"We have seen a strong underlying performance across our businesses over the last six months and we will build on this performance as we sharpen our focus to deliver a stronger, more resilient IAG.

We delivered 3.8% gross written premium (GWP) growth (1H20: 1.4%) over the six months a strong result in these uncertain conditions.

Growth was predominantly driven by rate increases in our commercial and home insurance businesses in Australia and across all key classes in New Zealand. It was also underpinned by some customer growth in New Zealand's direct brands and high retention rates in our commercial portfolios in Australia.

We have strong margins across the business. Our underlying margin<sup>2</sup> of 15.9% was an improvement on 2H20 (15.1%) and benefitted from lower motor claims as a result of

Our insurance profit<sup>1</sup> of \$667 million (1H20: \$501 million) equated to a higher reported margin of 17.9% (1H20: 13.5%). In addition to the COVID-19 effect, this result benefitted from a relatively benign natural perils period, which meant we came in \$39 million lower than our natural perils allowance, and credit spreads were favourable.

While our business has been relatively stable, our profitability was affected by the pre-tax \$1.15 billion expense we announced in November for potential business interruption claims relating to COVID-19.

Our business interruption policies were never intended to cover pandemics. However, following the Supreme Court of NSW Court of Appeal decision on the COVID-19 business interruption test case, we conducted a detailed review to determine our potential exposure, and took action to strengthen our balance sheet.

This has helped ensure we remain well capitalised and we have today announced a dividend of 7 cents per share which represents a payout ratio of 37% of cash earnings.

Over the past few months, we have put in place measures which I believe will further strengthen the business.

We've restructured the business, splitting our Australia Division into Direct Insurance Australia and Intermediated Insurance Australia to better align our brands to our customers and to bring a stronger focus to our commercial and personal intermediated businesses.

We are acting decisively to address the issues facing our business. We are working with the broader insurance industry to get clarity on how our business interruption policies should be interpreted in the context of COVID-19, and we continue to make progress on our customer remediation program.

And today we have outlined our strategy which will allow us to deliver IAG's full potential over the next three to five years.

At IAG we have a great history, strong foundations and a clear purpose. I'm excited about IAG's future and our opportunity to make the world a safer place for more than 30 million Australians and New Zealanders."

### **Nick Hawkins**

IAG Managing Director and Chief Executive Officer

<sup>1</sup> The 1H21 reported insurance profit in this document is presented on a management reported (non-IFRS) basis which is not directly comparable to the equivalent statutory (IFRS) figure in IAG's 1H21 Financial Report (Appendix 4D). A reconciliation between the two is provided on page 8 of IAG's 1H21 Investor Report and on page 3 of the Financial Report to comply with the Australian Securities and Investments Commission's Regulatory Guide 230. IAG's 1H21 net loss after tax is the same in this document and in the Financial Report.

<sup>2</sup> IAG defines its 1H21 underlying insurance margin as the reported insurance margin adjusted for net natural peril claim costs less the related allowance; reserve releases or strengthening and credit spread movements. Prior to FY21, the definition adjusted for reserve releases in excess of 1% of net earned premium. Comparative periods have not been restated to incorporate the FY21

10 February 2021

## 1H21 highlights

## Sound performance, challenges being addressed

### Stable and resilient underlying business performance

- 3.8% GWP growth, largely rate driven
  - Improved underlying margin of 15.9% vs. 2H20
  - Normalised underlying margin in-line with 2H20
- Stable underlying margins in Australia, while New Zealand maintained strong performance

### Reported margin recovered to 17.9%

- Modest net reserve strengthening
  - Perils below allowance
  - Positive credit spread impact

#### **Business interruption adverse ruling**

- 1H21 post-tax earnings impact of \$805m announced on 20 November 2020
- \$1.15bn pre-tax charge included in net corporate expense
- No change to provision at 31 December 2020

#### **Customer refund provision**

- · Multi-year pricing issues with discounts
- Additional \$75m pre-tax charge

#### Strong capital position

- CET1 ratio comfortably above top end of targeted benchmark range
- 1H21 dividend of 7 cents per share

#### **Insurance margin**

## **GWP** growth

#### **Positive momentum**

### Underlying growth around 5%

 ~\$50m adverse COVID-19 impact in 1H21 mainly in Australia in personal lines in contrast to ~\$80m in 2H20

#### Recent trends

Rate increases matching claims inflation in Australian short tail personal lines

- Australia commercial rate increases ~7% with less pressure on volumes
- Positive impact from premium rates, retention and volumes in New Zealand
- Application of price increases to counter:
  - Lower underlying investment returns
  - Underperforming portfolios
  - Medium-term trend of higher perils allowance

#### **GWP** growth

10 February 2021

## **Divisional Highlights**

### Australia

#### Growth momentum recovers

GWP growth ~5%

- Rate-driven growth of 3.1% in short tail personal lines, increases in line with claims inflation
- Robust commercial growth of 8%. ~7% rate increases, with significant rating actions across liability, property and agri portfolios

Increase in underlying margin over 2H20 to 15.3%

- Around \$60-\$70m (~2.2% of NEP) COVID-19 benefit
- Earn through of higher rates
- Deterioration in long tail commercial

Higher reported margin of 17.3%

Reset of operating model well advanced

#### Australian insurance margin

#### Australia GWP

### **New Zealand**

### \$trong performance maintained

- NZ\$ GWP growth of 2.8%
- Largely influenced by rate
- Solid 3.1% Business growth
- 2.6% growth in Consumer assisted by modest volume growth

Improved underlying margin compared to 2H20 of 18.6% and strong reported margin of 20.4%

- Negligible COVID-19 impact
- Increase in home and motor claim frequency
- Lower large commercial claims
- Canterbury earthquake settlements
  - Settled claims against the EQC
  - No net P&L impact

## New Zealand - GWP growth/underlying margin

10 February 2021

## Return to shareholders

## Dividend - consistent approach applied

#### Cash earnings of \$462m

- Business interruption provision
- Unusual nature and scale Cash ROE of 15.5%

## 1H21 DPS of 7c, unfranked

1H21 dividend represents ~37% of cash earnings

Committed to 60-80% payout ratio

No franking anticipated should a final dividend be declared

### Capital position remains strong

At 31 December 2020 IAG's CET1 ratio was 1.19, and 1.12 after allowance for payment of the interim dividend, against a target benchmark of 0.9-1.1

	1H21
CASH EARNINGS	A\$m
Net profit/(loss) after tax	(460)

## Our strategy

### Create a stronger, more resilient IAG

## Strategy pillars

Grow with our customers

We will grow as Australians and New Zealanders grow, delivering unparalleled personalised service when our customers need us the most

- Grow the number of direct personal lines customers
- Increase the breadth of customer relationships
- Drive engagement through more frequent customer interactions

Ô

Build better businesses

We will help Australian and New Zealand businesses thrive by continuing to focus on underwriting expertise, active portfolio management and pricing excellence

- · Invest in underwriting and pricing capability uplift
- Build commercial discipline, reduce volatility and improve margins
- Strengthen relationships with our key partners and intermediaries

0

Create value through digital We will be digital to the core by creating connected experiences that seamlessly assist and reward our customers as they unlock the value of our network

- Accelerate digital, making it easier for our customers, partners and people to interact with us
- Modernise our policy administration systems
- Use automation to unlock the next wave of efficiency in our business

40

Manage our risks We will actively manage capital and risk in our business so we can continue to manage the risks in our customers' lives

- Clear accountabilities driving focused outcomes
- Drive a proactive risk culture to increase organisational resilience
- Active management of the balance sheet and capital allocation

"IAG's long-term objective to deliver top quartile Total Shareholder Returns with a sustainable growth profile is unchanged. To realise this, we have refined our strategy to deliver a stronger and more resilient business. We are adapting our business model and playing to our strengths to capitalise on the trends shaping the environment we operate in.

Our strategy balances strengthening the fundamentals of insurance with evolving to be a digital leader. It will ensure IAG is a stronger, more resilient organisation with increased customer reach."

Nick Hawkins IAG Managing Director and Chief Executive Officer
