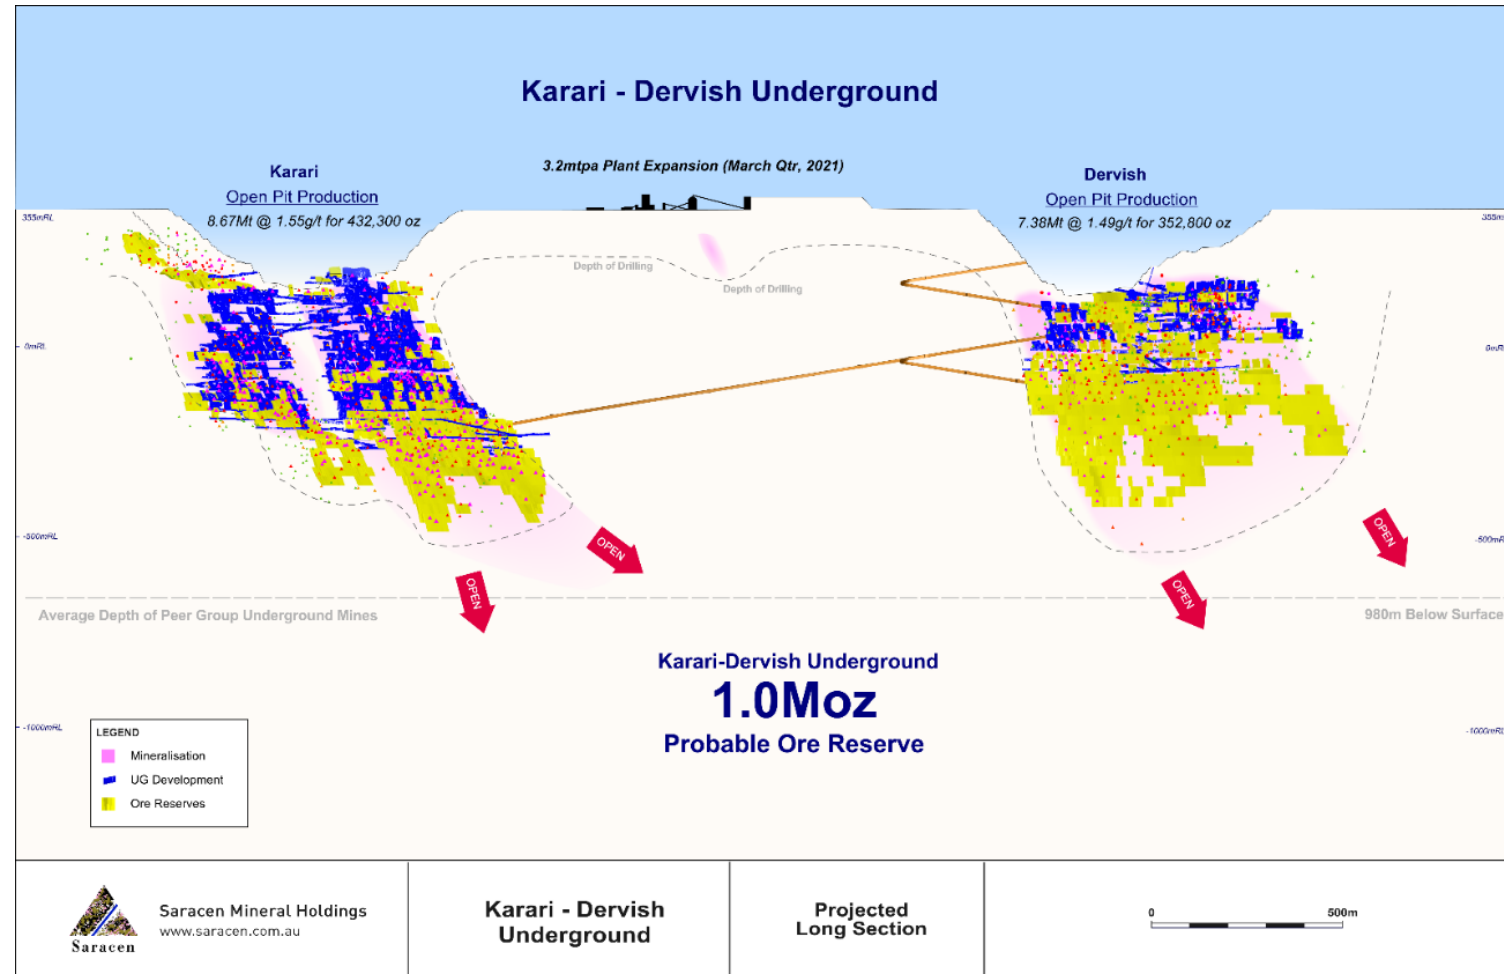

11Mt Reserves = **One of the largest tonnage underground gold mines in Australia...**

...investigation continues into materials handling initiatives to further increase productivity / lower costs

Remains a growth asset, open along strike and at depth

Ounces per vertical m increasing below current stoping fronts...

...pointing to robust production in the coming reporting periods

Please refer to the ASX releases dated 4th August 2020 - "Carosue Dam and Thunderbox only - Reserves rise to 3.7Moz"

Commissioning draws near:

- ▲ Mill throughput **increases to 3.2Mtpa** (from 2.4Mtpa)
- ▲ **A\$34m capital**
- ▲ **Recovery increases to 94%** (from 93%)
- ▲ **Unit milling costs reduce by up to A\$2.50/t**
- ▲ Additional ore to fill the expanded mill will be sourced from the Carosue Dam open pits (+17Mt in Reserves)
- ▲ Feed:
 - ~75% underground
 - ~25% open pit

Thunderbox - Overview

▲ **‘Does what it says on the tin’** (~100% reconciliation to date)

▲ 1.7Moz in Reserve

▲ **Growth opportunities include:**

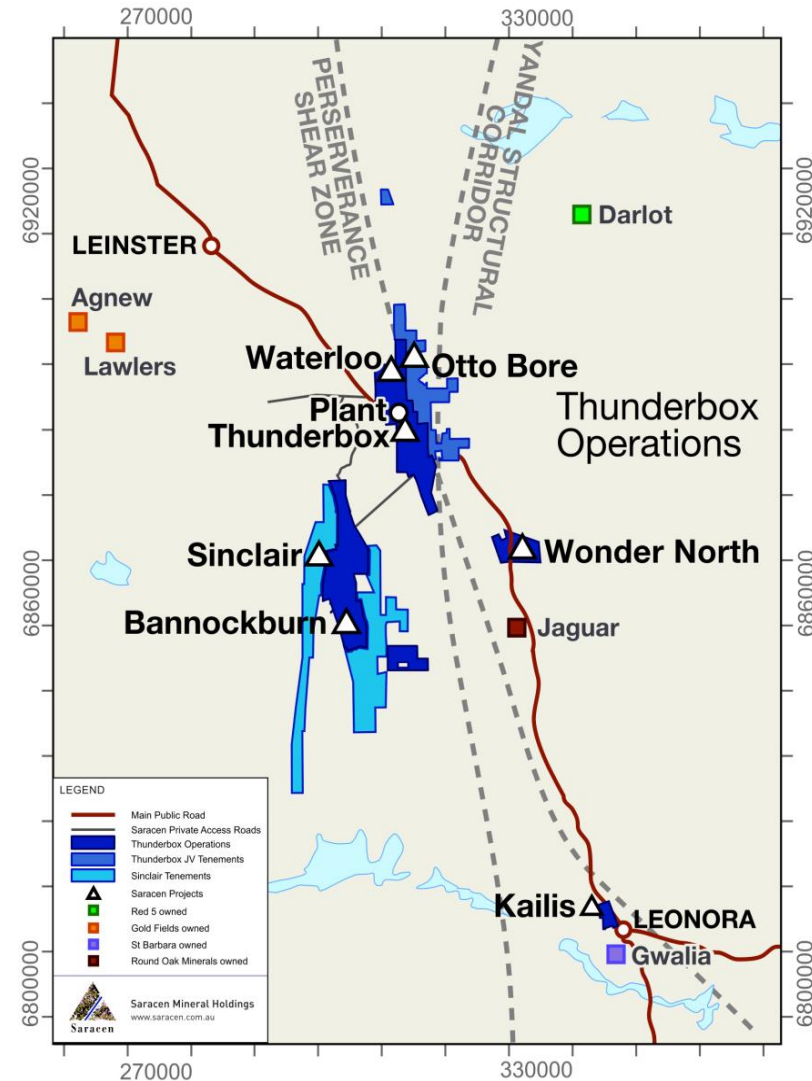

▲ **“Thunderground”** - 720koz Reserve @ 2.0g/t, high productivity, low cost, long life simple underground mine, development progressing, materials handling opportunities due to very large scale

▲ **Thunderbox D Zone** - Growing near surface C / D Zone cut-back, upgraded by recent drilling including 43m @ 3.7g/t and 73m @ 1.9g/t

▲ **Otto Bore** - 60koz Reserve @ 2.0g/t, shallow open pit, 9km from mill

▲ **Wonder North** - “Bolt-on” acquisition, 320koz Resource, 30km from mill

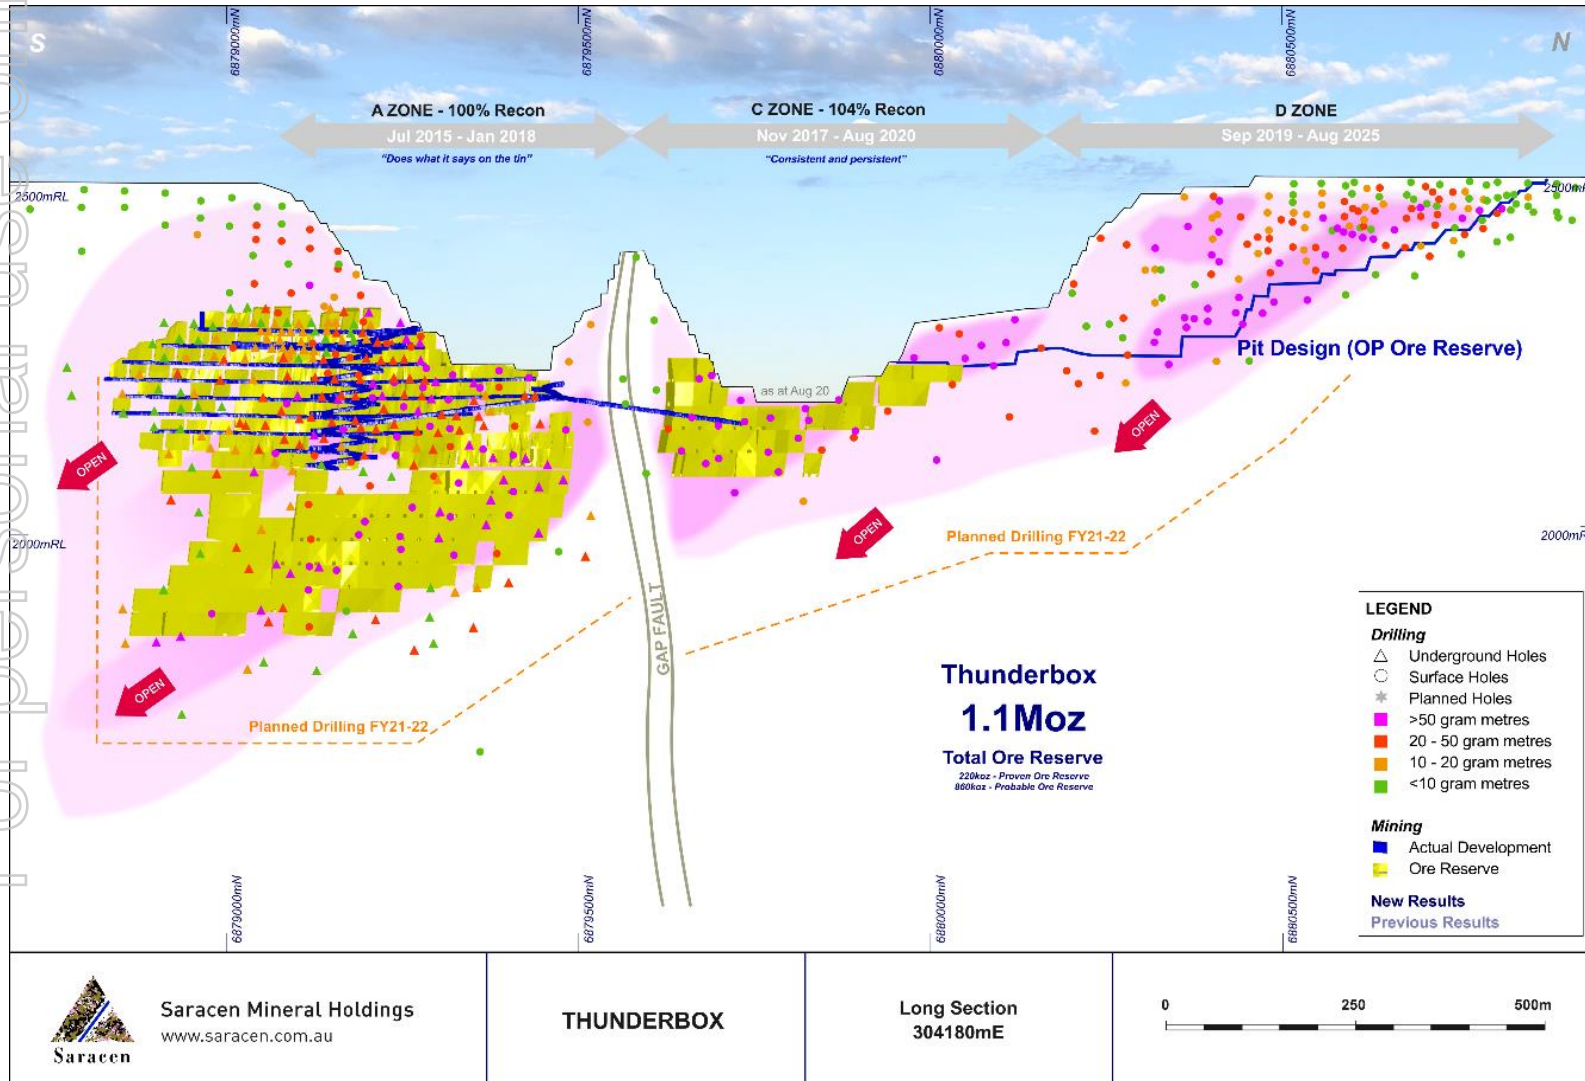

▲ **Future proofing** - Record ore stockpile of >100koz at 30 June, nine levels developed at “Thunderground” (first stoping September quarter 2020), Kailis high grade oxide stockpile

Thunderbox - It does what it says on the tin

The long game:

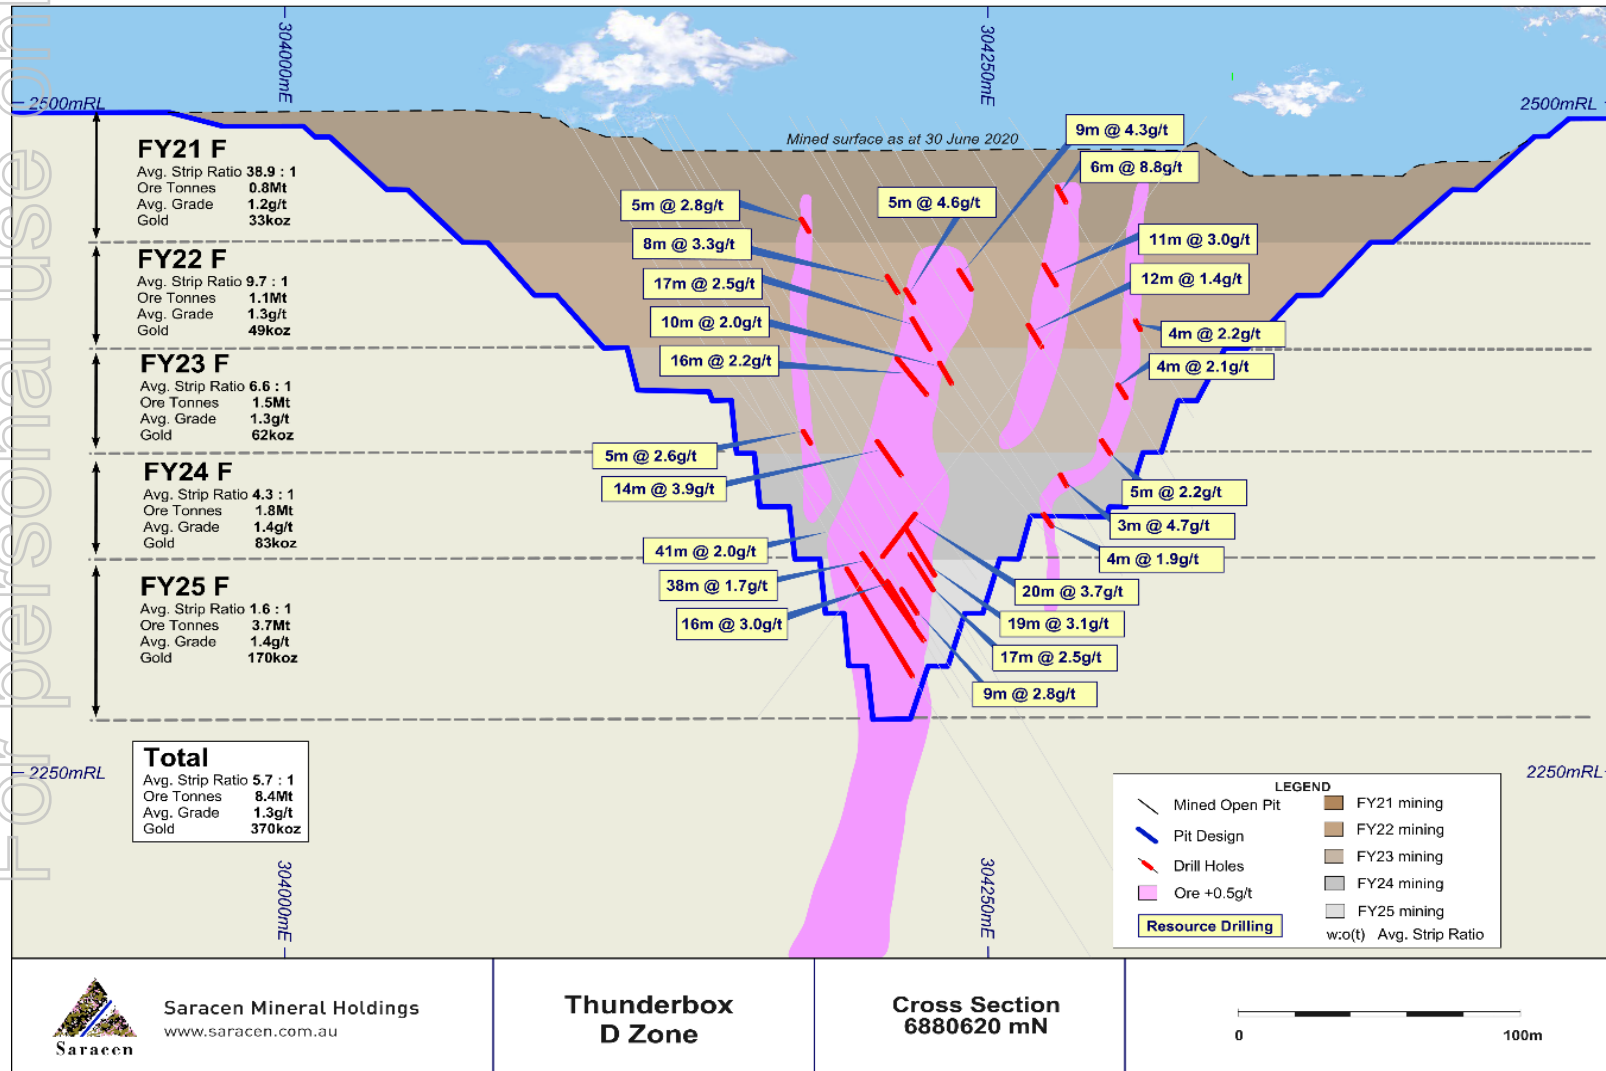

- ▲ **Open pit mining to continue at D Zone... Ramping up adjacent to the mill**
- ▲ **“Thunderground”... Ramping up to >2Mtpa ore adjacent to the mill; grade increases as the mine gets deeper**
- ▲ **All zones open down plunge**
- ▲ **Satellite pits** e.g. Wonder North, Otto Bore to sweeten the life of mine plan with grade and / or oxide
- ▲ **Scoping Study has confirmed the potential to expand the Thunderbox mill to 3.5Mtpa during FY22**

Thunderbox - It does what it says on the tin

D Zone gets better every day:

▲ **D Zone = Northern extension of C Zone i.e. another simple, robust open pit:**

- High productivity / low cost
- Top-down, perimeter-to-perimeter sequence (no staging)
- ~94% metallurgical recoveries
- ~2.5 years of soft oxide feed blend (benefiting mill throughput / unit costs)
- Progressively lower strip ratio and higher grade

There's nothing like Australian gold

▲ We have a simple business plan - **We mine where we mill, within 300km of Kalgoorlie**

▲ We deliver - **8 year track record of meeting or beating guidance**

▲ We are a **global top 20 gold producer / ASX 100 company** following the acquisition of 50% of the world-class Super Pit

▲ We have an outstanding platform for **further growth - People, assets, balance sheet**

▲ We are building a more sustainable gold company - **Future proofing our business, seizing the ESG opportunity**

▲ **The “flight to 800” is underway**

This presentation has been authorised for release to the ASX by Jeremy Ryan, Manager Legal / Company Secretary
