**Notice of Founder/CEO trading program recommencement**

WiseTech Global Limited (ASX:WTC) (WiseTech or the Company) has today released an Appendix 3Y, Change of Director's Interest Notice, for WiseTech Founder and Chief Executive Officer, Mr Richard White.

Mr White advises the share sales to which the Appendix 3Y relates, have been undertaken as part of a trading program which commenced on 30 August 2021 and will continue until 31 December 2021 (Trading Period), subject to no material, non-public information arising during this period (the Trading Program).

The Trading Program is similar to that implemented in April 2021 which ceased on 30 June 2021 (Prior Trading Period).

Mr White intends to sell down a minor portion of his direct shareholding (equating to approximately 0.7% of the issued share capital of the Company, which may be varied slightly as a result of changes in WTC share price) with small daily trades throughout the Trading Period to facilitate liquidity in the Company's shares, accessible by both retail investors and institutions over the Trading Period, and enable a further small diversification of his assets.

Mr White had voting control over approximately 44% of the Company's total issued capital prior to commencement of the Trading Period. Upon expiry of the Trading Period he is expected to retain voting control of approximately 43.3% of WiseTech shares.

Directors and employees of WiseTech, in aggregate, currently hold approximately 55% of the Company's issued share capital.

The previous sale of WiseTech shares by Mr White was during the Prior Trading Period, when Mr White sold 2,363,615 shares held in his personal capacity. The shares sold by Mr White during the Prior Trading Period equated to approximately 0.7% of WiseTech's issued share capital at the time.

Mr White remains WiseTech's largest shareholder and confirms his commitment to WiseTech as its founder and CEO, and his intent to remain a substantial, long-term shareholder.

Mr White said, "WiseTech has an exciting future ahead of it and I remain as committed and as driven as ever. The vision I have for the company remains clear. To that end we are gaining momentum in our market penetration and in positioning CargoWise as the leading execution software and moving closer to our goal of being the operating system for global logistics. It is pleasing to see interest from a range of investors wanting to be part of the WiseTech growth journey, which is why enhancing liquidity in our stock in a way that benefits all investors, big and small, is important."
