1. Accounting policies

The significant accounting policies adopted in preparing the financial report of Orica Limited ('the Company' or 'Orica') and of its controlled entities (collectively 'the Group') are stated below to assist in a general understanding of this Half Year Financial Report.

(i) Basis of preparation

This general purpose financial report for the half year reporting period ended 31 March 2021 has been prepared in accordance with the requirements of AASB 134 *Interim Financial Reporting*, the *Corporations Act 2001* and other mandatory professional reporting requirements. It has been prepared on a historical cost basis, except for derivative financial instruments, superannuation commitments, business combinations and investments in financial assets which have been measured at fair value as per the applicable standards. It is presented in Australian dollars which is the Group's presentation currency. Where appropriate comparative information has been reclassified to conform to changes in presentation and to enhance comparability.

It is recommended that the Half Year Financial Report is read in conjunction with the Annual Financial Report of Orica Limited as at 30 September 2020.

The amounts shown have been rounded off, except where otherwise stated, to the nearest tenth of a million dollars, in accordance with ASIC *Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* dated 24 March 2016.

(ii) Changes in accounting policies

The accounting policies applied by the Group in the Half Year Financial Report are the same as those applied by the Group in its consolidated financial report for the year ended 30 September 2020 except for new and amended standards and interpretations effective from 1 October 2020.

New and amended accounting standards and interpretations adopted

Effective from 1 October 2020 the Group adopted the following new accounting standards.

AASB 2019-3 Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform

The interest rate benchmark reform results in the replacement of Interbank Offered Rates (IBORs) with Alternative Reference Rates (ARRs), which is expected to occur from 1 January 2022.

The amendments in AASB 2019-3 modify specific hedge accounting requirements to allow hedge accounting to continue for affected hedges during the period of uncertainty caused by the interest rate benchmark reform.

The amendments are relevant to the Group given that it applies hedge accounting to interest rate hedges, however the Group's hedge profile and approach to the transition minimises any material uncertainty caused by the reform.

Several other new standards are effective and have been adopted from 1 October 2020, but they do not have a material impact on the Group's Half Year Financial Report.

New and amended accounting standards and interpretations effective but not yet adopted

IFRIC Interpretation Configuration or Customisation Costs in a Cloud Computing Arrangement

Late in April 2021, the International Financial Reporting Standards Interpretations Committee (IFRIC) issued a final agenda decision, Configuration or customisation costs in a cloud computing arrangement. The decision discusses whether configuration or customisation expenditure relating to cloud computing arrangements is able to be recognised as an intangible asset and if not, over what time period the expenditure is expensed.

The Group's accounting policy has historically been to capitalise costs related to cloud computing arrangements as intangible assets in the Balance Sheet. The adoption of this agenda decision could result in a reclassification of these intangible assets to either a prepaid asset in the Balance Sheet and/or an expense in the Income Statement, impacting both the current and/or prior periods presented.

The Group has not adopted this IFRIC agenda decision in the interim financial report. The Group has commenced its assessment of the impact of the IFRIC agenda decision with reference to the recently completed cloud based SAP project. The impact of the change is not reasonably estimable as at the date of this report. The Group expects to adopt this IFRIC agenda decision in its annual financial statements for the year ending on 30 September 2021.

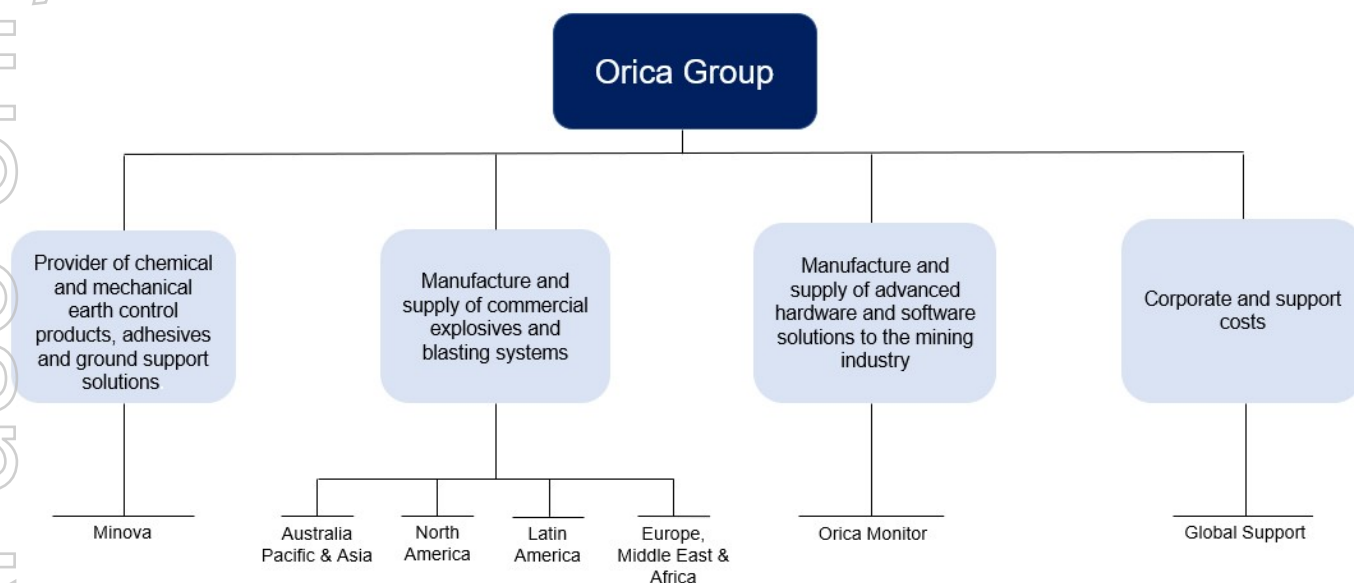

New and amended accounting standards and interpretations issued but not yet effective

There are no new standards or interpretations that are not yet effective and that would be expected to have a material impact on the Group in the current or future reporting periods and on foreseeable future transactions.

2. Segment report

(a) Identification and description of segments

Orica's reportable segments are based on the internal management structure as reported to the Group's Chief Operating Decision Maker (the Group's Managing Director and Chief Executive Officer).

Subsequent events

Since the end of the half year, the directors declared the following dividend:
 Interim dividend on ordinary shares of 7.5 cents per share, unfranked, payable 9 July 2021.

The DRP continues to be available to eligible shareholders. For the interim dividend, shares will be allocated based on the arithmetic average of the daily volume weighted average market price of all shares sold through a normal trade on the ASX for a period of 7 days from 4 to 15 June 2021 inclusive. The last date for receipt of election notices for participation in the interim dividend under the DRP is Wednesday 2 June 2021. Shares issued pursuant to the DRP will rank equal to all other ordinary shares. No discount applies to the DRP.

7. Businesses acquired

Consolidated - 2021

The Group has not acquired any new businesses or entities in the period to 31 March 2021.

Accounting standards permit a measurement period of up to one year during which acquisition accounting can be finalised following the acquisition date. The Group have finalised acquisition accounting on the Exsa S.A. ("Exsa") acquisition which occurred on 30 April 2020, resulting in an adjustment to the fair values below and a corresponding increase in goodwill.

9. Financial instruments

(a) Standby arrangements and credit facilities

Reconciliation of net debt:

| | Consolidated | |
|---|--------------------|--------------------|
| | Mar 2021 \$m | Sep 2020 \$m |
| Current borrowings | 159.5 | 617.4 |
| Current lease liability | 57.9 | 65.0 |

| Committed standby and loan facilities available | 3,595.3 | 4,256.0 |
| Amount of facilities unused | 868.8 | 1,510.0 |

The bank overdrafts are payable on demand and are subject to an annual review. The maturity dates of the committed standby and loan facilities range from 23 April 2021 to 25 October 2030 (2020: 25 October 2020 to 25 October 2030).

(b) Fair value measurement

The balance sheet includes financial assets and financial liabilities that are measured at fair value. These fair values are categorised into hierarchy levels that are representative of the inputs used in measuring the fair values.

| | |
|------------------|--|
| Valuation method | Level 1 - uses quoted prices for identical instruments in active markets. |
| | Level 2 - uses inputs for the asset or liability other than quoted prices that are observable either directly or indirectly. |
| | Level 3 - uses valuation techniques where one or more significant inputs are based on unobservable market data. |

At reporting date, other assets and other liabilities on the balance sheet included derivatives (2021: \$82.3 million net liability, 2020: \$105.1 million net asset) carried at fair value and categorised as Level 2 as the inputs are observable. There has been no movement between levels since prior year.

Valuation techniques include, where applicable, reference to prices quoted in active markets, discounted cash flow analysis, fair value of recent arm's length transactions involving the same instruments or other instruments that are substantially the same, and option pricing models. Changes in default probabilities are included in the valuation of derivatives using credit and debit valuation adjustments.

The fair values of forward foreign exchange contracts are calculated by reference to forward exchange market rates for contracts with similar maturity profiles at the time of valuation.

The fair values of cross currency interest rate swaps and interest rate swaps are determined using valuation techniques which utilise data from observable markets. Assumptions are based on market conditions existing at each balance date. The fair value is calculated as the present value of the estimated future cash flows using an appropriate market-based yield curve, which is independently derived and representative of Orica's cost of borrowings.

(c) Financial assets and liabilities carried at amortised cost

The fair value of cash, cash equivalents, trade and other receivables and trade and other payables approximates their carrying amount due to their short maturity.

9. Financial instruments (continued)

Interest bearing liabilities excluding lease liabilities have a carrying amount of \$2,723.0 million (2020: \$2,741.0 million). The carrying amount of bank and other loans which are primarily short-term in nature approximates fair value. Private Placement debt which is primarily long-term in nature has a carrying amount of \$1,956.8 million (2020: \$2,587.9 million) and a fair value of \$2,004.5 million (2020: \$2,696.3 million). Fair value of Private Placement debt is determined as the present value of future contracted cash flows discounted using standard valuation techniques at applicable market yields having regard to timing of cash flows.

10. Critical accounting judgements and estimates

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at the year ended 30 September 2020.

(a) Impairment testing of assets

Formal impairment tests are carried out annually for goodwill. In addition, formal impairment tests for all assets are performed when there is an indication of impairment. The Group conducts an internal review of asset values at each reporting period, which is used as a source of information to assess for any indications of impairment. External factors, such as changes in expected future prices, costs and other market factors, are also monitored to assess for indications of impairment. If any such indication exists, an estimate of the asset's recoverable amount is calculated.

If the carrying amount of the asset exceeds its recoverable amount, the asset is impaired, and an impairment loss is charged to the income statement to reduce the carrying amount in the balance sheet to its recoverable amount. The recoverable amount is determined using the higher of value in use or fair value less costs to dispose. Value in use is the present value of the estimated future cash flows expected to arise from the continued use of the asset in its present form and its eventual disposal. Value in use is determined by applying assumptions specific to the Group's continued use and does not consider future development. The value in use calculations use cash flow projections which do not exceed 5 years based on actual operating results and the operating budgets approved by the Board of Directors. Fair value less costs to dispose is the value that would be received in exchange for an asset in an orderly transaction.

In testing for indications of impairment and performing impairment calculations, assets are considered as collective groups and referred to as cash-generating units (CGU). Cash-generating units are the smallest identifiable group of assets, liabilities and associated goodwill that generate cash inflows that are largely independent of the cash inflows from other assets or groups of assets with each CGU being no larger than a segment. CGUs to which goodwill has been allocated are aggregated so that the level at which impairment testing is performed reflects the lowest level at which goodwill is monitored for internal reporting purposes. The test of goodwill and its impairment is undertaken at the segment level.

Based on the latest projected cash flows of the Group, the carrying value of both the Latin America ("LATAM") (excluding the newly acquired Exsa business) and Europe, Middle East and Africa ("EMEA") segments are approximately equal to their value in use. The value in use calculations are sensitive to earnings forecasts, changes in discount rates and terminal growth rates.

Any variation in the key assumptions of the cash flows would result in a change in the assessed value in use. If the impact of the change had a negative impact, it could, in the absence of other factors require an impairment to goodwill. The carrying value of goodwill for LATAM, excluding Exsa, is \$125 million and \$203 million for EMEA.

The key assumptions underlying the value in use calculations are as follows:

LATAM excluding Exsa

- Growth in EBIT to \$47 million within five years. This is reliant on achieving future growth in earnings including securing new or expanded contracts and delivery of value added services.
- A weighted average terminal growth in line with local country economic forecasts of 3.3%.
- A weighted average post-tax discount rate of 9.8%.

EMEA

- Growth in EBIT to \$71 million within five years. This is based on the assumption that the business returns to pre COVID-19 performance within 5 years.
- A weighted average terminal growth in line with local country economic forecasts of 3.8%.
- A weighted average post-tax discount rate of 10.7%.

10. Critical accounting judgements and estimates (continued)

(b) COVID-19

The COVID-19 outbreak presents strategic, operational and commercial uncertainties for the Group. There remains uncertainties around the duration, scale and impact of the outbreak on the economy, mining industry and Orica. Orica continues to take various measures to mitigate the impact of COVID-19 on its operations, considering implications for employees, suppliers, partners and customers.

COVID-19 has had an adverse impact on the profitability of the Group for the period ended 31 March 2021, due to economic impacts in key regions and restrictions on the movement of people and product.

11. Individually significant items

(a) Environmental provision expense

Orica regularly reviews the facts and circumstances of each site to determine whether changes to the provisions are required based on new information which has been made available during the period. The review included an increase in the following provisions:

Botany Groundwater treatment plant

The findings from the 2018 review of costs and operational duration of the Groundwater Treatment Plant (GTP) indicated that the cessation of groundwater extraction using the GTP is possible within an 18-year timeframe. This resulted in an increase to the environmental provision which was reflected in the 2018 half year financial report.

The review considered existing remediation technologies which would augment the existing 'pump and treat' methodology, with the expectation that the operating costs of the GTP would reduce. This assumption had been included as a future cost saving within the provision calculation.

One of these remediation technologies has been piloted, however the performance of the trials to date has been limited by lower biological activity than expected. It is considered unlikely that results will improve, therefore the assumption of the future cost saving has been removed from the provision calculation. This has resulted in an increase to the environmental provision which has been reflected in the Half Year Financial Report with the expense included as a significant item.

Botany (HCB) waste

Due to capacity constraints at the incinerator in Europe, an additional shipment is required to transport the waste for destruction, resulting in an increase to the provision.

(b) Operating model restructuring

As part of the global restructuring project, further redundancy costs were recognised across the Group of \$22.2 million for the period.

(c) Gain on sale of Villawood site

During the period Orica sold a legacy site in Villawood for total consideration of \$65 million, recording a net gain of \$40.8 million. A deposit of 10% (\$6.5 million) was received on signing of the contract, with the balance to be received in the second half of the 2021 financial year. As the risks and rewards of ownership have transferred prior to the half year end, the transaction was recognised in the period.

12. Contingent liabilities

There have been no significant developments with respect to the contingent liabilities, primarily relating to environmental and taxation matters, disclosed in the Annual Report for the year ended 30 September 2020.

13. Events subsequent to balance date

Subsequent to 31 March 2021 the directors approved a plan to run a sales process for the Minova business.

On 12 May 2021, the directors declared an interim dividend of 7.5 cents per ordinary share payable on 9 July 2021. The financial effect of this dividend is not included in the financial statements for the period ended 31 March 2021 and will be recognised in the 30 September 2021 financial statements.

The directors have not become aware of any other significant matter or circumstance that has arisen since 31 March 2021, that has affected or may affect the operations of the Group, the results of those operations, or the state of affairs of the Group in subsequent years, which has not been covered in this report.

**Orica Limited and its Controlled Entities
Directors' Declaration on the Financial Report**

In accordance with a resolution of the Directors of Orica Limited, we state that:

In the Directors' opinion:

- (a) the financial statements and notes, set out on pages 3 to 19, are in accordance with the *Corporations Act 2001*, including:

Independent Auditor's Review Report

To the shareholders of Orica Limited

Report on the Half Year Financial Report

Conclusion

We have reviewed the accompanying **Half Year Financial Report** of Orica Limited.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Half Year Financial Report of Orica Limited is not in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the **Group's** financial position as at 31 March 2021 and of its performance for the half year ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Half Year Financial Report** comprises:

- Consolidated balance sheet as at 31 March 2021;
- Consolidated income statement, Consolidated statement of comprehensive income, Consolidated statement of changes in equity and Consolidated statement of cash flows for the half year ended on that date;
- Notes 1 to 13 comprising a summary of significant accounting policies and other explanatory information; and
- The Directors' Declaration.

The **Group** comprises Orica Limited (the Company) and the entities it controlled at the half year's end or from time to time during the half year.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibilities of the Directors for the Half Year Financial Report

The Directors of the Company are responsible for:

- the preparation of the Half Year Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*; and
- such internal control as the Directors determine is necessary to enable the preparation of the Half Year Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibilities for the Review of the Half Year Financial Report

Our responsibility is to express a conclusion on the Half Year Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Half Year Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group’s financial position as at 31 March 2021 and its performance for the half year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a Half Year Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
