Leading health imaging company Pro Medicus Limited [ASX: PME] today announced its wholly-owned U.S. subsidiary, Visage Imaging, Inc., has signed a 5-year renewal contract with Long Island based Zwanger Pesiri, one of the largest private outpatient radiology providers in the U.S.

The contract, based on a transaction-based licensing model, will see the company's Visage 7 technology continued to be used across all Zwanger Pesiri locations for the next 5 years.

"We have had a great partnership with Visage over the preceding 5 years," said Dr Steve Mendelsohn, CEO of Zwanger Pesiri. "The speed and capabilities of their software is unrivalled in the market. Since implementing it 5 years ago, we have experienced significant increases in radiologist productivity and clinical accuracy which has underpinned our substantial growth over that time."

"We believe our solution provides the best return on investment of any system in the market from both financial and clinical perspectives.
