DIRECTORS' REPORT

Your Directors' present their report on the Group consisting of Kingsgate Consolidated Limited and the entities it controlled at the end of, or during the half-year ended 31 December 2020.

DIRECTORS

The following persons were directors of Kingsgate Consolidated Limited during the half-year ended 31 December 2020 and up to the date of this report:

- Ross Smyth-Kirk Executive Chairman
- Peter Alexander Non-Executive Director
- Peter Warren Non-Executive Director

PRINCIPAL ACTIVITIES

The principal activities of Kingsgate Consolidated Limited during the half-year were the progression of its claim with respect to the arbitral proceedings against the Kingdom of Thailand under the Australia-Thailand Free Trade Agreement. This is in conjunction with Kingsgate continuing its rehabilitation obligations and maintaining and keeping the project in good standing. Work also continued to unlock the value of the Nueva Esperanza Gold/Silver Project ("Nueva Esperanza") in Chile.

DIVIDENDS

- No final dividend was declared for the year ended 30 June 2020 (30 June 2019: nil).
- No interim dividend was declared for the half-year ended 31 December 2020 (31 December 2019: nil).

REVIEW OF OPERATIONS AND RESULTS

Operational Performance

Kingsgate is a gold and silver mining, development and exploration company based in Sydney, Australia. Kingsgate owns the Chatree Gold Mine ("Chatree") in Thailand. In addition, the Company has an advanced development project, Nueva Esperanza, in the highly prospective Maricunga Gold/Silver Belt in Chile.

Chatree and the Australia–Thailand Free Trade Agreement ("TAFTA")

Akara Resources Public Company Limited ("Akara"), a subsidiary of Kingsgate, ceased operating the Chatree Gold Mine on 31 December 2016 in accordance with the closure order by the Thai Government. Chatree was placed on Care and Maintenance effective 1 January 2017. Approximately 25 full time staff remain at the Chatree Gold Mine to manage the ongoing Care and Maintenance and rehabilitation works.

In August 2020, Akara was granted permission by the Thai Government to refine and sell the high value gold and silver "sludge," which has been secured at the Chatree Gold Mine. The sludge refers to material cleaned from the tanks and processing plant following the closure of the Chatree Gold Mine on 31 December 2016.

Akara agreed terms with a Thai refinery to process the sludge pursuant to new legislation requiring gold mined in Thailand to be refined in Thailand.

At the end of the half-year, approximately 4,364 ounces of the gold and 10,500 ounces of silver sludge has been refined and sold by Akara, with sales revenue generated of approximately A\$11,864,000. Since year end the balance of the sludge has been refined and sold with sales revenue received of approximately A\$823,000.

In November 2020, Akara was granted 44 special mineral prospecting licences (SPLs) over 397,226 rais of land in Chon Daen and Wang Pong Districts, in the Phetchabun Province. The term of the SPLs is for a period of 5 years until October 2025.

The issuance of these SPLs is subject to all relevant Thai mining laws including obtaining permission from landholders, providing environmental bonding to cover any reclamation works and it is not a licence to conduct mining activities.

While Kingsgate appreciates that it has now been more than one year since the final TAFTA hearings concluded in Singapore, these matters are inherently complex by their very nature, and the TAFTA panel must review voluminous materials both technical and otherwise before it can render a decision.

Again, while there is no indication as to when that might occur, the sustained rise in commodity prices over the past year has allowed Kingsgate to consider its options with respect to maximising the outcome for shareholders which includes the possibility of a negotiated settlement.

The recent approval given to Akara Resources to monetise the gold and silver sludge and the issuance of the 44 SPLs are small but positive steps that indicate a new willingness by the Thai Government to also pursue a negotiated settlement between the two parties.

Nueva Esperanza

Nueva Esperanza is a feasibility-stage development project with a resource base (inclusive of ore reserves) of approximately 0.49 million ounces gold and 83.4 million ounces of silver (See ASX:KCN released titled “Kingsgate Mineral Resources and Ore Reserves 2016” dated 7 October 2016).

In July 2020, Kingsgate advised that its 100% owned Laguna Resources Chile entity (“LRC”) has been granted an Environmental Impact Assessment (“RCA-64/20”) approval for the Nueva Esperanza Gold/Silver Project (See ASX:KCN release titled “Nueva Esperanza Project – EIA Approved”).

This approval will enable the development of the project (subject to compliance with local mining laws/regulations) and follows a public consultation period that resulted in no objections being lodged against the project and is the successful culmination of 18 months of detailed work that saw Kingsgate working closely with environmental consultants, local indigenous communities and the Chilean Government.

In addition, Kingsgate has finalised an agreement with Anglo American that will see a deferral of fees for both the water rights and project royalty payments until 2025. These factors combined, with the recent rise in commodity prices which has seen renewed interest in the project, has afforded Kingsgate the opportunity and time to carefully consider its options with respect to Nueva Esperanza.

Kingsgate has made all non-essential staff redundant to reduce ongoing holding costs of the project.

Financial

At 31 December the Kingsgate Group cash position totalled A\$15.3 million.

FINANCIAL RESULTS

Kingsgate recorded an after tax loss of \$7.9 million for the half-year compared to an after tax loss of \$14.8 million for the previous corresponding period.

EBITDA before significant item was (\$7.1 million), which increased from (\$14.1 million) in the previous period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PREPARATION OF THE HALF-YEAR REPORT

This condensed consolidated interim financial report for the half-year reporting period ended 31 December 2020 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This condensed consolidated interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2020 and any public announcements made by Kingsgate Consolidated Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies applied are the same as those applied by Kingsgate in its annual financial report for the year ended 30 June 2020.

New or Revised Standards and Interpretations that are First Effective in the Current Reporting Period

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are relevant to their operations and effective for the current reporting period.

New Accounting Standards for Application in Future Periods

There are no new and revised Standards and amendments thereof and Interpretations effective for future reporting periods issued during the current reporting period that are relevant to the Group.

Uncertainty in relation to Chatree Gold Mine assets and liabilities

Following a decision made by the Thai Government, the Chatree Gold Mine ceased operations on 31 December 2016 when it was placed on Care and Maintenance effective 1 January 2017.

The Group commenced arbitral proceedings against the Kingdom of Thailand under the Australia-Thailand Free Trade Agreement in order to be compensated for the losses it has incurred as a result of the expropriation of the Chatree Gold Mine by the Thai Government.

In preparing the consolidated financial statements of the Group all mine related assets of the Chatree Gold Mine have been written down to nil value (an impairment charge of \$227,564,000 was recorded against the Group's carrying value of Chatree Gold Mine assets in the year ended 30 June 2016).

In respect of rehabilitation liabilities, during the financial year ending 30 June 2017, the Group revised its previous estimates and reduced its total rehabilitation liability to approximately \$15,579,000. This was based on management's rehabilitation plan which is a revision from the initial plan submitted to the Thai Authorities in 2007. Management still believes the revised plan will be commercially viable, cost effective and will meet all obligations in the context of the early mine closure that has been imposed on the Group with the overall objective to leave the site in a safe and stable condition that is consistent with the surrounding physical environment, be of benefit to the local community, and not require significant ongoing maintenance.

The future of the Chatree Gold Mine remains unclear and there is a significant uncertainty around the carrying values of assets and liabilities. The ultimate impact on the Group's financial position will depend on the sale of plant and equipment and non-strategic land and property and outcomes from discussions with the Thai Government, including:

- agreeing a rehabilitation plan, costing and timing in the context of the early mine closure;
- potential re-opening of the mine if permitted by the Thai Government; and
- pursuing available legal and other avenues for compensation including action for damages against the Thai Government.

1. BASIS OF PREPARATION OF THE HALF-YEAR REPORT (Continued)

The Group has considered the status of its discussions with the Thai Government and the status of its legal process against the Thai Government and has concluded that the position adopted for financial reporting purposes and described above reflects a prudent approach in respect of its assets and liabilities including potential contingent assets and liabilities. At balance sheet date, the Group has considered that it was not appropriate to record a reversal of any impairment previously recognised.

2. SEGMENT INFORMATION

The Group's operating segments are based on the internal management reports that are reviewed and used by the Board of Directors (chief operating decision maker). The operating segments represent the Group's operating mines and projects and include the following:

- Chatree Gold Mine, Thailand; and
- Nueva Esperanza Gold/Silver Project, Chile.

9. CONTINGENT ASSETS AND LIABILITIES

The Group had no contingent assets or liabilities at 31 December 2020 that is required to be reported. At the time of preparing this financial report some companies included in the Group are parties to pending legal proceedings. 11. IMPAIRMENT OF NON-CURRENT ASSETS – EXPLORATION, EVALUATION AND DEVELOPMENT ASSETS NUEVA ESPERANZA

At 30 June 2019, the recoverable amount of the Nueva Esperanza Gold/Silver Project CGU was determined to be \$27,509,000 resulting in an impairment loss of \$33,436,000. Significant judgements and assumptions were required in making estimates of the recoverable amounts.

The Group has assessed if impairment indicators existed as at 31 December 2020 and determined that it was not necessary to formally estimate the recoverable amount of the CGU as no indication of an impairment loss was identified as a result of that assessment, in accordance with the Group's accounting policy.

The Group also assessed whether changes in estimates used to determine the asset's recoverable amount since the last impairment loss was recognised, existed as at 31 December 2020 and whether such changes in estimates would require reversal of impairment. The Group determined that no such changes in estimates were identified.

In reaching these conclusions, the Group considered both external and internal factors relevant to the CGU, including but not limited to;

- Kingsgate's market capitalisation;
- unsolicited expressions of interest received to date to invest in the project;
- updates to the project including the 5-year extension to the water rights and the approval of the Environmental Impact Assessment ("RCA-64/20"); and
- the sustained high gold and silver prices.

Responsibilities of the directors for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2020 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
