It is also reassuring that approximately 62% of our total revenue is recurring, derived from contracts with government and large corporate customers, fulfilling their essential IT requirements.”

Total revenue was up 19.2% to \$856.7 million, and included \$346.1 million of public cloud-based revenues, up 37.4%.

Total gross profit increased by 1.2% to \$89.7 million, and total gross margin decreased from 12.3% to 10.5% reflecting a shift in sales mix, with very strong growth in Software Licensing & public cloud revenues.

Staff costs increased by 2.5% to \$66.7 million, solely reflecting headcount growth. Net profit before tax increased by 10.2% to \$13.9 million, and net profit after tax (excluding minority interests) increased by 7.9% to \$9.4 million. Earnings per share also increased by 7.9% to 6.09 cents.

Reflecting the company’s financial performance and strong balance sheet, Data#3’s directors declared an interim fully franked dividend of 5.50 cents per share, a 7.8% increase on the prior corresponding period. This represents a payout ratio of 90.3%. The record and payment dates for the interim dividend are 17 March 2021 and 31 March 2021, respectively.
