FEDERAL COURT ORDERS DESPATCH OF SUPPLEMENTARY SCHEME BOOKLET AND RECONVENING OF POSTPONED SCHEME MEETING

OptiComm Ltd (ASX: OPC) (**OptiComm**) refers to the proposed acquisition of OptiComm by Uniti Group Limited (**Uniti**) by way of a scheme of arrangement (**Scheme**).

Scheme Meeting

OptiComm announces that the Federal Court has today made orders approving the reconvening of the postponed meeting of OptiComm shareholders (other than Uniti) (**Eligible Shareholders**) to consider and vote on the Scheme (**Scheme Meeting**).

The Scheme Meeting will be held as a virtual meeting at **11:00 am (AEDT) on Tuesday, 13 October 2020**. The virtual meeting can be accessed by logging in online at <https://agmlive.link/OPC20>.

The Supplementary Scheme Booklet attached to this release sets out additional information Eligible Shareholders require to evaluate the Scheme. An electronic version of the Supplementary Scheme Booklet will also be available for viewing and downloading online at OptiComm's website (<https://investors.opticomm.net.au/investor-centre/>).

Eligible Shareholders who have elected to receive communications electronically will receive an email which contains instructions about how to view or download a copy of the Supplementary Scheme Booklet and how to lodge their proxies for the Scheme Meeting online. Eligible Shareholders who have not made such an election will be mailed a copy of the Supplementary Scheme Booklet and proxy form for the Scheme Meeting.

Supplementary Independent Expert's Report

The Supplementary Scheme Booklet includes a supplementary independent expert's report from Lonergan Edwards & Associates Limited (**Independent Expert**) which concludes that the Scheme is fair and reasonable and in the best interests of OptiComm shareholders, in the absence of a superior proposal (**Supplementary Independent Expert's Report**).

Directors' recommendation

The directors of OptiComm unanimously recommend that Eligible Shareholders vote in favour of the amendment of the Scheme and in favour of the Scheme as amended in the absence of a superior proposal, and subject to the Independent Expert continuing to conclude that the Scheme is in the best interests of OptiComm shareholders. Subject to those same qualifications, each director of OptiComm intends to vote all the OptiComm shares held or controlled by her or him in favour of the amendment of the Scheme and in favour of the Scheme as amended.¹

1. Letter from Chairman of OptiComm Ltd

25 September 2020

Dear Shareholder,

This Supplementary Scheme Booklet is an update to the Scheme Booklet dated 7 August 2020 and contains further information in relation to Uniti's offer to acquire 100% of all the shares in OptiComm by way of scheme of arrangement, subject to regulatory, Court, Scheme Shareholder, and other approvals.

Developments since Scheme Booklet

The Original Scheme in Annexure C of the Scheme Booklet included various forms of scheme consideration options at a value of \$5.20 per share (inclusive of a fully franked special dividend of \$0.10 per OPC Share).

On 7 September 2020, OptiComm received from Aware Super Pty Ltd ACN 158 957 889 as trustee for Aware Super (**Aware Super**, formerly known as First State Super) a non-binding and conditional competing proposal to acquire all of the OPC Shares for \$5.85 per OPC Share (inclusive of a \$0.10 fully franked special dividend, if declared) pursuant to a scheme of arrangement subject to due diligence and investment committee approvals (**Aware Super Proposal**). Pursuant to its obligations under the Scheme Implementation Deed, OptiComm notified Uniti of the Aware Super Proposal.

Following receipt of the Aware Super Proposal, on 8 September 2020, the Court made orders postponing the Scheme Meeting from Thursday 10 September 2020 to a date to be determined.

On the evening of 14 September 2020, OptiComm received a revised binding offer from Uniti to acquire 100% of OPC Shares (other than OPC Shares owned by Uniti) at a value of \$5.85 per OPC Share, consisting of one fixed consideration option to all Scheme Shareholders, other than Ineligible Foreign Shareholders, of:

- \$4.835 cash per OPC Share (inclusive of a fully franked special dividend of \$0.10 per OPC Share, if declared); and
- 0.80537 New UWL Shares per OPC Share (which implies \$1.015 per OPC Share calculated on the basis of the closing trading price of UWL Shares on 11 September 2020 of \$1.26),

while Ineligible Foreign Shareholders will receive the Revised All Cash Consideration of \$5.85 per OPC Share (inclusive of a fully franked special dividend of \$0.10 per OPC Share, if declared) (**Revised Uniti Proposal**). Under the Revised Uniti Proposal, there are no elections in respect of scheme consideration and no scale-back.

The Cash Consideration and the Scrip Consideration under the Revised Uniti Proposal represents a premium of:

- 12.50% (based on the closing trading price of UWL Shares on 11 September 2020 of \$1.26); or
- 15.21% (based on the closing trading price of UWL Shares on 7 September 2020 of \$1.435),

compared to the consideration of \$5.20 offered by Uniti and accepted by OPC in the Original Scheme.

Accordingly, on 15 September 2020, OptiComm entered into a deed of amendment and restatement in relation to the Scheme Implementation Deed to give effect to the Revised Uniti Proposal (**Amended and Restated Scheme Implementation Deed**).

Under the Amended and Restated Scheme Implementation Deed, the break fee payable by OptiComm to Uniti in circumstances described in Section 5.13(c) of the Scheme Booklet is increased to \$6,100,000.

A break fee equal to 1% of the equity value of OptiComm (calculated under the Revised Uniti Proposal) is consistent with Takeovers Panel guidance and market practice. The OptiComm Board was prepared to accept the amendments to the break fee in light of the Revised Scheme Consideration and the increase in costs incurred by Uniti in connection with the Revised Uniti Proposal.

As at the date of this Supplementary Scheme Booklet, OptiComm has not received a binding proposal in connection with the Aware Super Proposal and considers the Revised Uniti Proposal to be a superior proposal to the Aware Super Proposal.

The OptiComm Board advised Aware Super on 15 September 2020 it will cease all discussions in relation to the Aware Super Proposal and ceased providing information on OptiComm for due diligence purposes.

Summary of Revised Uniti Proposal

If the Scheme is approved and implemented, Scheme Shareholders (other than Ineligible Foreign Shareholders) will receive the revised Scheme Consideration of:

- 0.80537 New UWL Shares per OPC Share; and
- **(if the Special Dividend is declared)** (i) Cash Consideration of \$4.735 per OPC Share held by them on the Scheme Record Date; and (ii) a Special Dividend of \$0.10 per OPC Share held by them on the Special Dividend Record Date; or
- **(if the Special Dividend is not declared)** Cash Consideration of \$4.835 per OPC Share held by them on the Scheme Record Date.

Ineligible Foreign Shareholders will receive the revised Scheme Consideration of \$5.85 (less the Special Dividend if declared) per OPC Share held by them on the Scheme Record Date.

The OptiComm Board will determine whether to declare the Special Dividend before the Scheme Meeting. Payment of the Special Dividend (if declared) will be made on the Special Dividend Payment Date. If the Special Dividend is declared, OPC Shareholders may be entitled to a franking credit of up to approximately \$0.043 per OPC Share. Whether you will be able to realise the full benefit of franking credits attached to any Special Dividend will depend on your tax status and specific circumstances. OPC Shareholders should seek independent taxation advice in respect of this matter and refer to Section 9 of the Scheme Booklet.

Uniti's Relevant Interest

OPC Shareholders should note that since the date of the Scheme Booklet, Uniti obtained a Relevant Interest in 20,327,619 OPC Shares, equating to approximately 19.5% of the share capital of Opticomm.

Scheme Resolutions

At the Scheme Meeting, Eligible Shareholders will be asked to approve two resolutions. The first is to approve the amendment to the Original Scheme previously proposed in the Scheme Booklet, and the second is to approve the Scheme as amended. A Notice of Postponed Scheme Meeting is enclosed at Annexure D of this Supplementary Scheme Booklet.

OptiComm Directors' Recommendation

The OptiComm Directors, in the absence of a Superior Proposal, unanimously recommend that Eligible Shareholders vote in favour of both the resolution to amend the Original Scheme and the resolution to approve the Scheme as amended.²

Independent Expert's Opinion

The Independent Expert considers that the Scheme continues to be in the best interests of OPC Shareholders in the absence of a superior proposal. The Independent Expert's opinion is based on its assessment that the Scheme is fair and reasonable. The Independent Expert has noted that its analysis has been focused on the Revised Scheme Consideration in determining whether the Scheme is in the best interests of OPC Shareholders. Annexure A of this document sets out a copy of the Supplementary Independent Expert's Report. OPC Shareholders should read both the Independent Expert's Report and the Supplementary Independent Expert's Report in their entirety.

New Scheme Meeting Date

On 25 September 2020 the Court ordered that the Scheme Meeting now be held virtually at 11:00am on Tuesday, 13 October 2020. OPC Shareholders can participate in the Scheme Meeting by logging in online at <https://agmlive.link/OPC20>.

A full list of the new dates in connection with the Scheme is set out on page 7.

OPC Shareholders should note that in the event that the Scheme Meeting is the subject of a further adjournment, a new meeting date will be set no earlier than 10 clear days after the date on which any further supplementary disclosure is despatched to OPC Shareholders.

Voting Record Date and Proxy Forms

All Eligible Shareholders on the OptiComm Share Register on the Voting Record Date (7.00pm (AEDT) on Sunday, 11 October 2020) may vote at the Scheme Meeting online, by proxy, by attorney or, in the case of a corporation, by corporate representative (subject to restrictions on voting rights set out in the Notice of Postponed Scheme Meeting) and will have one vote for each Scheme Share they hold.

Previously submitted proxy forms will not be valid. If you wish to vote by proxy you must either complete and sign or validly authenticate the personalised Proxy Form which accompanies this Supplementary Scheme Booklet or lodge your proxy online.

Due to the short period of notice between release of this document and the new deadline for receipt of Proxy Forms (11:00am (AEDT) on Sunday, 11 October 2020), Eligible Shareholders are encouraged to lodge their Proxy Forms online at www.linkmarketservices.com.au.

Scheme Meeting

The Scheme can only be implemented if both Scheme Resolutions are approved by the Requisite Majorities of OPC Shareholders at the Scheme Meeting to be held at 11:00am (AEDT) on Tuesday, 13 October 2020. Annexure D contains the Notice of Postponed Scheme Meeting.

Your vote is important. You should take into consideration all of the information set out in this Supplementary Scheme Booklet and the Scheme Booklet when deciding whether or not to vote in favour of the Scheme Resolutions. Sections 1.3 to 1.5 of the Scheme Booklet contain further information regarding the virtual Scheme Meeting and your vote and Section 4.2 of the Scheme Booklet summarises the reasons identified by the OptiComm Board as to why you may not want to vote in favour of the Scheme, including risks associated with holding New UWL Shares.

² Refer to the Chairman's Letter in the Scheme Booklet which sets out the director's interests in relation to the Scheme.

If you have any questions or require further information in relation to this Scheme Booklet or the Scheme, you should call the Shareholder Information Line on 1800 635 323 (or from outside Australia, +61 1800 635 323), Monday to Friday between 8.30am and 5.30pm (AEDT). If you are in any doubt as to what you should do, you should consult an independent, appropriately licensed, and authorised financial, legal and/or tax adviser without delay.

On behalf of the OptiComm Board, I would like to take this opportunity to thank you for your ongoing support of OptiComm and I look forward to your participation in the Scheme Meeting.

Yours sincerely,

Allan Brackin
Chairman

4. Overview of Revised Uniti Proposal

4.1 Revised Scheme Consideration

On 8 September 2020, OptiComm announced it had received from Aware Super Pty Ltd ACN 158 957 889 as trustee for Aware Super (**Aware Super**, formerly known as First State Super) a non-binding and conditional competing proposal to acquire all of the Scheme Shares for \$5.85 per OPC Share (inclusive of a \$0.10 fully franked special dividend, if declared) pursuant to a scheme of arrangement subject to due diligence and investment committee approvals (**Aware Super Proposal**). Pursuant to its obligations under the Scheme Implementation Deed, OptiComm notified Uniti of the Aware Super Proposal.

On the evening of 14 September 2020, OptiComm received a revised binding offer from Uniti to acquire 100% of OPC Shares (other than OPC Shares owned by Uniti) at a value of \$5.85 per Scheme Share (**Revised Uniti Proposal**), consisting of one fixed consideration offer to all OPC Shareholders, other than Ineligible Foreign Shareholders, of:

- \$4.835 cash per OPC Share (inclusive of a fully franked special dividend of \$0.10 per OPC Share, if declared); and
- 0.80537 New UWL Shares per OPC Share (which implies \$1.015 per OPC Share calculated on the basis of the closing trading price of UWL Shares on 11 September 2020 of \$1.26),

while Ineligible Foreign Shareholders will receive the Revised All Cash Consideration of \$5.85 cash per OPC Share (inclusive of a fully franked special dividend of \$0.10 per OPC Share, if declared).

Under the Revised Uniti Proposal, there will be no elections in respect of scheme consideration and no scale-back. The elections which were previously made by OPC Shareholders will have no impact upon the Revised Scheme Consideration.

The Revised Uniti Proposal represents a premium of:

- 12.50% (based on the closing trading price of UWL Shares on 11 September 2020 of \$1.26); or
- 15.21% (based on the closing trading price of UWL Shares on 7 September 2020 of \$1.435),

compared to the initial consideration of \$5.20 offered by Uniti and accepted by OPC in the Original Scheme.

If the Scheme is approved and implemented, Scheme Shareholders (who are not Ineligible Foreign Shareholders) will receive the Revised Scheme Consideration of:

- 0.80537 New UWL Shares per OPC Share; and
- **(if the Special Dividend is declared)** (i) Cash Consideration of \$4.735 per OPC Share held by them on the Scheme Record Date; and (ii) a fully franked Special Dividend of \$0.10 per OPC Share held by them on the Special Dividend Record Date; or
- **(if the Special Dividend is not declared)** Cash Consideration of \$4.835 per OPC Share held by them on the Scheme Record Date,

(Revised Scheme Consideration).

The OptiComm Board will determine whether to declare the Special Dividend before the Scheme Meeting. Payment of the Special Dividend (if declared) will be paid on the Special Dividend Payment Date to each person registered in the OptiComm Share Register as a holder of an OPC Share as at the Special Dividend Record Date.

The amount of cash Scheme Shareholders other than Ineligible Foreign Shareholders will receive under the Revised Scheme Consideration will be \$4.835 regardless of the amount of any Special Dividend. This is because the Cash Consideration they will receive from Uniti will be \$4.835 less the cash amount of any Special Dividend they will receive from OptiComm. If the Special Dividend is declared, OPC Shareholders who receive the Special Dividend may be entitled to a franking credit of up to approximately \$0.043 per OPC Share. Whether you will be able to realise the full benefit of franking credits attached to any Special Dividend will depend on your tax status and specific circumstances. OPC Shareholders should seek independent taxation advice in respect of this matter and refer to Section 9 of the Scheme Booklet.

4.2 Scheme Resolutions

At the Scheme Meeting, Eligible Shareholders will be asked to approve two resolutions. The first is to approve the amendment to the Original Scheme previously proposed in the Scheme Booklet, in the manner described above, and the second is to approve the Scheme as amended. A Notice of Postponed Scheme Meeting is enclosed at Annexure D of this Supplementary Scheme Booklet.

4.3 OptiComm Directors' Recommendation

The OptiComm Directors, in the absence of a Superior Proposal, unanimously recommend that Eligible Shareholders vote in favour of both resolutions to amend the Original Scheme and to approve the Scheme as amended.⁴ The Revised Scheme Consideration offers an attractive and certain price for OPC Shareholders when considered against the historic trading performance of OPC Shares, as described in Section 6.6 of the Scheme Booklet.

In making this recommendation, the OptiComm Directors have also taken into account the considerations outlined in Section 4 of the Scheme Booklet.

4.4 Opinion of the Independent Expert

The Independent Expert has considered the impact of the Revised Scheme Consideration. The Independent Expert considers that the Scheme continues to be in the best interests of OPC Shareholders in the absence of a superior proposal.

The Independent Expert has assessed the value of the equity of OptiComm to lie in the range of \$516.5 million to \$556.5 million, which equates to an assessed value per OPC Share of between \$4.95 to \$5.34. The Independent Expert implies a value of the New UWL Shares to be received by OPC Shareholders as part of the Scheme Consideration, to be in the range of \$1.35 to \$1.45 per share resulting in the Independent Expert assessing the Revised Scheme Consideration to be in a range of \$5.92 to \$6.00 per OPC Share. Please refer to Annexure A of this Supplementary Scheme Booklet which contains the Supplementary Independent Expert's Report and further details of the Independent Expert's assessment.

4.5 Amendments to the Scheme Implementation Deed

On 15 September 2020, the Scheme Implementation Deed was amended to, among other things, reflect:

- the Revised Scheme Consideration described in Section 4.1; and
- an increase of the break fee and reverse break fee payable under the Scheme Implementation Deed to \$6,100,000.

A break fee equal to 1% of the equity value of OptiComm (calculated under the Revised Uniti Proposal) is consistent with Takeovers Panel guidance and market practice. The OptiComm Board

⁴ Refer to Chairman's Letter in the Scheme Booklet which sets out the director's interests in relation to the Scheme.

was prepared to accept the amendments to the break fee in light of the Revised Scheme Consideration and the increase in costs incurred by Uniti in connection with the Revised Uniti Proposal.

Corresponding changes were also made as required to the Original Scheme as shown in mark up at Annexure B.

For more information on the circumstances in which the break fee may be payable, at the higher amount, see Section 5.13(c) of the Scheme Booklet.

4.6 Deed Poll

Uniti continues to be bound by the Deed Poll under which Uniti has effectively agreed to (among other things) provide the Revised Scheme Consideration to each Scheme Shareholder, subject to the Scheme becoming Effective.

4.7 Uniti funding arrangements

Uniti's funding for the Revised All Cash Consideration and the Revised Scheme Consideration is set out below. The Scheme is not subject to any financing condition precedent.

The aggregate Cash Consideration of approximately \$474.3 million⁵ (assuming the Special Dividend is not paid) will be funded from:

- the proceeds of Uniti's \$270 million fully underwritten capital raising from retail and institutional investors announced on 15 June 2020 which was fully completed on 14 July 2020; and
- Uniti's new \$250 million syndicated debt facility with \$125 million borrowings from Westpac Banking Corporation and \$125 million borrowings from Commonwealth Bank of Australia. The debt facility is for a three-year term.

Uniti will issue 78,994,420 New UWL Shares,⁶ with an implied value of approximately \$99.53 million, based upon an issue price of \$1.26 per share, as the aggregate Scrip Consideration to provide the remainder of the Scheme Consideration.

The \$1.26 value is based on the closing share price of UWL Shares on 11 September 2020.

On the basis of the arrangements described above, Uniti believes that it will be able to satisfy its obligations to provide the Revised All Cash Consideration and the Revised Scheme Consideration as and when it is due under the terms of the Scheme and considers that it has reasonable grounds for that belief.

⁵ The aggregate Cash Consideration amount of approximately \$474.3 million does not include the amount paid by Uniti of approximately \$30 million pursuant to the Share Sale Agreements for the acquisition of the OPC Shares from the Share Sale Counterparties

⁶ The issue of 78,994,420 New UWL Shares does not include the issue of 5,001,901 UWL Shares pursuant to the Share Sale Agreements for the acquisition of the OPC Shares from the Share Sale Counterparties.

4.8 Share Capital and Other Securities of the Combined Group

(a) Share capital

If the Scheme is implemented Uniti will issue approximately 79 million New UWL Shares to Scheme Shareholders.

As a result of the Scheme, the number of UWL Shares on issue will increase from approximately 523.4 million (being the number on issue as at the date of this Supplementary Scheme Booklet) to approximately 602.4 million, as illustrated below:

Combined Group share capital	Number	% of Combined Group
Uniti		
UWL Shares outstanding	523,383,566	87% ⁷
OPC		
New UWL Shares to be issued to OPC Shareholders	78,994,420	13% ⁸
Total UWL Shares	602,377,986	100%

Upon implementation of the Scheme, OPC Shareholders are expected to own approximately 13% of the Combined Group with UWL Shareholders owning approximately 87% of the Combined Group.

It is expected that the free float of the Combined Group will be approximately 100%, which is sufficient for the Combined Group to be included in key indices including the S&P/ASX 200.

(b) UWL Options

The number of UWL Options that are on issue (being 17,544,544 as at the date of this Supplementary Scheme Booklet) will not be affected by the implementation of the Scheme and will remain on foot.

4.9 New date for Scheme Meeting

On 25 September 2020 the Court ordered that the Scheme Meeting now be held virtually at 11:00am on Tuesday, 13 October 2020. OPC Shareholders can participate in the Scheme Meeting by logging in online at <https://agmlive.link/OPC20>.

⁷ 87% represents the percentage post the issue of UWL Shares pursuant to the Share Sale Agreements for the acquisition of the OPC Shares from the Share Sale Counterparties. Prior to the acquisition of the OPC Shares from the Share Sale Counterparties, the percentage of the UWL Shares outstanding in the Combined Group was 86%.

⁸ 13% represents the percentage post the issue of UWL Shares pursuant to the Share Sale Agreements for the acquisition of the OPC Shares from the Share Sale Counterparties. Prior to the acquisition of the OPC Shares from the Share Sale Counterparties, the percentage of the New UWL Shares to be issued to OPC Shareholders in the Combined Group was 14%.

OPC Shareholders should note that in the event that the Scheme Meeting is the subject of a further adjournment, a new meeting date will be set no earlier than 10 clear days after the date on which any further supplementary disclosure is despatched to OPC Shareholders, to allow sufficient time for lodgement of updated proxies.

Due to the short period of notice between release of this document and the new deadline for receipt of Proxy Forms (11:00am (AEDT) on Sunday, 11 October 2020), OPC Shareholders are encouraged to lodge their Proxy Forms online at www.linkmarketservices.com.au.

6. Additional information

6.1 Special Dividend – Financial Assistance under section 260A

The OptiComm Board will determine whether to declare the Special Dividend and, if declared, the amount of the Special Dividend, before the Scheme Meeting. Payment of the Special Dividend (if declared) will be made on the Special Dividend Payment Date. If declared, OPC Shareholders that are entitled to the Special Dividend are those that are on the OptiComm Share Register at 5pm (AEDT) on the Special Dividend Record Date.

Section 260A of the Corporations Act enables a company to assist a person financially to acquire shares in a company only if certain conditions are satisfied. Financial assistance of this kind is permitted if the giving of assistance does not materially prejudice the interests of the company, the interests of its shareholders, or the company's ability to pay its creditors. The Corporations Act specifically contemplates that financial assistance (of the kind that is regulated under section 260A) may take the form of paying a dividend and may be given before the acquisition of shares.

The OptiComm Board has determined that the payment of the Special Dividend (if declared) to OPC Shareholders in the above circumstances may constitute the provision of financial assistance to Uniti under section 260A of the Corporations Act; however, this provision would not materially prejudice the interests of OptiComm or OPC Shareholders or OptiComm's ability to pay its creditors.

6.2 Uniti's Relevant Interest

As at the date of this Supplementary Scheme Booklet, Uniti has a Relevant Interest in 20,327,619 OPC Shares, giving Uniti voting power of approximately 19.5%.

Of the OPC Shares in which Uniti has a Relevant Interest, Uniti acquired:

- its Relevant Interest in the 6,210,689 OPC Shares it owns pursuant to the Share Sale Agreements; and
- its Relevant Interest in 14,116,930 OPC Shares pursuant to the Call Option Agreements.

Further details of the Share Sale Agreements and the Call Option Agreements are set out in Sections 6.5 and 6.6 of this Supplementary Scheme Booklet.

6.3 Dealings in OPC Shares in the previous four months

During the four months before the date of this Supplementary Scheme Booklet, other than pursuant to:

- the Share Sale Agreements and the Call Option Agreements;
- the Scheme Implementation Deed and the Amended and Restated Scheme Implementation Deed;
- the Original Scheme and the Scheme; and
- the Deed Poll,

neither Uniti nor any of its associates has provided, or agreed to provide, consideration for OPC Shares under any transaction or agreement.

6.4 Benefits given during the previous four months

During the four months before the date of this Supplementary Scheme Booklet, other than pursuant to the Call Option Agreements, neither Uniti nor any of its associates has given or offered to give or agreed to give a benefit to another person where the benefit was likely to induce the other person or an associate to vote in favour of the Scheme or dispose of OPC Shares, where the benefit was not offered to all OPC Shareholders.

6.5 Share Sale Agreements

Uniti entered into the Share Sale Agreements on 15 September 2020 pursuant to which the Share Sale Counterparties agreed to sell the SSA Shares to Uniti for:

- \$4.835 per SSA Share (**SSA Cash Consideration**); and
- 0.80537 UWL Shares per SSA Share (**SSA Scrip Consideration**)⁹,

such consideration being effectively the same as the Revised Scheme Consideration offered under the Scheme.

Completion under each of the Share Sale Agreements took place on 18 September 2020.

The closing trading price of UWL Shares on 11 September 2020 was \$1.26, meaning the value of the SSA Scrip Consideration on that date was \$1.015. The total value of the SSA Cash Consideration and SSA Scrip Consideration was therefore \$5.85 on 11 September 2020.

6.6 Call Option Agreements

Uniti entered into the Call Option Agreements on 15 September 2020 pursuant to which the Call Option Counterparties granted Uniti options to acquire the Call Option Shares (**Call Options**).

The exercise price under the Call Option Agreements is effectively the same as the Revised Scheme Consideration offered under the Scheme, namely:

- \$4.835 cash per OPC Share (**Call Option Cash Exercise Price**); and
- 0.80537 New UWL Shares per OPC Share¹⁰,

provided that if the Call Option Counterparty becomes entitled to a dividend on its Call Option Shares before the Call Option it has granted is exercised, the Call Option Cash Exercise Price payable to it will be reduced by the dollar value of the dividend per OPC Share.

If Uniti exercises a Call Option and disposes of the OPC Shares it acquires from doing so within 12 months, Uniti must pay the relevant Call Option Counterparty 50% of any consideration it receives for those OPC Shares in excess of the exercise price under the Call Option Agreements.

Uniti may exercise the Call Options during the relevant Call Option Period if any of the following trigger events occur:

- OptiComm publicly recommends a Rival Scheme;
- a Third Party has announced a Takeover Bid; or

⁹ Implying \$1.015 per OPC Share calculated on the basis of the closing trading price of UWL Shares on 11 September 2020 of \$1.26.

¹⁰ Implying \$1.015 per OPC Share calculated on the basis of the closing trading price of UWL Shares on 11 September 2020 of \$1.26.

- OptiComm recommends or otherwise enters into a proposal or arrangement pursuant to which a Third Party will acquire a Relevant Interest in at least 50.1% of the OPC Shares or will otherwise acquire a material subsidiary or a material asset of OptiComm,

(each a **Call Option Trigger Event**).

The relevant **Call Option Period** commences on the day the relevant Call Option Trigger Event occurs and:

- in the case of a Call Option Trigger Event involving a Rival Scheme, ends on the date the scheme meeting is held; and
- in the case of a Call Option Trigger Event that does not involve a Rival Scheme, ends 90 days after the occurrence of that Call Option Trigger Event.

The Call Options will expire on the earlier of:

- 15 March 2021, being the date six months after the date of the Call Option Agreements; and
- the day following the end of the relevant Call Option Period.

The Call Option Agreements do not contain any restrictions on the Call Option Counterparties' right to vote for or against any resolution proposed in relation to OptiComm (including the Scheme Resolutions).

6.7 Consents to be named

Uniti has given, and not withdrawn before the registration of this Supplementary Scheme Booklet with ASIC, its written consent to be named in this Supplementary Scheme Booklet in the form and context in which it is so named and to the inclusion of the Additional Uniti Information attributed to it in this Supplementary Scheme Booklet in the form and context in which such information is included in this Supplementary Scheme Booklet. Subject: Revised proposal from Uniti Group Limited to acquire OptiComm Ltd

Dear Directors

Introduction

Initial proposal from Uniti

- 1 On 15 June 2020, OptiComm Ltd (OptiComm or the Company) announced that it and Uniti Group Limited (Uniti) had entered into a Scheme Implementation Deed (SID) under which Uniti would acquire all of the issued shares in OptiComm (Initial Uniti Proposal). Under this proposal, OptiComm shareholders could elect to receive the consideration as one of the following five alternatives¹:
 - (a) \$5.10 cash per OptiComm share (Cash Consideration)
 - (b) 3.4228 Uniti shares for each OptiComm share (Scrip Consideration)
 - (c) a combination of cash and Uniti shares for each OptiComm share, as follows:
 - (i) 75% Cash Consideration and 25% Scrip Consideration (Mixed Consideration Option 1) equating to \$3.825 cash and 0.8557 Uniti shares for each OptiComm share
 - (ii) 50% Cash Consideration and 50% Scrip Consideration (Mixed Consideration Option 2) equating to \$2.55 cash and 1.7114 Uniti shares for each OptiComm share
 - (iii) 25% Cash Consideration and 75% Scrip Consideration (Mixed Consideration Option 3) equating to \$1.275 cash and 2.5671 Uniti shares for each OptiComm share.
- 2 Lonergan Edwards & Associates Limited (LEA) prepared an independent expert's report (IER) dated 6 August 2020 on the merits of the Initial Uniti Proposal. In this report we concluded that the value of the scheme consideration under each alternative was as follows:

¹ OptiComm shareholders who did not make an election or who made an invalid election, would have received Mixed Consideration Option 1 had the Initial Uniti Proposal been implemented.

Initial Uniti Proposal - Value of scheme consideration per OptiComm share

	Low \$ per share	High \$ per share
Cash Consideration	5.10	5.10
Scrip Consideration ⁽¹⁾	4.96	5.65
Mixed Consideration Option 1 (75% cash, 25% scrip) ⁽²⁾	5.07	5.24
Mixed Consideration Option 2(50% cash, 50% scrip) ⁽³⁾	5.03	5.37
Mixed Consideration Option 3 (25% cash, 75% scrip) ⁽⁴⁾	5.00	5.51

- 2 Being \$1.45 to \$1.65 times exchange ratio of 3.4228 Uniti shares for each OptiComm share times 25% Scrip Consideration, plus \$5.10 times 75% Cash Consideration.
- 3 Being \$1.45 to \$1.65 times exchange ratio of 3.4228 Uniti shares for each OptiComm share times 50% Scrip Consideration, plus \$5.10 times 50% Cash Consideration.
- 4 Being \$1.45 to \$1.65 times exchange ratio of 3.4228 Uniti shares for each OptiComm share times 75% Scrip Consideration, plus \$5.10 times 25% Cash Consideration.

Proposal from First State Superannuation

- 3 On 8 September 2020, OptiComm announced it had received a non-binding and conditional competing proposal from FSS Trustee Corporation as trustee for the First State Superannuation Scheme to acquire all of the OptiComm shares for \$5.85 per OptiComm share, inclusive of a \$0.10 fully franked special dividend, if declared (the First State Non-Binding Competing Proposal).
- 4 The OptiComm Board considered that the First State Non-Binding Competing Proposal provided a higher consideration than the consideration under the Initial Uniti Proposal, and that it was therefore appropriate for the OptiComm Board to engage in further discussions with FSS Trustee Corporation on the basis that it may lead to a superior proposal.
- 5 At the date of this report, OptiComm has yet to receive a binding proposal in connection with the First State Non-Binding Competing Proposal.

Revised Scheme Proposal from Uniti

- 6 Pursuant to its obligations under the SID, OptiComm notified Uniti of the First State Non-Binding Competing Proposal. On 14 September 2020, OptiComm received a revised binding offer from Uniti (Revised Scheme Proposal) pursuant to which OptiComm shareholders (other than foreign ineligible shareholders) will receive²:
 - (a) \$4.835 cash per OptiComm share (inclusive of any special dividend of up to \$0.10 per share; and
 - (b) 0.80537 Uniti shares per OptiComm share (Revised Scheme Consideration).
- 7 The Revised Scheme Proposal from Uniti is to be implemented via a scheme of arrangement between OptiComm and its shareholders (the Revised Scheme), and is subject to a number of conditions precedent including OptiComm shareholder and court approval, the independent

² For the avoidance of doubt, under the Revised Scheme Proposal there will be no elections in respect of scheme consideration and no scale-back.

expert continuing to conclude that the Revised Scheme Proposal is in the best interests of OptiComm shareholders and there being no material adverse change, prescribed occurrence or regulated event affecting either party. Further information on these conditions is summarised in the Scheme Booklet.

- 8 If the Revised Scheme is implemented, OptiComm shareholders may receive a fully franked special dividend of \$0.10 per OptiComm share (Special Dividend), in which case the Revised Scheme Consideration will be reduced by \$0.10 to \$4.735 per OptiComm share. However, OptiComm shareholders will still receive \$4.835 per share in cash if the Revised Scheme is implemented³.

Acquisition of OptiComm shares by Uniti

- 9 On 15 September 2020 (at the same time as the announcement of the Revised Scheme Proposal), Uniti also announced that it had entered into:
- (a) share purchase agreements with certain OptiComm institutional shareholders to acquire approximately 6% of OptiComm shares for the Revised Scheme Consideration, with completion expected to occur within three business days
 - (b) call option agreements with certain other OptiComm institutional shareholders over approximately 13.5% of OptiComm shares. Under these agreements, Uniti has the right (but not the obligation) to acquire the shares for the Revised Scheme Consideration (less any dividends paid prior to exercise) from the respective shareholders on the occurrence of certain change of control trigger events⁴.

OptiComm

- 10 OptiComm is a licensed carrier and wholesale network infrastructure operator which designs, builds, operates and maintains fixed line access, fibre based, telecommunications networks servicing new residential, commercial and retail developments within Australia. As at 30 June 2020, the Company had deployed its network infrastructure to some 124,000 lots across more than 290 estates throughout Australia with approximately 73,000 active connections from 89,000 connected premises. In addition, OptiComm has contractual obligations to construct fibre infrastructure at an additional 150,000 lots for new projects planned and in development.

Uniti

- 11 Uniti is a full-service telecommunications company that provides wireless internet, fixed fibre services and specialist telecommunications products to consumer and corporate customers throughout Australia. The company operates across three “pillars” or business units, comprising Wholesale & Infrastructure (W&I), Specialty Services and Consumer & Business Enablement (CBE). Uniti listed on the Australian Securities Exchange (ASX) in

³ In our opinion, when assessing the merits of the Revised Scheme Proposal it is appropriate to refer to the Revised Scheme Consideration inclusive of any Special Dividend because the payment of any Special Dividend is conditional on the Revised Scheme becoming effective.

⁴ Uniti has an exercise period of 90 days from the trigger event. The call option terminates on the earlier of six months and the expiry of the 90 day option exercise period. Uniti will also share 50% of the upside with the OptiComm institutional shareholders if it disposes of these OptiComm shares within 12 months of acquisition.

February 2019 with a strategy of becoming a leading provider of niche telecommunications services, via both organic growth and inorganic mergers and acquisitions.

Purpose of report

- 12 There is no regulatory requirement for an IER to be prepared for OptiComm shareholders pursuant to the *Corporations Act 2001* (Cth) (Corporations Act) or the ASX Listing Rules. However, the Revised Scheme is subject to a number of conditions precedent, including an independent expert concluding and continuing to conclude that the Revised Scheme is in the best interests of OptiComm shareholders. In addition, the OptiComm Directors' recommendation of the Revised Scheme is subject to an independent expert concluding that the Revised Scheme is in the best interests of OptiComm shareholders in the absence of a superior proposal.
- 13 Accordingly, the Directors of OptiComm have requested LEA to prepare an IER stating whether, in our opinion, the Revised Scheme is fair and reasonable and in the best interests of OptiComm shareholders and the reasons for that opinion⁵. LEA is independent of OptiComm and Uniti and has no other involvement or interest in the Revised Scheme.

Summary of opinion

- 14 In our opinion, the Revised Scheme is fair and reasonable and in the best interests of OptiComm shareholders in the absence of a superior proposal. We have formed this opinion for the reasons set out below.

Value of OptiComm shares

- 15 Our assessed value of OptiComm shares on a 100% controlling interest basis (and prior to the payment of the Special Dividend) is set out below:

- 16 We have adopted the discounted cash flow (DCF) methodology as our primary valuation approach. The key assumptions adopted in our DCF valuation are set out in Section I.

Value of Revised Scheme Consideration

- 17 We have assessed the value of the Revised Scheme Consideration (inclusive of any Special Dividend if paid) at \$5.92 to \$6.00 per OptiComm share, as shown below:

⁵ Due to the nature of the Revised Scheme, Australian Securities & Investments Commission (ASIC) Regulatory Guide 111 – *Content of expert reports* (RG 111) also requires the expert to provide an opinion on whether the Revised Scheme is fair and reasonable.

Value of Revised Scheme Consideration per OptiComm share

	Low \$ per share	High \$ per share
Uniti share price	1.35	1.45
Exchange ratio	0.80537	0.80537
Value of scrip consideration	1.087	1.168
Cash consideration (including any Special Dividend)	4.835	4.835
Revised Scheme Consideration (including any Special Dividend)	\$5.92	\$6.00

Fair and reasonable opinion

- 18 Pursuant to RG 111 the Revised Scheme is “fair” if the value of the Revised Scheme Consideration is equal to, or greater than, the value of the securities the subject of the Revised Scheme.
- 19 As the value of the Revised Scheme Consideration (inclusive of any Special Dividend) to be received by OptiComm shareholders exceeds our assessed valuation range for OptiComm shares on a 100% controlling interest basis, in our opinion, the Revised Scheme is fair to OptiComm shareholders when assessed based on the guidelines set out in RG 111.
- 20 Pursuant to RG 111, a transaction is reasonable if it is fair. Further, in our opinion, if the Revised Scheme is “reasonable” it must also be “in the best interests” of shareholders, in the absence of a superior proposal.
- 21 Consequently, in our opinion, the Revised Scheme is also “reasonable” and “in the best interests” of OptiComm shareholders in the absence of a superior proposal.

Assessment of the Revised Scheme

- 22 We summarise below the advantages and disadvantages of the Revised Scheme for OptiComm shareholders.

Advantages

- 23 The Revised Scheme Consideration (inclusive of any Special Dividend) to be received by OptiComm shareholders exceeds our assessed value range of OptiComm shares on a 100% controlling interest basis (and is therefore fair and reasonable under RG 111). It also exceeds the value of the consideration proposed under the Initial Uniti Proposal.
- 24 The Revised Scheme Consideration represents a significant premium to the volume weighted average price (VWAP) of \$4.60 per OptiComm share in the period from 28 April 2020⁶ up to the announcement of the Initial Uniti Proposal.

Disadvantages

- 25 If the Revised Scheme is implemented OptiComm shareholders will no longer hold a direct interest in OptiComm, but will continue to collectively own approximately 14% of the OptiComm business through their interest in Uniti. In the event that future value is created by OptiComm as a result of ongoing operations over and above that reflected in the value of the

⁶ On 28 April 2020 OptiComm provided a presentation to the ASX that included a number of statements regarding the outlook of the business for FY20 and the impacts of the 2019 novel coronavirus (COVID-19).

Revised Scheme Consideration, OptiComm shareholders will therefore only retain some limited exposure to such future value (but will also acquire an interest in the Uniti businesses).

- 26 However, as the Revised Scheme Consideration to be received by OptiComm shareholders exceeds our assessed value range of OptiComm shares, we consider that the present value of OptiComm's future potential (plus a share of expected synergies) is reflected in the Revised Scheme Consideration.

Conclusion

- 27 Given the above analysis, we consider the acquisition of OptiComm shares under the Revised Scheme is fair and reasonable to, and in the best interests of, OptiComm shareholders in the absence of a superior proposal.

General

- 28 In preparing this report we have considered the interests of OptiComm shareholders as a whole. Accordingly, this report only contains general financial advice and does not consider the personal objectives, financial situations or requirements of individual shareholders.
- 29 The impact of approving the Revised Scheme on the tax position of OptiComm shareholders depends on the individual circumstances of each investor. OptiComm shareholders should read the Scheme Booklet in full and consult their own professional advisers if in doubt as to the taxation consequences of the Revised Scheme.
- 30 The ultimate decision whether to approve the Revised Scheme should be based on each OptiComm shareholder's assessment of their own circumstances. If OptiComm shareholders are in doubt about the action they should take in relation to the Revised Scheme or matters dealt with in this report, shareholders should seek independent professional advice. For our full opinion on the Revised Scheme and the reasoning behind our opinion, we recommend that OptiComm shareholders read the remainder of our report, together with our IER on the Initial Uniti Proposal dated 6 August 2020.

Yours faithfully

I Valuation of 100% of OptiComm

Methodology

- 31 Consistent with our IER on the Initial Unit Proposal dated 6 August 2020, we consider that the DCF approach is the most appropriate valuation methodology to assess the value of shares in OptiComm.
- 32 Under the DCF methodology the value of the OptiComm business (on a cash and debt free basis) is equal to the net present value (NPV) of the estimated future cash flows including a terminal value. In order to arrive at the NPV the future cash flows are discounted using a discount rate which reflects the risks associated with the cash flow stream.
- 33 Our DCF valuation is based on free cash flow projections derived by LEA having regard to, inter-alia, OptiComm management budgets and forecasts and related discussions with OptiComm management.
- 34 Whilst LEA believes the assumptions underlying the cash flow projections adopted for valuation purposes are reasonable and appropriate, it should be noted in respect of these projections that:
- (a) the major assumptions underlying the projections were formulated in the context of current economic, financial and other conditions, including the potential impact of COVID-19 on the business
 - (b) the projections and the underlying assumptions have not been reviewed by an investigating accountant for reasonableness or accuracy of compilation and application of assumptions
 - (c) future profits and cash flows are inherently uncertain
 - (d) by their nature, the projections do not take into account the operational flexibility available to management to react to changes in the market conditions in which OptiComm operates
 - (e) the achievability of the projections is not warranted or guaranteed by OptiComm or LEA, as they are predictions of future events that cannot be assured and are necessarily based on assumptions, many of which are beyond the control of OptiComm and its management; and
 - (f) actual results may be significantly more or less favourable.
- 35 Free cash flow represents the operating cash flows on an un-g geared basis (i.e. before interest) less taxation payments⁷, capital expenditure and working capital requirements. The free cash flow on an un-g geared basis is adopted to enable the value of the business to be determined irrespective of the level of debt funding employed.

⁷ Also calculated on an un-g geared basis.

- 36 We have adopted a valuation date of 30 September 2020. The free cash flow projections cover the period to 30 June 2028 (Forecast Period), together with the estimated capital value of the business at the end of that period.
- 37 As the detailed cash flow projections are commercially sensitive, they have not been set out in our report. However, we set out below information on the major assumptions underlying the free cash flow projections.
- 38 We have discussed the financial performance of OptiComm since the preparation of our IER on the Initial Unit Proposal dated 6 August 2020 with OptiComm management and are of the opinion that the key assumptions below (which are unchanged from those adopted in our IER dated 6 August 2020) remain appropriate.

Key assumptions

Growth in Active Premises on existing network⁸

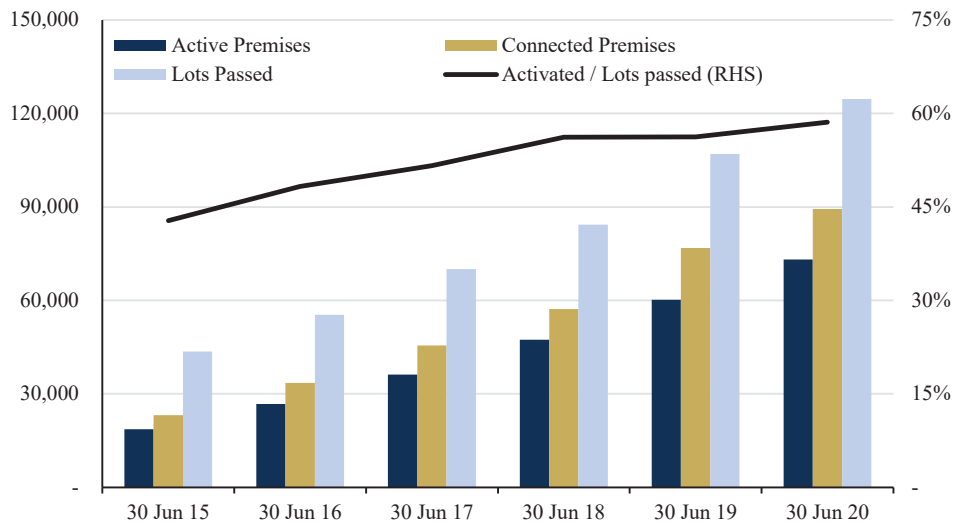

- 39 As at 30 June 2020, OptiComm had deployed its network infrastructure to over 124,000 lots across more than 290 estates throughout Australia and had over 73,000 active connections⁹ from over 89,000 Connected Premises¹⁰. As at 31 August 2020 OptiComm's network infrastructure has increased to approximately 128,000 lots with over 75,000 active connections from over 92,000 Connected Premises.
- 40 The future economic benefits (i.e. future cash flows) arising from the network construction spend are primarily the recurring network revenue received from retail service providers (RSPs) for network access in the form of monthly wholesale access and capacity charges (net of associated operating costs). This recurring network revenue arises from active connections only. Accordingly, the growth in active connections is a key driver of OptiComm's future financial performance.
- 41 As indicated above, as at 30 June 2020, active connections on the existing network were approximately 59% of total Lots Passed. As shown below, the proportion of active connections as a percentage of total Lots Passed has been steadily increasing over recent years:

⁸ The existing network refers to the fibre optic infrastructure installed into or in close proximity to the 124,000 "Lots Passed" (i.e. connections where OptiComm's infrastructure has been installed but is not yet connected to the network) as at 30 June 2020.

⁹ Connected Premises become "Active Premises" once services are activated by the end user.

¹⁰ Newly constructed dwellings that have been connected to OptiComm's network (Connected Premises).

OptiComm – Lots Passed, Connected Premises and Active Premises

- 42 Our Base Case DCF assumptions assume that the number of active connections on the existing network will increase to approximately 104,000 premises by 30 June 2024, which is maintained over the remainder of the Forecast Period. This represents an increase of some 31,000 active connections from the number of active connections as at 30 June 2020, and results in the number of active connections on the existing network increasing to approximately 84% of the total Lots Passed as at 30 June 2020.
- 43 It should be noted that the proportion of Lots Passed that become active connections is not expected to reach 100% over the Forecast Period. This is because:
- (a) there is usually a significant time-lag (particularly in broadacre subdivisions) between the installation of the fibre network and the sale of the lots, construction of a dwelling and connection of the dwelling to the network
 - (b) some dwellings will be vacant (e.g. available to rent), or be occupied as short term rentals without active connections
 - (c) some dwellings (particularly those in metropolitan areas) will not require OptiComm’s fibre networks due to the availability of alternative technologies such as 4G and 5G wireless networks.

Growth in Lots Passed

- 44 In addition to the greater utilisation of OptiComm’s existing network as that network matures, future earnings growth is also forecast to arise from OptiComm’s contractual agreements with developers for the construction of future networks to over 150,000 additional lots.
- 45 Whilst the exact timing of these new developments / networks is uncertain, OptiComm management expect that this future network construction will occur over an eight to 10 year period. This implies additional Lots Passed (on average) of between 15,000 and 18,750 per annum. In comparison, the additional Lots Passed each year from FY16 to FY20 is shown below:

Total Lots Passed (000s)⁽¹⁾

	FY15	FY16	FY17	FY18	FY19	FY20
Total Lots Passed at year end	44	55	70	84	102 ⁽²⁾	120 ⁽²⁾
Change in Lots Passed	n/a	12	15	14	18 ⁽²⁾	18

Note:

- 1 Rounding differences exist.
 - 2 Excludes approximately 5,000 Lots Passed in FY19 which were taken over as part of a managed services contract.
- n/a – not applicable.

- 46 Our Base Case DCF calculations assume that additional Lots Passed are 16,500 per annum over the Forecast Period. This is broadly consistent with the average annual increase in Lots Passed over the three years to FY20 period of approximately 16,540¹¹, noting that the change in Lots Passed has generally been increasing.
- 47 Our Base Case forecasts therefore assume that there are 132,000 additional Lots Passed over the eight year Forecast Period.
- 48 Our sensitivity analysis (set out below in paragraph 74) highlights the sensitivity of our valuation range to changes in the annual number of Lots Passed. Due to the economic impact of the COVID-19 pandemic it is likely that Australia will experience a housing market downturn (at least in the short term), which may result in the cancellation or deferral of housing projects. This is expected to have a negative impact on OptiComm in FY21 and FY22 once existing work in progress lots are completed, but may be partially offset by the HomeBuilder Federal Government support package. That said, we note that the housing market is cyclical in nature and experiences peaks and troughs and that any shortage of dwellings constructed in the short term may be deferred to later periods (as opposed to cancelled altogether).

Active Premises on future networks

- 49 Of the assumed 132,000 additional Lots Passed over the eight year Forecast Period, our Base Case forecasts assume that this results in approximately 58,000 additional Active Premises by 30 June 2028, representing approximately 44% of the total additional Lots Passed. While we note that this is significantly lower than our assumed proportion of active connections on OptiComm's existing network (refer paragraph 42), we consider this reasonable noting that:
- (a) our assumed level of active connections reflects a staged installation of the additional 132,000 lots over an eight year period
 - (b) there is usually a significant time lag between the installation of a fibre network (i.e. Lots Passed) and utilisation (as measured by the number of Active Premises). Accordingly, the proportion of active connections for a growing network will be lower than for a maturing existing network, due to the fact that as existing connections become active, new connections (which are yet to become active) have also been added to the network

¹¹ This average excludes approximately 5,000 Lots Passed in FY19 which were taken over as part of a managed services contract.

- (c) as at 30 June 2020, the number of active connections on OptiComm’s existing network was approximately 59% of the total Lots Passed. This level of utilisation has been achieved over some 13 years since the Company secured its first projects in 2007. In this regard we note that as at 30 June 2015 (i.e. some eight years since the Company secured its first project) the number of active connections was only 46% of the total Lots Passed.

- 50 Our Base Case forecasts therefore reflect a significant increase in the number of Active Premises connected to OptiComm’s network as shown below:

Projected change in Active Premises over cash flow period (Base Case scenario) ⁽¹⁾	
	000s
Number of Active Premises as at 30 June 2020	73
Projected increase in Active Premises due to:	
Greater utilisation of existing network	31
Growth from new Lots Passed	58
Projected number of Active Premises as at 30 June 2028	<u>163</u>
Projected increase in number of Active Premises	<u>122%</u>

Note:

- 1 Rounding differences exist.

Average revenue per active connection

- 51 The value of OptiComm is principally driven by the recurring network revenue received from RSPs for network access in the form of monthly wholesale access and capacity charges.
- 52 To ensure that residents in developments with OptiComm installed fibre networks are not disadvantaged relative to the NBN Co Limited (NBN Co), OptiComm’s wholesale access and capacity fees are consistent with those charged by NBN Co.
- 53 These wholesale charges are a combination of:
- (a) access fees – determined by the speed / volume plan which each end user customer has signed up to
 - (b) capacity fees – determined by the RSP having regard to the bandwidth capacity it determines it needs to service its customers in each state and territory.
- 54 OptiComm’s average revenue per user (ARPU) increased from around \$38 per month in FY17 to approximately \$51 per month in FY20¹². The adoption of higher speed plans (which has recently accelerated due to the need to “work from home” as a result of COVID-19 restrictions) resulted in higher ARPU in FY20.

¹² Net of any rebates introduced in March 2020 to June 2020 to provide relief to RSPs due to the impact of the COVID-19 pandemic.

For personal use only

- 55 In addition, we have been advised that OptiComm recently issued a revised pricing schedule in line with NBN Co's recent updated price schedule, which will translate to ARPU of around \$50 per month commencing in FY21.
- 56 However, in October 2019 the Australian Competition and Consumer Commission (ACCC) announced an inquiry into NBN Co's wholesale pricing for residential broadband. The inquiry was to investigate (amongst other matters) whether prices for NBN Co's entry level broadband product were too high, resulting in unfair outcomes for consumers forced to transition from lower cost ADSL¹³ plans, despite having no want or need for higher speed internet.
- 57 The ACCC received submissions from a number of RSPs before releasing a position paper in April 2020, which put the inquiry on hold to allow stakeholders to focus on responding to the COVID-19 pandemic. Whilst the ACCC is yet to officially announce its position, the general view of the submissions provided was that current wholesale prices do not allow RSPs to sell an entry level broadband product for NBN¹⁴ broadband that is commercially viable.
- 58 There is therefore likely to be ongoing pressure (and potentially regulatory action) on NBN Co to lower (at least) wholesale prices for entry level broadband access. Whilst we understand that only around 11% of OptiComm's wholesale revenues are related to users on entry level broadband plans, in our view there is also likely to be pressure on NBN Co to lower wholesale prices more generally.
- 59 Accordingly, whilst we have adopted a wholesale charge equivalent to an ARPU of \$50 per month per active user in our Base Case scenario, we consider that there is downside risk associated with such an assumption in the short to medium term (the impact of which is evident from our sensitivity analysis set out in paragraph 74).

Network gross margins

- 60 Our Base Case valuation of OptiComm reflects a network gross margin (as a percentage of revenue) of approximately 81%. This compares with its actual (annual) gross margin of between 77% and 85% of revenue over the five years ended 30 June 2020, and is broadly consistent with the actual network gross margin achieved in FY20.
- 61 Having regard to the historical gross margins and ARPU achieved we have varied the Base Case gross margin in our sensitivity analysis depending on the level of ARPU assumed. In summary, higher gross margins are expected to be achieved at higher ARPU and lower gross margins are expected at lower ARPU (all other variables held constant).

Network operating costs

- 62 Network operating costs not included in gross margins (which principally reflect employee related costs) are projected to increase at around 3% per annum. This is higher than expected inflation of around 1.5% per annum, and reflects the increased scale of the business over the Forecast Period (as the number of total Lots Passed is forecast to grow strongly)¹⁵.

¹³ Asymmetrical digital subscriber line (ADSL).

¹⁴ National Broadband Network (NBN).

¹⁵ Allowance has also been made for unallocated corporate costs consistent with those incurred in FY20.

Regional Broadband Scheme / NBN tax

63 In February 2020, the Federal Government announced the Regional Broadband Scheme¹⁶ for residential and business users of non-NBN fixed line services, due to take effect in January 2021¹⁷. Under the Regional Broadband Scheme, wholesale fixed line network owners (including OptiComm) will be charged a \$7.10 monthly fee (indexed on an annual basis) for each household and business customer which is not using the NBN (NBN tax). We have therefore allowed for this Regional Broadband Scheme charge in our cash flows from 1 January 2021 (noting that OptiComm will receive an exemption from the NBN tax for its first 55,000 monthly users for a five year period).

Contribution from Construction and Connection activities

64 OptiComm's Construction and Connection operations incurred losses in FY20 of approximately \$3.6 million (excluding network construction costs capitalised). For valuation purposes we have assumed that similar losses will be incurred in future. That is, we have assumed that the capital (construction) costs and operating costs (including sales expenses and an allocation of overhead costs) of the Construction and Connection activities will exceed developer contributions and connection revenues.

65 In our view, this assumption is appropriate as competition in the market for new development network rollouts may intensify given the Federal Government proposal in April 2020 to make changes to its Telecommunications Infrastructure in New Developments Policy, which will give NBN Co flexibility to set its own prices (subject to a cap) for new developments and increase competition. However, we note that OptiComm has a large pipeline of contracted networks to be built and a small number of "whole of business" agreements with major developers.

Capital expenditure

66 Excluding construction costs associated with installing the fibre networks (which are allowed for in the Construction segment result), capital expenditure is forecast to increase from around \$1.8 million in FY21 to \$3.8 million per annum over the Forecast Period. This reflects the increasing size of the network over the Forecast Period, and the need to invest in the network (e.g. duplicate backhaul to provide redundancy and minimise network outages).

Depreciation and taxation

67 Depreciation has been estimated on a diminishing value basis using the tax depreciation rates adopted by OptiComm. Company tax has been allowed for based on the level of projected taxable income at the corporate tax rate of 30%.

Discount rate

68 A post-tax discount rate of 7% per annum has been applied for the reasons set out in Appendix C of our IER on the Initial Unit Proposal dated 6 August 2020. This discount rate has been applied to determine the present value of the future cash flows in the Forecast Period and the present value of the terminal value at the end of the Forecast Period.

¹⁶ Passed in May 2020 as part of the Telecommunications Reform Package.

¹⁷ Under the Telecommunications (Regional Broadband Scheme) Charge Bill 2019.

69 However, in the long term there is a greater risk of a market shift towards wireless broadband services due to technology advances (such as 5G) which could result in higher churn in the long term. We have reflected this longer term technological risk by applying a higher post-tax discount rate of 7.5% per annum in our terminal value calculation.

70 These discount rates are identical to the discount rates applied in our IER on the Initial Uniti Proposal dated 6 August 2020.

Terminal value

71 A terminal value growth rate of 2% has been adopted at the end of the Forecast Period (FY28) reflecting, inter-alia, real growth over and above inflation of around 0.5% per annum. The application of this terminal value growth rate and the discount rate implies a free cash flow multiple (on a controlling interest basis) of 18.2 times (which we consider reasonable relative to the then established nature of OptiComm's market position and service offering).

Valuation and sensitivity analysis

72 The Base Case assumptions set out above reflect the Base Case assumptions adopted in the financial model. There are inherent qualifications that apply to cash flow projections on which DCF valuations are based. In addition, the cost of capital can vary between industry participants based on factors such as differing perceptions / acceptance of risk and willingness to assume debt funding obligations.

73 It is important therefore not to credit the output of DCF models with a precision it does not warrant. It follows that any DCF valuation process should consider a range of scenarios, having regard to the respective key valuation drivers of the business being valued.

74 In assessing our valuation range we have therefore considered the sensitivity of value to changes in the key assumptions, as shown below:

OptiComm DCF valuation – sensitivity analysis

Variable	Base Case assumption	Sensitivity %	Value range \$m
Growth in future Lots Passed	16,500	+/- 10	495 – 527
ARPU (\$ per user per month)	50	\$48 – \$52	470 – 553
Discount rate (%)	7.0	6.75 – 7.25	488 – 536
Terminal growth rate (%)	2.0	1.75 – 2.25	494 – 529
Capital expenditure (\$m)	1.8 – 3.8	+/- 10	505 – 517

75 Having regard to the above, we have assessed the DCF value of OptiComm's business (on a cash and debt free basis) at between \$495 million and \$535 million.

Net cash

- 76 As at 31 August 2020, OptiComm had net cash of approximately \$21.5 million (net of approximately \$0.2 million in finance lease liabilities)¹⁸. As our valuation has been undertaken on a cum-dividend basis we have not deducted the payment of the proposed Special Dividend of \$0.10 per OptiComm share (which is contingent amongst other factors on shareholder approval of the Revised Scheme Proposal).

Other assets / (liabilities)

- 77 We are not aware of any other assets which are surplus to the operations of OptiComm, nor any other liabilities which should be deducted from our assessed business value.

Share capital outstanding

- 78 OptiComm has some 104.1 million fully paid ordinary shares on issue. In addition, the Company has 0.2 million performance rights which have been issued to key executives as part of the OptiComm Long Term Incentive Plan.
- 79 Pursuant to the terms of the Revised Scheme Proposal, we understand that the Board will allow these performance rights to vest. Consequently, the performance rights will be converted into ordinary shares prior to the effective date of the Revised Scheme.
- 80 Accordingly, for valuation purposes we have adopted 104.3 million fully diluted shares on issue.

Valuation summary

- 81 Given the above, we have assessed the standalone market value of 100% of the equity in OptiComm on a controlling interest basis (and prior to the payment of the proposed Special Dividend of \$0.10 per OptiComm share), as follows:

OptiComm – valuation summary		
	Low \$m	High \$m
Value of core business	495.0	535.0
Net cash	21.5	21.5
Equity value – controlling interest basis	516.5	556.5
Fully diluted shares on issue (million)	104.3	104.3
OptiComm value per share – controlling interest basis	\$4.95	\$5.34

- 82 This valuation range is marginally higher than the valuation range set out in our IER dated 6 August 2020, and reflects the roll forward of the valuation date from 30 June 2020 to 30 September 2020.

¹⁸ This is approximately \$1.5 million more than as at 30 June 2020, and reflects the payment in July and August 2020 of approximately \$1 million in costs associated with the Initial Unit Proposal.

Cross-check to transactions

83 We have cross-checked our assessed value of OptiComm's business (on a cash and debt free basis) to the acquisition of LBNCo Pty Ltd (LBNCo) and OPENetworks Pty Ltd (OPENetworks) completed by Uniti in September 2019 and October 2019 respectively, noting that these acquisitions combined significant participants in the private fibre networks market (behind OptiComm). In respect of these transactions, we note that:

- (a) LBNCo is an established builder and wholesale operator of private fibre networks, predominantly comprised of fibre-to-the-premises (FTTP) high speed data services to multi-dwelling units and broadacre residential estates
- (b) OPENetworks is also an established builder and wholesale operator of private fibre networks primarily comprising FTTP high speed data services to multi-dwelling units.

84 The table below sets out the key transaction metrics for LBNCo and OPENetworks relative to our assessed value range of OptiComm's business:

Key transaction metrics		OptiComm			
		LBNCo	OPENetworks	Low	High
Enterprise value (EV)	\$m	100.0	27.5	495.0	535.0

Active Premises	#	21,424	6,000	73,000	73,000
Active Premises / Lots Passed	%	33.0	63.2	58.9	58.9
EV / Lots Passed	\$m	4,668	4,583	6,781	7,329
Contracted network	#	22,000	11,000	150,000	150,000
Contracted network / Lots Passed	#	33.8	115.8	121.0	121.0
Historical network revenue ⁽¹⁾	\$m	15.3	3.4	41.2	41.2
Forecast network revenue ⁽¹⁾	\$m	17.3	4.1	46.2 ⁽²⁾	46.2 ⁽²⁾
EV / historical network revenue	times	6.5	8.1	12.0	13.0
EV / forecast network revenue	times	5.8	6.8	10.7	11.6
Forecast FCF ⁽³⁾	\$m	3.6	2.4	16.0 ⁽²⁾	16.0 ⁽²⁾
Forecast FCF / Active Premises	\$	168	398	219	219
EV / FCF	times	27.8	11.5	30.9	33.4

Note:

- 1 Recurring revenue. Excludes provisioning and ICN revenue.
- 2 OptiComm forecasts per LEA free cash flow (FCF) projections in FY21.
- 3 Represents operating cash flow less capital expenditure.

85 Whilst the comparability of the above transaction metrics will be influenced by a range of factors making direct comparisons difficult (e.g. maturity of existing network and expected network growth etc.), the transaction metrics for OptiComm implied by our valuation exceed the metrics paid for LBNCo and OPENetworks. We consider these higher OptiComm metrics to be reasonable when taking into account the following:

- (a) OptiComm is significantly larger than LBNC Co and OPENetworks. In this regard we note that smaller unlisted companies generally trade on lower multiples and metrics than larger listed companies
- (b) As at our valuation date, OptiComm had a substantial contracted network of approximately 150,000 lots, which represented over 120% of its existing Lots Passed
- (c) OptiComm is the second largest (behind NBN Co) builder and wholesale operator of fibre networks in the broadacre housing market and has a number of longstanding relationships with property developers
- (d) whilst OPENetworks is significantly smaller than LBNC Co, the business transacted at a broadly comparable price per active premises as LBNC Co. This likely reflects, inter-alia, its larger (relative) contracted network and higher forecast FCF per active premises.

86 Accordingly, based on the above transaction evidence, we consider our assessed value range of OptiComm to be reasonable.

Cross-check to pre-announcement share trading range

87 We have also cross-checked our assessed value of the equity in OptiComm against the recent share market trading in OptiComm shares prior to the announcement of the Initial Uniti Proposal¹⁹, adjusted for a premium for control. A summary of the relevant share trading is set out below:

OptiComm – share trading					
Period	Low \$	High \$	Close \$	VWAP \$	Value traded \$m
1 month to 12 June 2020	4.50	5.27	5.02	4.80	6.9
28 April 2020 to 12 June 2020	4.29	5.27	5.02	4.60	16.7
3 months to 12 June 2020 ⁽¹⁾	3.00	5.27	5.02	4.39	30.8

Note:

- 1 Excludes the 11.7 million shares sold on market by AFL Telecommunications Australia Pty Ltd on 15 April 2020 at a price of \$4.40 per share.

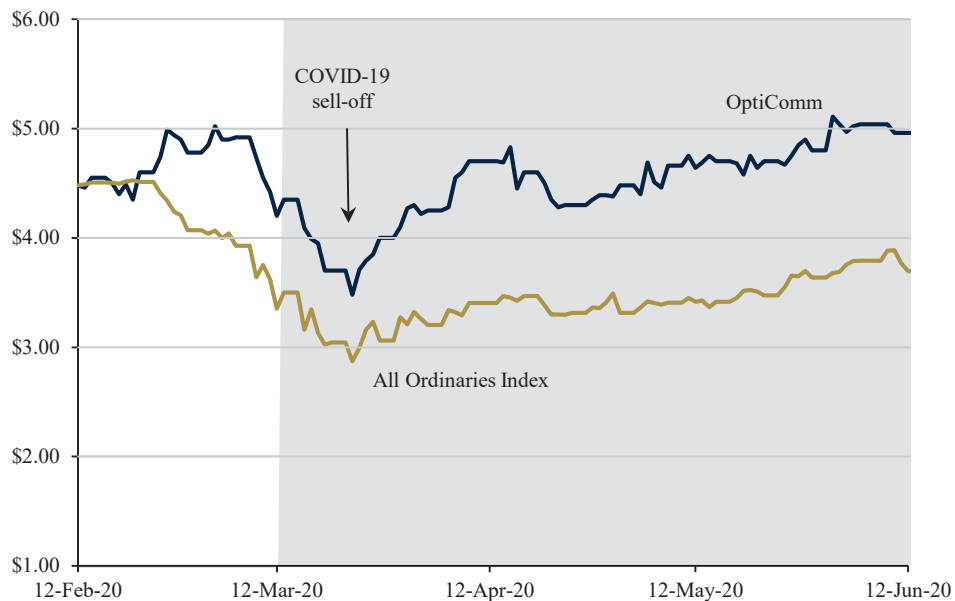

88 As indicated above, OptiComm shares are reasonably liquid, with over \$16.7 million and \$30.8 million of shares traded in the 1.5 and 3 month periods to 12 June 2020. Given this level of share trading, we consider the price at which OptiComm shares have traded over the abovementioned periods to be an appropriate reference point for the pre-announcement portfolio value of OptiComm shares.

89 In respect of the share trading periods above, we note that

- (a) in the three months period to 12 June 2020, trading in OptiComm shares exhibited significant volatility, reflecting inter-alia, the initial uncertainty associated with the size of the economic impact from COVID-19 and the timing of any subsequent recovery:

¹⁹ The Initial Uniti Proposal was announced prior to the market opening on 15 June 2020.

OptiComm – share trading⁽¹⁾

Note:

1 The three month period to 12 June 2020 is represented by the shaded grey area.

Over the three months to 12 June 2020, OptiComm shares traded at an intraday low of \$3.00 on 23 March 2020, but subsequently recovered to prices around / marginally exceeding those exhibited prior to the COVID-19 sell-off. Similarly, the All Ordinaries Index traded at its intraday low on 23 March 2020 and has partially recovered since, albeit it is still trading below the level achieved prior to the COVID-19 sell-off in mid-February 2020

- (b) on 28 April 2020, OptiComm provided a presentation to the ASX that included a number of statements regarding the outlook of the business for FY20 and the impacts of COVID-19. Subsequent to this announcement, OptiComm shares have traded in a much narrower range between \$4.29 and \$5.27, which in part reflects the improved visibility on the impact from COVID-19.

90 In addition to the above, we note that prior to the announcement of the Initial Uniti Proposal, the following large parcels of OptiComm shares were exchanged:

- (a) on 25 February 2020, a number of OptiComm’s pre-listing shareholders sold a combined total of 3.4 million shares at \$4.55 following the expiry of the six month voluntary escrow period since OptiComm listed on the ASX
- (b) on 15 April 2020, AFL Telecommunications Australia Pty Ltd disposed of its 11.7 million shares in OptiComm on-market for total consideration of \$51.6 million, reflecting a VWAP of \$4.40 per share.

91 Having regard to the above, for the purpose of our report, we have adopted a trading range of between \$4.40 and \$4.60 per share as reasonably representative of trading in OptiComm shares prior to the announcement of the Revised Scheme.

For personal use only

- 92 Our DCF valuation range of \$4.95 to \$5.34 per share therefore implies the following premiums to this trading range:

Implied premium to trading range		
	Low \$m	High \$m
LEA assessed value per OptiComm share	4.95	5.34
OptiComm listed market price pre Scheme – low	4.40	4.40
Implied premium	12.5%	21.4%
LEA assessed value per OptiComm share	4.95	5.34
OptiComm listed market price pre Scheme – high	4.60	4.60
Implied premium	7.6%	16.1%

- 93 Empirical evidence from research undertaken by LEA indicates that the average premium paid above the listed market price in successful takeovers in Australia ranges between 30% and 35% (assuming the pre-bid market price does not reflect any speculation of the takeover)²⁰.
- 94 One of the key reasons why bidders pay a control premium to acquire a company is the existence of synergies from business combinations. In the circumstances of OptiComm we note that:
- whilst OptiComm generates reliable recurring income from its network infrastructure, this income is largely determined by the wholesale access and capacity charges set by NBN Co. As a result the ability to significantly enhance earnings and related cash flow through acquiring control is less relevant
 - in our experience, infrastructure assets do not generally attract the same level of control premiums as indicated by the empirical evidence on takeover premiums. This is because their listed market values often already reflect the present value of their future (annuity style) income stream, and the ability of the acquirer to generate long term synergies is more limited due to the nature of the assets (the returns on which are often subject to regulatory oversight)
 - the majority of OptiComm's expenses relate to network / construction costs, and the level of public company costs are relatively low. Accordingly, a financial buyer (such as a private equity group) is unlikely to be able to generate significant cost synergies.
- 95 Given the above, in our opinion, any control premium paid for OptiComm shares is therefore likely to be lower than the average premiums implied by empirical evidence. Accordingly, we consider the premium over the recent trading range of OptiComm shares implied by our assessed value of OptiComm which ranges from 7.6% to 21.4% to be not unreasonable.

²⁰ LEA has analysed the control premiums paid in successful takeovers and other change in control transactions involving cash consideration in Australia over the period 2000 to 2018. LEA's study covered around 500 transactions in all sectors excluding real estate investment trusts, based on data sourced from Bloomberg, Connect4 and public company transaction documents and ASX announcements. Scrip transactions were excluded from the analysis because the value of the scrip consideration can vary materially depending on the date of measurement.

- 96 Further, in our opinion, in determining a value for OptiComm shares more reliance should be placed on our DCF values (which reflect, inter-alia, the benefit of discussions with OptiComm management regarding the financial performance and outlook for the business), rather than the listed market prices of OptiComm shares, which we note have been volatile over recent months.

II Valuation of the Revised Scheme Consideration

Approach

- 97 If OptiComm shareholders approve the Revised Scheme and all conditions are satisfied, then OptiComm shareholders will receive:
- (a) \$4.835 cash per OptiComm share (inclusive of a fully franked Special Dividend of \$0.10 per OptiComm share, if paid); and
 - (b) 0.80537 Uniti shares per OptiComm share (Revised Scheme Consideration).
- 98 It is customary in transactions where scrip is offered as part or total consideration to rely upon the listed market price of the bidder's shares²¹ (in this case Uniti) as the reference point for estimating the realisable value of the consideration offered. This is principally because:
- (a) the listed market prices of Uniti shares are likely to represent a reasonable proxy for the amount that OptiComm shareholders could expect to realise if they sold any Uniti shares received as consideration either immediately or in the short term
 - (b) any decision to continue to hold Uniti shares beyond the immediate to short term is a separate investment decision which should be made by shareholders having regard to their risk profile, liquidity preference, tax position and expectations as to value and future market conditions. It is also not possible to accurately predict future share price movements
 - (c) whilst there may be a future opportunity for OptiComm shareholders to share in a control premium in the event Uniti was acquired, this is not a scenario that we consider likely in the short term.
- 99 Accordingly, in our opinion, the recent market prices of Uniti shares are the appropriate reference point for estimating the value of the Revised Scheme Consideration that comprise shares in Uniti as part or all of the consideration offered. In doing so, we have also considered the depth of the market for those securities and the volatility of the share price.

²¹ Provided there is sufficient market liquidity in the bidder's shares.

101 We note that in December 2019 Uniti issued new shares at a price of \$1.62 per share raising around \$105 million in connection with the acquisition of 1300 Australia Pty Ltd. Uniti shares were trading around this issue price in February 2020, before the decline in share prices generally associated with the onset of the COVID-19 outbreak.

102 The following table sets out the prices at which Uniti shares have traded in the period subsequent to:

- (a) the announcement of the Initial Uniti Proposal (i.e. from 15 June 2020)
- (b) the announcement of the First State Non-Binding Competing Proposal (which was announced prior to the market opening on 8 September 2020); and
- (c) the announcement of the Revised Scheme Proposal (which was announced prior to the market opening on 15 September 2020):

103 As noted above, the Uniti share price fell sharply following the announcement of the First State Non-Binding Competing Proposal, but subsequently rebounded following the announcement of the Revised Scheme Proposal. In our view, this indicates that the market consensus view is that the combination of the respective Uniti and OptiComm businesses will create value for Uniti shareholders due to expected operational synergies.

104 For the purpose of assessing the value of the Uniti shares offered as consideration we believe more regard should be given to the price of Uniti shares since the Revised Scheme Proposal was announced on 15 September 2020. This is because we consider the Uniti share prices subsequent to 15 September 2020 to be more representative of the share price assuming the Revised Scheme Proposal is approved than the prices before that date. Whilst this trading period is relatively short (as at the date of this report), we note that the VWAP during this period is also broadly consistent with the price at which Uniti undertook a significant equity raising to partly fund the cash consideration component of the Initial Uniti Proposal. The equity raising was concurrent with the announcement of the Initial Uniti Proposal and comprised a fully underwritten non-renounceable entitlement offer at \$1.40 per share (Entitlement Offer). Approximately 192.9 million new shares were issued (equivalent to 59.5% of the issued capital of Uniti prior to the transaction), raising \$270 million.

Share trading restrictions and liquidity

- 105 We are not aware of any significant shareholding restrictions on trading in Uniti which would prevent sufficient trading (on a day-to-day basis) to produce an unbiased share price.
- 106 Furthermore, the volume and value of shares traded in Uniti in the above periods indicates a high level of share market liquidity.

Information disclosures

- 107 Uniti has a market capitalisation of around \$735 million²² and is researched and analysed by three share broking firms.
- 108 Significant information in relation to the operations of Uniti has been disclosed in its financial reports and ASX announcements. Further, Uniti has an obligation under the ASX Listing Rules (subject to certain exemptions) to notify the ASX immediately of any information that it becomes aware of concerning Uniti which a reasonable person would expect to have a material effect on the price or value of Uniti shares.

Number of Uniti shares to be issued as consideration

- 109 Subsequent to completion of the fully underwritten Entitlement Offer Uniti had approximately 517.8 million ordinary shares on issue²³.
- 110 The number of shares to be issued by Uniti as consideration under the Revised Scheme (and recent acquisition of OptiComm shares and call options exercisable over OptiComm shares²⁴) is set out below:

Revised Scheme Consideration as a % of existing and enlarged capital base		
		million
Number of Uniti shares post Entitlement Offer ⁽¹⁾		517.8
Number of shares to be issued pursuant to terms of Revised Scheme and share and option acquisitions by Uniti ⁽²⁾⁽³⁾	(A)	84.0
Total shares outstanding in Uniti post Revised Scheme ⁽¹⁾	(B)	<u>601.8</u>
OptiComm shareholders' interest ⁽³⁾ in Uniti post transaction	(A) / (B)	14%

Note:

- 1 Ignoring options on issue.
- 2 0.80537 Uniti shares per OptiComm share.
- 3 The consideration payable for the OptiComm shares acquired by Uniti on 15 September 2020 (including shares to be acquired under option agreements as noted in paragraph 9) is identical to the Revised Scheme Consideration.
- 4 Representing the collective interest of OptiComm shareholders.

- 111 As noted above, the number of shares to be issued by Uniti as part consideration under the Revised Scheme will therefore represent approximately 14% of the enlarged capital base of Uniti.

²² As at 15 September 2020.

²³ In addition Uniti has approximately 18.1 million options on issue.

²⁴ Refer paragraph 9.

- 112 Given the number of new Uniti shares to be issued under the Revised Scheme, if a large number of OptiComm shareholders elect not to retain the shares in Uniti received as consideration there may be an oversupply of Uniti shares, which may have an adverse impact on the Uniti share price in the short term.
- 113 However, given the significant cash consideration (which accounts for the largest component of the Revised Scheme Consideration) this risk is arguably mitigated.

Dilution and synergies

- 114 As the Revised Scheme Consideration reflects a significant premium to the listed market price of OptiComm shares prior to the announcement of the Initial Uniti Proposal, there may be a dilution effect on the value of Uniti shares subsequent to a successful conclusion of the Revised Scheme. This is because the listed market price of Uniti shares will reflect a portfolio rather than a controlling interest in the enlarged group. In the absence of synergies this dilution could potentially result in a fall in the share price of the acquiring party (in this case Uniti).
- 115 In the current circumstances however the identified synergies from a combination of the business operations of Uniti and OptiComm are expected to be significantly value accretive. In the presentation to the ASX dated 15 June 2020 in respect of the transaction, Uniti stated that:

“Shareholders are expected to benefit from significant value creation from this transformational transaction and from the combined scale and capabilities of a more diverse telecommunications infrastructure company with a large pipeline of long term growth opportunities.”

- 116 This view was endorsed in the subsequent ASX announcement on 16 June 2020 on completion of the institutional component of the Entitlement Offer, when Uniti stated:

“The acquisition of OptiComm is highly complementary and shareholders are expected to benefit from significant value creation from the growth opportunities the combined business is expected to have access to in the private fibre market.”

- 117 Further information on the synergies expected to be generated by Uniti from an acquisition of OptiComm is set out in the Scheme Booklet.

- 118 Given the size of expected synergies relative to the standalone earnings of OptiComm, in our opinion, it is reasonable to conclude that the value of expected synergies would exceed the dilutionary effect discussed above. This is consistent with the market evidence, as Uniti shares increased following the announcement of the Revised Scheme Proposal.

Conclusion

- 119 In summary, in assessing the value of the Uniti shares offered as part consideration under the Revised Scheme we have had regard to:

- (a) the recent trading range of Uniti shares

- (b) the price at which shares were recently issued by Uniti pursuant to the equity capital raising announced concurrent with the announcement of the Initial Uniti Proposal²⁵
- (c) the number of shares to be issued by Uniti under the Revised Scheme compared to the enlarged number of Uniti shares on issue post completion of the Revised Scheme
- (d) the likely level of on-market trading in Uniti shares subsequent to implementation of the Revised Scheme, having regard to factors including:
- (i) any potential oversupply of Uniti shares from those shareholders in OptiComm not wishing to retain the Uniti shares received as part consideration
 - (ii) the dilution effect implicit in any control premium effectively being paid by Uniti
 - (iii) the identified synergies from a combination of the business operations of Uniti and OptiComm, which are expected to be significantly value accretive
 - (iv) recent stock market conditions.

120 Based on the above we have assessed the value of the Uniti shares offered as all or part consideration pursuant to the Revised Scheme at between \$1.35 and \$1.45 per share. This range is lower than the Uniti share price range adopted in our IER dated 6 August 2020 and reflects market movements and the higher consideration offered under the Revised Scheme compared to the Initial Uniti Proposal.

Assessed value of Revised Scheme Consideration

121 We have therefore assessed the value of the Revised Scheme Consideration (inclusive of any Special Dividend) as follows::

Value of Revised Scheme Consideration per OptiComm share		
	Low	High
	\$ per share	\$ per share
Uniti share price	1.35	1.45
Exchange ratio	0.80537	0.80537
Value of scrip consideration	1.087	1.168
Cash consideration (inclusive of any Special Dividend)	4.835	4.835
Revised Scheme Consideration (including any Special Dividend)	\$5.92	\$6.00

Other considerations

122 OptiComm shareholders should note that the listed market price of Uniti shares is subject to daily fluctuation. The price at which Uniti shares may be sold may therefore be greater or less than our assessed realisable value of Uniti shares of \$1.35 to \$1.45 per share.

123 OptiComm shareholders should also note that any decision to hold Uniti shares beyond the short term is a separate investment decision. As it is not possible to accurately predict future share price movements, any decision to hold Uniti shares should be made by shareholders having regard to their risk profile, liquidity preference, tax position and expectations as to value and future market conditions.

²⁵ This equity capital raising assisted Uniti in meeting its cash consideration obligations pursuant to the Revised Scheme.

III Evaluation of the Revised Scheme

Summary of opinion

124 In our opinion, the Revised Scheme is fair and reasonable and in the best interests of OptiComm shareholders in the absence of a superior proposal. We have formed this opinion for the reasons set out below.

Value of OptiComm shares

125 As set out in Section I we have assessed the value of OptiComm at between \$4.95 and \$5.34 per share. This value has been assessed on a cum-dividend basis, which means it has been determined prior to paying the proposed Special Dividend of \$0.10 per share.

Value of Revised Scheme Consideration

126 As set out in Section II, we have assessed the value of the Revised Scheme Consideration (inclusive of any Special Dividend) at \$5.92 to \$6.00 per OptiComm share.

Fair and reasonable opinion

127 Pursuant to RG 111, the Revised Scheme is “fair” if the value of the Revised Scheme Consideration is equal to, or greater than, the value of the securities the subject of the Revised Scheme.

128 As the value of the Revised Scheme Consideration (inclusive of any Special Dividend) to be received by OptiComm shareholders exceeds our assessed valuation range for OptiComm shares on a 100% controlling interest basis, in our opinion, the Revised Scheme is fair to OptiComm shareholders when assessed based on the guidelines set out in RG 111.

129 Pursuant to RG 111, a transaction is reasonable if it is fair. Further, in our opinion, if the Revised Scheme is “reasonable” it must also be “in the best interests” of shareholders, in the absence of a superior proposal.

130 Consequently, in our opinion, the Revised Scheme is also “reasonable” and “in the best interests” of OptiComm shareholders in the absence of a superior proposal.

Assessment of reasonableness

131 In assessing whether the Revised Scheme is reasonable LEA has also considered:

- (a) the extent to which a control premium is being paid to OptiComm shareholders
- (b) the extent to which OptiComm shareholders are being paid a share of any synergies likely to be generated pursuant to the potential transaction
- (c) the listed market price of OptiComm shares, both prior to and subsequent to the announcement of the Revised Scheme
- (d) the likely market price of OptiComm securities if the Revised Scheme is not approved
- (e) the value of OptiComm to an alternative offeror and the likelihood of a higher alternative offer being made for OptiComm prior to the date of the Revised Scheme meeting

- (f) the advantages and disadvantages of the Revised Scheme from the perspective of OptiComm shareholders
- (g) other qualitative and strategic issues associated with the Revised Scheme.

132 These issues are discussed in detail below.

Extent to which a control premium is being paid

133 Empirical evidence indicates that average premiums paid in successful takeovers in Australia generally range between 30% and 35% above the listed market price of the target company's shares three months prior to the announcement of the bid (assuming no speculation of the takeover is reflected in the pre-bid price). This premium reflects the fact that:

- (a) the owner of 100% of the shares in a company obtains access to all the free cash flows of the company being acquired, which it would otherwise be unable to do as a minority shareholder
- (b) the controlling shareholder can direct the disposal of surplus assets and the redeployment of the proceeds
- (c) a controlling shareholder can control the appointment of directors, management policy and the strategic direction of the company
- (d) a controlling shareholder is often able to increase the value of the entity being acquired through synergies and/or rationalisation savings.

134 For implied premium calculation purposes we have adopted the mid-point of \$5.96 per share for our assessed valuation range of the Revised Scheme Consideration (including any Special Dividend).

135 We have calculated the premium implied by the Revised Scheme Consideration (including any Special Dividend) by reference to the market prices of OptiComm shares (as traded on the ASX) for periods up to and including 12 June 2020 (being the last trading day prior to the announcement of the Initial Uniti Proposal).

136 The implied offer premium relative to OptiComm share prices up to 12 June 2020 is shown below:

Implied offer premium relative to recent share prices⁽¹⁾

	OptiComm share price	Implied control premium based on Revised Scheme Consideration ⁽³⁾
	\$	%
Closing share price on 12 June 2020 ⁽²⁾	5.02	18.7
1 month VWAP to 12 June 2020	4.80	24.2
3 months VWAP to 12 June 2020	4.39	35.8

Note:

- 1 Rounding differences may exist.
- 2 Being the closing price on the last day of trading prior to the announcement of the Initial Unit Proposal.
- 3 Inclusive of any Special Dividend.

-
- 137 With the exception of the premium implied by the 3 month VWAP to 12 June 2020, the implied offer premiums above are below the average takeover premium of 30% to 35% observed from empirical evidence. In this regard, as set out in Section I (paragraph 94), in the circumstances of OptiComm we have formed the view that any control premium paid for OptiComm shares is likely to be lower than the average premiums implied by empirical evidence.

Extent to which OptiComm shareholders are being paid a share of synergies

- 138 As the value of the Revised Scheme Consideration (inclusive of any Special Dividend) exceeds our valuation of OptiComm shares on a standalone basis, in our opinion, OptiComm shareholders are being paid an appropriate share of the synergies expected to be generated by Uniti from the acquisition of OptiComm.

Recent share prices subsequent to the announcement of the Revised Scheme Proposal

- 139 Since the Revised Scheme was announced we note that OptiComm shares have largely traded in line with the value of the Revised Scheme Consideration (inclusive of any Special Dividend).
- 140 This suggests that, in the absence of a superior proposal, the consensus market view is that the Revised Scheme is likely to be successful.

Likely price of OptiComm shares if the Revised Scheme Proposal is not approved

- 141 If the Revised Scheme is not implemented (and in the absence of a superior proposal) we expect that, at least in the short term, OptiComm shares will trade at a significant discount to our valuation and the Revised Scheme Consideration due to the difference between the value of OptiComm shares on a portfolio basis and their value on a 100% controlling interest basis. This is consistent with the fact that the OptiComm share price was materially less than the value of the Revised Scheme Consideration prior to the announcement of the Initial Unit Proposal. However, we note that the recent corporate interest in OptiComm may also place a floor on the OptiComm share price. If the Revised Scheme is not implemented those OptiComm shareholders who wish to sell their OptiComm shares are therefore likely, at least in the short term, to realise a lower price for their shares than will be payable under the Revised Scheme.

Likelihood of a superior proposal

- 142 As noted in paragraph 3, on 8 September 2020 OptiComm announced it had received a non-binding and conditional competing proposal from FSS Trustee Corporation as trustee for the First State Superannuation Scheme to acquire all OptiComm shares for \$5.85 per OptiComm share, inclusive of a \$0.10 fully franked special dividend, if declared (the First State Non-Binding Competing Proposal).
- 143 At the date of this report, OptiComm has yet to receive a binding proposal in connection with the First State Non-Binding Competing Proposal.

- 144 It is therefore possible that a superior offer for OptiComm shares could be tabled prior to the meeting to approve the Revised Scheme Proposal. However, OptiComm shareholders should note that Uniti has also acquired a voting interest in approximately 19.5% of OptiComm shares on issue. This voting interest is likely to deter a further bidder for OptiComm (particularly in the circumstances of a proposed scheme of arrangement) because Uniti would have to agree to sell their shares in OptiComm in order for a competing proposal to succeed.

Assessment of the Revised Scheme

- 145 We summarise below the advantages and disadvantages of the Revised Scheme for OptiComm shareholders.

Advantages

- 146 The Revised Scheme Consideration (inclusive of any Special Dividend) to be received by OptiComm shareholders exceeds our assessed value range of OptiComm shares on a 100% controlling interest basis (and is therefore fair and reasonable under RG 111).
- 147 The Revised Scheme Consideration represents a significant premium to the VWAP of \$4.60 per OptiComm share in the period from 28 April 2020²⁶ up to the announcement of the Initial Uniti Proposal.

Disadvantages

- 148 If the Revised Scheme is implemented OptiComm shareholders will no longer hold a direct interest in OptiComm, but will continue to collectively own approximately 14% of the OptiComm business through their interest in Uniti.
- 149 In the event that future value is created by OptiComm as a result of ongoing operations over and above that reflected in the value of the Revised Scheme Consideration, OptiComm shareholders will therefore only retain some limited exposure to such future value (but will also acquire an interest in the Uniti businesses).
- 150 However, as the Revised Scheme Consideration (inclusive of any Special Dividend) to be received by OptiComm shareholders exceeds our assessed value range of OptiComm shares, we consider that the present value of OptiComm's future potential (plus a share of expected synergies) is reflected in the Revised Scheme Consideration.

Conclusion

- 151 Given the above analysis, we consider the acquisition of OptiComm shares under the Revised Scheme is fair and reasonable to, and in the best interests of, OptiComm shareholders in the absence of a superior proposal.

²⁶ On 28 April 2020 OptiComm provided a presentation to the ASX that included a number of statements regarding the outlook of the business for FY20 and the impacts of COVID-19.

Voting procedure

Voting results will be announced on the ASX as soon as practicable after the Scheme Meeting.

The Chair of the meeting intends to vote any undirected proxies in favour of the Scheme Resolutions.

Passing the Scheme Resolutions

In accordance with section 411(4)(a)(ii) of the Corporations Act, the Scheme Resolutions must be passed by:

- a majority in number (more than 50%) of Eligible Shareholders present and voting at the Scheme Meeting (either in person online or by proxy, representative or attorney); and

- Eligible Shareholders holding at least 75% of the total number of votes cast on the Scheme Resolutions by Eligible Shareholders present and voting at the Scheme Meeting (either in person online or by proxy, representative or attorney).

Appointing a proxy

Eligible Shareholders may appoint a proxy to vote on their behalf at the Scheme Meeting. To do this, the Eligible Shareholder must either complete and sign or validly authenticate the personalised Proxy Form which accompanies this Supplementary Scheme Booklet or lodge their proxy online. A person appointed as a proxy may be an individual or a body corporate.

Previously submitted Proxy Forms will not be valid. If you wish to vote by proxy and you already submitted a Proxy Form in respect of the Original Scheme, you will need to resubmit a new Proxy Form for the purposes of the Scheme Meeting.

Proxies participating in the virtual Scheme Meeting will receive an email from the OptiComm Share Registry prior to the Scheme Meeting containing details of their proxy number which they will need to use for the online registration process. Proxies are asked to log in online 15 minutes prior to the time designated for the commencement of the Scheme Meeting, if possible, to register and to obtain a voting card.

To be valid, your Proxy Form(s) must be received by the OptiComm Share Registry by 11.00am (AEDT) on Sunday, 11 October 2020. For further information on proxy voting, refer to the detailed instructions contained on the Proxy Form.

You can appoint a proxy by:

- lodging your appointment online at www.linkmarketservices.com.au;
- mailing the Proxy Form to the OptiComm Share Registry at Link Market Services, Locked Bag A14, Sydney South, New South Wales 1235, Australia; or
- faxing the accompanying Proxy Form to the OptiComm Share Registry on +61 2 9287 0309.

For additional proxy forms, contact Link on 1800 635 323 (or from outside Australia, +61 1800 635 323).

You are entitled to appoint up to two proxies. If you appoint two proxies, you may specify the proportion or number of votes each proxy may exercise. If you appoint two proxies but do not specify on the Proxy Form the proportion or number of votes each proxy may exercise, each proxy may exercise half the votes regardless of any proportion stated on any other form.

Note, if you have appointed a proxy and subsequently wish to attend the meeting yourself, the proxy will retain your vote and you will be unable to vote yourself unless you have notified the OptiComm Share Registry of the revocation of your proxy appointment before the commencement of the Scheme Meeting.

Further instructions for appointing a proxy are included in the Proxy Form.

Default of proxy votes to Chair in certain instances

If:

- you have appointed a proxy (other than the Chair) and the appointment of the proxy specifies the way the proxy is to vote on the Scheme Resolutions; and
- your proxy is either not recorded as attending the Scheme Meeting or does not vote on the Scheme Resolutions,

the Chair of the Scheme Meeting will, before voting on the Scheme Resolutions closes, be taken to have been appointed as your proxy for the purpose of voting on the Scheme Resolutions and must vote in accordance with your written direction.

Corporate representatives

A corporate shareholder, or body corporate appointed as a proxy, may appoint an individual as its representative to attend the Scheme Meeting and vote on its behalf. Corporate shareholders or proxies who appoint a representative must provide the representative with a properly executed notice of appointment, which the representative must bring to the Scheme Meeting for the purpose of registration.

A form for corporate representative appointment may be obtained from the OptiComm Share Registry at www.linkmarketservices.com.au (see the "Resources", "Forms" Section under the "Holding Management" heading) or from Link Market Services Limited at Level 12, 680 George Street, Sydney NSW 2000. The completed appointment form should be lodged with the OptiComm Share Registry at registrars@linkmarketservices.com.au.

Attorneys

If voting by attorney, the power of attorney appointing the attorney must be duly signed and specify the name of the Eligible Shareholder and the attorney and specify the meeting at which the appointment may be used.

The power of attorney must be returned in the same manner, and by the same time, as outlined for the Proxy Form.
