DJ Basin, Colorado, USA (66% WI*)

The Company has ~66% working interests in 355 net acres in Weld County.

During the period, Baywater proposed two horizontal wells to be drilled on leases Grand Gulf had a 0.616% interest in. The Company sold the right to drill in these wells to a third party for A\$6,250.

Noble Energy Inc ("Noble") have lodged a Comprehensive Drilling Plan (CDP) over their North Wells Ranch acreage that includes the Company's working interests. Noble's CDP covers a total of 250 additional permits of which around 72 of those permits are anticipated to cover the wells that the Company will have an interest in. It is difficult at this time to determine the exact working interest in these wells, however, it is anticipated that GGE will have an average of 3.3%WI in these wells.

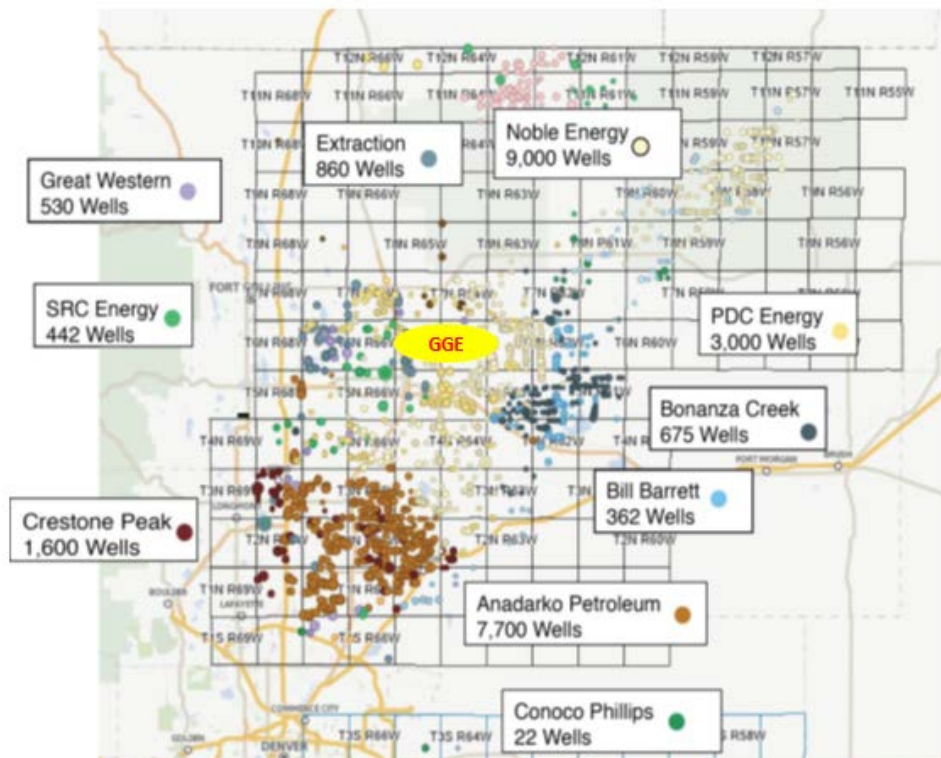

Nobles most recent (2) mile wells at the Kona Pad which are just South of the CPD are estimating EUR's in excess of 2.7mm boe.

However the Company anticipates (1) mile wells to be drilled with EUR's expected to be recover 1.4 mm boe made up of 471,000 bbls of oil, 5.6 bcf gas and 23,600 bbls of natural gas liquids.

Management are presently working with BD groups in Denver to look at actively farming out or selling these interests.

Over the years Noble has become the most prominent operator in the DJ Basin with an excellent reputation from an operator and environmental perspective. They apply the most current technology and generate some of the highest EUR's and lowest operating costs in the Basin whilst employing world class technology to reduce their carbon footprint. Noble's year end DJ basin production was 153 MBoe/d with over 120 wells brought on production that year. It is for this reason that being able to participate in one of their well programs is an attractive opportunity for local US oil and gas investors. The Link below gives investors some information about Noble's activities in the DJ Basin.

FINANCIAL STATEMENTS
FOR THE HALF YEAR ENDED 31 DECEMBER 2020**

1. BASIS OF PREPARATION OF HALF YEAR FINANCIAL REPORT

(a) Reporting entity

Grand Gulf Energy Limited (the "Company") is a Company domiciled in Australia. The consolidated interim financial statements of the Company as at and for the half year ended 31 December 2020 comprise the Company and its controlled entities (together referred to as the "Group").

The consolidated financial statements of the Group as at and for the year ended 30 June 2020 are available upon request from the Company's registered office at Suite 4, 246-250 Railway Parade, West Leederville WA 6007, or at www.grandgulfenergy.com

(b) Statement of Compliance

These consolidated interim financial statements have been prepared in accordance with the requirements of the Corporations Act 2001 and Australian Accounting Standards including AASB 134: Interim Financial Reporting. Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2020 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
