ASX and Media Announcement

Successful Completion of Trial for Claw Stars & Starting Pre-Registration

Highlights:

- **Claw Stars has completed successful trial with Google Play**
- **Trial results breaks new high for iCandy, with Day-1 and Day-7 retention reaching up to 46% and 18% respectively**
- **Global Launch set for June 2021. Currently accepting pre-orders and pre-registration on Apple App Store and Google Play Store**

iCandy Interactive Limited ("ICI", "iCandy" or the "Company") is pleased to announce the completion of the early access trial ("Trial") for its new game, Claw Stars.

Encouraging Highest Retention Rates

During the Trial, iCandy's studio team had been gathering feedback and input from gamers and making adjustments to Claw Star's game-play and mechanic, leveraging from iCandy's previous experience in Masketeers.

Claw Star's retention rate has outperformed Masketeers, recording **Day-1 and Day-7 retention rate of up to 46% and 18%** respectively. For comparison, the Day-1 and Day-7 retention rates of Masketeers during its early access trial was approximately 37% and 8% respectively.

Day-1 retention and Day-7 retention measures the fraction of users that returns to the mobile game 1 day and 7 days after installation. These two retention rates are closely watched within the mobile gaming industry as they are potential early indicators of a mobile game's future monetization metric. Longer duration retention rates are not typically tracked in the industry, especially for mobile game genre of casual mobile game that Claw Stars fall under.
