

Company announcement

PME signs A\$10M – 7 year contract with Munich based Ludwig-Maximilians-Universität (LMU Klinikum)

15 October 2020

HIGHLIGHTS

- PME signs 7-year, A\$10M deal with LMU Klinikum
- LMU Klinikum is one of the largest university hospitals in Germany.
- Visage technology to be deployed throughout LMU Klinikum's imaging departments replacing systems from legacy vendors
- Extends PME's footprint in the European hospital segment

Leading health imaging company Pro Medicus Limited [ASX: PME] today announced its wholly-owned German subsidiary, Visage Imaging GmbH, has signed a 7-year A\$10million contract with Munich based Ludwig-Maximilians-Universität (LMU Klinikum) one of the largest university hospitals in Europe.

The contract will see the company's Visage 7 technology implemented across all LMU Klinikum's radiology and subspecialty imaging departments replacing existing legacy PACS systems with a single centralized instance of the Visage 7 Enterprise Imaging Platform. Visage is also used in the hospital's state of the art operating theatre suite for HD video documentation and point-of-care Ultrasound archival and viewing.

LMU Faculty of Medicine is the largest medical training institution in southern Germany and regarded as one of the top academic hospitals in Europe.

The implementation is scheduled to commence in December 2020.

“We look forward to taking our partnership with Visage to the next level as we implement their technology across our radiology department,” said Dr Kurt Kruber, CIO of LMU Klinikum. “The Visage platform provides a highly scalable and reliable platform combined with sophisticated clinical features that will support us in both day-to-day patient care and advanced research.”

“We are very excited about this project,” said Dr Malte Westerhoff, Managing Director of Visage Imaging GmbH. “LMU Klinikum is a thought leader in making a digital strategy a core principle of their operations. We are confident that our technology and expertise can make a significant contribution to helping LMU Klinikum further enhance efficiency and achieve better patient outcomes.”

“Traditionally, large European teaching hospitals like LMU Klinikum have standardised on IT platforms from large, multinational imaging equipment (modality) vendors making this a difficult market to penetrate.” said Dr Hupert. “So this is a very significant milestone for us in this highly competitive market.”

About Pro Medicus Limited:

Pro Medicus Limited [ASX: PME] is a leading medical imaging IT provider. Founded in 1983, the company provides a full range of radiology IT software and services to hospitals, imaging centres and health care groups worldwide. In late January 2009, the company announced the purchase of Visage Imaging, which has become a global provider of leading edge enterprise imaging solutions, pioneering the best-of-breed, or Deconstructed PACS® enterprise imaging strategy. Visage 7 technology delivers amazingly fast, multi-dimensional images streamed via an intelligent thin-client viewer. The company offers a leading suite of RIS, PACS and e-health solutions constituting one of the most comprehensive end-to-end offerings in radiology. Pro Medicus has global offices in Melbourne, Berlin and San Diego. www.promed.com.au
