1. BASIS OF PREPARATION OF HALF-YEAR REPORT

This condensed consolidated interim financial report for the half-year reporting period ended 31 December 2021 has been prepared in accordance with Accounting Standard *AASB 134 Interim Financial Reporting* and the *Corporations Act 2001*.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2021 and any public announcements made by Adacel Technologies Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

(a) Accounting Estimates

The Group makes estimates and assumptions concerning the future in computing and preparing its financial reports. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events. The estimates and assumptions adopted for this financial period are consistent with those of the previous financial year.

(b) Accounting policies

These financial statements have been prepared on the basis of accounting policies consistent with those applied in the 30 June 2021 Annual Report, except for the adoption of new and amended standards as set out below:

a) New and amended standards adopted by the Group

A number of new or amended standards became applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards.

b) Change in presentation currency

The Group has elected to change its presentation currency from Australian dollars ("AUD") to United States dollars ("USD" or "U.S. dollars") effective 1 July 2021. Management is of the view that financial reporting in USD provides a more relevant presentation of the Group's financial position in comparison to its peers. The change in presentation currency is a voluntary change which is accounted for retrospectively. For comparative purposes, the historical consolidated financial statements have been recast to U.S. dollars using the procedures outlined below:

- Consolidated Statements of Comprehensive Income and Cash Flows have been translated into U.S. dollars using the monthly average foreign currency rates prevailing for the relevant periods.
- Assets and liabilities in the Consolidated Statement of Financial Position have been translated into U.S. dollars at the closing foreign currency rates on the relevant balance sheet dates.
- Equity in the Consolidated Statement of Financial Position and Consolidated Statement of Changes in Equity, including contributed equity, accumulated losses and reserves, have been translated into U.S. dollars using historical rates.
- Consolidated earnings per share and dividend disclosures have also been translated to U.S. dollars to reflect the change in presentation currency.

The Group has also presented an opening consolidated statement of financial position as at 1 July 2020 which has been derived from the consolidated financial statements as at and for the year ended 30 June 2020. The Group's consolidated financial statements are now presented in U.S. dollars. All information in these consolidated financial statements is presented in USD unless otherwise specified.

2. SEGMENT INFORMATION

Description of segments

Management has determined the operating segments based on the reports that are used to make strategic decisions. These reports are prepared by the CEO and reviewed by the Board monthly. The Group is organised on a global basis into these following segments:

Systems – Includes all sales of complex systems and products covering operational control as well as simulation and training. This segment also includes all hardware and software upgrade sales.

Services – Includes all recurring revenue, including all aspects of support, field services and on-site technical services.

Segment margins result after the allocation of all direct project expenses, (labour, materials and other direct costs), as well as an allocation of costs from direct function areas such as engineering, testing and project management. Further costs from the indirect functions areas of HR, IT and Facilities are also allocated based upon direct labour heads.

The Small Business Administration (“SBA”) will forgive the proceeds received if eligibility and other criteria are met related to use of the funds, at which time the Group will recognize the forgiven amount as income. 6. FINANCING ARRANGEMENTS

Adacel signed a facility agreement with the Royal Bank of Canada on 31 January 2020. The Bank has provided the Group a facility to address all of its requirements. The facility is governed by pre-agreed covenants with the bank and is repayable on demand. The facility comprises -

- A combined Overdraft and Guarantee facility of up to CAD \$4,000,000. The guarantees are limited to CAD \$2,000,000.
- A Visa credit Card facility to the value of CAD \$175,000.

The facility is secured by a deed of movable hypothec (mortgage) over the assets and undertakings of Adacel Inc (Canadian operating entity), with guarantees and subordination agreements from Adacel Systems Inc, Adacel Technologies Inc and Adacel Technologies Holding Inc.

The Group also has American Express facilities. Adacel Inc has an approved limit of CAD\$100,000 and Adacel Systems Inc has an approved limit of \$175,000.

The directors have reviewed the size and terms of the facility and its continued availability. The directors are satisfied that the operating plans and budgets for the period of 12 months from the date of signing this financial report will provide sufficient cash flows, that together with the facility, will be adequate for the Group's requirements.

9. CONTINGENCIES

Guarantees of \$1,077,413 (2020: \$730,981) have been given to banks and customers in relation to contract warranty and performance.

As at 31 December 2021, the Group has a dispute ongoing with a supplier over an amount of approximately A\$500,000. Management and the directors believe that the supplier's request is not founded and intend to defend the Group's position. The financial report recognises management's and the directors' best estimates of the resolution of such items. However, there is uncertainty as to the final amounts payable, if any.

Other than above, there are no other known contingent liabilities.

10. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

During the half year ended 31 December 2021, the Group entered into foreign currency forward contracts mainly to hedge the variability in the expected foreign currency exchange rate of the Canadian dollar against the US dollar.

(a) Fair value hierarchy

AASB 7 Financial Instruments: Disclosures requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- a. quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- b. inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2), and
- c. inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following table presents the Group's financial liabilities measured and recognised at fair value at 31 December 2021:

	31 December	30 June
	2021	2021
	\$'000	\$'000
Financial liabilities	Level 2	Level 2
Foreign exchange forwards	45	-

(b) Valuation techniques used to determine fair values

The foreign currency forwards have been measured by using the present value of future cash flows based on the forward exchange rates at the balance sheet date. These have been classified with Trade and other payables.

11. SHARE-BASED PAYMENTS

(a) Executive Share Option and Performance Rights Plan
