Our content-first approach is helping establish us as the destination for discovery, introducing customers to products 'they didn't know they needed' as a trusted and authentic source of beauty information. Importantly, our owned marketing channels enable us to cost-effectively engage, retain and grow the lifetime value of our customers, reducing our reliance on competitive paid channels."

Strong balance sheet and capital efficient

Adore Beauty is well-positioned for future growth with a cash balance of \$25.1 million as at 31 December 2021, and no debt. In line with normal Q2 seasonal requirements and promotional activity, the Company invested in additional inventory, which also provides protection against potential supply chain disruptions. Importantly, prudent stock management has ensured inventory turnover is in line with PCP. Adore is capital efficient and has a healthy balance sheet, providing the flexibility to pursue its strategic initiatives to accelerate future growth.

Trading Update & Outlook

Adore Beauty continues to benefit from the structural shift to online, which combined with new customer growth, high levels of retention, and growing brand awareness, strongly positions the Company for future growth.

The overall positive trading momentum seen in the first half has continued into the second half (H2), with revenue growth over the first six weeks of H2 increasing 14% on PCP⁹. However, the Company notes that there is ongoing uncertainty given the current COVID situation.

Adore is executing a clear and robust growth strategy to cement its online market leadership position, and it is well positioned to capture market share in a large and growing market benefitting from structural tailwinds.

Adore reaffirms its target to achieve an EBITDA margin of 2-4% in the short to medium term while reinvesting to drive above market growth. In the longer term, as the business grows, scale benefits are expected to increase operating leverage and deliver further EBITDA margin expansion.

⁹ Revenue based on unaudited management accounts. Comparison of 1 January 2022 – 11 February 2022 against PCP.
