### *Capital management*

As at 30 June 2021:

- Gearing was 27.3%<sup>4</sup> with \$858.0 million debt drawn and \$192.0 million undrawn.
- Weighted average debt maturity was 4.1 years, following the refinancing of \$100.0 million of bank debt for a four-year term during the period.
- 90% of Waypoint REIT's debt was hedged and the weighted average hedge maturity was 1.9 years.

### **Matters subsequent to the end of the financial period**

Subsequent to the end of the financial period:

- On 30 July 2021, contracts were exchanged to sell 31 non-core assets to trusts managed by Fawkner Property Ltd. for \$113.9 million, representing a 10.1% premium to December 2020 book value. Settlements are expected to occur by the end of the year;
- Capital management initiatives were proposed in conjunction with the above-mentioned asset sales, including a \$75.0 million buy-back program activated on 30 July 2021; and
- On 10 August 2021, three non-core assets were sold at auction to private purchasers for \$10.1 million, representing a 10.1% premium to June 2021 book value. Settlements are expected to occur in the fourth quarter of the year.

No other matter or circumstance has arisen since 30 June 2021 that has significantly affected, or may significantly affect:

- the operations of Waypoint REIT in future financial years;
- the results of those operations in future financial years; or
- the state of affairs of Waypoint REIT in future financial years.

### **2021 outlook**

Waypoint REIT expects rental income from existing fuel and convenience retail tenancies to grow in line with contracted annual rental increases and to not be materially impacted by ongoing COVID-19 restrictions due to our major tenants operating essential services which have remained open to date. Waypoint REIT may consider opportunities to acquire new fuel and convenience retail properties and/or reinvest in its existing portfolio, and will also consider further asset disposals where it is in the best interests of security holders to do so.

<sup>4</sup> Calculated as net debt (excluding foreign exchange and fair value hedge adjustments) / total assets minus cash. This differs from Covenant Gearing which is equal to 29.9%.

## WAYPOINT REIT

### 30 JUNE 2021 INTERIM FINANCIAL REPORT

From a capital management perspective, Waypoint REIT will finalise the structure of the proposed capital management program (if approved) in the fourth quarter and consider an Australian Medium Term Note issuance this year to further diversify and extend the tenor of its debt platform. The frequency of Waypoint REIT's distributions will also change from semi-annual to quarterly with the next distribution for the September quarter to be paid in mid-November 2021.

#### Material business risks

The material business risks that could adversely affect Waypoint REIT's financial prospects include the following:

##### *Tenant concentration risk, financial standing and sector concentration risk*

97% of Waypoint REIT's rental income is received from Viva Energy. If Viva Energy's financial standing materially deteriorates and impacts their ability to make rental payments, Waypoint REIT's financial results, financial position and ability to service and/or obtain financing may be adversely impacted. Furthermore, a material decline in the profitability of Viva Energy's business due to the global transition to a low carbon economy or other factors could affect the perceived stability of the rental income of Waypoint REIT and may affect Waypoint REIT's ability to obtain financing on acceptable terms. A material decline in the profitability of Viva Energy's business could also lead to reduced capacity or ability for Viva Energy to pay market rents when renewal options are exercised, which could result in lower rental receipts and/or a decline in the values of Waypoint REIT's investment properties if Waypoint REIT is unable to lease the property to an alternate tenant.

##### *Collection risk*

Waypoint REIT performs financial due diligence on potential new tenants and holds collateral in the form of security deposits or bank guarantees where appropriate. Rent is due in advance on the first day of each billing period (typically monthly), with arrears monitored and arrears notices issued on a regular basis (where required). Waypoint REIT applies the AASB 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade and other financial assets. The loss allowances for trade and other financial assets are based on assumptions about risk of default and expected loss rates. Waypoint REIT uses judgement in making these assumptions, based on Waypoint REIT's past history and existing market conditions as well as forward looking estimates at the end of each reporting period.

More than 99% of Waypoint REIT's income is derived from fuel tenants that have continued to operate through COVID-19 to date, providing essential services to the community. Accordingly, Waypoint REIT's performance has not been materially impacted by COVID-19.

##### *Re-leasing and vacancy risk*

Waypoint REIT's property portfolio is 99.8% occupied with only 12 leases (representing 1.1% of income) expiring before the end of 2025 and a weighted average lease expiry of 10.5 years. The majority of the portfolio is subject to multiple 10-year options in favour of the tenant, with the rent from commencement of each option period to either be agreed between the parties or set by independent market rent determination. However, there is a risk that tenants may not exercise their option, or that the commencing rent will be lower than passing rent and/or market rent (if agreed between the parties). Further, termination of Viva Energy Group's right to use Shell branding (current agreement expires in 2029) and/or its Alliance Agreement with Coles Express (current agreement expires in 2029), could also impact Viva Energy's decision whether it renews its existing leases. Resulting vacancy or reduced rental income could negatively impact distributions of Waypoint REIT and/or the value of Waypoint REIT's investment properties.

##### *Investment property value*

The value of Waypoint REIT's portfolio of investment properties may be adversely affected by a number of factors, including factors outside the control of Waypoint REIT, such as increasing uptake of vehicles fuelled by alternative fuels over traditional internal combustion engine vehicles, supply and demand for fuel and convenience retail properties, general property market conditions, the availability and cost of credit including sector-specific environmental, sustainability and governance considerations, the ability to attract and implement economically viable rental arrangements, Viva Energy's financial condition

**WAYPOINT REIT**  
**30 JUNE 2021 INTERIM FINANCIAL REPORT**

deteriorating, occupiers not extending the term of leases, and general economic factors such as the level of inflation and interest rates, which may adversely impact capitalisation rates.

As changes in valuations are recorded on the statutory statements of comprehensive income, any decreases in value will have a negative impact on the statutory statements of comprehensive income and balance sheet (including the net tangible assets per security) and in turn the market price of Waypoint REIT's securities may fall. The property portfolio is geographically diversified to mitigate the risk of localised valuation impacts and the majority of assets are located in metropolitan areas which typically have higher underlying land values and alternative use potential. Active asset management, including the disposal of non-core assets, also, in part, mitigates this risk.

*Environmental and climate risk*

Waypoint REIT depends on its tenants to perform their obligations under various environmental arrangements in relation to properties they lease. Waypoint REIT has an indemnity from Viva Energy in respect of certain liability for historical environmental contamination across 421 assets acquired at the time of Waypoint REIT's initial public offering. Waypoint REIT also carries out environmental due diligence in relation to potential property acquisitions. If any property in the portfolio is contaminated by a fuel tenant or its invitee during the term of the lease, the tenant under that lease must remediate it, at their cost to a standard consistent with operating the site as a fuel and convenience property or similar commercial use. If the tenants were to fail to meet their obligations under these arrangements (including due to their insolvency), Waypoint REIT may incur significant costs to rectify contamination on its properties and also on other properties which may be consequently impacted.

Waypoint REIT is subject to a range of regulatory regimes (including environmental regulations) that cover the specific assets of Waypoint REIT and how they are operated. These regulatory regimes are subject to ongoing review and change that may increase the cost of compliance, reporting and maintenance of Waypoint REIT's assets. There remains a risk (for example, where the regulator is unable to pursue the polluter, the polluter cannot be identified or the polluter is unable to meet its obligations) that Waypoint REIT, as owner of the properties in the portfolio, may face liability for breach of environmental laws and regulations.

Extreme weather and other climate change related events have the potential to damage Waypoint REIT's assets and disrupt the tenants' operations. Such events may increase costs for maintenance and insurance of Waypoint REIT's assets, and may affect the ability to re-lease Waypoint REIT's investment properties in the future and the rent levels for which they can be leased, thereby affecting future investment property valuations and rental cash flows. Insurance premiums and/or deductibles may change or insurance may not be able to be obtained at all.

The precise nature of these risks is uncertain as it depends on complex factors such as policy change, technology development, market forces, and the links between these factors and climatic conditions.

*AFSL compliance risk*

VER Limited, a subsidiary of Waypoint REIT Limited, holds an Australian Financial Services License (AFSL) and acts as the responsible entity for Waypoint REIT Trust. The AFSL requires, among other matters, minimum levels of net tangible assets, liquid assets, cash reserves and liquidity, which may restrict Waypoint REIT in paying distributions that would breach these requirements.

The Directors review and monitor VER Limited's balance sheet quarterly and the adequacy and ongoing training of responsible managers annually to ensure compliance with its AFSL requirements.

*Personnel risk*

Loss of key personnel could potentially have an adverse impact on the management and the financial performance of Waypoint REIT and in turn may affect the returns to security holders. To mitigate this risk, processes and procedures are standardised and automated to the extent practicable, remuneration structures include components payable on a deferred basis to reduce key personnel risk, and employees are subject to market-standard notice periods to ensure that Waypoint REIT has sufficient time in which to identify and hire replacement employees.

**WAYPOINT REIT**  
**30 JUNE 2021 INTERIM FINANCIAL REPORT**

*Cyber security risk*

Cyber-attacks are becoming increasingly sophisticated and a material data breach or data loss could have an adverse financial or reputational impact. To help mitigate this risk, Waypoint REIT uses the services of third-party technology experts, provides regular staff training and performs pre-implementation and annual reviews over key Software as a Service (**SaaS**) providers.

*Debt agreement and refinancing risk*

Waypoint REIT has outstanding debt facilities. General economic and business conditions as well as sector-specific environmental, sustainability and governance considerations that impact the debt or equity markets could impact Waypoint REIT's ability to refinance its debt facilities when required. If the covenants in these facilities are breached by Waypoint REIT this may result in Waypoint REIT being subject to increased interest rate margins and covenants restricting its ability to engage in certain types of activities or to pay distributions to security holders. Debt may not be able to be obtained at all.

If debt facilities are not available or are not available in adequate volume, Waypoint REIT may need to sell assets to repay debt. There is no guarantee that there will be willing purchasers for Waypoint REIT's assets or that purchasers will pay prices at or greater than the book value of these investment properties. To help mitigate this risk, debt maturities are staggered, debt is held across a diverse set of sources, lenders and geographies, and debt is typically refinanced at least twelve months in advance of maturity.

If a third party entity gains control of Waypoint REIT, this would constitute a review event under certain of Waypoint REIT's debt facility agreements, and (subject to specified negotiation and notification periods) a repayment of Waypoint REIT's debt facilities may be required.

The Directors regularly monitor the debt facility covenants to ensure compliance and consider the refinancing options and timing available to Waypoint REIT.

*Cash flow and fair value interest rate risk*

Waypoint REIT's cash and cash equivalents, floating rate borrowings and interest rate swaps expose it to a risk of change in future cash flows or the fair value of interest rate swaps due to changes in interest rates. Waypoint REIT uses floating-to-fixed interest rate swaps to partially hedge its exposure to changes in interest rates on variable rate borrowings. By hedging against changes in interest rates, Waypoint REIT has reduced exposure to changes in interest rates on its outward cash flows so long as the counterparties to those interest rate swaps meet their obligations to Waypoint REIT.

*Foreign exchange rate risk*

A portion of Waypoint REIT's debt is denominated in US dollars and as a result, Waypoint REIT is exposed to a risk of change in fair value or future cash flows due to changes in foreign exchange rates. Waypoint REIT economically hedges 100% of its exposure to changes in foreign exchange rates by using cross currency swaps. By hedging against changes in foreign exchange rates, Waypoint REIT eliminates its exposure to changes in foreign exchange rates on its outward cash flows so long as the counterparties to those cross currency swaps meet their obligations to Waypoint REIT.

*Liquidity risk*

Liquidity risk is the risk that Waypoint REIT may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. Waypoint REIT monitors its exposure to liquidity risk by setting budgets and projecting cash flows to help ensure there is sufficient cash on hand as required or debt facility funding is available to meet financial liabilities as they fall due.

*Title transfer risk*

On 24 September 2018, Waypoint REIT received an assessment from the Victorian State Revenue Office (**SRO**) for \$31.2 million. The assessment relates to the transfer of Victorian properties to Waypoint REIT prior to its listing in August 2016. Pursuant to the arrangements between Waypoint REIT and Viva Energy Group, any such costs will remain payable by Viva Energy Group. Viva Energy Group lodged an

**WAYPOINT REIT**  
**30 JUNE 2021 INTERIM FINANCIAL REPORT**

objection to the assessment on 2 November 2018 and assumed conduct of this matter under a conduct and indemnity deed. In May 2020, the SRO disallowed Viva Energy Group's objection. Viva Energy Group are appealing this matter and the case is listed for trial in the Victorian Supreme Court, commencing on 8 November 2021.

Confirmation from the SRO that stamp duty has been paid is a prerequisite for Land Use Victoria, the agency that manages Victoria's land titles registry, to register a transfer of land. Pending resolution of the above matter, Viva Energy Group remains listed as the registered proprietor of these properties on the Victorian land titles registry. Once this matter is resolved, the signed transfers of the titles to the properties are required to be registered to Waypoint REIT.

The transfer of the control of these properties to Waypoint REIT occurred at the time of listing in August 2016 and these properties continue to be recognised in the Consolidated Balance Sheets.

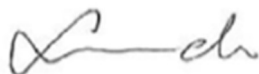

**Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 10.

**Rounding of amounts to the nearest million dollars**

Waypoint REIT is of a kind referred to in ASIC Legislative Instrument 2016/191, relating to the "rounding off" of amounts in the Directors' Report. Amounts in the Directors' Report have been rounded off in accordance with that instrument to the nearest hundred thousand dollars, or in certain cases, to the nearest dollar.

The report is made in accordance with a resolution of Directors.

**30 JUNE 2021 INTERIM FINANCIAL REPORT**

**1. PERFORMANCE AND RESULTS**

Waypoint REIT (and Trust Group) have one reportable segment in which it operates, being fuel and convenience investment property assets. The chief operating decision maker monitors the performance of Waypoint REIT and Trust Group in a manner consistent with that of the financial report. Refer to the consolidated statements of comprehensive income for the segment financial performance and the consolidated balance sheets for the assets and liabilities.

Key financial metrics used to define the results and performance of Waypoint REIT, including Distributable Earnings, distributions, earnings per stapled security and distributable earnings per stapled security are set out below.

Distributable Earnings is a non-statutory measure of profit and is calculated as statutory net profit adjusted to remove transaction costs, specific non-recurring items and non-cash items, including straight-lining of rental income, the amortisation of debt establishment fees and any fair value adjustment to investment properties and derivatives.

A reconciliation between Distributable Earnings and statutory profit is set out below:

Each investment property is subject to independent valuation at least once every three years. Independent valuations were carried out by CBRE on 80 investment properties at 30 June 2021, representing approximately one-sixth of the portfolio and a broad cross-section of both metro and regional assets.

The Directors have reviewed the independent valuation outcomes and determined they are appropriate to adopt at 30 June 2021. The key inputs into the valuation are based on market information for comparable properties and the individual lease profiles for each investment property. The independent valuers have experience in valuing similar assets and have access to market evidence to support their conclusions. Comparable sales are considered to be those in similar markets, of similar scale and condition and with similar lease terms to the subject property.

Directors' valuations have been performed on the balance of the portfolio, with reference to the capitalisation rates determined for the corresponding independently valued properties in the same state or territory and with similar lease terms, segregated between metropolitan and regional sites.

The key inputs and assumptions for valuations are below:

	30 Jun 2021	31 Dec 2020
Annual market rent per site	\$127,150 to \$1,468,656	\$78,386 to \$1,425,879
Weighted average capitalisation rate	5.37%	5.62%
Range of capitalisation rates	3.25% to 9.08%	3.35% to 9.76%
Range of lease terms	2.2 to 14.2 years	0.4 to 14.6 years

Investment properties have been classified as level 3 in the fair value hierarchy. There have been no transfers between the levels in the fair value hierarchy during the period.

All investment properties are freehold, apart from all sites in the Australian Capital Territory that are subject to perpetual leases.

**(iii) Sensitivities**

Waypoint REIT's investment properties expose it to a risk of change in the fair value due to changes in market capitalisation rates of such investment properties. Investment properties of the type owned by Waypoint REIT are generally valued on a capitalisation of income basis.

	<b>2021</b>	<b>2020</b>
	<b>\$ million</b>	<b>\$ million</b>
Sensitivity of profit and loss to movements in market capitalisation rates:		
Decreases by 25 basis points	143.5	134.8
Increases by 25 basis points	(130.7)	(123.4)

The impacts on carrying values as shown above for the noted movement in capitalisation rates would impact the statutory net profit but not impact Distributable Earnings unless an interest margin increase on borrowings is triggered by the lower investment property value causing the covenant gearing ratio to rise beyond 40%, as the unrealised movement in carrying value of investment properties is excluded from the Distributable Earnings calculation.

In relation to Waypoint REIT's drawn debt facilities at 30 June 2021, the market capitalisation rate expansion required to trigger:

- higher margin pricing is 195 bps;
- applicability of draw stop provisions is 294 bps; and
- a covenant breach is 396 bps.

Waypoint REIT's weighted average rent review of 2.9% also provides a natural buffer of approximately 16 bps per annum of potential capitalisation rate expansion before gearing would be negatively impacted, holding all other variables constant.

During the period, Waypoint REIT sold three assets and classified a further 42 assets to held for sale. As at 30 June 2021, Waypoint REIT has 43 investment properties held for sale. Contracts were exchanged in July 2021 to sell 31 of these properties with settlements expected to occur in the second half of the year. Refer to Note 4.(e) for further details.

**2. (c) COMMITMENTS AND CONTINGENCIES**

**Capital expenditure commitments**

Waypoint REIT has committed to contracts for the construction of one fuel and convenience retail property with an aggregate completion value of \$1.3 million, including committed costs of \$0.2 million for which no accrual has been made at 30 June 2021. This site is expected to reach practical completion over the next 6 months.

**Other items**

On 24 September 2018, Waypoint REIT received an assessment from the Victorian State Revenue Office (**SRO**) for \$31.2 million. The assessment relates to the transfer of Victorian properties to Waypoint REIT prior to its listing in August 2016. Pursuant to the arrangements between Waypoint REIT and Viva Energy Group, any such costs will remain payable by Viva Energy Group. Viva Energy Group lodged an objection to the assessment on 2 November 2018 and assumed conduct of this matter under a conduct and indemnity deed. In May 2020, the SRO disallowed Viva Energy Group's objection. Viva Energy Group are appealing this matter and the case is listed for trial in the Victorian Supreme Court, commencing on 8 November 2021.

Confirmation from the SRO that stamp duty has been paid is a prerequisite for Land Use Victoria, the agency that manages Victoria's land titles registry, to register a transfer of land. Pending resolution of the above matter, Viva Energy Group remains listed as the registered proprietor of these properties on the Victorian land titles registry. Once this matter is resolved, the signed transfers of the titles to the properties are required to be registered to Waypoint REIT.

The transfer of the control of these properties to Waypoint REIT occurred at the time of listing in August 2016 and these properties continue to be recognised in the Consolidated Balance Sheets.

Other than noted above, there are no material outstanding contingent assets, liabilities or commitments as at 30 June 2021.

**30 JUNE 2021 INTERIM FINANCIAL REPORT**

*Maturities, interest rates and covenants*

During the year, Waypoint REIT refinanced \$100.0 million of its debt facilities. Waypoint REIT does not have any debt maturing before June 2023 and its weighted average debt maturity is 4.1 years (31 December 2020: 4.3 years).

The interest rate applying to the drawn amount of the bank and institutional term loan facilities is set on a periodic basis (one, three or six months) at the prevailing market interest rate at the commencement of the period (Australian dollar, bank bill swap rate), plus the applicable margin. For the majority of these debt facilities, the interest margin has a rate increase/decrease applied if:

- Debt Covenant Gearing is higher than 40% - increase by 0.20%
- Debt Covenant Gearing is lower than 30% - decrease by 0.10%

The interest rate applying to the USPP notes is fixed in USD as noted above, with cross currency swaps in place for 100% of these facilities to mitigate the foreign exchange risk and convert the USD interest rate exposure to a floating AUD interest rate exposure.

Facility agreement covenants and related restrictions include:

- Interest cover ratio of not less than 2.0 times (actual at 30 June 2021: 5.5 times)
- Gearing ratio of not more than 50% (actual at 30 June 2021: 29.9%); and
- A draw down cannot be completed if Gearing is or will exceed 45% via the drawn down being completed.

Waypoint REIT was in compliance with its covenants throughout the period.

The fair values of bank and institutional term loan borrowings are not materially different from their carrying amounts due to their short-term nature.

**4. (b) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**(i) Basis of preparation**

This interim financial report has been prepared in accordance with Waypoint REIT's constitutions and scheme deed, Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

The interim financial report does not include all notes normally included in an annual financial report. Accordingly, this report should be read in conjunction with the annual report for the year ended 31 December 2020 and any public announcements made by Waypoint REIT between 1 January 2021 and the date of this report in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

Unless otherwise stated, the accounting policies adopted in the preparation of the interim financial report are consistent with those of the previous financial year.

**(ii) Rounding of amounts**

Waypoint REIT is an entity of a kind referred to in ASIC Legislative Instrument 2016/191, relating to the 'rounding off' of amounts in the interim financial report. Amounts in the interim financial report have been rounded to the nearest hundred thousand dollars in accordance with that instrument, unless otherwise indicated.

**(iii) Comparative information**

Where necessary, comparative information has been adjusted to conform to changes in presentation in the current period.

At 30 June 2021, Waypoint REIT had a net current asset surplus of \$89.5 million and the Trust Group had a net current asset surplus of \$82.9 million. facilities are then repaid when there is excess cash available. Waypoint REIT has \$192.0 million of unused debt facilities at 30 June 2021, which can be drawn upon to fund Waypoint REIT's cashflow requirements provided that Waypoint REIT meets its debt covenants and further borrowing will not cause Gearing to exceed 45%.

After taking into account all available information, the Directors have concluded that there are reasonable grounds to believe:

- Waypoint REIT and the Trust Group will be able to pay their debts as and when they fall due; and
- The basis of preparation of the interim financial report on a going concern basis is appropriate.

**(v) New accounting standards and interpretations not yet adopted**

There are no issued standards that are not yet effective and that are expected to have a material impact on Waypoint REIT in the current or future reporting periods and on foreseeable future transactions.

### *Responsibility of the directors for the interim financial report*

The directors of Waypoint REIT Limited and the directors of VER Limited, the Responsible Entity of Waypoint REIT Trust (collectively referred to as “the directors”), are responsible for the preparation of the interim financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the interim financial report that gives a true and fair view and is free from material misstatement whether due to fraud or error.

### *Auditor's responsibilities for the review of the interim financial report*

Our responsibility is to express a conclusion on the interim financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the interim financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Waypoint REIT and Waypoint REIT Trust Group’s financial position as at 30 June 2021 and of their performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
