OPERATING AND FINANCIAL REVIEW

Overview

Equatorial is an ASX-listed company focused on advancing its existing mineral resource assets in Africa as well as searching for new opportunities in the resources sector which have the potential to build shareholder wealth.

Equatorial is seeking compensation from the Republic of Congo ("RoC") government in relation to the purported award to a third party of an exploitation licence ("Mining Licence") for the Company's potentially large-scale Badondo Iron Project ("Badondo") in the RoC.

Equatorial has commenced international arbitration against the Republic of the Congo ("RoC") seeking financial compensation for unlawful measures taken by the RoC Government against the Group's investments in two iron ore projects: the Badondo Iron Ore Project and the Mayoko-Moussondji Iron Ore Project.

Equatorial continues to assert the Company is the only party with a legitimate and appropriate entitlement to a valid Mining Licence for Badondo. The arbitral tribunal is in the process of being constituted at the International Centre for Settlement of Investment Disputes in Washington, DC.

Equatorial remains in a strong financial position with significant cash reserves available to progress exploration and development activities as well as pursue the dispute resolution process and pursue additional business opportunities in the resources sector. At 31 December 2021, the Company had A\$19.3 million in cash, with 125.9 million shares on issue.

Badondo and Mayoko-Moussondji Iron Projects – International Arbitration

The Badondo Iron Project ("Badondo") is a potentially large-scale iron project in the northwest of the RoC, situated within a cluster of world-class iron ore exploration projects. Equatorial invested in exploration and project development feasibility assessment at Badondo commencing in 2010 and, following significant exploration success, applied for a Mining Licence in 2016 under the framework of the relevant Mining Code and in compliance with local laws.

The Mayoko-Moussondji Iron Project ("Mayoko-Moussondji") is located in the southwest region of the RoC and has access to an existing railway line running to the deep-water port of Pointe-Noire. Equatorial invested in exploration and development of Mayoko-Moussondji from 2010 and was granted a 25-year Mining Licence in 2014. Equatorial sold Mayoko-Moussondji in 2015 and retained a 2% royalty on all future production from the project.

Equatorial's investments in Badondo and Mayoko-Moussondji ("the Projects") have been expropriated and subjected to other unlawful measures by the RoC government as part of a wider campaign to dispossess foreign mining companies of their iron ore interests in RoC. Various mining assets in the RoC, including Badondo, have been granted to a Chinese-linked company named Sangha Mining Development SASU with no apparent due process or legal validity.

During the half year, Equatorial, through its subsidiary, EEPL Holdings ("EEPL"), referred its investment dispute with the RoC to arbitration at the International Centre for Settlement of Investment Disputes ("ICSID") in Washington, DC. EEPL is referring its investment dispute with the RoC to arbitration at ICSID in accordance with Article 7 of the Agreement between the Government of RoC and the Government of the Republic of Mauritius for the Promotion and Reciprocal Protection of Investments ("Congo-Mauritius BIT"), under which EEPL's investments in RoC are protected by virtue of EEPL being a Mauritian company. The RoC Government's measures against EEPL's investments in the Projects violate multiple provisions of the Congo-Mauritius BIT, including (among others) the prohibition against unlawful expropriation and the fair and equitable treatment standard.

Under the ICSID rules, EEPL is entitled to appoint one member of the three-member arbitral tribunal. Exercising this right, EEPL has appointed a prominent United States arbitrator who has significant experience in cases of this nature. The other members of the arbitral tribunal remain to be appointed. Once the arbitral tribunal is fully constituted, it will convene a case management conference, at which the procedural calendar for the arbitration will be fixed in consultation with the parties. In accordance with this procedural calendar, EEPL will then present its full case against RoC in the form of a written Statement of Claim supported by evidence.

OPERATING AND FINANCIAL REVIEW (continued)

Potential for Compensation from RoC Government

Through EEPL, Equatorial is seeking compensation from RoC Government for the treaty violations described above. Equatorial is seeking full compensation for expropriation and damages for any and all breaches of the Treaty by the RoC government, plus costs.

The ICSID arbitration is expected to take up to four years to be completed. EEPL has engaged a specialist team at multinational law firm Clifford Chance to represent it in these proceedings.

Equatorial remains open to a negotiated outcome with the RoC Government in relation to Badondo and Mayoko-Moussondji and will continue to seek the opportunity to discuss potential compensation for the RoC Government's actions and breaches of the Congo-Mauritius BIT.

New Project Opportunities

Equatorial continues to search for, and review, new opportunities in the resources sector which have the potential to build shareholder value. Due diligence activities on multiple potential opportunities were conducted during the quarter.

New business opportunities may take the form of direct project acquisitions, joint ventures, farm-ins, acquisition of tenements/permits, or direct equity participation.

The Company's success in its acquisition activities depends on its ability to identify suitable projects, acquire them on acceptable terms, and integrate the projects successfully. There is no guarantee that the identification and due diligence of potential new business opportunities will result in any transaction or that any future transaction will be completed or will be successful.

Corporate

Equatorial remains in a strong financial position with A\$19.3 million in cash as at 31 December 2021. The Company has 125,945,353 shares on issue and is in a strong financial position to progress its current activities as well as pursue additional business opportunities in the resources sector.

Operating Results

The net loss of the Consolidated Entity for the half year ended 31 December 2021 was \$16,139,425 (31 December 2020: \$5,040,736). The major item contributing to this result was a non-cash reduction in fair value of financial assets of A\$15,256,667 (31 December 2020: nil) associated with the Group's investment in Salt Lake Potash Limited.

Financial Position

At 31 December 2021, the Company had cash reserves of \$19,292,671 (30 June 2021: \$19,964,881) and no debt, placing the Company in a strong financial position to conduct its current activities and to pursue new business development opportunities. At 31 December 2021, the Company had net assets of \$19,187,462 (30 June 2021: \$35,088,362).

Independent auditor's review report to the members of Equatorial Resources Limited

Conclusion

We have reviewed the accompanying half-year financial report of Equatorial Resources (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 31 December 2021, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a statement of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at [period date] and of its consolidated financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' responsibilities for the half-year financial report

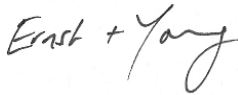

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

For personal use only

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
