### Key Business Highlights

#### Financial

- Next Telecom produced pleasing half year results (unaudited) which showed revenue of \$7.7m and underlying EBITDA of \$0.8m. Next Telecom will be consolidated from 1 Feb 2021.
- The business was able to maintain the improved cost base during the last 6 months both at the COGs and the Opex levels. Additional resources were added to sales and we ramped up our marketing activities.

#### Customers & Sales

- We saw some strong sales wins in the 1<sup>st</sup> half in the wholesale area as well as winning some key Unified Comms deals for MNCs across Asia. There was also a healthy level of renewals of contracts with existing customers. We did lose some customers during the period due to Covid-19 and restructuring related issues.
- The business has experienced increased momentum from November 2021 onwards with our sales pipeline at healthy levels with both wholesale/partners & corporate direct prospects.

#### Corporate & Strategic

- Comms Group Ltd became the new name for the Group from Nov 2020.
- The Company trades under the CommsChoice and Next Telecom brands domestically as well as Comms Group internationally.
- The Company continues to enhance its global Microsoft Teams calling (Direct Routing) network. We expanded into Hong Kong and more recently India, Indonesia and South Africa.

## Outlook

- We expect to see some steady growth in the 2nd half of the financial year and are hopeful of closing some sizeable Unified Comms and wholesale deals.
- FY21 EBITDA guidance to meet or exceed \$3m which includes 5 mths trading from Next Telecom.
- Comms Group, including Next Telecom, will have annualised revenue of \$30m+ and annualised pro-forma EBITDA of \$4m+, with synergies.
- The Company is also working on the assessment of a number of M&A opportunities and intends to grow via strategic growth if appropriate M&A opportunities arise.
