CHAIRMAN'S REPORT

Dear Shareholders

It is with a great deal of excitement that I update you all on what the future months hold for BMG Resources.

The absolute highlight so far in 2020 has been our acquisition of three Western Australian gold projects – Abercromby in Wiluna and the Invincible (central Pilbara) and South Boddington projects.

At the time that we announced this acquisition in August, we called it a transformational step for our Company. Since that date I have only become more certain that this acquisition presents a fantastic opportunity for our shareholders.

Gold is a terrific commodity to be in for many reasons. The exploration and mining of gold is well understood and supported in Western Australia and I believe we have three excellent projects that we will be able to progress; being driven, of course, by the drilling results and robust planning and studies that underpin profitable mining operations.

I believe gold is a fantastic metal to be in at this time too, with ultra-loose monetary policy being pursued by all of the major world central banks – policies which have already led to significant price rises for gold having risen above the US\$2000/oz mark.

The combination of the three gold projects in our portfolio gives us world-class exposure to the metal and leaves your Company with a highly prospective drilling campaign, considerable early newsflow and the potential for early resource development.

I will now take the opportunity to go through each project individually.

Abercromby

Abercromby is a high-grade gold discovery on two permits located in one of Western Australia's most significant gold-producing regions, the Wiluna Belt.

More than 40 million ounces of gold have been produced from this region and it is near operating plants at Wiluna (Wiluna Mining ASX: WMX) and Jundee (Northern Star ASX: NST). Other well-known mines in the region include Bellevue Gold (ASX: BGL), Bronzewing, Agnew, Lawlers and Darlot.

Despite this proximity to major gold mines and significant gold intersections, this project has remained underexplored and undeveloped for more than 20 years.

There are multiple, historic thick high-grade gold intercepts at Abercromby, including 57.5m at 5.73 grams per tonne gold from 80m and 30m at 10 grams per tonne gold from 164m.

The shallow mineralisation supports the potential for open pit mining if exploration proves successful and we are well advanced on plans to begin a 5,000m reverse circulation and diamond drilling program at Abercromby to progress towards a maiden resource.

We are also very hopeful that exploration drilling could produce good results, with the possibility of more discoveries and increasing scale.

We hope to be in a position to share drilling results with you over the course of FY21.

LETTER TO SHAREHOLDERS

Invincible

The Invincible project is immediately along strike from Calidus Resources' (ASX: CAI) 1.495 Moz gold resources which is now in development.

It contains 12.5km of the Warrawoona Shear Zone which is the same mineralised trend that hosts the Calidus gold resource.

This area has hosted several artisanal workings including the historical Invincible mine which produced 19.31 kg of gold at the remarkable gold grade of 1380 grams per tonne.

However, there has been little systematic modern exploration at Invincible. This makes it an outstanding opportunity for a new high-grade discovery, and recent major discoveries in the region have greatly increased investor interest in Pilbara gold projects.

South Boddington

This project presents an outstanding opportunity for BMG to make a significant new gold discovery in the underexplored areas of a world-class gold belt, located just 150km south-east of Perth and along strike from the giant Boddington (+40Moz) gold deposit within the Saddleback Greenstone Belt.

Two exploration licences are in the application stage and are interpreted to host similar stratigraphy to Boddington, which hosts Newmont's Boddington gold mine (NYSE: NEM).

From Lithium to Gold

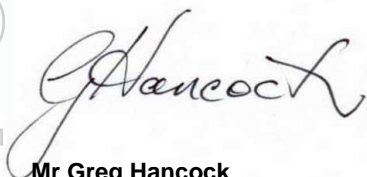

In May this year the Company decided to terminate its involvement in the Chilean Lithium joint venture following a drilling program. Although the Salar West properties were prospective for lithium brine, the drilling program did not yield lithium that was sufficiently significant to continue.

The COVID-19 pandemic stopped the work program and given the drilling results so far, the company took the decision to terminate its involvement in the joint venture and focus its efforts elsewhere.

In addition to our three gold projects, BMG continues to hold a strategic 30% free-carried interest in the Treasure copper-gold project in Cyprus, which comprises 10 exploration licences and is operated by majority shareholder New Cyprus Copper Company Limited.

We are excited by the potential we are seeing in the geophysics across our three gold projects and look forward to the early outcomes of our work program. We enter FY21 ready to execute our plans to realise the potential of our projects in a Tier-1 gold district, and look forward to delivering a strong period of positive news for investors.

We wish to thank our shareholders for their support and we look forward to a very busy year ahead as we progress our gold exploration and development growth strategy.

Mr Greg Hancock

Chairman

BMG Resources Ltd

Dated at Perth, Western Australia, this 30th September 2020

OPERATIONAL REPORT

BMG Resources 2020 Operations Review

During FY20 the main focus of BMG’s work activity was on evaluating the potential of the Chilean Lithium brine joint venture, and assessing new investment opportunities for the Company. Following the outcome of work undertaken on the joint venture properties in Chile, the Company announced in May 2020 that it had terminated its involvement in the Chilean lithium joint venture, and subsequent to the end of the financial year, in August 2020 the Company announced a transformational transaction to acquire three gold exploration projects in Western Australia through the acquisition of Oracle Mining Limited (Oracle).

The completion of the Oracle acquisition is subject to various conditions precedent, including shareholder approvals at a General Meeting scheduled for 5 October 2020, and the completion of a \$4m capital raising. Assuming all conditions precedent are satisfied, completion of the Oracle acquisition is anticipated to occur on or about 9 October 2020.

The information on the Oracle acquisition outlined below is consistent with information presented in the Company’s ASX announcement on 17 August 2020 “BMG to acquire Outstanding Western Australian Gold Projects”, including the Competent Person’s Statement and required JORC disclosures.

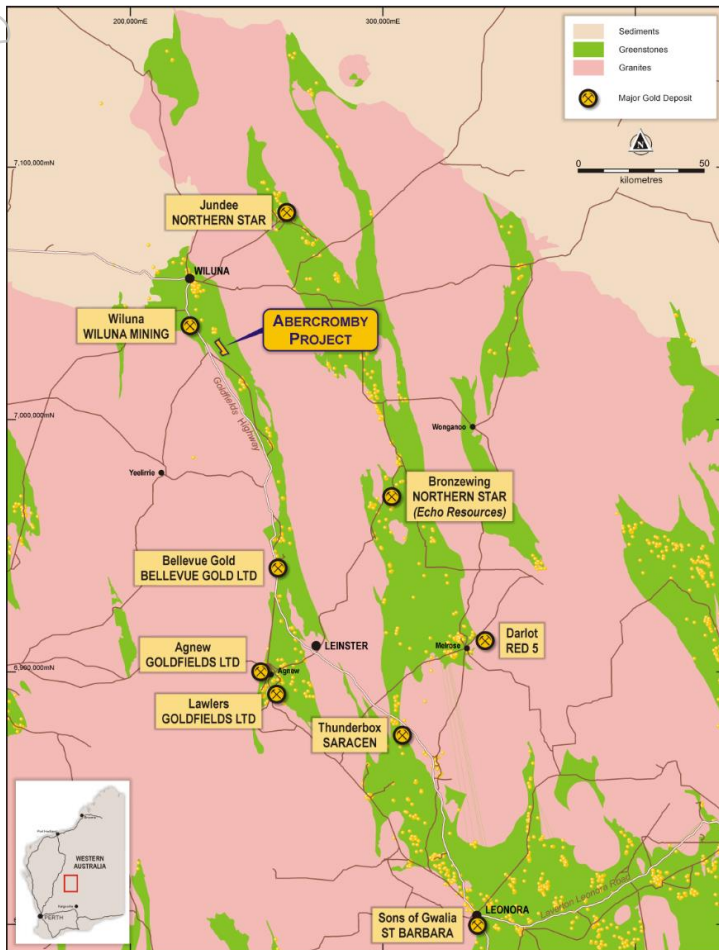

OPERATIONAL REPORT

Abercromby Project

Of the three Western Australian gold projects to be acquired by the Company, Abercromby is the most advanced.

Situated in the Wiluna Belt – the second most prolific gold region in WA which has produced more than 40M oz Au – Abercromby is an outstanding gold asset which has remained idle in the portfolio of a base metals major.

It has remained underexplored and undeveloped for more than 20 years despite multiple thick, high-grade gold intersections which include:

- 57.5m @ 5.73g/t Au from 80m
- 58m @ 1.17g/t Au from 77m
- 30m @ 10.01g/t Au from 164m
- 36m @ 4.33g/t Au from 100m

Abercromby offers BMG the opportunity to delineate a high-grade resource and to make additional discoveries.

The Company is wasting no time in progressing this opportunity with a first phase 5,000m DD / RC drill program planned to commence in the fourth quarter of CY20. It is important to note that this drilling program will consist not only of walk up drill targets to follow up thick intercepts of high-grade gold but also exploration drilling on highly prospective but relatively unexplored ground.

Abercromby has the potential for fast tracking resource definition and the initial drilling program is planned to progress towards a maiden resource. It has excellent geology with gold interpreted to be hosted in dolerite sill associated with granophyric zone, similar to that encountered at St Ives and Kalgoorlie's Golden Mile. This geology supports large resource potential and the shallow nature of the mineralisation supports the potential for open-pit mining.

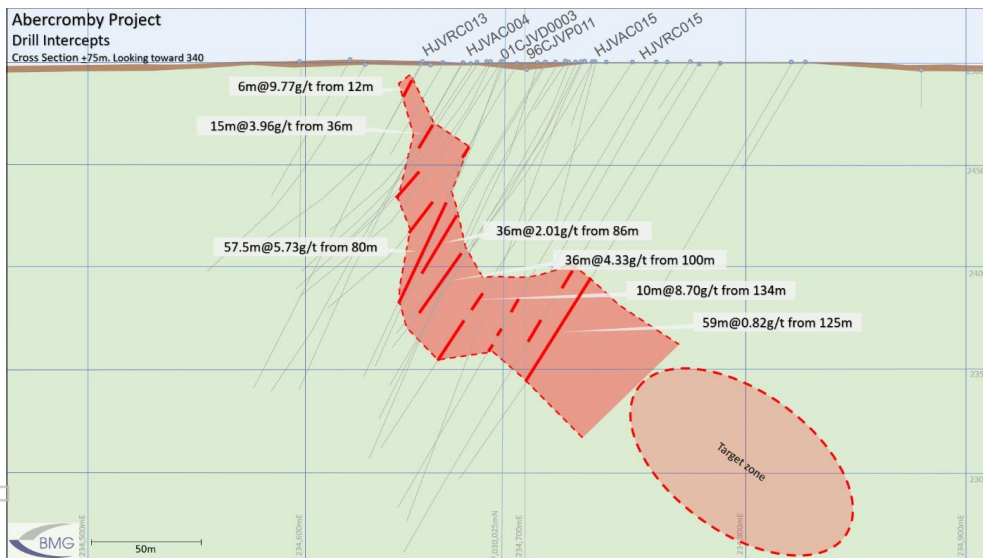

OPERATIONAL REPORT

Capital Prospect

Abercromby's Capital prospect has a mineralised footprint so far of 1,000m x 300m based on high-grade hits in wide-spaced drilling.

The Company's drilling program will test multiple opportunities to increase the scale and scope of known mineralisation, including the down dip continuity of previous strong drill results, infill drilling in the 100m / 200m wide-spaced drill traverses containing gold intercepts and defining shoot control for multiple high-gold intercepts near the surface.

One example of such a near surface mineralisation is 6m @ 9.77g/t from 12m.

The Company will also target additional mineralisation along strike and at depth of existing discoveries.

It is also worth noting that the Abercromby Project is in the same area as operating plants at Wiluna (Wiluna Mining ASX: WMX) and Jundee (Northern Star, ASX: NST).

The Wiluna Belt is an exciting gold region with recent major deals including Northern Star's successful acquisition of Echo Resources for \$242 million in 2019 and the increasing size of Bellevue Gold's (ASX: BGL) high-grade resource.

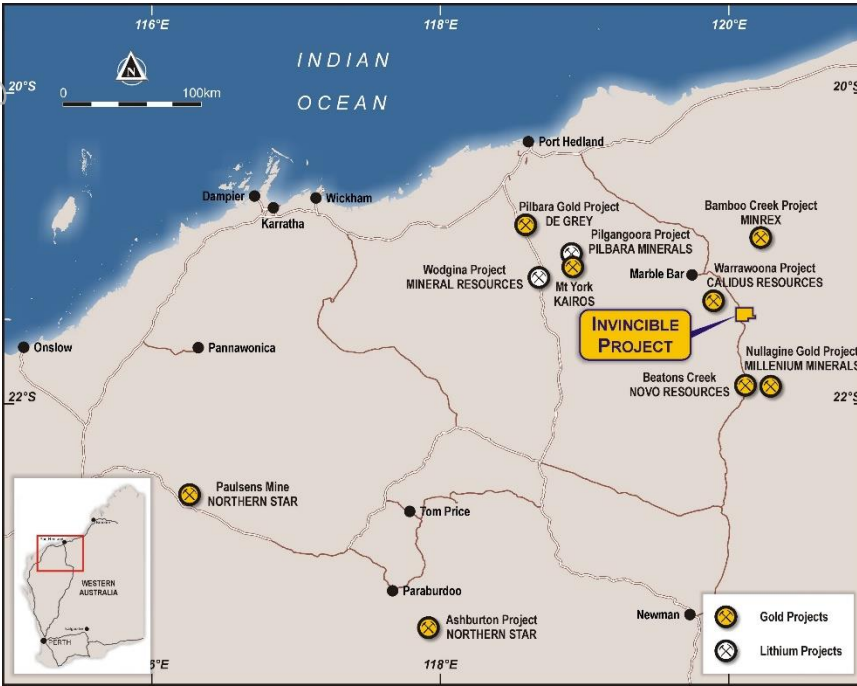

Bellevue Gold has now reached a market cap above \$800 million and its share price has more than doubled during 2020 as that resource has been increased.

OPERATIONAL REPORT

Invincible Project

Another exciting prospect that formed part of the purchase of gold projects from Oracle is the Invincible Project which lies in underexplored areas of the central Pilbara.

The project is located immediately along strike from the growing 1.495m oz Au resource of Calidus Resources (ASX: CAI).

OPERATIONAL REPORT

Multiple historic mines in the area produced excellent results, including the Invincible mine that produced 19.31 kg of gold at the exceptional grade of 1,380 g/t Au.

Like the Calidus deposit, the Invincible Project includes 12.5 kms of the same Warrawoona Shear Zone mineralised trend.

There has been little systematic modern exploration of the area, which represents an outstanding opportunity for a new high-grade discovery.

There is strong investor interest in the area following on from recent discoveries which include De Grey Mining's (ASX: DEG) Hemi project, which lies north east of Invincible.

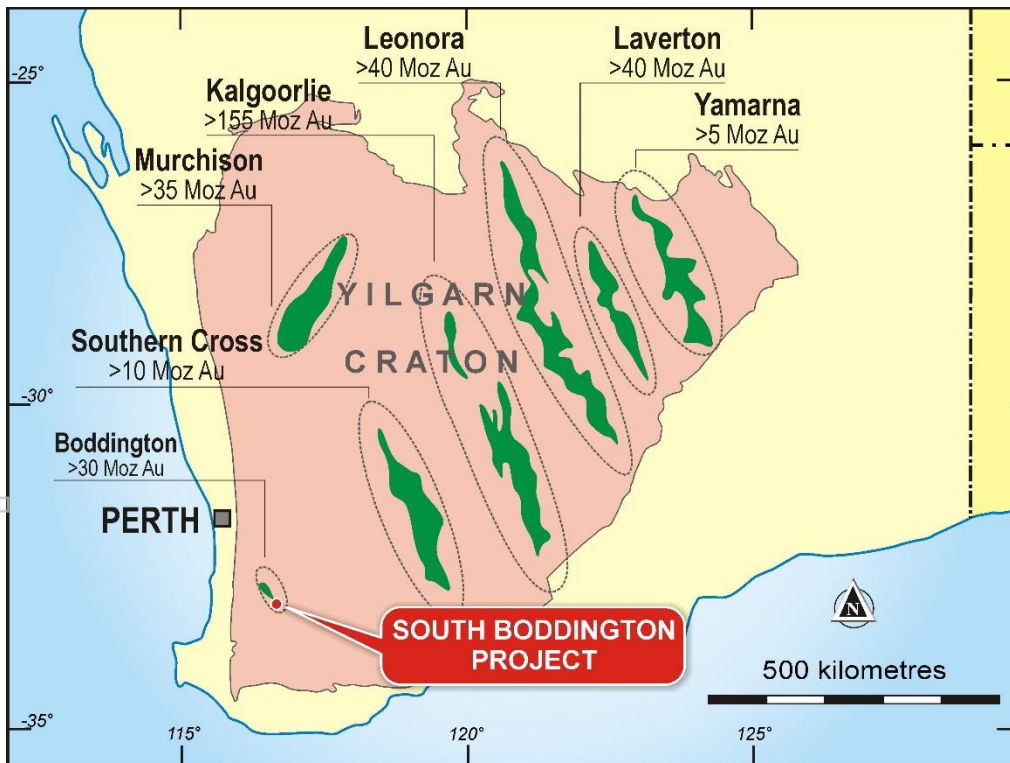

There are several drill ready targets and BMG intends to undertake an extensive field program including a geophysical survey and air core drilling beginning in the fourth quarter of 2020.

Calidus is developing a mining operation targeting production of about 90,000 oz Au a year (see Investor Presentation by Calidus dated 29 June 2020).

Soil surveys at the Invincible Project confirm a large geochemical anomaly along the interpreted extension of the Warrawoona Shear Zone and there is potential for repeat trends along the Shear Zone and also for mineralised granite to the north of the zone.

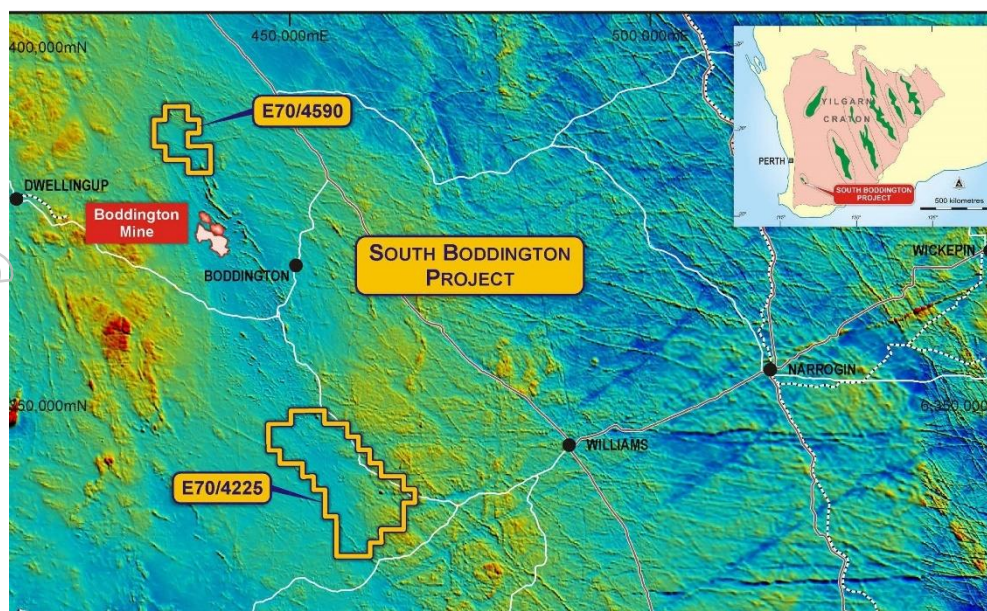

Primary reef gold is hosted in quartz veins within extensive shear zones and quartz vein hosted gold nuggets have been recovered on the Invincible Project.

South Boddington

This project is along strike from the giant Boddington (+40Moz) gold deposit within the Saddleback Greenstone Belt.

OPERATIONAL REPORT

The project area consists of two exploration licences which are in the application stage and are interpreted to host similar stratigraphy to Boddington, which hosts Newmont's Boddington gold mine (NYSE: NEM).

There is strong potential for additional gold deposits to be found along the belt with much of the area unexplored or underexplored.

Boddington is located in an area of magnetic low and similar magnetic lows are seen within in BMG's exploration areas, E70/4225 and E70/4590.

Chilean Lithium joint venture

During the first half of FY20, BMG progressed a work program in Chile with the completion of a drilling campaign at Salar West in the Atacama region and sampling work on its Natalie and Pajonales claims. The drilling at Salar West demonstrated that the geological unit in this location was predominantly clay with unfavourable characteristics for brine extraction, and analysis of the extracted brine samples found only dilute concentrations of lithium to be present.

BMG then undertook a sampling program at Pajonales which did not deliver any material results, and was unsuccessful in completing further work and sampling at Natalie before seasonal rain, local flooding and the COVID-19 pandemic stopped the work program.

With no indications of a discovery so far and with extensive delays and expenses ahead, BMG took the decision to terminate its involvement in the joint venture and to focus its efforts elsewhere.

Treasure Project, Cyprus

The Company continues to retain its 30% free-carried interest in the Treasure Project's operator, New Cyprus Copper Company Limited, which is the majority shareholder and is responsible for maintaining and progressing the project.

OPERATIONAL REPORT

Corporate

As part of the acquisition of Oracle Mining Limited, BMG is undertaking a share consolidation and share issue which was still proceeding during the preparation of this report. Shareholders will vote on the share consolidation and acquisition at the general meeting on Monday, 5 October.

A share purchase plan gives eligible shareholders the right to subscribe for up to \$10,000 of offer shares at an issue price of \$0.05 each to raise up to \$1,000,000 before costs and also an offer for the shortfall to the SPP Offer (the Offers).

The Offers opened on Wednesday, 2 September 2020 and close at 5.00 pm (WST) on Friday, 2 October 2020. The Offers are conditional on shareholders approving a 10:1 share capital consolidation and the issue of consideration shares to the Oracle vendors at the General Meeting on Monday, 5 October.

The Company also successfully undertook the placement of 60,000,000 shares at \$0.05 to professional and sophisticated investors to raise \$3 million before costs (Placement), subject to approval at the General Meeting.

Shares in the Offers and Placement are to be issued after the share consolidation.

Any shares not subscribed for under the SPP Offer will be made available under the Shortfall Offer.

John Prineas and John Dawson are proposed as directors to join the board on completion of the acquisition of Oracle.

DIRECTORS' REPORT

Your Directors present their report on the Consolidated Entity (referred to hereafter as the **Group**) consisting of BMG Resources Limited (**BMG or the Company**), being the Company and its subsidiary (**Consolidated Entity**), at the end of, or during, the year ended 30 June 2020 and the Auditor's report thereon.

DIRECTORS

The names and details of the Directors in office during the financial year and until the date of this report are set out below.

- Greg Hancock (Chairman)
- Bruce McCracken (Managing Director)
- Simon Trevisan (Non-Executive Director)
- Malcolm Castle (Non-Executive Director)

PRINCIPAL ACTIVITIES

The principal activities of the Consolidated Entity during the financial year comprised of mineral resource exploration and development.

OPERATING RESULTS

The Consolidated Entity's loss after providing for income tax for the year ended 30 June 2020 amounted to \$2,182,734, including recognition of the impairment of the Company's Chilean JV investment, of \$1,198,734. (2019: loss \$1,022,246).

DIVIDENDS PAID OR RECOMMENDED

The Directors' of the Company do not recommend the payment of a dividend in respect of the current financial year ended 30 June 2020.

REVIEW OF OPERATIONS

The Consolidated Entity's operations are discussed in the Operational Report from page 5.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

On 24 May 2019, the Company entered into a Share Purchase Agreement to enable the Company to earn up to a 50% interest in the Chilean Lithium Joint Venture: Lithium Chile SpA. On 25 May 2020, In light of the ongoing costs to maintain the JV and the results of work undertaken, the Company took the decision to terminate its involvement in the JV and focus its efforts elsewhere. The Company had not earned an interest in the JV properties at the time of termination.

There were no changes in the state of affairs of the Consolidated Entity during the financial year.

MATTERS SUBSEQUENT TO THE END OF THE FINANCIAL YEAR

Agreement to three gold projects with high-growth potential in Tier 1 and emerging Western Australian Gold districts.

On 17 August 2020, BMG announced that it entered into a binding agreement to acquire three gold projects in Western Australian Gold districts through the acquisition of Oracle Mining Limited.

Completion of the acquisition is subject to the satisfaction of various conditions precedent. These include requisite shareholder approvals and the completion of a \$4m capital raising by BMG. On 28 August 2020, the Company notified

DIRECTORS' REPORT

shareholders of the general meeting which is to be held on Monday 5th October 2020 where the requisite shareholder approvals are to be sought.

Subject to shareholder approval, the Company is also to undertake a 10:1 share capital consolidation (Consolidation). If the Consolidation is approved, the number of shares on issue will reduce from 671,483,898 to approximately 67,148,390.

The acquisition of the gold projects will be effected via the acquisition of 100% of the issued capital of Oracle Mining Limited, an unlisted public company, for consideration (post the consolidation) of 89,843,117 Ordinary Shares in the Company and the issue of 13,333,333 Performance Shares.

Contemporaneously, the Company is completing a capital raising to raise \$4,000,000 via:

- A Share Purchase Plan Offer to raise up to \$1,000,000 through the issue of up to 20,000,000 shares at \$0.05 (5 cents, post consolidation) per share; and
- Subject to shareholder approval, a Placement to professional and sophisticated investors to raise \$3,000,000 (before costs) through the issue of 60,000,000 shares at \$0.05 (5 cents, post consolidation) per share, with commitments already received for the full value of the Placement.

Impact of COVID-19 Global Pandemic

The impact of the Coronavirus (COVID-19) pandemic is ongoing and is causing delay to business development activities and meetings. Whilst it has had limited financial impact for the consolidated entity up to 30 June 2020, it is not practicable to estimate the potential impact, positive or negative, after the reporting date.

The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

There are no other matters or circumstances that have arisen since the reporting date.

LIKELY DEVELOPMENTS, PROSPECTS AND BUSINESS STRATEGIES

The Directors are of the opinion that further information as to the likely developments in operations of the Consolidated Entity and the expected results of those operations, would be speculative and prejudicial to the interests of the Group and its Shareholders at this point in time.

ENVIRONMENTAL REGULATION

The Board believe that the Consolidated Entity has adequate systems in place for the management of environmental requirements and is not aware of any breach of environmental requirements as they apply to the Consolidated Entity.

National Greenhouse and Energy Reporting Act 2007

This is an Act to provide for the reporting and dissemination of information related to greenhouse gas emissions, greenhouse gas projects, energy production and energy consumption, and for other purposes. The Consolidated Entity is not subject to the *National Greenhouse and Energy Reporting Act 2007*.

KEY MANAGEMENT PERSONNEL DISCLOSED IN THE REPORT

Names and positions held of Parent Entity Directors in office at any time during the financial year are:

Greg Hancock	(Chairman)
Bruce McCracken	(Managing Director)
Simon Trevisan	(Non-executive Director)
Malcolm Castle	(Non-executive Director)

There were no Key Management Personnel of the entity at any time during the financial year other than Directors of the Company.

Remuneration Governance

The Remuneration and Nomination Committee provides assistance to the Board with respect to the following:

- Remuneration policies and practices;
- Remuneration of the Executive Officer and Executive Directors;
- Composition of the Board; and

DIRECTORS' REPORT

(d) Performance Management of the Board and of the Executive Officer.

Use of Remuneration Consultants

During the year, the Company has not required or used any remuneration consultants.

Membership and Composition

The minimum number of members required on the Committee is two Directors. At least one member of the Committee must be a Non-Executive Director of the Board.

The Chair of the Committee is to be a Non-Executive Director, nominated by the Board, who may be the Chairman of the Board.

The Secretary of the Committee shall be the Company Secretary or such other person as nominated by the Board.

Executive Remuneration Policy and Framework

The Remuneration and Nomination Committee is to review and make recommendations regarding the following:

- (a) strategies in relation to Executive remuneration policies;
- (b) compensation arrangements for the Managing Director, Non-Executive Directors and other Senior Executives as appropriate;
- (c) performance related incentive policies;
- (d) the Company's recruitment, retention and termination policies;
- (e) the composition of the Board having regard to the skills/experience desired and skills/experience represented;
- (f) the appointment of Board members;
- (g) the evaluation of the performance of the Managing Director;
- (h) consideration of potential candidates to act as Directors; and
- (i) succession planning for Board members.

Processes

The Committee shall meet as frequently as required to undertake its role effectively and properly. A quorum for the Committee meeting is when at least two members are present. Any relevant employees may be invited to attend the Committee meetings.

The issues discussed at each Committee meeting as well as the Minutes of each meeting are reported at the next Board Meeting. The Committee Chair shall report the Committee's recommendations to the Board after each meeting.

The Committee reviews, and may recommend to the Board, any necessary actions and/or changes it considers appropriate. The Committee may undertake any other special duties as requested by the Board.

DIRECTORS' REPORT

Key Management Personnel Remuneration Policy

The Board's policy for determining the nature and amount of remuneration of Key Management Personnel for the economic entity is as follows:

The remuneration structure for Key Management Personnel is based on a number of factors, including length of service and the particular experience of the individual concerned. The contracts for service between the Group and Key Management Personnel are on a continuing basis, the terms of which are not expected to change in the immediate future. There is no scheme to provide retirement benefits, other than statutory superannuation.

The Remuneration Committee determines the proportion of fixed and variable compensation for each Key Management Personnel.

Executive and Non-Executive Director Remuneration Policy

On appointment to the Board, all Executive and Non-Executive Directors enter into an agreement with the Company. The letter of appointment summarises the Board's policies and terms, including remuneration. Non-Executive Directors do not receive additional fees for chairing or participating on Board committees.

Directors do not receive retirement allowances.

Non-Executive Directors do not receive performance-based remuneration

Please see the table below for the details of the nature and amount remuneration payable to Non-Executive Directors of the Group.

	From 1 July 2020	1 July 2019 – 30 June 2020
Base fees		
Chairman (Greg Hancock)	\$5,000 per month	\$5,000 per month
Non-Executive Director (Simon Trevisan)	\$2,500 per month	\$2,500 per month
Non-Executive Director (Malcolm Castle)	\$2,500 per month	\$2,500 per month

The amounts above are exclusive of superannuation.

There were no other additional fees paid to the Non-Executive Chairman and Non-Executive Directors for participating in Audit Committees, Nomination Committees and/or Remuneration Committees.

For the period from 1 January 2020, the Company's Non-Executive Directors agreed to accrue 50% of their monthly fees, accordingly, at 30 June 2020, there was outstanding fees payable to Mr Greg Hancock of \$15,000, and fees payable to each of Messrs Trevisan and Castle of \$7,500.

Notice period for Termination	6 months

Performance based remuneration

The Group entered into an Executive Services Agreement (ESA) with its Managing Director Mr Bruce McCracken on 2 July 2019.

Pursuant to this ESA, following shareholder approval received on 2 August 2019, Mr McCracken was awarded 20,000,000 Performance Rights.

The performance rights were issued in three tranches with vesting conditions applicable to these Performance Rights relating to the Group's Chilean Lithium Joint Venture, which the Company terminated on 25 May 2020.

On 22 November 2019, 10,000,000 of these Performance Rights were deemed to have vested, the vesting conditions applicable to these were:

- the proposed agreement between the Company and the owners of Lithium Chile SpA (**LCS**) as announced to ASX on 29 November 2018 being formally concluded;
- the Company raising a minimum of \$1 million net of costs pursuant to its capital raising strategy as announced to ASX on 5 and 8 November 2018; and
- the successful completion of an initial drilling program at Salar West or other Lithium project areas.

The vesting conditions applicable to the remaining 10,000,000 Performance Rights were not met and lapsed on 30 June 2020.

The 10,000,000 Ordinary Shares issued on settlement of the Tranche 1 Performance Rights were valued at the share price on the date that shareholders approved the issue of the Performance Rights, being 2nd August 2019, when the Company's share price was \$0.013.

The value of the expense recognised in the 2020 financial year is the value of the Performance Rights which vested, calculated on the share price of the date when the shareholders approved the issue of the Performance Rights, less the value portion which was expensed in the 2019 financial year.

There is no outstanding performance-based remuneration arrangements in place between the Company and Mr McCracken.

Company Performance, Shareholder Wealth and Director and Executive Remuneration

The Remuneration Policy has been tailored to increase goal congruence between Shareholders, Directors and Executives.

Each year the Board reviews Directors remuneration to balance the need to pay appropriate fees to its directors while balancing the needs of the Company's shareholders.

DIRECTORS' REPORT

The Company has an employee incentive scheme for the award of share-based payments, including Shares, Options and Performance Rights, the Board may exercise its discretion to award such payments to encourage the alignment of personal interest and shareholder interests

During the year, the Company has not required or used any remuneration consultants.

Voting and comments made at the Group's 2019 Annual General Meeting

At the 2019 AGM held on 25 November 2019, the Company did not receive the requisite eligible votes to pass the resolution supporting the 2019 remuneration report. At the AGM, no comments were made by shareholders on the remuneration report.

As the Company received more than 25% votes against the approval of the Remuneration Report, the Company has recorded its first strike in accordance with the Corporations Act 2001.

TERMS AND CONDITIONS OF SHARE BASED PAYMENTS AFFECTING REMUNERATION IN THE CURRENT FINANCIAL YEAR.

Performance Rights

Following shareholder approval in August 2019, the Company's Managing Director, Mr Bruce McCracken was issued 20,000,000 Performance Rights, in three Tranches, with vesting conditions related to the Group's Chilean Lithium Joint Venture, which the Company subsequently terminated on 25 May 2020.

The Performance Rights affecting remuneration in the current financial year are only those 10,000,000 Performance Rights which ultimately vested, the vesting conditions related to these Performance Rights were:

- 1) The proposed agreement between the Company and the owners of Lithium Chile SpA (LCS) as announced to ASX on 29 November 2018 being formally concluded;
- 2) The Company raising a minimum of \$1 million net of costs pursuant to its capital raising strategy as announced to ASX on 5 and 8 November 2018; and
- 3) The successful completion of an initial drilling program at Salar West or other Lithium project areas.

The 10,000,000 Performance Rights which are those in Tranches 2 and 3 have lapsed and no remuneration was recognised by Mr McCracken for these Performance Rights.

Equity Instruments Disclosure Relating to Key Management Personnel

Shares

Number of shares held by Parent Entity Directors and other Key Management Personnel of the Group, including their personally related parties, are set out below.

	Balance at the start of the year	Acquired during the year	Balance at the end of the year
Greg Hancock	-	-	-
Bruce McCracken ¹	20,100,042	16,666,666	36,766,708
Simon Trevisan ²	78,566,978	8,000,000	86,566,978
Malcolm Castle ³	6,040,076	1,500,000	7,540,076

- 1 Relevant interest in 36,586,708 shares as a beneficiary of the McCracken Family Trust and 180,000 shares directly held.

Of the total shares acquired by Mr McCracken in the year, 6,666,666 were issued, following shareholder approval, on 2nd August 2019. These were awarded to Mr McCracken pursuant to the executive services agreement entered into with the Company on 2 July 2019. The value of this award was recognised as an expense in the Group's financial statements for the year ended 30 June 2019.

The remaining 10,000,000 shares acquired were issued upon the vesting of 10,000,000 Performance Rights which were approved by shareholders at the Company's General Meeting on 2 August 2019, and which were settled on 22 November 2019.

- 2 Relevant interest in 86,373,644 Shares as Director of Tribis Pty Ltd and 193,334 shares as a trustee of Trevisan Superannuation Fund. The shares acquired by Tribis were for settlement of Administration fees payable for the 6-month period 1 July 2018 to 31 December 2018, being \$12,000 per month, for a total of \$72,000. The Shares were issued on 8th August 2019 following the receipt of shareholder approval for the issue of the shares on 2nd August 2019.
- 3 Relevant interest as Director and sole Shareholder of Agricola Mining Consultants Pty Ltd of 542,960 shares, indirect interest as a spouse of Susan Castle of 39,896 and 6,957,220 shares directly held.

The shares acquired by Mr Castle during the year were issued following the receipt of shareholder approval at the Company's General Meeting held on 2 August 2019. The basis for issuing Mr Castle these shares was that he had not been remunerated by the Company for the period 1 July 2016 until December 2018. The Board considered that this was the most appropriate manner of remunerating Mr Castle for his services as it conserved the Company's cash, while still providing financial recognition to Mr Castle.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The primary accounting policies adopted in the preparation of the Financial Statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) General Information

BMG Resources Limited is a Company domiciled in Australia. BMG Resources Limited is a Company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange. The Consolidated Financial Report of the Company as at and for the year ended 30 June 2020 comprises the Company and its subsidiaries (together referred to as the '**Group**' or '**Consolidated Entity**').

The nature of the operations and principal activities of the Consolidated Entity are described in the Directors' Report.

(b) Basis of Preparation

Statement of Compliance

The Consolidated Financial Statements are general purpose Financial Statements for the reporting year ended 30 June 2020 and have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board, Interpretations and the *Corporations Act 2001*. BMG Resources Limited is a for profit entity for the purpose of preparing the Financial Statements.

Compliance with IFRS

The Consolidated Financial Statements of BMG Resources Limited Group also comply with the International Financial Reporting Standards (IFRS and IFRIC interpretations) issued by the International Accounting Standards Board (IASB).

The Board of Directors have prepared the financial report on a going concern basis, any additional funding that may be required is anticipated to be obtainable and will allow the Group to continue to fund its operations and further develop their mineral exploration and evaluation assets during the twelve-month period from the date of this financial report.

The Financial Statements were approved by the Board of Directors on 30th September 2020.

Historical cost convention

The financial report has been prepared on an accrual basis and is based on historical costs *modified* by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

All amounts are presented in Australian dollars, unless otherwise noted.

(c) Principles of Consolidation

The Consolidated Financial Statements incorporate the assets and liabilities of all the subsidiaries that BMG Resources Limited ('the **Parent Entity**') has the power to control. A subsidiary is controlled when the Parent Company is exposed to, or has rights to, variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power to direct the activities of the subsidiary, and determine the financial and operating policies of the subsidiary. All inter-company balances and transactions between entities within the Group, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistencies with those policies applied by the Consolidated Entity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Subsidiaries

Subsidiaries are all entities controlled by the Consolidated Entity. The Financial Statements of subsidiaries are included in the Consolidated Financial Statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Consolidated Entity.

In the Consolidated Entity's Financial Statements, investments in subsidiaries are carried at cost. The Financial Statements of the subsidiary are prepared for the same reporting period as the Company, using consistent accounting policies.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

In preparing the Consolidated Financial Statements, all intercompany balances and transactions, income and expenses and profit or losses resulting from inter-entity transactions have been eliminated in full. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The investments in subsidiaries held by BMG Resources Limited are accounted for at cost in the separate Financial Statements of the Company less any impairment charges. The acquisition of subsidiaries is accounted for using the acquisition method of accounting. The acquisition method of accounting involves allocating the cost of the business combination to the fair value of the assets acquired and the liabilities and contingent liabilities assumed at the date of acquisition.

(d) Comparatives

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(e) Going Concern

The Directors are satisfied that the Going Concern assumption has been appropriately applied in preparing the financial statements and the historical financial information has been prepared on a Going Concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

The COVID-19 pandemic, announced by the World Health Organisation on 31 January 2020, is having a negative impact on world stock markets, currencies and general business activity. The timing and extent of the impact and recovery from COVID-19 is unknown but it may have an impact on activities and potentially impact the ability for the entity to raise capital in the current prevailing market conditions.

For the year ended 30 June 2020 the Group made a loss of \$2,182,734 (2019: loss of \$1,022,246) and had cash outflows from operating activities of \$680,127 (2019: cash outflows of \$791,431). The operational activity materially related to the Chilean Lithium Brine JV, which has now been terminated. While the operating profile of the Company has now changed with the termination of the Chilean JV, these conditions indicate a material uncertainty on the Group's ability to continue as a Going Concern.

Subsequent to the end of the financial year, on 17 August 2020, the Company announced the proposed acquisition of 100% of the equity of Oracle Mining Limited ('Oracle'), subject to the satisfaction of various conditions precedent. These include requisite shareholder approvals and the completion of a \$4m capital raising by BMG. The capital raising has been substantively completed, with \$3m in commitments already received from professional and sophisticated investors, subject to the shareholder approvals to enable the Oracle acquisition; with a further \$1m to be raised by a

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Share Purchase Plan (and placement of any shortfall), which is currently underway. The Company is to hold a General Meeting of shareholders on 5 October 2020 to consider the necessary resolutions for the Oracle acquisition, and if passed, completion of the acquisition is expected shortly thereafter.

Further disclosure on the proposed acquisition of Oracle, including the \$4m capital raising is provided at note 18, Matters subsequent to the end of the financial year.

The Group's present level of cash on hand (\$164,292 at 25 September 2020). Should the Company not receive the required shareholder approvals to enable it to complete the Oracle acquisition and the associated \$4m capital raising, there is uncertainty as to the Group's ability to continue as a Going Concern.

Irrespective of the approval or otherwise of the Oracle acquisition and associated \$4m capital raising, the directors believe that there are reasonable grounds that the Group will continue as a Going Concern. Should the Oracle transaction and associated capital raising not proceed, the Company will need to draw on its existing cash reserves, and implement further cash management initiatives to meet its commitments while it finds an alternative opportunity.

In the event that the Group is not able to continue as a Going Concern, it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements. The financial report does not include any adjustment relating to the recoverability and classification of the asset carrying amounts or the classification of liabilities that might be necessary should the consolidated entity not be able to continue as a Going Concern.

(f) Significant Accounting Judgments, Estimates and Assumptions

The preparation of the Financial Statements requires Management to make judgments, estimates and assumptions that affect the reported amounts in the Financial Statements. Management continually evaluates its judgments and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgments and estimates on historical experience and on other various factors it believes to be reasonable under the circumstances, the result of which form the basis of the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amount recognised in the Financial Statements are outlined below:

Impact of Coronavirus (COVID-19) pandemic

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the company based on known information. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the company unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

Impairment of Exploration and Evaluation Assets

The ultimate recoupment of the value of exploration and evaluation assets is dependent on the successful development and commercial exploitation, or alternatively sale, of the underlying mineral exploration properties. The consolidated Group undertakes at least on an annual basis, a comprehensive review for indicators of impairment of those assets. Should an indicator of impairment exist, there is significant estimation and judgement in determining the inputs and assumptions used in determining the recoverable amounts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Share based payments

Share based payments are valued at fair value at the date that the awards are required to be measured. For share-based payments issued which do not require shareholder approval, this date is the date that the parties agree to the award. For share-based payments which require shareholder approval, the award is measured at the date that shareholder approval is received.

Share based payments are issued as payment for services provided to the Company and to Key Management Personnel of the Company.

For Share based payments for services, the value of the share-based payment is measured by reference to the value of services received evidenced by the receipt of an invoice from the supplier.

For share based payments issued to Key Management Personnel, for Shares and Performance Rights, the fair value of the equity granted is a function of the value of the Company's share price on measurement date and the number of Shares or Performance Rights issued. For Options, the Black-Scholes Option pricing methodology is used, measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility and risk-free interest rate.

(g) Adoption of new and revised accounting standards

The accounting policies adopted are consistent with those of the previous financial year and corresponding reporting period except for the adoption of AASB 16: Leases which became mandatory for the first time this reporting period commencing 1 July 2019. The adoption of this standard did not result in a material adjustment to the amounts or disclosures in the current or prior year. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The following relevant standards and interpretations have been issued by the Australian Accounting Standards Board (AASB) but are not yet effective for the year ending 30 June 2020:

AASB 2018-6: Amendments to the Australia Accounting Standards – Definition of a business

This standard amends AASB 3 Business Combinations' ("AASB 3") definition of a business. To be considered a business, an acquisition would have to include an input and a substantive process that together significantly contributes to the ability to create outputs. The new guidance provides a framework to evaluate when an input and a substantive process are present. The revisions to AASB 3 also introduced an optional concentration test. If the concentration test is met, the set of activities and assets acquired is determined not to be a business combination and asset acquisition accounting is applied. The concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. The Group's assessment of the impact of this new amendment is that it is not expected to have a material impact on the Group in the current or future reporting periods.

Other standards not yet applicable

A number of other standards, amendments to standards and interpretations issued by the AASB which are not materially applicable to the Group have not been applied in preparing these consolidated financial statements.

(h) Foreign Currency

Functional and presentation currency

Items included in the financial statements of each of the group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Consolidated Financial Statements are presented in Australian dollars (A\$), which is BMG Resources Limited's functional and presentation currency.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The functional currency used on BMG's subsidiary BMG Resources Chile, domiciled and conducting operations in Chile, is US Dollars (US\$).

Foreign currency transactions and balances

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the Consolidated Statement of Financial Position date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Translation of foreign operations

The Consolidated Statement of Profit or Loss and Other Comprehensive Income is translated at the average exchange rates for the year.

The exchange differences arising on the translation are taken directly to a separate component of equity. On disposal of the foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation will be recognised in the Statement of Profit or Loss and Other Comprehensive Income.

(i) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker. The Chief Operating Decision Maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors.

(j) Other Income

Government Grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions. Further disclosure on government grants received or receivable is provided at note 4.

Interest

Interest accrues using the effective interest method. The effective interest method uses the effective interest rate which is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial asset.

(k) Share-based Payments

The grant date fair value of share-based payments granted to employees (including Key Management Personnel) is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the instruments received. The amount recognised as an expense is adjusted to reflect the actual number of share options for which the related service and non-market vesting conditions are met.

Share-based payment arrangements in which the Consolidated Entity receives goods or services as consideration for its own equity instruments are accounted for as equity-settled share-based payment transactions, regardless of how the equity instruments are obtained by the Consolidated Entity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(l) Cash and Cash Equivalents

'Cash and cash equivalents' includes cash at bank and in hand, deposits held at call with financial institutions, other short-term highly liquid deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

For the purposes of the Consolidated Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

(m) Trade and Other Receivables

Trade and Other receivables represent amounts expected to be received from the Australian Taxation office, being Goods and Services Tax (GST) for expenditure incurred by the Group.

(n) Trade and Other Payables

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether or not billed to the Consolidated Entity. Trade accounts payable are normally settled within 60 days.

(o) Employee Benefits

Short-term Employee Benefit Obligations

Liabilities for wages and salaries, including non-monetary benefits and accumulating sick leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. Short Term employee benefit liabilities are included within employee benefits payable on the Consolidated Statement of Financial Position.

Other long-term Employee Benefit Obligations

Liabilities for long service leave and annual leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to expect future salaries and wages levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period of government bonds with terms and currencies that match, as closely as possible, the estimated future cash outflows. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit or Loss and Other Comprehensive Income.

The obligations are presented as current liabilities in the Consolidated Statement of Financial Position if the Group does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur.

Termination Benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits at the earlier of the following's dates:

- when the Group can no longer withdraw the offer of those benefits; and
- when the Group recognises costs for a restructuring that is within the scope of AASB 137 and involves the payment of termination benefits.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

(p) Exploration and Evaluation Expenditure

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit or loss in the year in which the decision to abandon the area is made. When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Exploration and evaluation expenditure encompasses expenditures incurred by the Group in connection with the exploration for and evaluation of mineral resources before the technical feasibility and commercial viability of extracting a mineral resource are demonstrable.

Exploration and evaluation expenditure incurred by the group is accumulated for each area of interest and recorded as an asset if:

- A. the rights to tenure of the area of interest are current; and
- B. at least one of the following conditions is also met:
 - i. the exploration and evaluation expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale; and
 - ii. exploration and evaluation activities in the area of interest have not at the reporting date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the areas of interest are continuing.

For each area of interest, expenditure incurred on the Exploration of Tenements throughout Chile and Cyprus is capitalised, classified as tangible or intangible, and recognised as an exploration and evaluation asset. Exploration and evaluation assets are measured at cost at recognition. A provision for unsuccessful exploration and evaluation is created against each area of interest by means of a charge to the Statement of Profit or Loss and Other Comprehensive Income.

The recoverable amount of each area of interest is determined on a bi-annual basis and the provision recorded in respect of that area adjusted so that the net carrying amount does not exceed the recoverable amount. For areas of interest that are not considered to have any commercial value, or where exploration rights are no longer current, the capitalised amounts are written off against the provision and any remaining amounts are charged against profit. Recoverability of the carrying amount of the exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(q) Impairment

Financial Assets

A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

(r) Income Tax Expenses or Benefit

The income tax expense or benefit (revenue) for the period is the tax payable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax base of assets and liabilities and their carrying amounts in the Financial Statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for all temporary differences, between carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases, at the tax rates expected to apply when the assets are recovered or liabilities settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. Exceptions are made for certain temporary differences arising on initial recognition of an asset or a liability if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit. Deferred tax assets are only recognised for deductible temporary differences and unused tax losses if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities, associates and interests in joint ventures where the Parent Entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not be reversed in the foreseeable future. Current and deferred tax balances relating to amounts recognised directly in equity.

BMG Resources Limited and its resident subsidiaries have unused tax losses. However, no deferred tax balances have been recognised, as it is considered that asset recognition criteria have not been met at this time.

(s) Goods and Services Tax

Revenues, expenses and assets are recognised net of GST except where GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flow on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authorities are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(t) Contributed Equity

Ordinary shares are classified as equity.

Costs directly attributable to the issue of new shares or options are shown as a deduction from the equity proceeds, net of any income tax benefit. Costs directly attributable to the issue of new shares or options associated with the acquisition of a business are included as part of the purchase consideration.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(u) Earnings or Loss per share

Basic earnings or loss per share are calculated by dividing the net profit or loss attributable to members of the Parent Entity for the reporting period by the weighted average number of ordinary shares of the Company.

(v) Fair Value

Determination of Fair Values

A number of the Consolidated Entity's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. Where applicable, further information about the assumptions made in determining fair values is disclosed in the Notes specific to that asset or liability.

Trade and Other Receivables

The fair value of trade and other receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

2. SEGMENT INFORMATION

AASB 8 requires operating segments to be identified on the basis of components of the Consolidated Entity that are regularly reviewed by the Chief Operating Decision Maker (CODM) in order to allocate resources to the segment and to assess its performance. The Chief Operating Decision Maker of the Group is the Board of Directors.

Following the Board's decision to terminate its involvement in the Chilean Lithium Joint Venture on 25 May 2020, no Operating Segments are identified by the Chief Operating Decision Maker.

3. JOINT VENTURE OPERATION

On 24 May 2019, the Company entered into a Share Purchase Agreement to enable the Company to earn up to a 50% interest in the Chilean Lithium Joint Venture: Lithium Chile SpA.

The Company entered into the JV following two geophysical work programs undertaken by the Company at the Salar West properties which identified a highly conductive zone prospective for Lithium brine. The Company undertook a drilling program at Salar West in order to investigate the strong conductive unit, but did not find any significant traces of Lithium brine. The Company then undertook sampling fieldwork at the other key area, Pajonales, but did not find any significant indicators of Lithium brine. It also sought to conduct sampling at the smaller Natalie property, but was still settling access arrangements with the local community when the COVID-19 pandemic struck and the work program was put on hold.

In light of the ongoing costs to maintain the JV and the results of work undertaken, the Company took the decision to terminate its involvement in the JV and focus its efforts elsewhere. The Company had not earned an interest in the JV properties at the time of termination.

Consequently, the Exploration and Evaluation asset capitalised to 24 May 2020 was assessed for impairment. At 30 June 2019, pursuant to the Group's accounting policy for the recognition of Exploration and Evaluation expenditure, the Group had an exploration and evaluation asset recognised of \$529,159, in the period to 24 May 2020, a further \$669,575 was incurred, for a total investment of \$1,198,734.

The Group expects to receive no financial return from its investment (through sale or continued use) to date and consequently the recoverable amount of the asset is assessed at nil, and the full value capitalised to 24 May 2020 is recognised as an impairment expense in the 2020 financial year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

In the comparative financial year, at 30 June 2019 the Company had recognised a liability of \$355,684, being an amount of US\$250,000 payable by the Company to enter into the Joint Venture. During the year ended 30 June 2020, the Company made the \$US250,000 (\$372,024 Australian Dollars) payment.

Also in relation to the 2019 financial year, The consolidated Statement of Profit or Loss and Other Comprehensive Income includes an item 'Project exclusivity fee', this is an amount of USD\$100,000 (A\$137,684) which provided the Company an exclusivity period to consider entering into the transaction.

4. OTHER INCOME

	2020 (\$)	2019 (\$)
Government Grant	36,075	-
Interest received	3,511	16,842
	39,586	16,842

The Group benefited from one Government Grant in the financial year.

Boosting Cash Flow for Employers

The Group received Boosting Cash Flow for Employers payments, accordingly, during the year, the Group received \$24,050. The Group received these payments as it derived income in the 2018-19 financial year of less than \$50 million, and it made eligible payments, including payment of salary and wages. A further amount of \$4,810 relating to the June 2020 period is accrued within "Other Receivables" and has subsequently been received.

The Group is also eligible for the Additional Cash flow boost, being a further \$28,860. This is to be received in four instalments of \$7,215 each. The first instalment is accrued by the Company at 30 June 2020 and is recognised within "Other Receivables".

The total Boosting Cash Flow for Employers grant recognised is therefore \$36,075. This is recognised in the profit or loss statement over the period to which the grant relates, to match with the costs for which it compensates.

5. DIRECTOR REMUNERATION

	2020 (\$)	2019 (\$)
Directors' remuneration	373,066	285,990
	373,066	285,990

Director remuneration includes all fees paid, or payable to the Company's directors for their services during the year.

Director remuneration in the current year includes an amount of \$55,966 being the amount of Annual Leave (\$28,586) and Long Service Leave (\$27,380) accrued by the Company's Managing Director which was not previously recognised as a liability. This includes Annual Leave of \$13,793 and Long Service Leave of \$2,988 earned in the current financial year.

Further disclosure on director remuneration is provided on pages 17 to 27 of the remuneration report.

6. SHARE BASED PAYMENTS

On 22 November 2019, the Company issued 10,000,000 shares to its Managing Director, Mr Bruce McCracken. These shares were issued to settle 10,000,000 Performance Rights which vested on 18th November 2019. The Company and Mr McCracken had agreed to the issue of these Performance Rights on 28 June 2019.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The value of the Performance Rights which vested was calculated as \$130,000, being 10,000,000 Performance Rights multiplied by \$0.013, the Company's share price at the date that shareholders approved the award of the Performance Rights.

The share-based payment expense recognised in this reporting period, \$127,903, is the Gross value of the award less the value of award deemed to have vested in the reporting period ended 30 June 2019 being \$2,097.

The vesting conditions applicable to those Performance Rights which vested were:

- i. the proposed agreement between the Company and the owners of Lithium Chile SpA (LCS) as announced to ASX on 29 November 2018 being formally concluded;
- ii. the Company raising a minimum of \$1 million net of costs pursuant to its capital raising strategy as announced to ASX on 5 and 8 November 2018; and
- iii. the successful completion of an initial drilling program at Salar West or other Lithium project areas.

Mr McCracken realised no benefit for the 10,000,000 Performance Rights other performance rights which had also been awarded to him in June 2019. These Performance Rights failed to vest and lapsed on 30 June 2020.

In August 2019, the Company settled share-based payments to Company Directors Mr Bruce McCracken and Mr Malcolm Castle; and former Director Mr Peter Munachen in the 2019 financial year.

- a) Mr McCracken received 6,666,666 ordinary shares. These shares were issued for past services provided to the Company as its Managing Director for which no cash consideration was paid. Mr McCracken agreed with the Company to receive nil cash remuneration from the Company from 1 July 2016, while the Company sought a new project, the Company has since remunerated Mr McCracken effective from 1 July 2018.
- b) Mr Castle received 1,500,000 ordinary shares. The primary purpose of the issue of the Shares to Mr Castle or his nominee is to acknowledge the service of Mr Castle to the Company during the two and half year period from 1 July 2016 until 31 December 2018 when he provided services to the Company for no cash remuneration.

These payments were agreed in the 2019 financial year and the expense for these was fully recognised in that year.

Recipient	Purpose	Number of shares	Share Price	Total Value ¹
Mr Bruce McCracken	Recognition of service to the Company for which no cash remuneration was paid.	6,666,666	\$0.013	\$86,666
Mr Malcolm Castle		1,500,000	\$0.013	\$19,500
			Total	\$106,166

¹ The value of these awards was measured by reference to Company's share price on the date that they were approved by shareholders, being 2 August 2020, when the Company's share price was \$0.013.

The Company issued 1,500,000 share options to each of Mr Castle and Mr Munachen, these Options are valued based on the Company's share price as at 2 August 2019, the Options are valued using the Black-Scholes Option Pricing methodology with the following inputs.

Input	Input value
Number of Options	3,000,000

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Issue of shares for the provision of corporate advisory services.

On 12 August 2019 the Company issued 1,250,000 fully paid ordinary shares to Harshell Investments Pty Ltd for the provision of corporate advisory services in connection with the issue of the 346,502,263 BMGOB Options which were issued in August 2019 and subsequently expired on 31 December 2019.

The total value of the shares issued was \$17,500, excluding Goods and Services Tax. The number of shares issued was based on the value of services provided. The value of these shares is accounted within the Options reserve balance, which is equal to the gross proceeds from the issue of the Options less costs incurred relating to the issue of the Options.

2019 Financial year (Comparative year)

On 28 February 2019, the Company issued 15,000,000 Options for services provided in connection with the Company's capital raising activities during the year, under the terms of the engagement of the Lead Manager for the raising, BMG was required to issue 15,000,000 Options upon a minimum capital raising of \$1,250,000 being achieved.

The Company was not able to reliably estimate the fair value of the service provided by the Lead Manager, being the service which necessitated the issue of these Options, and as a result, the Company has measured this share based payment by reference to the fair value of the equity instruments granted.

These Options had a grant date of 28 February 2019, being the date that the Company became liable to issue these Options. The Options were valued using Black-Scholes Option pricing methodology, with the following inputs:

Input	Input value
Number of Options	15,000,000
Underlying Share Price	\$0.010
Exercise Price	\$0.020
Expected volatility	100%
Expiry Date / Months	30 June 2019 / 4 months
Expected Dividends	Nil
Risk free rate	1.12%

The total fair value of the options issued was \$6,782.

As these Options were issued in connection with a capital raising, the fair value of these Options is recognised within contributed equity on the Consolidated Statement of Financial Position.

These Options expired unexercised on 30 June 2019.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

12. FINANCIAL RISK MANAGEMENT

(a) Overview

The Company and the Consolidated Entity have exposure to the following risks from their use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note presents information about the Company's and Consolidated Entity's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk and the management of capital.

The Group's Risk Management Framework is supported by the Board, Management and the Audit and Risk Committee. The Board is responsible for approving and reviewing the Company's and Consolidated Entity's Risk Management Strategy and Policy. Management is responsible for monitoring appropriate processes and controls that are in place to effectively and efficiently manage risk. The Audit and Risk Committee is responsible for identifying, monitoring and managing significant business risks faced by the Company and Consolidated Entity and considering the effectiveness of its internal control system. Management and the Audit and Risk Committee report to the Board.

The Board has established an overall Risk Management Policy which sets out the Company's and Consolidated Entity's system of risk oversight, management of material business risks and internal control.

The Consolidated Entity holds the following financial instruments:

	2020 (\$)	2019 (\$)
Financial assets		
Cash and cash equivalents	273,390	1,551,720
	273,390	1,551,720

Trade and other payables	96,703	140,126
Employee benefits payable (Employee contractual obligations)	55,966	-
	152,669	495,810

(b) Financial Risk Management Objectives

The overall financial Risk Management Strategy focuses on the unpredictability of the finance markets and seeks to minimise the potential adverse effects on financial performance and protect future financial security.

(c) Credit Risk

Credit risk is the risk of financial loss to the Consolidated Entity if counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's cash and cash equivalents, deposits with banks and financial institutions. The Consolidated Entity does not hold any credit derivatives to offset its credit exposure.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

	2020 (\$)	2019 (\$)
Cash at bank and short-term bank deposits		
Cash at bank	273,390	1,551,720
	273,390	1,551,720

Exposure to Credit Risk

The carrying amount of the Consolidated Entity's financial assets represents the maximum credit exposure. The Consolidated Entity's maximum exposure to credit risk at the reporting date was:

	2020 (\$)	2019 (\$)
Cash and cash equivalents	273,390	1,551,720
Total	273,390	1,551,720

(d) Liquidity Risk

Liquidity risk arises from the financial liabilities of the Consolidated Entity and its ability to settle these liabilities as and when they fall due.

Ultimate responsibility for Liquidity Risk Management rests with the Board of Directors. The Board has determined an appropriate Liquidity Risk Management Framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves and continuously monitoring budgeted and actual cash flows and matching the maturity profiles of financial assets, expenditure commitments and liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying amounts as the impact of discounting is not significant.

Contractual maturities of financial liabilities	Less than 6 months	Total	Carrying Amount
Group – as at 30 June 2020	\$	\$	\$
Trade payables and other payables	96,703	96,703	96,703

Trade payables and other payables	140,126	140,126	140,126
Total	495,810	495,810	495,810

(e) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and commodity prices and affect the Consolidated Entity's income or the value of its holdings of financial instruments. The objective of Market Risk Management is to manage and control market risk exposures within acceptable parameters, while optimising return.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Interest Rate Risk

The Consolidated Entity's exposure to interest rates relates to the Consolidated Entity's cash and cash equivalents. The Consolidated Entity manages market risk by monitoring levels of exposure to interest rate risk and assessing market forecasts for interest rates.

Profile

At the reporting date the interest rate profile of the Consolidated Entity's interest-bearing financial instruments was:

	2020 (\$)	2019 (\$)
Financial Assets	273,390	1,551,720
	273,390	1,551,720

The Group manages its interest rate risk by monitoring available interest rates while maintaining an overriding position of security whereby the majority of cash and cash equivalents are held in AA-rated bank accounts. The Group's exposure to interest rate risk and effective weighted average interest rate by maturing periods is set out in tables below.

	Weighted Average Effective Interest Rate	Total (\$)	Weighted Average Effective Interest Rate	Total (\$)
	2020	2020	2019	2019
Financial Assets				
Cash and cash equivalents	0.63%	273,390	1.00%	1,551,720

Cash Flow Sensitivity Analysis for Variable Rate Instruments

A change of 25 basis points in interest rates at reporting date would have increased/(decreased) equity and profit or loss by the amounts shown below. The Board assessed a 25-basis point movement as being reasonably possible based on forward treasury rate projections. This analysis assumes that all other variables remain constant.

A change of 25 basis points in interest rates would have increased or decreased the Consolidated Entity's profit or loss by \$431 (2019: \$3,879).

	+1% (25 basis points) (\$)	-1% (25 basis points) (\$)	+1% (25 basis points) (\$)	-1% (25 basis points) (\$)

Cash and cash equivalents	431	(431)	3,879	(3,879)
	431	(431)	3,879	(3,879)

Foreign Exchange Risk

At 30 June 2020, the Group has no material exposure to foreign exchange risk.

At 30 June 2019 (the comparative reporting date), The Group had a material exposure to foreign exchange risk relating its 'JV Interest consideration payable' liability.

This liability, of value \$250,000 USD payable in cash, was settled in August 2019, and represented an amount payable to the parties from whom the Company was earning an interest in the Chilean Lithium Joint Venture.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Further disclosure on this liability is provided in the Company's interim financial report for the period to 31 December 2019.

Profile

At the reporting date the groups exposure to foreign currency risk, expressed in Australian dollars was as follows

	2020 (\$)	2019 (\$)
JV Interest consideration payable	-	355,684
	-	355,684

Net foreign exchange (loss) included for the year ended 30 June 2020 is (\$14,249) (30 June 2019: gain of \$5,235)

The subsidiary of the Parent entity, BMG Resources Chile SpA, which has a functional currency of the US Dollar (USD), has exposure to fluctuation in the United States Dollar (USD) : Chilean Peso (CLP) foreign exchange rate, at 30 June 2020, the foreign exchange risk relating to the Chilean Peso (PESO) is not considered to be material.

As at 30 June 2020 the Company does not actively manage its exposure to foreign exchange risk. Further disclosure in relation to this liability is provided at note 3.

Sensitivity

In the comparative financial year, At 30 June 2019, the Group was primarily exposed to changes in the US/AUD exchange rates. The sensitivity of profit or loss to changes in the exchange rates arose from US-dollar denominated financial instruments

	Impact on post tax profit	
	2020	2019
US/AUD Exchange Rate – increase 5%	-	(17,784)
US/AUD Exchange Rate – decrease 5%	-	16,937

(f) Capital Management

When managing capital, the Board's objective is to ensure the Consolidated Entity continues as a going concern as well as to maintain optimal returns to Shareholders and benefits for other Stakeholders. The Board also aims to maintain a capital structure that ensures the lowest cost of capital available to the Consolidated Entity.

The Board seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position although there is no formal policy regarding gearing levels whilst this position has not changed.

The Consolidated Entity has no formal financing and gearing policy or criteria during the year having regard to the Consolidated Entity's low level of activity. This position has not changed from the previous year.

(g) Fair value measurements

The fair values of financial assets and liabilities are determined in accordance with generally accepted pricing models based on estimated future cash flow. There are currently no assets and liabilities which require fair valuing under the measurement hierarchy. Due to their short-term nature, the carrying amounts of the current payables is assumed to approximate their fair value.

18. MATTERS SUBSEQUENT TO THE END OF THE FINANCIAL YEAR

Agreement to three gold projects with high-growth potential in Tier 1 and emerging Western Australian Gold districts.

On 17 August 2020, BMG announced that it entered into a binding agreement to acquire three gold projects in Western Australian Gold districts through the acquisition of Oracle Mining Limited.

Completion of the acquisition is subject to the satisfaction of various conditions precedent. These include requisite shareholder approvals and the completion of a \$4m capital raising by BMG. On 28 August 2020, the Company notified shareholders of the general meeting which is to be held on Monday 5th October 2020 where the requisite shareholder approvals are to be sought.

Subject to shareholder approval, the Company is also to undertake a 10:1 share capital consolidation (Consolidation). If the Consolidation is approved, the number of shares on issue will reduce from 671,483,898 to approximately 67,148,390.

The acquisition of the gold projects will be effected via the acquisition of 100% of the issued capital of Oracle Mining Limited, an unlisted public company, for consideration (post the consolidation) of 89,843,117 Ordinary Shares in the Company and the issue of 13,333,333 Performance Shares.

Contemporaneously, the Company is completing a capital raising to raise \$4,000,000 via:

- A Share Purchase Plan Offer to raise up to \$1,000,000 through the issue of up to 20,000,000 shares at \$0.05 (5 cents, post consolidation) per share; and
- Subject to shareholder approval, a Placement to professional and sophisticated investors to raise \$3,000,000 (before costs) through the issue of 60,000,000 shares at \$0.05 (5 cents, post consolidation) per share, with commitments already received for the full value of the Placement.

Impact of COVID-19 Global Pandemic

The impact of the Coronavirus (COVID-19) pandemic is ongoing and is causing delay to business development activities and meetings. Whilst it has had limited financial impact for the consolidated entity up to 30 June 2020, it is not practicable to estimate the potential impact, positive or negative, after the reporting date.

The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

There are no other matters or circumstances that have arisen since the reporting date.

19. CONTINGENT LIABILITIES

The Board is not aware of any circumstance or information which leads them to believe there are any contingent liabilities outstanding as at 30 June 2020.

20. REMUNERATION OF AUDITOR

During the year the following fees were paid or payable for services provided by the Auditor of the Entity and its related parties.

BDO Audit (WA) Pty Ltd	26,300	27,349
Total remuneration for Audit and Other Assurance Services	26,300	27,349

No other services were provided by the auditor of the parent company (BDO Audit (WA) Pty Ltd), its related practices or non-related audit firms in the relation to the 2020 nor 2019 financial year.

21. COMMITMENTS

Management Fees Commitment

Tribis Pty Ltd provides corporate administration services to the Company for a monthly fee of \$12,000 plus reasonable reimbursements for certain costs, expenses and liabilities incurred and/or paid by Tribis on behalf of the Company during that month.

Tribis is a related party of the Company by virtue of Mr Simon Trevisan, a Non-Executive Director of the Company, being the managing director.

The Company has no commitments of any other nature as at 30 June 2020.

23. RELATED PARTY INFORMATION

Parent Entity

The legal Parent Entity within the Group is BMG Resources Limited. BMG owns 30% of the issued ordinary shares of Treasure Development Limited (directly).

Key Management Personnel Compensation

The Remuneration of the Company's directors is disclosed below, there are no key management personnel other than the Company's Directors.

	2020 (\$)	2019 (\$)
Short-term employee benefits	316,835	262,000
Post-employment benefits	17,100	14,250
Share-based payments	127,903	130,450
	461,838	406,700

Detailed remuneration disclosures are provided in the Remuneration Report on pages 17 to 27.

Transactions with Related Parties

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

On 2 August 2019 shareholders approved the issue of Shares, Options and Performance Rights to related parties, including its Directors and former Director Mr Peter Munachen which had been awarded in the 2019 financial year. Subsequently, on 8 August 2019 the following instruments, they were then issued, further detail is provided at note 6.

On 8 August 2019, BMG Resources Limited issued 8,000,000 Ordinary Shares to Tribis Pty Ltd, in lieu of a cash payment for the value of administrative services provided during the period 1 July 2018 to 31 December 2018, being a debt of \$72,000, equal to 6 months' fees at \$12,000 per month. Tribis Pty Ltd is a related party of Non-executive Director Mr Simon Trevisan.

On 2 August 2019, being the date when shareholders approved the issue of shares to Tribis to settle this debt, the Company's share price was \$0.012, and accordingly the value of consideration deemed to have been provided for these administration services for the 6 month period to 31 December 2018 is deemed to be \$96,000, accordingly the value recognised on the Consolidated Statement of Profit or Loss and Other Comprehensive Income represents:

	Total value
Ordinary fee for the current reporting period, 6-months of fee's at \$12,000 per month.	\$72,000
Incremental expense for 6-month to 31 December 2018 ¹	\$24,000
Total	\$96,000

¹ This incremental expense arises solely as a result of the increase in share price between 23 December 2018 and 2 August 2019, the former date is when the board (excluding Simon Trevisan) resolved, subject to shareholder approval, to settle the \$72,000 fees through the issue of 8,000,000 shares (\$0.009 per share) and the latter date is when shareholders approved the issue of the shares (\$0.012 per share).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Consistent with Interpretation 19, when a debt, which was not originally intended to be settled through the issue of shares is subsequently settled in this manner, any increase or decrease in the value of the consideration provided relative to the value of the original consideration agreed is recognised in the financial year in which the shares are issued. Accordingly, though the debt relates to the 2019 financial year, the additional value of the consideration paid, \$24,000, is recognised in this 2020 financial year.

Full detail on these equity instruments and the reasoning for their issue is provided in the Group's 2019 Annual Financial Report (announced 30 September 2019) and the notice of meeting dispatched on 2 July 2019.

Issue of 'BMGOB' Options

During the half year, the Company issued 346,502,263 Options to investors who held BMGOA options on or before 30 June 2019 which expired on 30 June 2019, for a price of \$0.001 per Option.

These options, with an ASX code of BMGOB were issued with an exercise price of \$0.020, and were exercisable on or before 31 December 2019.

Company directors, or their related parties - Mr Simon Trevisan, Mr Bruce McCracken and Mr Malcolm Castle - held BMGOA Options and were therefore entitled to acquire BMGOB Options on the same terms as all other holders of BMGOA Options.

- A related entity of Mr Bruce McCracken acquired 5,000,000 BMGOB Options for consideration of \$5,000
- Tribis Pty Ltd, a related party of Mr Simon Trevisan, acquired 36,773,354 BMGOB Options for consideration of \$36,773.

All BMGOB Options expired unexercised on 31 December 2019.

Administration Services Agreement

The Group is party to an Administration Services Agreement with Tribis Pty Ltd which provides administration services to the Group on the terms and conditions set out in the agreement.

The terms of this Administration Services Agreement for the period to 30 June 2020 were consistent with the terms for the year to 30 June 2019.

A reconciliation of the administration services fee expense recognised on the Consolidated Statement of Profit or Loss and Other Comprehensive Income is provided below

	2020	2019
Fees payable for 6 months to 31 December 2018 (settled via issue of shares)	-	\$72,000
Fees payable for 6 months to 30 June 2019 (settled in cash)	-	\$72,000
Fees payable for 12 months to 30 June 2020 (settled in cash)	\$144,000	-
Incremental expense for 6-month to 31 December 2018 ¹	\$24,000	
Total	\$168,000	\$144,000

¹ Further disclosure on this value is provided within this note above.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Reduction in cash fees paid to Directors and their related parties.

On 25 November 2019, with effect from 1 January 2020, Company's non-executive directors - Mr Greg Hancock, Mr Malcolm Castle and Mr Simon Trevisan - have agreed to accrue 50% of their monthly director fee and receive 50% as a cash payment. The directors will continue to accrue their fees until the Company completes a necessary capital raising and when the Board considers it appropriate to resume paying directors at the ordinary rate.

Tribis Pty Ltd, a related party of Mr Simon Trevisan, with whom the company has an administration services agreement, has also agreed to accrue 50% of its monthly fee and receive 50% as a cash payment. Tribis will continue to accrue 50% of its monthly fee until the Company completes a necessary capital raising and when the Board considers it appropriate to resume paying Tribis at the agreed rate.

The fees owed to the Company's directors and their related parties are summarized below.

Director	Nature	Total value
Greg Hancock	Director Fees	\$15,000
Malcolm Castle	Director Fees	\$7,500
Simon Trevisan	Director Fees	\$7,500
	Administration Services fees payable to Tribis Pty Ltd	\$36,000
	Total	\$66,000

Loans to/from Related Parties

There were no loans to individual or Directors of the Company during the year ended 30 June 2020.

Individual Key Management Personnel Compensation Disclosures

Information regarding individual Key Management Personnel compensation and some equity instruments disclosures as permitted by Corporations Regulations 2M.3.03 are provided in the Remuneration Report section of the Directors' Report.

Remuneration for the financial year included share-based payments, refer to note 6 for further detail.

Other Key Management Personnel Transactions with the Company

A number of Key Management Personnel or their related parties hold positions in other entities that result in them having control or significant influence over the financial or operating policies of those entities. Other than director fees, there were no transactions with the entities.

INDEPENDENT AUDITOR'S REPORT

To the members of BMG Resources Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of BMG Resources Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2020, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2020 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the Financial Report section of our report. We are independent of the Group in accordance with the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty related to going concern

We draw attention to Note 1(e) in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the group’s ability to continue as a going concern and therefore the group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material uncertainty related to going concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Impairment of Exploration and Evaluation Assets

Key audit matter	How the matter was addressed in our audit
<p>As disclosed in Note 3 an impairment expense has been recorded in the financial statements in relation to the Chilean Lithium projects.</p> <p>This impairment of exploration and evaluation assets was assessed as being required due to the Group terminating the joint venture arrangement as announced on the ASX on 25 May 2020.</p> <p>This is considered a key audit matter because the capitalised value of the exploration and evaluation assets represented a significant asset of the Group and as a result the termination of the joint venture arrangement was the most significant transaction during the financial year ended 30 June 2020.</p>	<p>Our audit procedures in respect of this matter included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Reviewing the terms and conditions of the joint venture agreement; • Holding discussions with management to obtain an understanding of the impact of the decision not to proceed with the joint venture and the impact on the ability of the Group to obtain future economic benefits from the asset; • Substantively testing a sample of exploration and evaluation expenditure capitalised during the financial year before the impairment in accordance with AASB 6 Exploration for and Evaluation of Mineral Resources; and • Reviewing the adequacy of the related disclosures in Note 3 to the financial statements.

Other information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2020, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 17 to 27 of the directors' report for the year ended 30 June 2020.

In our opinion, the Remuneration Report of BMG Resources Limited, for the year ended 30 June 2020, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
