Directors' Report

Your Directors submit their report together with the consolidated financial report of Marenica Energy Limited ("Marenica" or "the Company") and entities it controlled ("the consolidated entity") at the end of, or during the half-year ended 31 December 2020.

Directors

The Directors of the Company during or since the end of the half-year, unless otherwise stated, are:

Name

Andrew Bantock	Independent Non-Executive Chairman
Murray Hill	Managing Director and CEO
Nelson Chen	Non-Executive Director

Principal activities

The principal activities of the Group during the period were exploration and evaluation of its mineral tenements and potential application of the Company's patented **U-pgrade™** uranium beneficiation process to those mineral tenements.

Operating and Financial Review

Result of Operations

The loss from ordinary activities of the Group for the half-year ended 31 December 2020 attributable to members was \$1,054,847 (31 December 2019 – \$803,847).

Review of Activities

On 21 July 2020, the Company announced that it had discovered an extensive palaeochannel at Hirabeb in Namibia which is mineralised over 30 kilometres. As an indication of its size, the palaeochannel system extends 36 kilometres, a distance wider than the English Channel. The average distance between drill lines is 5.5 kilometres, therefore, further drilling will be required to close the space. The Company will continue exploration on this area in early 2021.

On 29 October 2020, the Company announced that testwork undertaken using its **U-pgrade™** beneficiation process, indicates a significant potential reduction in acid consumption on ore to be processed at its Angela Project in the Northern Territory of Australia. In summary, the testwork indicates that acid consumption on ore from Angela was reduced by ~77% from 104 kg/tonne to 24 kg/tonne and that uranium leach extraction increased to 96% using **U-pgrade™**. These results indicate a significant reduction in operating costs. Another benefit indicated by the testwork was that by removing calcite prior to the leach circuit and then reintroducing it after the leach circuit, would neutralise the acid in the leach tailings and render the tailings inert prior to disposal. This would be a significant environmental benefit for the project. Marenica will continue to assess the benefit of **U-pgrade™** to the Angela Project.

On 10 November 2020, the Company announced that it had upgraded the Angela mineral resource estimate to JORC 2012 standard. The Angela mineral resource estimate is 30.8 Mlb U₃O₈ at 1,310 ppm (see Table 1 on the next page). This is a large high-grade uranium resource.

On 25 November 2020, the Company announced the results of a share purchase plan ("SPP") and top-up placement. Through the SPP, eligible shareholders applied for 31,660,619 fully paid ordinary shares at \$0.088 per share, raising A\$2,786,140, before costs. In addition, the Company undertook a placement at the same price as the SPP, with participants applying for 25,568,175 fully paid ordinary shares at \$0.088 per share, to raise A\$2,250,000, before costs. In addition, subject to shareholder approval, directors and officers of the Company applied for

Directors' Report

3,977,270 fully paid ordinary shares at \$0.088 per share to raise \$350,000, before costs. Shareholder approval for the issue of these shares was granted on 21 January 2021 and the shares were issued on 25 January 2021.

Classification	Mt	U ₃ O ₈ Grade (ppm)	U ₃ O ₈ Metal (t)	U ₃ O ₈ Metal (Mlb)

(Figures in the table above may not add due to rounding)

Competent Persons Statement - Angela:

The Company confirms that the Mineral Resource Estimate for Angela has not changed since the ASX announcement of 10 November 2020 titled "Angela Mineral Resource Updated to JORC 2012". The Company is not aware of any new information, or data, that effects the information in the ASX announcement and confirms that all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed.

**INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF
MARENICA ENERGY LIMITED**

Report on the Review of the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Marenica Energy Limited ("the Company"), and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit and loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) giving a true and fair view of the Group's financial position as at 31 December 2020 and of its performance for the half-year ended on that date; and
- (ii) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Independence

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibility for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement whether due to fraud or error.

Auditor's Responsibility for the Review of the Half-Year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2020 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
