Preliminary Annual Report - 31 December 2021

Range International Limited Preliminary annual report 31 December 2021

The preliminary annual report covers Range International Limited as a consolidated entity consisting of Range International Limited (the Company) and its subsidiaries (the Group) it controlled at the end of, or during, the year. The financial statements are presented in US dollars, which is the Company's presentation currency. The Company's functional currency is Australian dollars.

Review and results of operations

Range International Limited (Range or the Company) posted a 28.7% increase in group revenue to \$1,820k for the 12 months ended 31 December 2021 (FY2020: \$1,422k).

During the year, the Group incurred an operating loss after tax of \$3.1 million (FY2020: \$3 million), net operating cash outflows of \$2.8 million (FY2020: \$1.6 million), net investing cash outflows of \$0.2 million (FY2020: \$0.04 million) and financing cash inflows of \$3.7 million (FY2020: \$1.6 million).

As at 31 December 2021 the Group has cash and cash equivalents of \$1.2 million (Dec 2020: \$0.49 million).

Board changes and COVID-19 impact

Stephen Bowhill tendered his resignation as Chief Executive Officer on 12 May 2021. Stephen served his 6-month notice period and his resignation as Chief Executive Officer and transition to Non-Executive Director took effect on 12 November 2021. As of 12 May 2021, Marcus Goldstein, was appointed as President Director of Indonesian Operations. In that role, he assumed most of the responsibilities that were previously undertaken by Stephen Bowhill.

During the year there were continued supply issues due to COVID-19 which had affected revenue, however, market conditions in Indonesia are improving with confidence returning to the economy after the lockdowns of Q3 2021. Most companies are still enforcing work from home conditions, with plans to return to office in 2022.

Capital Raising

On 25 August 2021 the Company announced a fully underwritten A\$3.6m non-renounceable entitlement offer. Shareholders were invited to participate in the offer on the basis of 1 new fully paid ordinary share in the Company at an issue price of A\$0.008 per New Share for every 1 existing share held.

On 17 September 2021 the Company successfully completed the fully underwritten non-renounceable entitlement offer which raised A\$3.6m (before costs). Completion of the capital raise, which was strongly supported by existing shareholders and Directors of the Company, has allowed the Company to progress its strategy towards both EBIT and cash flow positive in 2022.

Australian Manufacturing Operation

On 3 August 2021 the Company's wholly owned subsidiary, Re>Pal Australia (Re>Pal), signed a proposal to lease in Cairns, Queensland to establish an Australian manufacturing operation initially focused on a plastic fencing product made solely from Australian-sourced recycled plastic. The Company purchased equipment formerly owned by ReGen Plastics Pty Ltd, which was forced to cease operations when its parent entity went into liquidation. At that time, ReGen was operating successfully and was delivering finished product to its flagship client Botanica Property Group (Botanica). Botanica is developing an Over 50's resort in the northern suburbs of Cairns and is likely to be completed within 5 years. The Company has signed a conditional product supply agreement with Botanica for the purchase of plastic planks over the project's development period of 5 years.

To assist with the acceleration of the Company's Australian manufacturing operations in Queensland, the Company's Executive Chairman, Richard Jenkins, agreed to provide a convertible loan facility on commercial terms. The loan is only convertible with receipt of Shareholder approval at the 2022 Annual General Meeting. The loan facility is for a total of A\$400,000 and will earn interest at 10%, which is payable in arrears or at conversion.

On 14 October 2021 the Company announced that Re>Pal commenced manufacturing of commercial quantities of saleable recycled plastic products. Initially the focus will be on producing plastic planks used for fencing, garden beds and retaining walls as part of our 5-year product supply agreement with Botanic Property Group. So far we have made 2 deliveries to Botanica Lifestyle Resorts.

Re>Pal is also in the process of applying for both an R&D tax rebate and a non-binding joint Federal/State funding grant to facilitate an expansion of its existing plant.
