COVID-19

Saunders continues to navigate well through the ever-changing COVID-19 pandemic. There were certain periods in the financial year when the business was impacted due to work stoppages and additional restrictions implemented by State and Federal governments. The Group also manufactures precast concrete products for transport infrastructure projects and provides a range of specialised services for the maintenance of commercial, industrial and marine infrastructure assets. Through Saunders PlantWeave the Group are able to provide industrial automation and process controls activities.

Saunders' revenue for the half-year is \$46.40 million, a decrease of (\$6.95 million) or (13%) over (FY21-H1: \$53.35 million) and the NPAT was a profit of \$2.80 million, an improvement of \$0.09 million (FY21-H1: \$2.71 million), EBITDA for the half-year is \$5.15 million, an improvement of \$0.13 million (FY21-H1: \$5.02 million).

Earnings per share for the period is 2.69 cents (FY21-H1: 2.63 cents).

The operational teams have continued to successfully deliver projects contributing to an improvement in gross margin in the period. The positive operational project delivery coupled with the proactive culture of working capital management embedded into the Group has resulted in the strengthening of Saunders' financial position at the half year. Additionally, the Group continues to negotiate advanced payments on new contracts which contributed to an increase in our cash and cash equivalents to \$30.54 million (FY21: \$23.82 million). The Group has no interest-bearing loans, except for finance leases and insurance premium funding.

Key highlights include:

- Strong Safety performance with 3.7 million hours LTI free.
- Secured \$165 million contract with Crowley for the design and construction of fuel storage tanks and EPCM services for the construction of a US Defence Fuel Storage facility in Darwin.
- Strong operating cash flow of \$9.15 million and strengthened balance sheet.
- Acquired and successfully integrated Saunders PlantWeave.
- Increased Bank Guarantee and Surety facilities from \$20 million to \$25 million to support future growth.

OUTLOOK

Saunders work in hand as at 31 January 2021 is at record levels at \$223 million and will underpin the Group's performance for the remainder of FY22 into FY23. There continues to be an increased level of new project opportunities across Saunders' operating sectors, which are forecast to continue to grow as a result of significant public and private investment in infrastructure. The short-term opportunities for the Group remain consistent from FY21 with a continued focus on:

- Australia's Diesel Storage Program there are currently eight projects to be awarded within the grant program.
- Defence expanding on our services offering in this high growth sector.
- Continued involvement in the NSW Government's "Fixing Country Bridges" program.

Tendering activity shows the value of live tenders at \$513 million, including \$190 million of preferred contractor status projects. The pipeline (yet to be tendered) is at \$516 million.

Saunders has entered the second half of FY22 with a strong platform for growth, which will continue into FY23. Although, uncertainty remains due to COVID-19 the Group is confident that its strong order book and the forecast growth in the sectors we operate in, will lead to continuing to report strong earnings.

Saunders' revised revenue for the FY22 is expected to be between \$115-\$130 million with EBIT expected to be between 6.5% to 7.5%. As always, this revised guidance will be dependent on project delays and any further impacts of COVID-19 on our clients, employees and our supply chains.

Independent Auditor's Review Report to the Members of Saunders International Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Saunders International Limited (the "Company") and its subsidiaries (the "Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2021, and the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of cash flows and the condensed consolidated statement of changes in equity for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration as set out on pages 9-21.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001*, including:

- Giving a true and fair view of the Group's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- Complying with Accounting Standard AASB 134 Interim Financial Reporting and the *Corporations Regulations* 2001.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a *Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Half-year Financial Report* section of our report. We are independent of the Group in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants including Independence Standards (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibilities for the Half-year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The condensed consolidated interim financial report for the half-year reporting period ended 31 December 2021 is a general purpose financial report prepared in accordance with the Corporations Act 2001 and AASB 134 Interim Financial Reporting (AASB 134). Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 Interim Financial Reporting. The interim financial report does not include notes of the type normally included in an annual financial report and should be read in conjunction with the most recent annual financial report.

Basis of preparation

The interim financial statements have been prepared on the basis of historical cost. The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

All amounts are presented in Australian dollars.

Rounding off of amounts

The Group is of the kind referred to in ASIC Corporations (Rounding in Financials/Directors' Report Instrument 2016/191, dated 24 March 2016, and in accordance with the Corporations Instrument amounts in the directors' report and the half-year report are rounded off to the nearest thousand dollars, unless otherwise indicated.

2. ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS

Accounting Standard in issue but not yet effective

Certain Australian Accounting Standards and Interpretations have recently been issued or amended but are not yet effective and have not been adopted by the Group for the half-year ended 31 December 2021. There will be no material impact of these new standards or amendments to the consolidated statement of financial position and consolidated statement of profit or loss and other comprehensive income of the Group.

SIGNIFICANT CHANGES FROM THE ANNUAL FINANCIAL STATEMENTS

Government Grants

During the half-year, the Group became eligible for certain government support in response to the coronavirus pandemic, as explained in Note 9. The Group's accounting policy for government grants is explained below.

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, wage subsidies received under the JobSaver/JobKeeper schemes are presented as other income in profit or loss. Government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets (including property, plant and equipment) are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

SIGNIFICANT CHANGES FROM THE ANNUAL FINANCIAL STATEMENTS (CONT)

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

18. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets, is determined with reference to quoted market prices. The fair value of other financial assets and liabilities is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable market transactions. The fair value of derivative instruments is calculated using quoted prices. Where such prices are not available, use is made of discounted cash flow analysis using the applicable yield curve for the duration of the instruments for non-optional derivatives and option pricing models. The directors consider that the carrying amount of financial assets and financial liabilities recorded at amortised costs in the financial statements approximate their fair value.
